**BUDGET PAPER No. 5**

**PARLIAMENTARY APPROPRIATION BILL 1993**

NEW SOUTH WALES

**EXPLANATORY NOTE**

**(This Explanatory Note relates to this Bill as introduced into Parliament)**

This Bill is cognate with the Appropriation Bill 1993.

The object of this Bill is to appropriate out of the Consolidated Fund the following sums for the recurrent services and the capital works and services of the Legislature for the year 1993–94:

Recurrent services	\$52,939,000
Capital works and services	\$1,994,000

Total Payments:	Total cash outflows from all sources of funds (with adjustments to remove intra sector transactions, e.g. where one agency partly funds another's operations or where an agency makes tax payments to Crown receipts). Useful in measuring the total cash resources applied directly to a function of government (e.g. health, education).
Outlays:	<p>Total payments less:</p> <ul style="list-style-type: none"> <li>• user charges (in the case of current outlays); and</li> <li>• asset sales and receipt of advances repaid (in the case of capital outlays).</li> </ul> <p>Measures the net cost (on a cash basis) of a service to be met by parties other than by the service recipients.</p>
Total Expenses:	<p>Total amount incurred in the provision of goods and services, regardless of whether a cash payment is made to meet the expense in the same year, in a later year, or at all.</p> <p>Represents the accrual accounting equivalent of Total Payments.</p>
Net Cost of Services:	<p>Total expenses less user charges revenue and other revenues retained by agencies (e.g. donations).</p> <p>Represents the amount which ultimately has to be funded by the "public purse" in respect of the services provided in the year.</p>
Consolidated Fund Appropriation:	<p>Outlays less the use of other funds available to agencies (e.g. donations, cash balances).</p> <p>Represents the amount of cash to be provided from the "public purse" in the Budget year.</p>

The relationship between the main Budget Sector aggregates for 1993-94 (in comparison with 1992-93) are shown in the following tables.

The first starts with the total payments figure, showing how this relates to the Consolidated Fund.

The second starts with the total expenses of the Budget, again indicating how this figure relates to the Consolidated Fund appropriation. It should be noted that accrual accounting concepts relate primarily to operating (i.e. current) transactions rather than capital.

The tables include the financial information relating to the Legislature for which appropriation is to be made under the proposed Parliamentary Appropriation Act 1993.

## A BILL FOR

An Act to appropriate out of the Consolidated Fund sums for the recurrent services and capital works and services of the Government for the year 1993–94 and sums for supplementary charges and payments under section 22 of the Public Finance and Audit Act 1983 from the Consolidated Fund for the year 1992–93; and for certain other purposes.

**PREAMBLE**

- 5 (1) It is necessary to appropriate from the Consolidated Fund various sums of money required for the ordinary services and the capital works and services of the Government during the current financial year. The appropriation is determined in accordance with the Budget for 1993–94 which the Government has prepared on the basis of its medium term financial strategy.

10 The purpose of this preamble is to outline the key elements of the Budget in order to provide the proper context for the appropriation process. Further supporting details are provided in the various Budget Papers that document the Budget (Budget Papers Nos. 1–6).

15 (2) **Budget Objectives**

The Budget is framed to address two objectives.

20 The first is the containment of debt by progressively reducing the Budget deficit both in this and future Budgets. The initial target is to reduce the Budget deficit to a level at which it is not increasing the level of Budget Sector net debt in real terms, which is broadly a deficit of \$600 million per annum. Beyond the achievement of this initial target the Government aims to reduce the level of debt and will seek over time to achieve a balanced Budget. This objective will be further addressed by selective, appropriate privatisations such as that of the State Bank of New South Wales.

The second objective is to maintain essential public services while achieving better value for money.

25 (3) **Budget Strategy**

The Budget strategy to achieve the two objectives consists of five elements.

- *containment of growth in Budget Sector current outlays and achievement of value for money*

30 First, Budget Sector current outlays are to be constrained to grow over the three year forward estimates period at or below the rate of price inflation, while undertaking initiatives to achieve better value for money. The level of Consolidated Fund support for current outlays has been determined by indexing for the projected price inflation, adjusting for special factors where appropriate and subtracting a productivity savings requirement. In the case of high priority areas of Government a productivity savings requirement has not been subtracted but the agencies are expected to achieve savings to reapply to areas of high priority and need.

35

*Appropriation 1993*

---

The achievement of better value for money is directed at releasing resources for high priority needs within the constrained level of funding.

