INTRODUCTION

This Budget Paper focuses on major capital works projects to be undertaken by individual Budget and Non Budget Sector agencies as well as their total planned capital payments from all funding sources.

For the purpose of this document a major work is any specific project with an estimated total cost of \$500,000 or more. Major works are further subdivided into new works (projects which have been approved to commence in 1992-93) and works-in-progress (projects which were commenced in earlier years but have not yet been completed). In addition an aggregate allocation for minor miscellaneous works (those with an estimated total cost of less than \$500,000) is shown for each agency.

As with any plan, circumstances and priorities may change in the course of its implementation. Ministers have authority to vary project allocations provided they observe authorisation limits constraints (expenditure limits for the current and future financial years). Hence, the allocations shown against individual projects in this Budget Paper may alter during the course of the financial year.

Allocations earmarked for minor miscellaneous works are utilised for such purposes as the purchase of minor plant and equipment, annual provisions for repairs and replacements and land acquisitions, and the provision of capital services, including compensation for coal rights. It also includes allocations for local councils' general purpose and electricity county councils' borrowings, since such borrowings are the only part of the capital program of these bodies controlled and monitored by the State Government.

Generally, the project values making up agency capital allocations for 1992-93 include allowance for price movements to 30 June, 1993. The costs of projects proceeding beyond that point are not adjusted for future price movements, which would increase their total costs.

The 1992-93 Capital Program provides for expenditure, from all funding sources, of \$5,893.8 million, a real increase of 10.1 per cent over actual 1991-92 expenditures.

The Capital Program provides for the construction, acquisition and upgrading of the physical assets of the State, as well as the provision of certain services with long term social and economic benefits. The Program plays a key role in the growth and development of the State economy by providing the basic infrastructure required by industry and for urban and rural development throughout New South Wales. In addition the Capital Program encompasses the provision of essential social, recreational and cultural facilities.

The Program embraces a large number of individual projects ranging from the acquisition of minor plant and equipment involving costs of \$5,000 or more, through to provision of electricity, roads, rail, ports, hospitals, education and other facilities. The sheer volume of projects being undertaken precludes a detailed listing of all projects.

The total 1992-93 State Capital Program of \$5,893.8 million in this Budget Paper depicts capital payments, by portfolio/agency/project, without any differentiation between Budget and Non Budget Sectors.

The split of the total 1992-93 State Capital Program between the Budget and Non Budget Sectors, consistent with the total program information in this Budget Paper, is explained in Chapter 5 of Budget Paper No. 2. "Budget Information 1992-93". This also provides full details of funding and payments by functional areas/agencies.

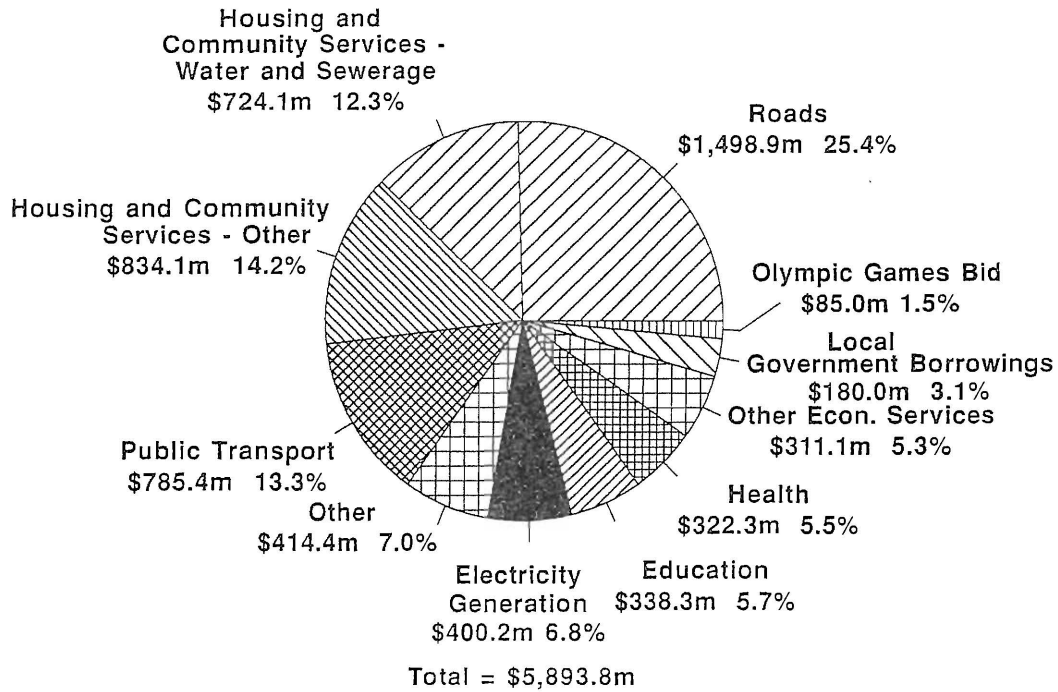

Figures in the "Blue Pages" in the Appendix of Budget Paper No. 2 also relate to the total 1992-93 State Capital Program, dissected between the Budget and Non Budget Sectors, on a policy sector (functional) basis by agency, consistent with this Budget Paper.

Figures in Budget Paper No. 3 "Budget Estimates" relate to Budget Sector capital payments, consistent with the Budget Sector component of the total State Capital Program shown in the "Blue Pages" and Chapter 5 of Budget Paper No. 2.

CROWN TRANSACTIONS

PROGRAM OVERVIEW

The program meets the costs of various schemes under the State's Natural Disaster Relief Program which exist to alleviate personal hardship and distress and to help primary producers, small businesses, local government councils and various voluntary non-profit organisations affected by floods, storms, bushfires or earthquake. Measures to assist primary producers may also be introduced during periods of drought, the particular measures varying with the circumstances of each drought.

MINISTER FOR EDUCATION AND YOUTH AFFAIRS AND MINISTER FOR EMPLOYMENT AND TRAINING

DEPARTMENT OF SCHOOL EDUCATION

PROGRAM OVERVIEW

The program provides for the construction of new and replacement schools, upgrading and additions to existing facilities, the provision of demountable facilities to overcome temporary peaks, site acquisitions for new schools and other general items.

The 1992-93 program will enable the start or continuation on the construction of 45 new or replacement schools, of which 10 are likely to be completed during this financial year. Further progress will also be made on upgrading and additions to over 50 existing schools.

DEPARTMENT OF COURTS ADMINISTRATION

PROGRAM OVERVIEW

The program provides for the construction of new court houses, the expansion/modification of existing court houses and the development of major computing facilities.

The 1992-93 program includes provision for the ongoing construction of court facilities at Campbelltown, Burwood and Wyong, the ongoing development of major computer systems and the purchase of equipment for the electronic recording of police interviews.

Provision has also been made for the commencement of the proposed new Court House/Police Station complex at Tamworth. The Minor Miscellaneous Works provision includes refurbishment of existing Court Houses at Lidcombe, Campsie and Campbelltown for use as Childrens' Courts.

DEPARTMENT OF HOUSING

PROGRAM OVERVIEW

The program focuses on the provision of public rental housing in New South Wales and home purchase assistance support on a needs basis.

The 1992-93 program provides for the completion of approximately 3,750 dwellings which were committed or in progress at 30 June 1992 and commencement of a total of 3,219 new dwellings. Funding is also provided for land acquisitions for future public housing purposes and capital upgrade of existing housing stock.

DEPARTMENT OF HOUSING - LANDCOM PROGRAM

PROGRAM OVERVIEW

The program provides for the acquisition and development of vacant freehold and Crown land for homesites. This entails the planning and subdivision of sites to provide the essential infrastructure of roads, drainage, sewerage reticulation and other services as well as the progressive provision of community services and facilities.

MINOR MISCELLANEOUS WORKS						100,000

OFFICE OF THE MINISTER FOR PUBLIC WORKS

PROGRAM OVERVIEW

The program provides for -

- water and sewerage facilities in country areas through Government subsidies towards the construction cost of local water supply and sewerage facilities;
- protection of the State's coastline, floodplains and estuaries;
- port facilities for the commercial fishing industry;
- the construction and management of maritime infrastructure;
- the construction, maintenance, and/or restoration of public buildings and other Government facilities; and
- the fitout of the McKell Building for the Public Works Department.

Funding has been provided under Minor Miscellaneous Works for floodplain management and the preliminary design and land easement purchases associated with the provision of water and sewerage services. The sandstone and heritage maintenance programs also receive funding from this source.

ROADS AND TRAFFIC AUTHORITY

PROGRAM OVERVIEW

The program provides for the Authority's role in managing the State's Roads and Traffic System, i.e. use of the system, maintenance of the network, and how it is enhanced, to ensure a roads and traffic system that is safe and efficient and Integrated into a balanced transport system within the State.

The 1992-93 program reflects the Government's continuing commitment to dedicate all proceeds from State fuel levies to the Roads Program, including the additional three cents fuel levy.

NOTE:

The RTA is unable to provide start dates since each project shown is an amalgam of individual works.

STATE RAIL AUTHORITY - NON COMMERCIAL

PROGRAM OVERVIEW

The objective of the program is to support the renewal, development and strategic repositioning of the non-commercial business of the SRA. The objective is met by expenditure in four categories: safety/integrity, infrastructure renewal, strategy (including growth, repositioning, system enhancement and cost reduction) and supplementary programs.

MAJOR WORKS

NEW WORKS

CITYRAIL CONTROL CENTRE	Sydney	1992	1997	27,000		400
CITYRAIL DRIVER TRAINING	Various	1992	1994	2,900		200
COMPUTER SYSTEMS - FINANCE	Sydney	1992	1995	2,100		490
XPLORER CARS STATION UPGRADING REQUIREMENTS	Various	1992	1994	1,492		70
EMBANKMENT AND CUTTING REMEDIAL WORK - ILLAWARRA REGION	Various	1992	1993	1,150		1,150
XPLORER CAR DEPOT	Redfern	1992	1993	2,000		1,730
FOOTBRIDGE RENEWAL PROGRAM	Redfern	1992	1993	500		500
