GENERAL INDEX

## INTRODUCTION

## 1. General Description of the State's Financial System

Moneys collected and spent by the New South Wales Government "Inner Budget Sector" are dealt with through the State's two major accounts - the Consolidated Fund and the Special Deposits Account. (The Inner Budget Sector covers non-commercial, budget financed "core" government activities - schools, health and police services as well as regulatory and policy functions.)

Inner Budget Sector revenues, apart from those which are credited to specific sub-accounts within Special Deposits Account, are paid into the Consolidated Fund. The Consolidated Fund covers revenue and payments of both a recurrent and capital nature.

Expenditure from the Consolidated Fund can only be made under the authority of Parliament. In general, this authority is given through the passing of the annual Appropriation Act.

The Appropriation Bill is introduced by the Treasurer and the Budget Speech is, in effect, the "second reading" speech of that Bill. The Bill (printed as Budget Paper No. 6) is supported by the more detailed "Consolidated Fund Estimates" (i.e. this Budget Paper).

The estimates of payments are grouped together under the department or authority responsible for administering particular programs and these organisations are grouped under ministerial headings. All estimates are presented in program budget format.

The Special Deposits Account contains working and other funds held for departments and authorities and funds in the nature of trust funds. A detailed explanation of each sub-account within the Special Deposits Account is provided in the Treasurer's Public Accounts every third year, with the intervening years listing new accounts opened and existing accounts closed.

## 2. Program Budgeting System in New South Wales

### 2.1 Background

Program budgeting was fully implemented in New South Wales in 1986-87 when all allocations from the Consolidated Fund (as shown in the Budget Estimates) were appropriated on a program basis. An outline of the background to and stages of implementation of program budgeting is contained in the introductory section of previous years' Budget Estimates, beginning with 1984-85.

New South Wales has adopted a form of program budgeting which provides the information required for review of Budget priorities without sacrificing control of expenditure. The program structures that have been adopted are compatible with organisational boundaries.

Substantial information is contained in published departmental Annual Reports and the "NSW Government Directory" concerning organisational structures, functions, senior officers and office locations, and information of this nature, which is sometimes contained in program budget documents in other jurisdictions, has not been duplicated.

### 2.2 Program Hierarchles

In the program structure, the various functions of an organisation are classified according to their major purposes and then subdivided into various components.

Two hierarchies have been developed for New South Wales. The first hierarchy is goal orientated and is based on policy areas divided into policy sectors, which in turn are divided into programs. The policy areas and policy sectors broadly correspond to the Australian Bureau of Statistics dissections of government expenditures which themselves are related to international classifications.

To deal with the problem of expenditure authorisation, a second hierarchy has been developed which is related to Ministerial responsibility for Parliamentary appropriations. Terminology used for the levels in each hierarchy is as follows:-

1st Hierarchy (goal orientated classification)

Level I Policy area:-

Level II Policy sector:-

Level III Program:-

Level IV Activity:-

A broad aggregation of policy sectors representing the main areas of Government endeavour.

A grouping of related programs representing a particular direction of Government within a main area of Government endeavour.

The principal building block where objectives are set to be achieved through a series of activities.

A group of tasks which contributes towards the achievement of the objectives of a program.

2nd Hierarchy (organisational classification)

Level I Ministerial Heading:-

The highest level at which funds are appropriated and includes administrative units and declared authorities within the Ministerial portfolio and within the budget sector.

Level II Organisational Unit:-

Level III Program area:-

| Level IV | Program |  |
| :--- | :--- | :--- |
| Level | V | Activity |

Consists of an administrative unit or a declared authority in terms of the Public Sector Management Act and the Legislature; the head of each organisational unit is responsible for the control of funds and the exercise of economy in expenditure.

A grouping of programs with related goals.

As under the lst hierarchy above.

The following chart provides a diagrammatic presentation of these two hierarchies.

## OBJECTIVES (GOAL ORIENTED) <br> CLASSIFICATION

## organisational classircation

[^0]
### 2.3 Total Payments by Policy Area and Policy Sector

As outlined above, New South Wales has two program hierarchies. Details of total payments on a program basis for the first hierarchy (goal oriented) are shown in Section 3.3 of Budget Paper No. 2 "Budget Information".

At the foot of each program statement in these estimates a reference is given to the policy area and policy sector in which the program is included.

## 3. Amendments to Estimates Presentation

### 3.1 Public Service-Wide Payments and Services

Adoption of the principle of user pays has resulted in the disaggregation of a number of group vote expenditures from 1 July 1988. In essence provision is now made for the expenditures to be met by the user departments rather than a central services or control agency.

This decision provides a financial incentive for managers to achieve economies and to examine whether the resources available to them are being allocated in the most effective manner. It will also provide an added incentive to the suppliers of services to maximise their efficiency in order to compete with alternative suppliers. Finally, it will provide more accurate information on the cost of individual programs.

In the first stage implemented in 1988-89, a number of servicewide payments were allocated to individual Departments, including payroll tax and employer's contributions for the Police and Parliamentary Superannuation Schemes and the Judges Pension Scheme (previously met by the Treasury), and cleaning, technical services, and Public Service Notices (previously met by the former Department of Administrative Services, now the Commercial Services Group).

The 1989-90 Budget reflected the second stage of the implementation of the allocation to departments of service-wide payments and services, with all departments being directly billed for interpretation and translation services provided by the Ethnic Affairs Commission, Government Courier Service, document reproduction centres, multi occupancy rental properties, superannuation contributions to the State Superannuation Fund and various miscellaneous services.

This Budget implements a further stage in the process with office fitout and relocation costs being allocated to departments and at the same time being more appropriately classified as capital expenditure. Public building maintenance has principally become a departmental responsibility with the disaggregation of the former Public Works department group vote. In addition, Water Board rate payments have commenced to be levied on departmental properties, replacing former inappropriate charging arrangements. This will ensure that the amount paid better reflects the use of Water Board services.

## 3. 2 Inclusion of Addutional Organieations

Following a review of the activities of State organisations as part of the work of the Task Force on Classification of State Organisations, it was decided that a number of organisations should properly be classified as part of the Inner Budget Sector.

In 1990-91 the Coal Compensation Board has been included for the first time. Previously, payments by this body were shown under the total recurrent expenditures of the Department of Minerals and Energy. In moving this body on-budget and appropriating its expenditure from the Consolidated Fund, payments made for the repurchase of coal rights have been shown as a capital expense.

Additionally the NSW Fire Brigades (formerly the Board of Fire Commissioners) has been taken fully on-budget, with the levies made for fire protection services being treated as a Consolidated Fund receipt and all expenditures except those offset from user charges activities, being treated as Consolidated Fund expenditure.

In 1989-90 the former Department of Administrative Services was restructured into two new bodies to better reflect the nature of the activities being undertaken. Property management and development activities are now undertaken by the property Services Group, while the Commercial Services Group comprises those bodies which supply goods and services to other government agencies. The activities of the Commercial Services Group remaining on-budget comprise government information services, centralised supply services and contracts, the newly created Telecommunications Unit and administrative and support functions. These public policy activities are included in the commercial Services Group and funded from the Budget. Activities which have been taken off budget and now charge departments for services provided, are detailed in Chapter 9 of Budget Paper No. 2.

In addition a new organisation, the State Rescue and Emergency Services Board was created to control and co-ordinate rescue agencies and formulate plans for rescue services.

### 3.3 Speciel Appropriations

Apart from the annual Appropriation Act, certain other Acts contain provisions appropriating money out of the Consolidated Fund.

Section 31 of the Appropriation Bill 1990 provides, inter alia, that these special appropriations will only take effect where funding from other sources (i.e. working accounts or annual appropriations) is insufficient to meet the particular liabilities involved. Effectively, unless such a situation arises, there will be no special appropriations in 1990-91.

### 3.4 Accruad Budgeting

As part of the move to better reflect the amount of resources consumed by Departments, all organisations will be moving to accrual accounting over a period of five years with the possibility that this may be reduced to three years. In 1990-91, four organisations have been included on an accrual basis:

Rural Assistance Authority;
Soil Conservation Service;
Department of Corrective Services; and
NSW Fire Brigades.
Expenditures on an accrual basis are reflected in total payments whilst Consolidated Fund payments are shown on a cash basis. This is a transitional arrangement and will altered in the 199192 Budget. Budget Paper No. 2 provides additional details on the rationale and further implementation of accrual accounting and budgeting (refer to section 10.3).

## 4. Budgetary Controls

### 4.1 Forward Esümates

In August 1989, for the first time, forward estimates of Consolidated Fund recurrent expenditures were released, covering the period 1989-90 to 1991-92. With certain minor adjustments the 1990-91 estimates became the 1990-91 Budget allocations. Section 4.3 of Budget Paper No. 2 details the forward estimates for 1990-91 to 1992-93. The forward estimates enable an ongoing assessment of Government expenditure commitments relative to the Medium Term Financial Strategy and at the same time provide a financial framework within which organisations can develop broad financial plans.

The forward estimates will be adjusted on a regular basis to reflect additional initiatives approved by Government. In November of each year the forward estimates, revised to reflect post Budget changes and with the addition of one year will be advised to departments. The estimates are subject to review by departments.

### 4.2 Global Budgeting

In accord with the Government's policy of adopting a more global approach to budgeting, Ministers have been provided with greater flexibility in moving funds between programs and line items.

Under Section 29 of the Appropriation Act, the Treasurer may authorise the transfer of amounts of money from the Budget appropriation for one item of expenditure to another or alternatively delegate this authority. This authority has been delegated to individual Ministers subject to certain restrictions.

Ministers can transfer funds across Programs within each expenditure category (such as Employee Related Payments, Maintenance and Working Expenses, etc.) and between line items within the same expenditure category.

In addition Ministers can move funds between Employee Related Payments and Maintenance and Working Expenses categories (but not between the Grants and Subsidies and Other Services categories).

Such delegations are subject to organisational units not exceeding the Average Staff Number and Year End Staff Ceiling. Transfers are not to occur where the resulting changes are inconsistent with any relevant Government policy or they create unsustainable future commitments.

### 4.3 Funding Tranafers

Ministers are able to seek approval of the Treasurer for the transfer forward of savings from the current year to the following year or the transfer backward from future years' allocation to the current year to cover a funding shortfall.

The transfer forward facility provides an incentive for departments which underspend their allocation in the current year to utilise such monies in the following year on adequately planned, once up items.

The transfer backward facility is directed at assisting departments to overcome problems associated with temporary funding shortfalls.

In both cases the amount that can be transferred is limited to a maximum of 2 per cent of the department's allocation and approval is on a case by case basis.

### 4.4 Staff Number Controls

As part of the budgetary process, an Average Staff Number and Year End Staff Ceiling are set for each Inner Budget Sector entity.

The setting of these staff controls is an integral part of the budget process. The Average Staff Number is the average staffing level for the year as shown in the Budget Estimates while the year end staff ceiling is the maximum staff number for the following 30 June, including casual staff and temporary assistance. Both staff numbers are calculated on the basis of full time effective equivalent staff numbers. For example, a temporary or casual employee working for half the normal working week would be shown as 0.5 staff unit.

The prime staffing control is the Year End Staff Ceiling in that it provides a brake on departments building up staff towards the end of the year and hence carrying forward substantial commitments into the following year.

### 4.5 Reporting Requiremente

Inner Budget Sector departments report on a monthly basis on revenue, expenditure and staffing. The reports indicate expenditure and revenue for year to date and the estimates for the full year. Where there is likely to be a variation from the Budget estimate, departments are required to advise Treasury immediately, identify reasons for the variation and indicate what remedial action will be undertaken.

## 5. Explanation of Statements

### 5.1 Summary Tabtes (pages 13 to 23)

The summary tables provide details of Consolidated Fund revenue and payments. The table on page 13 summarises the main sources of budget funds and the allocation of those funds for recurrent services and for capital works and services. The result for the year increases or decreases the balance on the Consolidated Fund.

The summary tables on pages 14 to 23 list the main revenue headings for the Consolidated Fund as well as payments from the Fund under Ministers.

Details of Consolidated Fund revenues which formerly appeared in Budget Paper No. 3 now appear in section 4.2 of Budget Paper No. 2, whilst further information about the nature of Commonwealth assistance is set out in Budget Paper No. 4.

### 5.2 Estimates of Payments by Program (pages 27 to 502)

payments estimates are shown in the following format:

- Organisational Unit Summary
- Program Area Summary
- Program Statements

These statements have been prepared for the Legislature and each Ministerial grouping of organisational units.

The first two statements contain details of costs met from the Consolidated Fund only. The information is a summarised version of the details included in the program statements under the three columns headed "Consolidated Fund".

The program statements also contain details of total payments which are for information only - the only amounts subject to Parliamentary appropriation are the payments from the Consolidated Fund.

Each of the statements is now considered separately.
Organisational Unit Summary: Payments are classified by type of appropriation under organisational units which are generally administrative units or declared authorities.

The appropriation dissection under Ministerial headings in the statement "Consolidated Fund - Receipts and Payments" is derived from this statement's totals.

The organisational unit summary also contains a table with details of the average number of staff employed by each organisation (expressed on an equivalent full-time or EFT basis).

Program Area Summary: In this statement net program payments for an Organisation are assembled under program areas.

Program Statements: Each program within an organisational unit is the subject of a separate program statement.

The statement includes narrative material - program objective and program description - as well as staffing on an activity basis and summarised financial information.

The program title is relatively concise, the intention being that it convey sufficient information to enable an interested reader to grasp in general terms what Government functions or responsibilities are subsumed under the program.

Program objectives are statements of the broad aims of the program and indicate why the State is involved in the area.

The program description explains the activities which are grouped together within the program. The program description differs from the program objectives in that it indicates how the program is undertaken, rather than why.

Under each program, activities are listed. The activities have concise titles which follow logically from the program description. The full range of activities within the program is covered although relatively minor activities may not be discretely specified.

For each activity, or in some cases group of activities, the staff level is noted. These staff figures represent an estimate of annual average staffing, including temporary and short term "casual staffing", expressed on an equivalent full-time (EFT) basis. They are a guide to the average number of staff (EFT) who might be employed during the year on a particular program based on the funds allocated to the program as a whole, not only to that component funded from the Consolidated Fund. The figures include staff charged both to recurrent services and to capital works and services. With the exception of public hospitals, where program costs consist of contributions to other bodies (e.g. transport authorities), staff figures for these bodies are not included.

Resources allocated to the program are expressed in the tables under the heading "Summary of Payments". Payments from all sources are shown under the columns headed "Total Payments" and those expenses charged against the Consolidated Fund are identified under the "Consolidated Fund" heading. For those bodies adopting accrual budgeting, total payments includes, where appropriate, accrued expenses, depreciation, etc.

Amounts received by Consolidated Fund departments and authorities from fees charged for services rendered or from sales of books, materials, etc. are generally treated as revenue of the Consolidated Fund and not offset against payments. This treatment is likely to be altered from 1991-92 when, with the introduction of net appropriation budgeting, departments will be entitled to retain user charges revenue.

Commonwealth funding and revenue generated by activities within Programs are shown, where appropriate, under the heading Program receipts paid into the Consolidated Fund.

Note: As from 1 July 1990, a number of changes have been implemented which would affect the comparability of data between years. These changes include office fitout costs, computer acquisition, maintenance of Public Buildings and Water Board rates.

In order to allow comparison, the figures shown as "Actual" for 1989-90 have been adjusted to place them on a consistent basis with the 1990-91 appropriations. The 1989-90 appropriations have not been so adjusted. The Public Accounts contain 1989-90 actual expenditures on a basis consistent with the appropriation for that year.

(a) Net effect on 1989-90 Budget result of adjusting for organisations/activities taken off-Budget from 1990-91.

## ATTORNEY GENERAL

## 18 LEGAI RID COMMISSION

### 14.1 Legal Aid and Other Legal Services

### 14.1.1 Legal Aid and Other Legal Services for Eligible Persons in Child Care and Protection Matters

Program Objective(s): To provide legal advice to and representation for children and/or parents in matters arising under the Children (Care and Protection) Act 1987.

Provision of legal advice to and representation of children and/or parents, guardians and people with a special interest by Commission or private legal practitioners before the Children's Court or on appeal therefrom to higher courts. Representation for children in the Children's Court is not subject to a means or merit test but a means test is applied to parents, guardians and people with a special interest. A means and merits test is applied to persons other than children in appeals and applications to Higher Courts and to persons other than children in proceedings concerning the irretrievable break down between parent and child.

## MINISTER FOR THE ENVIRONMENT

## 21 NATIONAL PARKS AND WILDLIFE SERVICE

### 21.1 Conservation of Natural and Cultural Resources

### 21.1.1 Natural and Cultural Resource Management

Program Objective(s): To preserve, preferably in free-living and self-perpetuating populations, all species of plants and animals native to the State. To conserve examples of a complete range of natural environments and outstanding or unusual natural phenomena. To conserve and/or manage a representative sample of sites, structures or places of significance to Aboriginals, of national historical significance or research value.

Program Description: Conservation, protection, restoration and other related resources management activities conducted at the field level. Promotion of the study, understanding and appreciation of wildlife, natural environments, Aboriginal culture and Australia's heritage generally. Encouragement and management of appropriate use and enjoyment of national parks. Preservation of the State's natural and cultural resources.

### 23.4 Home Care Service of New South Wales <br> 23.4.1 Home Care Service of New South Wales

#### Abstract

Program Objective(s): To promote the independence of and prevent the premature or inappropriate longterm residential care of elderly people and people with disabilities. To provide assistance to other target groups in temporary illness and other situations warranting such assistance.

Program Description: The provision of practical support services including housekeeping assistance, personal care, respite care, handyperson services, food services and neighbour aid services. The co-ordination of the planning and development of a comprehensive range of support services for elderly people, people with disabilities and their carers.

Activities:
Average Staffing

## 33 DEPARTMENT OF LOCAL GOVERNMENT

### 33.1 Development, Oversight of and Assistance to Local Government <br> 33.1.1 Development, Oversight of and Assistance to Local Government

#### Abstract

Program Objective(s): To promote an effective, efficient, responsive and accountable system of local government in New South Wales, advise the Minister, implement government policy and to administer the legislation assigned to the local government portfolio.

Program Description: Development of policy options, updating the structure and system of local government and provision of assistance and advice to councils and the public about local government administration. Distribution of moneys, received from the Commonwealth under tax-sharing arrangements, to councils as well as oversight of council borrowings. Intervention in or control of certain activities of councils and individuals by means of approvals, proclamations, inquiries, licences, and certifications. Provision of administrative support services to the Department.

The New South Wales Fire Brigades replaced the former outer Budget organisation, Board of Fire Commissioners, and was established as an inner Budget organisation as from 1 January 1990. The 1989-90 actual has been adjusted to show the equivalent to a full year's operations as an inner Budget organisation.

## MINISTER FOR POLICE AND EMERGENCY SERVICES

## 40 NEW SOUTH WRLES FIRE BRIGRDES

40.1 Prevention and Suppression of Fire and Provision of Other Emergency and Rescue

## Services

### 40.1.1 Operation and Maintenance of Brigades and Special Services

Program Objective(s): To prevent and extinguish fire, to protect and save life and property in case of fire and release of hazardous materials, and to carry out rescues where there may be no immediate danger from fire.

Program Description:
The provision of permanent and volunteer Fire Brigades within the metropolitan areas and country towns. The provision and maintenance of suitable premises, communication networks and firefighting engines and equipment to enable prompt response to fire incidents.

Activities:

|  | Average Staffing |  |
| :--- | ---: | ---: |
|  | $1989-90$ | $1990-91$ |
| Metropolitan and country fire services* | 2,558 | 2,560 |

## MINISTER FOR POLICE AND EMERGENCY SERVICES

## 4I DEPARTMMENT OF BUSIR FIRE SERVICES

#### Abstract

41.1 Funding and Administration of Rural Firefighting Services

\subsection*{41.1.1 Funding and Administration of Rural Firefighting Services}

Program Objective(s): To promote effective rural firefighting services within the State, including the co-ordination of bush firefighting and prevention activities.

Program Description: Development and implementation of training, education and publicity programs relating to bush fires. Payment of the State's contribution (25\% of estimated expenditure) to the Bush Firefighting Fund which provides assistance to local government councils in the formation, equipping and maintenance of bush fire brigades [the balance of the Fund's income being levies on councils (25\%) and insurance companies (50\%)].

Activities:

## Average Staffing

|  | $1989-90$ | $1990-91$ |
| :--- | ---: | ---: |
| Senior management services | 3 | 3 |
| Training | 1 | 2 |
| Administration support services | 20 | 22 |
| Co-ordination of firefighting activities | 17 | 21 |
| Equipment inspection | 3 | 3 |

Summary of Payments:

Recurrent Services:
Employee related payments
Maintenance and working expenses
Grants and subsidies -
Prevention of bushfires and grants to volunteer, emergency and community organisations
Other services -
Payments to Bush Fire Fighting Fund
Contribution to workers compensation volunteers engaged in bush fire fighting and emergency services
Payments to councils of costs associated with bush fire fighting activities
Brigade equipment
Total, Recurrent Services
less other funds available

# 44 PUBLIC WORKS DEPARTMEENT 

### 44.1 Civil Engineering

### 44.1.1 Country Towns Water Supply and Sewerage Schemes

Program Objective(s): To enable local government to provide safe and adequate water supplies and sewerage facilities in country towns.

Program Description:
Investigation, design, construction and commissioning of water supply and sewerage schemes and associated works for local government areas not serviced by Water Boards. Works as requested by Water Boards. Operation of South West Tablelands and Fish River Hater Supply undertakings to provide safe acceptable supplies to local government and other consumers. Assistance to local government to achieve efficient operation and management of schemes.

| Activities: |  | Average Staffing |  |
| :---: | :---: | :---: | :---: |
|  | , | 1989-90 | 1990-91 |
|  | Operation and maintenance of undertakings |  |  |
|  | Investigation, design and construction of necessary renewal and new works |  |  |
|  | Administration of country towns subsidy scheme, from preliminary studies to scheme investigation and design, construction and commissioning |  |  |
|  | Research, investigation and development, regional and other studies for water catchment ans supply strategies | 802* | 784* |
|  | Technical advice and assistance |  |  |
|  | Dam surveillance |  |  |
|  | Regulation of operational standards ) |  |  |
|  | Training of plant operators ) |  |  |

* Includes miscellaneous trades and temporary employees (235 for 1989-90 and 227 for 1990-91) where costs are charged to works and services. The salaries of the establishment staff are also charged out wherever appropriate.

## Recurrent Services:

Employee related payments
Maintenance and working expenses
Grants and subsidies -
Alternative funding (interest) subsidy
Septic tank pump-out
Other services -
Contribution to reserves
Statutory testing, minor works, research and investigation
Principal repayments to Treasury Corporation

### 44.1 Civil Engineering

### 44.1.2 Coastline Hazards

Program Objective(s): To limit future losses from damage by coastal and oceanic hazards by reducing the impact of those hazards on existing owners and to ensure that future development is compatible with those hazards. To preserve and improve the amenity of beaches and beach facilities and to promote effective management practices.

Program Description:
Identification of the nature and extent of coastal and oceanic hazards. Provision of coastal engineering advice in relation to the management of these hazards and nearby areas. Provision of financial assistance to local government for investigation, design and implementation of hazard management measures and improvement of beaches and beach amenities. Provision of a consultative service to government and local government. Formulate necessary policies.

Activities:

|  | Average Staffing |  |
| :---: | :---: | :---: |

### 44.1 Civil Engineering

### 44.1.3 Flood Plain Management

Program Objective(s): To curtail potential losses in New South Wales by reducing the impact of flooding and flood liability on existing owners and occupiers of flood liable land and by ensuring that future development is compatible with the flood hazard.

Program Description:
Identification of the nature and extent of the flood hazard in tidal reaches of rivers. Provision of engineering advice to facilitate planning and management. The investigation, design and construction of works necessary for the protection of existing flood liable development. Administration of the Government's flood mitigation subsidy program in relation to coastal floodplains. Provision of a consultative service. Formulation of related policies.

Activities:
Average Staffing 1989-90 1990-91
Flood mitigation works and measures for tidal reaches of )
rivers
Technical advice
Data collection and assessment
Administration of Hunter Valley Flood Mitigation Act and ,
administration of areas defined under the Coastal

## MINISTER FOR STATE DEVELOPMENT

## 49 DEPARTMENT OF STATE DEVELOPMENT

### 49.1 State Development

### 49.1.1 Development of the New South Wales Economy

Program Objective(s): To contribute to sustainable, dynamic business development for New South wales in an international economy. To provide advice to the Government and the State on the form and direction of economic development which will maintain the lead for New South Wales in Australia and in Asia/Pacific, attract and encourage strategic, beneficial business for New South Wales, guide and co-ordinate the impact of Government agencies on industry and enhance innovation, productivity and competition.

Program Description:
Marketing the State to improve investor awareness. Servicing investor enquiries as a central point of contact for potential investors. Project sponsorship assisting firms to undertake investments with strategic benefit for the State. National project evaluation, determining economic and commercial rationale for New South Wales participation in major national projects. Preparing and promoting economic development strategies for the State.