Specific initiatives to assist in this process include the contracting of government services, the development of benchmark information to assess performance and the negotiation of enterprise agreements with employees. 5

The projected savings from the contracting out of the Government Cleaning Service have been included in the Budget estimates.

*• containment of Budget Sector capital payments* 10

Second, Budget Sector capital payments are to be reduced in 1993–94 relative to 1992–93 and capped thereafter for the two forward years. This is in recognition of the substantial real increase in funding that has occurred, addressing the previous backlog in infrastructure, and having regard to the need to achieve the deficit reduction target. 15

*• achievement of a commercially appropriate return from Government Trading Enterprises and State Owned Corporations*

Third, continuing a consistent policy, the Government Trading Enterprises and State Owned Corporations are required to move towards a commercial rate of return on assets and pay to the tax payers an appropriate return in the form of dividends, tax equivalent payments and guarantee fees. 20

*• avoidance of increases in general taxes* 25

Fourth, the Budget does not contain any general tax increases directed at funding the Budget, consistent with the strategy of restraining taxes to achieve an incidence of taxation at or below the Australian average.

*• phased implementation of full funding of superannuation liabilities* 30

Fifth, the Budget incorporates the phased implementation of full funding of superannuation in the Budget Sector. The Government's current superannuation scheme, First State Super, which replaced the State Authorities Superannuation Scheme, is an accumulation scheme that is fully funded. The 1993–94 Budget provides \$100 million above and beyond cash needs to increase the employer reserve. Over the period 1993–94 to 2004–2005, the Budget will contribute an additional \$1 billion to increase employer reserves. 35

*Appropriation 1993*

---

(4) **Budget Assumptions**

The Budget is framed on the basis of a range of assumptions relating to the economic environment and their impact on both payments and receipts. These economic assumptions and their implications are set out in detail in Chapter 2 of Budget Paper No. 2, 'Budget Information'.

A particularly important assumption, in view of the size of employee entitlements in Budget Sector current payments, is the outcome of the wages determination process.

The Budget is based on the implementation of the Government's enterprise bargaining policy that involves an increase of roundly 3.0 per cent in 1993-94. With an average starting date for the increase at mid financial year, this is the equivalent of a 1.5 per cent increase in 1993-94.

The Budget is also based on the assumption that the Sydney bid for the Olympic Games will be successful.

(5) **Funding**

The Budget is framed on the basis of projected Budget receipts as set out in detail in Chapter 3 of Budget Paper No. 2, together with agency own source revenue and asset sales. In summary the funding sources for the 1993-94 Budget are as follows:

	\$m
<b>Current receipts</b>	
Taxes, fees and fines	9,233
Income from Non Budget Sector agencies	1,115
Commonwealth grants	6,411
Other	612
	17,371
<b>Capital receipts</b>	
Commonwealth grants	1,056
Other	11
	1,067
Total capital receipts	1,067
Total receipts	18,438
<b>Other funding sources</b>	
User charges	1,306
Asset sales	109
Advances repaid to the Budget Sector	269
	20,122
Total Funding Sources	20,122

*Appropriation 1993*

---

In addition to realising the projections of receipts as set out in the Budget Papers, the achievement of the total level of funding is dependent on:

- Parliamentary approval to the indexation of petroleum franchise licence fees and motor vehicle weight taxes in line with increases in inflation, as set out in the Business Franchise Licences (Petroleum Products) Amendment Bill 1993 and the Motor Vehicles Taxation (Amendment) Bill 1993 and to the increase in the car registration levy to fund the court costs of third party (motor vehicle) cases 5
- achievement of contributions from Government Trading Enterprises, State Owned Corporations and other bodies 10
- the application of the untied Commonwealth road monies to general support of the Budget and the Government's priorities 15
- the achievement of the projected agency own-source receipts, including from increased court fees and the Technical and Further Education administrative charge.

The Budget is also prepared on the assumption that the funding for any refinance of the HomeFund Scheme and the determinations of the HomeFund Commissioner will be met from identified surplus funds in the Building Services Corporation, the Rental Bond Board and the Real Estate Services Council. Other legislation will be necessary to transfer these funds to the housing portfolio for these designated purposes, with any surplus applied to housing matching funds under the Commonwealth-State Housing Agreement. 20

**(6) Payments**

The 1993–94 Budget incorporates both payments funded from the Consolidated Fund, appropriated by Parliament, and funding from agency own source receipts as set out below: 30

	\$m	
Consolidated Fund		
• appropriation for recurrent payments	17,756	
• appropriation for capital payments	2,158	
Other funding sources (agency user charges, etc.)	1,098	35
	21,012	
Total payments		

*Appropriation 1993*

---

The total payments allow for the maintenance of service provision in the Budget Sector, supplemented by the reallocation of funding within portfolios to address priorities, including in the Health portfolio, and select enhancement funding. Details of enhancement funding are set out in Section 1.3 of Budget Paper No. 2.

The Government's priorities in the provision of services are set out in Budget Paper No. 1 and include health, education and training, and social and community services.

**Division 2—Adjustment of “Advance to Treasurer”  
for 1992–93 and payments under section 22 of the  
Public Finance and Audit Act 1983 during 1992–93** 15

**Adjustment of “Advance to Treasurer”, 1992–93**

26. The sum of \$100,000,000 is hereby appropriated out of the Consolidated Fund in adjustment of the vote “Advance to Treasurer”, 1992–93, for supplementary charges made during the year 1992–93 for the ordinary annual services of the Government specified in Schedule 1. 20

**Payments under section 22 of the Public Finance and Audit Act 1983, 1992–93**

27. The sum of \$74,205,523.69 is hereby appropriated out of the Consolidated Fund to provide for the payments specified in Schedule 2 made in anticipation of appropriation by Parliament during the year 1992–93 under section 22 (1) of the Public Finance and Audit Act 1983. 25

**PART 3—GENERAL**

**Variation of authorised payments from Consolidated Fund** 30

28. (1) Payment of the sums appropriated under this Act may not be made on a program shown in the Budget Paper entitled “Budget Estimates 1993–94” in excess of the sums provided in that Budget Paper for the program, except as provided by this section and Division 4 of Part 2 of the Public Finance and Audit Act 1983. 35

*Appropriation 1993*

---

(2) If the exigencies of the Public Service render it necessary, the Treasurer may authorise:

- 5 (a) the payment of a sum in excess of the amount shown in the Budget Paper entitled "Budget Estimates 1993-94" as the Consolidated Fund Recurrent Payments estimate for a program, but only on the condition that an equivalent sum is not paid out of the estimate of the Consolidated Fund Recurrent Payments for another program; and
- 10 (b) the payment of a sum in excess of the amount shown in that Budget Paper as the Consolidated Fund Capital Payments estimate for a program, but only on the condition that an equivalent sum is not paid out of the estimate of the Consolidated Fund Capital Payments for another program.

15 (3) This section does not apply to sums appropriated otherwise than by this Act.

(4) This section does not empower the Treasurer to authorise the payment of a sum in augmentation of or as an addition to any salary or wages the amount of which has been fixed by law.

20 (5) The Treasurer is required to inform the Auditor-General of every authorisation given under this section.

**Appointment of person to carry out the functions of the Treasurer under section 28**

25 29. (1) The Treasurer may appoint a person to carry out the Treasurer's functions under section 28.

(2) Any such appointment is subject to such conditions (if any) as the Treasurer determines.

(3) The Treasurer may revoke any such appointment at any time.

## APPROPRIATION BILL 1993

NEW SOUTH WALES

### EXPLANATORY NOTE

**(This Explanatory Note relates to this Bill as introduced into Parliament)**

The following Bills are cognate with this Bill:

- Parliamentary Appropriation Bill 1993;
- Business Franchise Licences (Petroleum Products) Amendment Bill 1993;
- Motor Vehicles Taxation (Amendment) Bill 1993;
- Road Improvement (Special Funding) Amendment Bill 1993.

The object of this Bill is to appropriate various sums of money required for the ordinary annual services of the Government (in the Bill referred to as recurrent services) and capital works and services of the Government during the current financial year and also to appropriate certain expenditures of an unforeseen nature which were made during the financial year 1992–93 without Parliamentary appropriation.

The Bill relates to appropriations from the Consolidated Fund—the principal account of the Government for Budget Sector transactions. The Consolidated Fund could be considered as the “public purse” and largely comprises receipts from, and payments out of, taxes, fines, some regulatory fees, Commonwealth grants and income from Crown assets.

In addition to allocations from the Consolidated Fund, most Budget Sector agencies would have other sources of moneys available to them. These moneys could arise from user charges, part retention of asset sale proceeds, industry contributions, etc. These are not appropriated by Parliament as they are not in the nature of taxes or other mandatory levies for which a service is not provided in return for payment.

The Budget Papers refer to a number of aggregates, each of which has its own purpose in explaining the financial operations of the Budget Sector. The main Budget Sector aggregates are:
