**INDEX - Full index included at end of each Volume**

# INTRODUCTION

---

Budget Paper No. 3 provides an analysis of the financial and non-financial performance of general government agencies.

Under each Minister's portfolio, commentary is provided on agency expenditure trends, recent developments and strategic directions. Overviews of expenses and asset acquisitions are also provided.

Financial statements on an accrual basis are presented for each agency. These include the Operating Statement, Cash Flow Statement and Statement of Financial Position.

*The Operating Statement* details the major categories of expenses and revenues of agencies. The key aggregate is the Net Cost of Services, which is the difference between expenses, retained revenue and the gain/loss on disposal of non-current assets. For those agencies which receive a direct appropriation from Parliament, the Net Cost of Services is funded by revenue (mainly taxation) raised from the community as a whole.

For those agencies, which receive a direct appropriation from Parliament, the difference between expenses and revenues is the net cost of services which is funded by revenue (mainly taxation) raised from the community as a whole.

For those agencies, which do not receive direct appropriations, the difference between revenues and expenses is the surplus (deficit) available to further the objectives of the agency or be distributed to the Consolidated Fund to support core government services to the community.

The Government incurs expenditure as a result of providing services to the community. Under accrual accounting the operating statement of an agency records expenses when they occur. This varies from cash accounting which records expenditure when the payment is made. The major categories of expenses shown on this statement include employee related costs, operating costs, maintenance of assets, depreciation and amortisation of assets, grants and subsidies provided to other entities, and other expenses.

Similarly, revenues are shown when the agency is entitled to receive the funds although the cash may be received in a different period. Revenues are dissected into sales of goods and services, investment income, grants and contributions and other revenue.

*The Cash Flow Statement* details the cash impacts of agency activities including the cash appropriations sourced from taxation. The movement in cash disclosed in the statement equates to the difference between the opening and closing cash balances in the Statement of Financial Position. In addition, the net cash flow from operating activities shown on the cash flow statement is reconciled to the net cost of services (or surplus/deficit) in the operating statement.

*The Statement of Financial Position* details the assets and liabilities of the agency together with the net investment by the community in the form of equity in that agency. Assets and liabilities are dissected into current (convertible into cash or paid/received within the next 12 months), or non current (paid/received after 12 months).

## **PROGRAM STATEMENTS**

Where agencies receive direct Budget support these activities are grouped into programs. Programs in turn are grouped into program areas. The underlying structure for these agencies is:

- Minister: highest level at which funds are appropriated.
- Agency: department or authority (e.g. the Department of Agriculture).
- Program Area: grouping of programs with common goals (e.g. Agricultural Services).
- Program: individual program within a program area (e.g. Animal and Plant Protection).

*Program Statements* - The format of the statement varies depending on whether information is published on outputs and outcomes or activities for the program. Each program statement includes narrative material - program objectives and program description – as well as staffing and a detailed operating statement.

The *program title* is relatively concise, the intention being that it convey sufficient information to enable an interested reader to grasp in general terms what government functions or responsibilities are subsumed under the program.

*Program objectives* are statements of the broad aims of the program and indicate why the State is involved in the area.

The *program description* explains the activities which are grouped together within the program. The program description differs from the program objectives in that it indicates *how* the program is undertaken, rather than *why*.

From this point on the content of the program statements varies, depending upon whether information on outputs (and in selected cases, outcomes) is being published.

For those programs where information on outputs and outcomes is being published, the program statement is presented on the following basis:

- ◆ *outcomes* – the intended effects or impacts on the community, environment or economy which the Government is trying to influence through agency activities. Outcomes may be stated qualitatively or quantitatively and the information published is usually an *indicator* of the actual effect or impact on the community and reflects the degree of influence achieved. For example, a road safety outcome could be described quantitatively as *road deaths not exceeding x number per 100,000 of population*. In this case, the outcome indicator would be the actual number of road deaths per 100,000 of population.
- ◆ *outputs* – programs, goods and services or a response capacity produced by agencies to contribute to achieving the Government’s desired outcomes. Outputs can be described very specifically (individual outputs) or more collectively (output groups). The output information published usually indicates the *number of key outputs* produced. In the road safety example cited above, one group of outputs could be *driver and vehicle licensing services*, with key outputs including *driving tests conducted* and *motor vehicles registered*.
- ◆ total average staffing for the program which represents the number of staff engaged on outputs produced by the program. These staff figures represent an estimate of annual average staffing, including temporary and short term “casual staffing”, expressed on an equivalent full-time (EFT) basis. They are a guide to the *average number* of staff who might be employed during the year on a particular program based on the funds intended to be spent on the program. The figures include staff charged both to recurrent services and to capital works and services. Where program costs consist of contributions to other bodies (e.g. transport authorities), staff figures for these bodies are not included.

Where outcome/output information is not published, the total average staffing is dissected into major *activities* undertaken and the level of EFT staff involved in these activities. The activities have concise titles which follow logically from the program description. The full range of activities within the program is covered although relatively minor activities may not be discretely specified.

From this point onwards the format of the program statements converges, with an operating statement being presented in the same format as the agency presentation except that “grants and subsidies”, “other services” and “retained revenues” categories are further dissected to provide insight into the nature of the payment or receipt.

Also shown is the amount to be spent on asset acquisitions for each program, which details the total level of purchases of property, plant and equipment, being planned by the agency.

## BUDGET OUTCOME INFORMATION

Under the General Government Financial Management Framework, Service and Resource Allocation Agreements (SRAAs) are being developed on an agency basis as part of the Budget process. SRAAs are ‘outcomes-focussed’ agreements, signed by the Treasurer, on behalf of Budget Committee, and the portfolio Minister. The aim of the agreements is to improve resource allocation and management by linking the Government’s desired outcomes with the resources allocated to agencies to pursue those desired outcomes, and to provide information on the efficiency and effectiveness with which programs and services are delivered.

Outcome statements are a key component of each agency’s SRAA, with one statement for each of the outcomes to which the agency’s outputs contribute. Each outcome statement includes information on the strategy or strategies the agency plans to employ to contribute to the outcome; the associated outputs and their cost; the risks associated with contributions to outcomes and output delivery; and the measures or indicators by which the agency plans to assess its performance in terms of both outcomes and outputs.

Treasury is working towards introducing SRAAs for all general government sector agencies. As the SRAA process is bedded down, outcome statement information will replace program statement information. In Volume 3 of Budget Paper No. 3, Treasury’s program statements will be replaced by outcome statements.

The format of Treasury’s outcome statements, compared to the program statements, is as follows:

Budget Outcome Statement		Program Statement	
Functional area:	grouping of organisational units working towards common outcomes	Program area:	grouping of programs with common goals
Outcome:	intended effects or impacts on the community, environment or economy	Program:	individual program within a program area
Outcome objective:	elaboration of outcome	Program objective:	broad aims of the program
Strategies:	planned series of actions required for contribution to outcomes	Program description:	activities which are grouped together within the program
Outcomes:	indicators of progress towards desired outcomes (with estimates for the Budget Year)	Outcomes:	usually indicators of progress towards desired outcomes (with estimates for the Budget Year)

Budget Outcome Statement		Program Statement	
Outputs:	number of key outputs produced and measures of output quality/ efficiency (with estimates for the Budget Year)	Outputs:	usually number of key outputs produced (with estimates for the Budget Year)
Inputs:	number of staff engaged in producing outputs	Average staffing:	number of staff engaged on outputs produced by the program

Reporting outcome statement information will enhance the range and quality of information provided in Budget Paper No. 3. In particular, readers will be able to gauge more readily:

- ◆ the outcomes towards which agencies are working;
- ◆ the strategies which agencies are employing in pursuit of those outcomes;
- ◆ the quality of, and efficiency with which, outputs are delivered, in addition to the numbers of key outputs produced;
- ◆ the effectiveness of agency outputs in contributing towards outcomes; and
- ◆ the “resource effort” in terms of agency expenses, asset acquisitions and staffing devoted towards pursuit of individual outcomes.

## AGENCY RISK MANAGEMENT

Effective agency-level risk management helps reduce aggregate, sectoral and program/service/project level risk. The Treasury’s main function in regard to risk management is to put in place the incentives and processes to encourage agencies to manage their risks appropriately.

This approach is fundamental to the Financial Management and Commercial Policy Frameworks, and is incorporated in:

- ◆ Service and Resource Allocation Agreements for key general government agencies;
- ◆ Statements of Business Intent for non-corporatised Public Trading Enterprises and Statements of Corporate Intent for State Owned Corporations;
- ◆ risk management reviews of agencies covered by the *Public Authorities (Financial Arrangements) Act 1987*;
- ◆ *Risk Management and Internal Control Toolkit* and the *Statement of Best Practice for Internal Control and Audit*; and

- ◆ the Department of Commerce's *Total Asset Management Manual* which provides guidelines on risk management, financial and economic appraisal and value management. *Guidelines for Privately Financed Projects* (November 2001), which deals with private sector participation in the provision of public infrastructure, now forms part of the Total Asset Management Manual.

## **RESTRUCTURED AGENCIES**

As a result of the March 2003 State election Ministerial portfolios and the agencies within those portfolios have been altered. The changes were gazetted in April 2003.

Budget Paper No. 3 Volumes 1 and 2 do not include detailed financial statements for agencies that have been affected by restructures. Only high level financial aggregates have been produced for these agencies and details of the restructures.

More detailed information for these agencies will be included in Budget Paper No. 3 Volume 3 to be issued on 26 August 2003. The agencies concerned are:

- ◆ Environment Protection Authority,
- ◆ National Parks and Wildlife Service,
- ◆ Ministry of Energy and Utilities,
- ◆ Department of Lands,
- ◆ Department of Infrastructure, Planning and Natural Resources,
- ◆ Department of Commerce,
- ◆ Office of Government Business,
- ◆ Office of Government Procurement,
- ◆ Department of Sport and Recreation,
- ◆ Ministry of Transport,
- ◆ Treasury, and
- ◆ Department of State and Regional Development.

# THE LEGISLATURE

---

## OVERVIEW

<i>Agency</i>	<i>Budget 2002-03 \$m</i>	<i>Budget 2003-04 \$m</i>	<i>Variation %</i>
<b>The Legislature</b>			
Total Expenses .....	<b>97.7</b>	<b>101.7</b>	<b>4.1</b>
Asset Acquisitions .....	<b>3.2</b>	<b>2.7</b>	<b>-16.3</b>

The Legislature comprises two Houses, the Legislative Council and the Legislative Assembly. Both Houses are directly elected by the people of New South Wales and together form one arm of the system of responsible government.

The functions of Parliament are wide ranging and include the making of laws, control of State finances, oversight and scrutiny of Executive Government operations and the provision of a forum to discuss matters of concern or importance to the public.

The Legislative Council, Legislative Assembly and Joint House Departments provide procedural, administrative and support services to assist Members in the performance of their parliamentary and constituency duties, both at Parliament House and in the 94 Legislative Assembly electorate offices (Murray Darling has 2 offices) throughout the State.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

The Legislature's expenditure over the last five years has increased as a consequence of a number of factors including changes to Members' entitlements and provision of a wide area computer network to each of the 94 Legislative Assembly electorate offices throughout the state. The need for increased security at Parliament House and Legislative Assembly electorate offices has also impacted on expenditure trends.

## **STRATEGIC DIRECTIONS**

Consistent with recent years, the Parliament's focus remains on improving services and facilities for Members to assist them in performing their parliamentary duties. This strategy is being implemented through improved information technology costing \$1.3 million in 2003-04. Members are provided access to online services and databases from the Parliament House, electorate and home offices.

Improved public access to parliamentary proceedings and sittings is also being targeted through internet webcasts, broadcast quality filming of parliamentary proceedings and enhancements to the Parliament's website.

The upgrading of security remains a high priority for the Parliament with the commissioning of new surveillance equipment and additional personnel on sitting days.

## **2003-04 BUDGET**

### **Total Expenses**

Estimated total expenses for the Legislature in 2003-04 are \$101.7 million, an increase of 4.1 percent over the 2002-03 budget. This increase reflects the full year effect of public sector pay increases granted in 2002-03 together with increases scheduled for July 2003. Staff reductions are proposed for the support and service areas of the Parliament in 2003-04 to remain within the budget.

Base funding to meet the cost of servicing Members' offices and paying Members' entitlements has also been adjusted to reflect actual costs while funding for election year expenses has been withdrawn resulting in a net reduction in Members' other operating costs of \$0.8m before adjustment for price increase escalations.

### **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$2.7 million, a reduction of \$0.5 million from the 2002-03 budget. The bulk of the funding will go towards improving Parliament's information technology systems (\$1.3 million) and minor works include the fit-out of electorate offices for Members of the Legislative Assembly (\$0.8million).

## CABINET OFFICE

The Cabinet Office provides support to the Premier and Cabinet through the development, co-ordination and implementation of government policy. It co-ordinates New South Wales' involvement in Commonwealth-State issues and advises the Premier on legal matters which arise within his administration. The Cabinet Office provides all secretarial services for the Cabinet and its sub-committees including preparation of agendas, recording of decisions, circulation and presentation of Cabinet submissions, and follow-up action.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The core responsibilities of The Cabinet Office have remained unchanged, however, the Office has been given responsibility for various strategic policy issues requiring the establishment of specialised units within the Office over the past five years.

The Office of Children and Young People was created in 1997 and is responsible for the Government's Families First and Better Futures initiatives as well as the Aboriginal Child, Youth and Family Strategy.

The Natural Resources Branch has also absorbed responsibility for co-ordination of salinity and greenhouse policy. The Office of Drug Policy was established in 1999 to co-ordinate and develop policy in relation to illicit drugs.

The Biotechnology Unit was established in 2001 to co-ordinate the Government's biotechnology initiatives and related ethical and regulatory issues. During 2003-04 this Unit will be subsumed within a newly established Office of Science and Medical Research, providing support to the Minister for Science and Medical Research. The new Unit will take over the responsibilities of the Biotechnology Unit, including bioethics and will take a central co-ordinating role in developing and implementing key scientific initiatives which have a whole-of-government character.

## **2003-04 BUDGET**

### **Total Expenses**

The Cabinet Office has estimated total expenses of \$25.5 million, including:

- ◆ \$1.1 million for the continuation of the Families First initiative, involving the co-ordination of the establishment of a network of childcare experts and volunteers to assist with parenting skills;
- ◆ \$1.5 million for biotechnology projects;
- ◆ \$1 million to fund the Office of Drug Policy;
- ◆ \$2.8 million (an increase of \$1.5 million) for the Better Futures Program aimed at expanding youth support and development opportunities and the Aboriginal Child, Youth and Family Strategy;

- ◆ a new allocation of \$1.7 million for the Premier's Spinal Injuries Program; and
- ◆ an additional \$750,000 for the newly established Office of Science and Medical Research. Funding for the Office of Science and Medical Research will total \$2.2 million in 2003-04.

### **Asset Acquisitions**

The capital allocation of \$10,000 is for minor works.

## **PARLIAMENTARY COUNSEL'S OFFICE**

The Parliamentary Counsel's Office:

- ◆ develops and drafts Government legislation for presentation to Parliament or the Governor-in-Council;
- ◆ provides a legislative drafting service for non-Government Members of Parliament;
- ◆ provides legal and administrative advice to the Government;
- ◆ undertakes research on legislative and related matters;
- ◆ provides a legislative publishing service to the Government, Parliament and the public, including the production of Bills, new Acts and Regulations, updated reprints of legislation and information guides; and
- ◆ compiles and provides internet access to the New South Wales Legislation Database via [www.legislation.nsw.gov.au](http://www.legislation.nsw.gov.au).

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Expenditure trends have not varied markedly over the past five years. This reflects the continuity of the Office's core functions and activities and stable staffing levels.

## **STRATEGIC DIRECTIONS**

The Office is continuing to develop new information technology systems (including the internet) for legislative drafting and publishing that will enhance service delivery and reduce the cost of access to legislation.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses of the Parliamentary Counsel's Office are estimated to be approximately \$6.1 million with approximately 80 percent being allocated to employee related payments.

### **Asset Acquisitions**

Total capital expenditure for 2003-04 includes:

- ◆ \$0.9 million to streamline and automate various production processes within the Office, leading to enhanced online delivery services, and the authorisation of electronic versions of legislation; and
- ◆ a \$50,000 annual provision.

## **PREMIER'S DEPARTMENT**

Premier's Department supports the Premier, as head of Government, in making New South Wales a better place in which to live, work and do business.

The Department:

- ◆ provides strategic advice and services to the Premier;
- ◆ manages issues and projects of significance to the State;
- ◆ provides leadership to the New South Wales public sector;
- ◆ maintains the effective management of public sector staff and resources; and
- ◆ ensures a whole-of-government approach to policy development and service provision within the public sector, especially in regional and rural areas.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Expenses over the last five years have increased to an estimated figure of \$139.7 million in 2002-03. Additional funding provided during 2002-03 included \$11.8 million for the Community Solutions Fund, \$3.7 million for the Redfern Waterloo Partnership Project, and \$1.7 million for Snowy Bush Fire Recovery.

The Infrastructure Co-ordination Unit has been transferred to the Department of Infrastructure, Planning and Natural Resources as part of the Government Restructure. The Department is also undergoing an internal restructure. In particular, the Equal Opportunity in Public Employment program has been merged with the Public Sector Management Office from 1 July 2003.

## **STRATEGIC DIRECTIONS**

The Department will continue its commitment to better value for money in the delivery of public services. Key whole-of-government co-ordination roles include:

- ◆ initiatives to manage economic and social issues in regional and rural New South Wales;
- ◆ development of community solutions for areas of social and welfare concern;
- ◆ leading and facilitating efforts to strengthen communities;
- ◆ major events; and
- ◆ improving the representation of targeted groups in the public sector workforce, focusing on Aboriginal people and people with disabilities.

## **2003-04 BUDGET**

### **Total Expenses**

Estimated total expenses for the Department in 2003-04 are \$125 million. Funding provided in 2003-04 includes:

- ◆ \$15.9 million for a whole-of-government co-ordination of community solutions for areas of social and welfare concern;
- ◆ approximately \$4.6 million for the Drug Budget (including funding for the Cabramatta Anti-Drug Strategy);
- ◆ \$1.25 million for the Redfern/Waterloo package of initiatives (as well as \$1.25 million from the Community Solutions Fund);
- ◆ \$1 million for the Youth Partnership with Arabic Speaking Communities;
- ◆ \$0.5 million for the Regional Co-ordination Program; and
- ◆ \$0.4 million for the Snowy River Recovery.

The Department also acts as the co-ordinator of State responses to natural disaster.

A special project to improve public sector service delivery, including e-Government initiatives, will be continued and enhanced in 2003-04.

The Department continues to lead and co-ordinate a whole-of-government approach to major projects and issues. The Department is also responsible for funding and support of the Premier's Office, certain Ministers' Offices, the Leaders of the Opposition's Offices and offices of former office holders (such as former Premiers).

### **Asset Acquisitions**

In 2003-04, the Department has a capital program for minor works of approximately \$0.6 million.

## **INDEPENDENT COMMISSION AGAINST CORRUPTION**

The Independent Commission Against Corruption is responsible for promoting and enhancing integrity in public administration in New South Wales by investigating and minimising corruption through application of its special powers. The Commission applies the latest corruption prevention methods and undertakes research and education into corruption prevention.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Over the past five years total expenses have increased from \$15.3 million in 1998-99 to an estimated \$16 million in 2002-03. A major restructure occurred in 2001-02 that created a more proactive, strategic and integrated investigative capacity for the Commission. There have not been any significant changes in the statutory responsibilities and functions of the Commission over the period.

During 2002-03, the Commission continued a process of change management arising from significant reviews of its functions, operations and investigative capacity. These reviews identified opportunities for improvement and the Commission implemented a series of initiatives to enhance its internal management processes and the training and development needs of its staff.

## **STRATEGIC DIRECTIONS**

In 2003-04, the Commission will continue its focus on enhancing its capacity to strategically identify systemic and individual corruption risks, and improve and develop the Commission's investigative capacity.

Work will proceed on improving the Commission's business processes, particularly in the area of case management and performance tracking. The Commission will continue to develop and deliver strategic research, education and corruption prevention initiatives targeted at key sectors, including local government, the general public sector and communities from non English speaking backgrounds.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses are estimated at \$16.5 million in 2003-04. The Commission will maintain and improve its current level of investigation, corruption prevention and education activities.

### **Asset Acquisitions**

In 2003-04 the Commission will spend \$0.6 million on asset acquisitions including intelligence based data mining software and technical equipment to improve the effectiveness of surveillance operations.

## **OMBUDSMAN'S OFFICE**

The Ombudsman's Office aims to improve public administration and ensure that maladministration and misconduct are appropriately addressed. The Office seeks to ensure that people and bodies within its jurisdiction deal effectively with complaints about their activities.

The Office attempts to resolve complaints in a prompt manner, focusing upon matters that raise systemic issues or are likely to be more intractable. Such investigations aim to improve policies and practices and to promote responsive and accountable public administration.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The jurisdiction of the Ombudsman has been expanded considerably in recent years. Relevant legislation includes the *Law Enforcement (Controlled Operations) Act*, the *Child Protection (Offenders Registration) Act*, and the *Witness Protection Act*. In addition, since 1998, the NSW Parliament has determined that the implementation of certain new legislation be reviewed by the Ombudsman including the *Crimes (Forensic Procedures) Act* and the *Child Protection (Offenders Registration) Act*.

Total expenses for the Office have increased over the last five years as a consequence of additional funding provided by the Government for the increase in workload and the amalgamation of the Community Services Commission into the Office.

## **STRATEGIC DIRECTIONS**

The Ombudsman's Corporate Plan sets the direction for the Office and outlines the goals and strategies that will support the Ombudsman's vision of fair, accountable and responsive administration in New South Wales agencies. Each investigative team has developed a business plan to support the strategic direction of the Office.

In the Police and Child Protection teams there has been a shift in focus from complaints management to more proactive oversight/audit of how agencies investigate complaints. This change in focus will mean the early identification of systemic or public interest issues that, if not identified, could result in poor practices and procedures in agencies.

In the Child Protection area the Ombudsman entered into an agreement with the Catholic Commission for Employment Relations and the Department of Education and Training regarding the notification of lower level matters. The agreement was reached after these agencies demonstrated capacity to appropriately deal with these lower level matters. Although this will result in a reduction in the number of notifications received, the Ombudsman still scrutinises how these matters are handled through a strengthened audit program.

In December 2002, the Community Service Commission merged with the Office. This has resulted in the Ombudsman being responsible for the Commission's functions as well as reviewing the deaths of certain children and young people and people with a disability. Additionally, the definition of a "service provider" and "visitable service" in the *Community Services (Complaints, Reviews and Monitoring) Act* has been extended to include licensed boarding houses, bringing these services within the jurisdiction of the Ombudsman.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses of the Office are projected to be \$18.4 million in 2003-04, including the \$3.8 million of the former Community Services Commission. The most significant expense is employee related expenses that accounts for over 80 percent of all of the Ombudsman's expenses.

## **Asset Acquisitions**

In 2003-04, the Office will be undertaking an asset acquisition program totalling \$0.4 million. This will provide for finalising the integration of the Community Services Commission's database with the Office's and other minor works.

## **STATE ELECTORAL OFFICE**

The State Electoral Office is responsible for:

- ◆ the management and administration of parliamentary elections, by-elections and referendums;
- ◆ administrative support to the Election Funding Authority which is responsible for the public funding of election campaigns and the management and administration of the Political Education Fund (established in 1993); and
- ◆ in accordance with the appropriate legislation, elections for local government, trade unions, statutory boards, registered clubs and ballots for enterprise agreements on a full cost recovery basis.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Trends in expenditure are directly related to the occurrence of general elections, redistributions and, to a lesser extent, by-elections.

The significant increase in expenditure in 2002-03 is a direct result of the conduct of the State General Election for the Legislative Assembly and the Legislative Council on 22 March 2003. This expenditure also includes claims received for the funding of Parliamentary election campaigns related to those elections.

In recent years the Office has expended capital funds on upgrading election systems software to enhance the efficiency of Returning Officers in the management of their functions, and enhancement of the State Election Management System. Additionally the Office's local area network was upgraded in preparation for the March 2003 State Election.

## **STRATEGIC DIRECTIONS**

The Office will examine the procedures and processes used at the 2003 State Election with a view to achieving increased efficiencies and effectiveness for the Local Government General Election in March 2004. The review is ongoing and includes consideration of changes in legislation in respect to the method of voting for local government elections.

## **2003-04 BUDGET**

### **Total Expenses**

The State Electoral Office has estimated total expenses in 2003-04 of approximately \$18.8 million. This principally comprises:

- ◆ \$3.7 million for the finalisation of the March 2003 state election;
- ◆ \$2.5 million for the March 2004 local government election on a full cost recovery basis;
- ◆ \$4 million (on behalf of the Election Funding Authority) for payments to candidates, groups and parties; and
- ◆ \$3.1 million for payments to the Commonwealth for the Joint Electoral Roll Agreement.

## **INDEPENDENT PRICING AND REGULATORY TRIBUNAL**

The Independent Pricing and Regulatory Tribunal (IPART) determines maximum prices for monopoly services provided by major New South Wales government utilities. In addition, it regulates natural gas tariffs and third party access to gas networks, and carries out reviews of industry pricing and competition. IPART also administers licensing of water, electricity and gas industries, including the monitoring of compliance with full retail competition conditions. Within its area of expertise, IPART provides assistance to other NSW and interstate government agencies. From 1 January 2002, IPART became metrology coordinator, responsible for metering procedures under the National Electricity Code. From 1 January 2003 IPART also became administrator of the Greenhouse Gas Abatement Scheme.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

IPART's expenditure increased from \$5.3 million in 1999-2000 to an anticipated \$12.9 million in 2002-03. The increased expenditure reflects changes in the range, volume and complexity of work.

In the last three years the work of IPART has expanded beyond setting maximum prices for government utilities and transport services. Additional activities include advice on competitive neutrality, setting gas tariffs, regulating gas networks and conducting arbitration proceedings between market participants.

The introduction of national codes for the regulation of prices in the electricity and gas industries also made regulation more complex.

In November 2000 IPART's legislation was amended to give the Tribunal responsibility for administering the licensing of water, electricity and gas and for auditing compliance with licence conditions for water and electricity. This includes an active compliance and enforcement role for full retail competition.

The changes to the Act also require IPART to investigate complaints about competitive neutrality referred by the Government. These changes impact on IPART's functions and work processes.

From 1 January 2003 IPART has taken on the role of Administrator for the Greenhouse Gas Abatement Scheme following government legislation introducing mandatory targets for greenhouse gas emissions from electricity generation. IPART is responsible for issuing licences, administering a registry of abatement certificates, providing forecasts, carrying out annual compliance assessments and reports, and investigating breaches.

The approach to price regulation is constantly evolving and thus requires a research capacity. The Tribunal maintains an interest in overseas developments as well as continuing membership of the Australian Regulators' Forum.

## **STRATEGIC DIRECTIONS**

To fulfil the additional responsibilities IPART has increased its staff by a further 10 percent. It now needs to invest in and manage the communication, systems, knowledge transfer, industrial and development issues resulting from this growth while maintaining the quality of regulatory outcome.

In 2001 IPART developed a strategic business plan. The plan has helped to articulate the impact of IPART's work on its various stakeholders and the community at large. The effects extend beyond the immediate revenue impact of its decisions on the regulated entities and their customers since it includes investment decisions by potential competitors and users of the services.

The increased complexity of regulation also has implications for increasing the quality and volume of legal and other specialist advice.

IPART's implementation of the business plan strategies respond to these challenges by monitoring the impact of decisions, improving analytical techniques, making better use of legal and consultancy services and encouraging stakeholder communication. In response to the last area IPART carried out a major stakeholder perception survey to gather quantitative and qualitative performance data. IPART will repeat this survey in late 2003.

## **2003-04 BUDGET**

Additional funding for operating expenses has been provided to cover the expanded regulatory functions of the Tribunal and the establishment of a Registry to trade greenhouse gas abatement certificates, and to introduce new compliance audits for Greenhouse Gas Abatement Scheme participants. The total expenses in 2003-04 are estimated at \$15.6 million, an increase of \$2.7 million, or 20 percent over the preceding period.

## **SUSTAINABLE ENERGY DEVELOPMENT AUTHORITY**

The Sustainable Energy Development Authority (SEDA) was established in 1996 to reduce greenhouse gas emissions in New South Wales by promoting the commercialisation and use of energy efficient and renewable energy technologies.

SEDA's role is to reduce business and household energy costs through energy efficiency, to foster new employment and investment across New South Wales through the development of the sustainable energy industry, and contribute to energy market reform through on-the-ground replicable projects.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Estimated expenditure in 2002-03 is \$11.7 million.

Some of SEDA's outcomes and activities in the last year include:

- ◆ expansion of the National Green Power Accreditation program, encouraging households and businesses to undertake voluntary renewable energy purchases;
- ◆ dedicated support to accelerate wind energy developments in New South Wales;
- ◆ a \$2.5 million program utilising latest technology to reduce waste methane gas emissions from coal mines to protect the environment;

- ◆ support of bioenergy projects in New South Wales, such as providing seed funding to establish a renewable energy plant at Camellia, fuelled by food wastes;
- ◆ consolidation of the Energy Smart Homes policy to ensure Energy Smart building and water heater requirements are met by the majority of new residential developments in New South Wales. This saves over 438,800 tonnes of greenhouse gas per year;
- ◆ implementation of a commercial phase of SEDA's Energy Smart business program;
- ◆ administration of the Australian Building Greenhouse Rating Scheme, a voluntary accreditation scheme measuring the greenhouse performance of commercial buildings;
- ◆ establishment of an export program to harness emerging export opportunities for NSW sustainable energy product manufacturers;
- ◆ provision of free energy advice to NSW consumers through the Energy Smart Information Centre; and
- ◆ expansion of the Solar in Schools program to give NSW school students direct experience of renewable energy generation. (This program won a 2003 Banksia National Environmental Award for Government Leading by Example for a Sustainable Future).

## **STRATEGIC DIRECTIONS**

SEDA's key strategies in 2003-04 are to:

- ◆ deliver greenhouse gas abatement, investment in new projects in New South Wales, and energy savings for NSW households and businesses through sustainable energy projects;
- ◆ facilitate the generation of verified New South Wales Greenhouse Gas Abatement Certificates; and
- ◆ work with NSW electricity suppliers to adopt embedded generation and targeted energy efficiency and load management projects.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are estimated at \$9.8 million.

SEDA will continue to direct its resources to program delivery.

An amount of \$1 million will be available in grants to improve renewable energy supply.

### **Investments**

SEDA will invest around \$1.8 million in sustainable energy technologies to commercialise their use in the market place in 2003-04.

## **MINISTRY FOR THE ARTS**

The Ministry:

- ◆ works with the State's eight cultural institutions and formulates policy advice on issues relating to the institutions;
- ◆ administers a cultural grants program which supports a range of arts and cultural organisations and activities across the State;
- ◆ provides awards, fellowships and scholarships to individuals; and
- ◆ manages government arts' projects, properties and capital expenditure.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Over the past five years total expenses have increased from \$57.8 million in 1998-99 to an estimated \$82.1 million in 2002-03. This increase is primarily attributable to additional support provided to arts organisations via the cultural grants program.

In 2002-03, the Ministry provided a total of \$31.5 million through the cultural grants program, up from \$18.4 million distributed in 1998-99. In 2002-03 an estimated \$6.5 million in non-cash rental subsidies to arts organisations resident in Government properties was also recognised for the first time.

In recent years, the Government's cultural policy has focused on developing cultural activities and infrastructure in regional areas and encouraging co-operation and resource sharing within the portfolio. Emphasis has also been given to providing strategic support for arts development in Western Sydney.

## **STRATEGIC DIRECTIONS**

The Ministry's key strategic directions include:

- ◆ providing a leadership role in developing arts and cultural activity in New South Wales, including partnerships with other State and Federal Government agencies, furthering the Government's regional initiatives in Western Sydney, the Hunter, the Illawarra and the Central Coast, and reviewing its role in regional arts development across the rest of the State;
- ◆ supporting the importance of education and learning, including strategies with the education sector, professional development for artists and organisations and audience development strategies with the cultural institutions and arts organisations;
- ◆ strengthening the arts and cultural environment by building community capacity as well as developing cultural infrastructure; and
- ◆ encouraging innovation in artistic development and promoting best practice.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses are estimated at \$90.1 million. The Ministry will distribute \$30 million under the State's cultural grants program and \$39.9 million to the Sydney Opera House Trust during 2003-04.

The Government has allocated \$0.8 million in 2004-05 for a range of arts initiatives including: Arts Access, which will give school students, particularly in disadvantaged areas, greater access to our best performing arts and visual arts activities; development and promotion of cultural planning within local government; a museum volunteers program; and, a Dance Action strategy which is targeted to support contemporary dance in New South Wales. In 2003-04 these programs will be initially funded from within the Ministry's resources, through an allocation of \$0.3 million.

In the course of their normal operations, cultural institutions provide services such as loan items, conservation assistance, and expert advice to regional communities. Commencing in 2004, \$0.3 million per annum will be provided to consolidate and extend these activities for the benefit of regional communities.

### **Asset Acquisitions**

Funding of \$2.3 million has been provided in 2003-04 (\$34.8 million over 4 years) for the development of a contemporary performing arts centre to be known as the Carriage Works at Eveleigh. The facility will involve the adaptive reuse of the former carriage workshops and blacksmiths shop at the Eveleigh North railyards.

Minor Works funding of \$0.2 million has been provided for the replacement of plant and equipment, mainly computer systems.

## **STATE LIBRARY OF NEW SOUTH WALES**

The State Library of New South Wales is the major public reference and research library and information service for the people of New South Wales.

The Library:

- ◆ fulfils a statewide role by providing services to people who visit the Library or who seek information by contacting the Library by electronic or other means; and
- ◆ maintains and ensures the security of the unique heritage Mitchell and Dixson collections of historical and Australian resources.

The Library supports the network of public libraries throughout New South Wales by:

- ◆ administering the public libraries' grants and subsidies program; and
- ◆ providing advice and consultancy services, access to specialist collections and expertise and managing NSW.net to enable affordable access to the Internet for New South Wales Councils, public libraries and communities.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Over the past five years, total expenses have increased from \$51.3 million in 1998-99 to a projected \$69.8 million in 2002-03. This is mainly due to depreciation expenses for the Library's non-heritage collection assets. Depreciation was recognised in the accounts for the first time in 2000-01.

Total collection assets are valued at \$1.5 billion in accordance with Australian Accounting Standards.

Additional funding of \$2 million in 2002-03 has helped a total of 109 Councils and Public Libraries connect to NSW.net. Funding received to support the public library network has been used to improve services to clients of local libraries and for training of librarians in public libraries.

## **STRATEGIC DIRECTIONS**

The Library manages and preserves the documented cultural heritage of New South Wales. The major strategic direction is to improve public access to these collections through reference and research services, exhibitions and public programs.

Clients' information demands continue to grow, particularly in complexity. The growth of online and digitised information resources increases demand for access to electronic services both at the State Library and in public libraries around the State.

NSW.net in conjunction with the Government's connect.nsw initiative, is an integral part of the public library network's service delivery strategy, creating links to government and other information services at a local level.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses are estimated at \$71.4 million. The Library will distribute \$22 million under the State's public library subsidies and grants program during 2003-04, including \$2 million for NSW.net.

The allocation for employee related expenses increased by \$1.8 million as a result of salary increases flowing from the pay equity decision in the Industrial Relations Commission for librarians and library technicians.

## **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$13.6 million.

An allocation of \$6 million has been provided for the acquisition of collection materials including books, journals, pictures, maps, manuscripts and electronic resources.

The rationalisation of the collection storage, improvements to occupational health and safety and periodic facilities maintenance have been allocated \$5.6 million under the Library's Total Asset Management Plan.

## **AUSTRALIAN MUSEUM**

The Museum is Australia's leading natural history museum. Its mission is to increase understanding and influence debate on the natural environment, human societies and human interaction with the environment.

Australian Museum activities take place at its main site at College Street Sydney, and throughout New South Wales through its Museum on the Road, Museum in a Box, Outreach and rural and regional support programs.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Over the past five years total expenses have increased from \$36 million in 1998-99 to an expected \$36.5 million in 2002-03. The increase is attributable to activities that include the staging of public programs and exhibitions, undertaking scientific research and emphasis on commercial ventures that include the Australian Museum Business Services.

## **STRATEGIC DIRECTIONS**

The Museum's continued focus in 2003-04 will be on a range of initiatives including increased attention on analysing and predicting impacts on the Australian environment and the means by which this information can be effectively communicated to the rural and industrial sectors.

The Museum will continue to actively develop research and development partnerships with scientific, government and commercial organisations. Reaching a wider audience through outreach, rural and regional programs, and electronic media, will remain a significant pursuit. The presentation of Pacific Rim cultures in innovative programs remains a commitment of the Museum.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Museum are budgeted at \$37.8 million. The Museum will continue to direct its resources to activities that include staging exhibitions, development of educational programs, scientific research, and conservation work on its collections. Scientific research will continue to be focused through designated centres of excellence and new Biodiversity projects.

Large exhibitions planned for 2003-04 will include 'Death the Last Taboo', 'Gold and Treasures of Ancient Peru' and 'Showroom'. The Museum will also stage a program of visitor services and smaller exhibitions that will include 'British Gas World Wildlife Photography' and 'Parasites'.

### **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$6.2 million. Budget funding totalling \$3.4 million (\$0.9 million in 2003-04) has been allocated over three years for a program of information technology initiatives including the development of digitised collections databases and the improvement of the Museum's Internet site. This will be completed in 2003-04.

Other significant projects include Public Programs (\$1.2 million) and continuing work on Stage 2 of the Museum's Fire Safety Upgrade project (\$2.4 million). Funds totalling \$3.5 million have also been provided over two years (\$1.7 million in 2003-04) for the Museum to undertake accommodation works aimed at improving staff accommodation and collection storage facilities at the College Street site. This will address a range of health and safety issues and relocate staff and collection materials from existing leased premises back to the main site.

## **MUSEUM OF APPLIED ARTS AND SCIENCES**

The Museum of Applied Arts and Sciences consists of the Powerhouse Museum and the Sydney Observatory. The Museum's focus is on promoting awareness and understanding of the past, present and future of Australian society through research, scholarship and the acquisition, conservation and integrated presentation of material in the fields of science, technology, industry, design, decorative arts and social history.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Museum's expenditure over the past five years has increased by 11 percent from \$38.5 million in 1998-99 to \$42.7 million in 2002-03 due to increases in staff related expenditures.

## **STRATEGIC DIRECTIONS**

Construction of the new collection storage facility at the Museum's Castle Hill site is planned for completion in mid 2004. Planning is under way for moving the collection items from rented premises in Ultimo to the new store upon completion.

The latest developments in asset coding and identification are being investigated as the move is an opportune time to improve these aspects of the collection management system. The upgrade and renewal of permanent galleries is continuing in order for the Museum to maintain its leading position in the education and leisure markets.

The Museum is taking a proactive approach to become a service provider to other agencies within the Arts portfolio, with the emphasis on the generation of savings by sharing resources.

In conjunction with the funding provided for the establishment of a Collection and Moveable Heritage Research Centre within the Museum, the Migrant Heritage Centre previously contained within the Premier's Department was transferred to the Museum during 2002-03.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Museum are budgeted at \$43.5 million. This is an increase on the current year's estimate of \$42.7 million and is brought about in the main by increases in salary related expenditure as a result of award increases offset by reductions in depreciation and operating expenses.

### **Asset Acquisitions**

Construction of the new collection storage facility at Castle Hill will continue with \$6.9 million allocated in 2002-03 and the project is due for completion by June 2005.

Funding for the permanent gallery replacement program will continue at the increased rate of \$1.5 million per annum for 2002-03 and subsequent years. Implementation of the Museum's Total Asset Management Plan will begin with the allocation of \$1.8 million for the replacement and acquisition of major items in 2003-04.

\$0.2 million has been allocated to finalise implementation of the Collection Information Management System and \$1 million for expenditure on minor works and the replacement of plant and equipment.

## **HISTORIC HOUSES TRUST OF NEW SOUTH WALES**

The Historic Houses Trust of New South Wales is entrusted with the care of key heritage properties in the State. Its objectives are:

- ◆ to conserve and manage these properties, grounds and collections; and
- ◆ to provide a range of public and school programs to increase awareness of the cultural heritage of the State.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

In accordance with its increased role and responsibility, the Trust's operating expenditure increased from \$12.7 million in 1996-97 to an estimated \$20.7 million in 2002-03. This includes management of Government House (since 1996); the Mint (1997); Rouse Hill Estate (1999); the Rouse Hill Public School adjacent to the estate to improve visitor facilities (2002) and the Young Street Terraces adjacent to the Museum of Sydney (2002).

In 1998 the Trust developed Total Asset Management Plans for each of its properties in accordance with the Government's policy on heritage asset management.

## **STRATEGIC DIRECTIONS**

The Trust is in a phase of consolidation following a period of rapid growth which saw the Trust expand its property portfolio and public programs. Priority for the Trust over the next two years is the development of the industrial buildings behind The Mint in Macquarie Street Sydney as a new head office.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are estimated at \$21.5 million.

A number of major exhibitions are planned for 2003-04. These include:

- ◆ Italiani di Sydney - the story of a number of significant Italian families who migrated to Australia. Their stories, customs, beliefs and experiences and their continuing connection between their villages in Italy and life in Sydney;
- ◆ Kiichiro Ishida & The Sydney Camera Circle 1920s-1940s - exploration of the oeuvre of 'rediscovered' photographer Ishida, as well as revealing the pre-war exchange of art and friendship between Japan and Australia, through Sydney Camera Club members and Cazneaux; and
- ◆ Cedar - an exhibition celebrating *Toona ciliata*, a species native to Australia. Charting its discovery and use, including earliest botanical descriptions and specimens, maps showing its distribution, logging, furniture made from it, boat building and other uses.

The Trust is also planning a series of publications as well as activities including a concert series, lectures, seminars, theme events and courses.

### **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$9.2 million.

Funding of \$14.7 million over three years was provided in 2001-02 and extended over four years to conserve the historic industrial buildings behind the Mint in Macquarie Street Sydney and to relocate Historic Houses Trust head office to this site. The buildings will also provide facilities for the Trust's research library and resource centre which will be open to the public.

A further \$0.4 million is for the replacement and upgrade of computers, plant and equipment and acquisition of collections.

## **ART GALLERY OF NEW SOUTH WALES**

The Art Gallery of New South Wales:

- ◆ acquires works of art to enhance its permanent collection;
- ◆ develops exhibitions of works from its own holdings and from museums and private art collections around Australia and overseas; and
- ◆ conducts both educational and entertaining public activities such as Aboriginal cultural performances, child and families programs, film screenings, lectures in art history, and free guided tours for the public.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Over the past five years total expenses have increased from \$26.1 million in 1998-99 to an expected \$29.7 million in 2002-03. During this time, the Gallery has expanded its diverse public programs of activities to reach a broader audience, and its collection continues to grow with significant contributions from private benefactors. The Art Gallery's major exhibitions continue to attract large audiences and high media attention, despite increasing competition for audiences and sponsorship.

Public access to information about the collection was expanded with the integration of the Collection Database with the Art Gallery's website and further enhanced during this period with the incorporation of the first digital images. Art Gallery visitors were also able to purchase exhibition and art lecture entry tickets online for the first time this year.

### **STRATEGIC DIRECTIONS**

The Gallery's major strategic objectives are:

- ◆ to develop and maintain its collection of art works worth \$587 million;
- ◆ to develop and maintain the heritage building, which houses the collection; and
- ◆ to propagate and increase knowledge, appreciation, and access to the collection.

Recent initiatives include a three year program to digitise the collection and the major building extension project to be completed in 2003, which will provide significant new exhibition space with a major focus on the new Asian Art Gallery.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Gallery in 2003-04 are budgeted at \$32.1 million. Operating expenses for the forthcoming year are budgeted in line with normal escalation plus a slight increase for the additional activity of the new Asian Gallery due to be opened during 2003 and ongoing support for the digitisation of the collection.

Several major exhibitions are planned including the first Australian exhibition to show Caravaggio's artistic development and subsequent influence in depth. "Caravaggio: Darkness and Light" will be a landmark cultural experience for this country. Four Seasons is another major exhibition that explores the Japanese love and appreciation of nature through works of art spanning 400 years.

The Gallery is currently developing its exhibition program through to 2005 and is sourcing art works for these shows from its own collection and major international collections. Several individual exhibitions will be valued at \$500 million. These provide an opportunity for visitors to view works of art not otherwise available to the people of New South Wales.

### **Asset Acquisitions**

The major feature of the Gallery's Capital Program is the \$16.4 million building extension project. It entails the building of an Asian gallery, enlarging exhibition space on the upper level, expanding the Conservation Studio and improved visitor facilities.

The Gallery will continue its ongoing heritage building refurbishment and maintenance program of \$1.3 million in 2003-04.

Funding of \$0.3 million has been provided in 2003-04 for maintenance work at the Brett Whiteley Studio.

As part of the Gallery's mission to expand and improve the collection, funding of at least \$1 million from its own resources will be allocated to the acquisition of works of art. It is also anticipated that the collection will be enhanced with major contributions from the Art Gallery Society, the Art Gallery Foundation and private benefactors.

## STATE RECORDS AUTHORITY

The State Records Authority of New South Wales (State Records) is the State's archives and records management authority. Its purpose is to ensure that:

- ◆ the business of the New South Wales public sector is properly documented and the resulting records are managed efficiently and effectively for as long as they are needed; and
- ◆ the State archives collection is developed, documented, preserved and used.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Total expenses have increased from \$8.9 million in 1998-99 to an expected \$14 million in 2002-03. This increase is mainly due to increased employee related expenses flowing from the 2002 pay equity decision, higher maintenance costs for expanded facilities, support for regional archives, new outreach programs and the increased operating costs of the Government Records Repository business unit.

During the same period, revenue from the sale of goods and services has increased from \$5.3 million to \$7.6 million.

The *State Records Act 1998* gave State Records significant new responsibilities, notably to regulate and improve records management across the New South Wales public sector, particularly in the environment of electronic business and service delivery. The Act's coverage of local government, universities and the public hospital system effectively doubled State Records' jurisdiction.

The Act also provided improved protection for the State's archives, which will result in between 60 and 80 linear kilometres of such records being transferred to State Records' custody in the period to 2010.

Public expectations of State Records continue to grow, requiring new and innovative methods of service delivery, especially for people in rural and regional New South Wales.

## STRATEGIC DIRECTIONS

State Records will continue to pursue the key corporate goals set in its 2002-2005 Corporate Plan, including:

- ◆ reviewing the operations of the *State Records Act*;
- ◆ achieving measurable improvements in record keeping across the New South Wales public sector,

- ◆ improving the preservation and accessibility of State archives in rural and regional New South Wales;
- ◆ establishing practical solutions for the preservation and use of electronic records as State archives;
- ◆ providing better online access to more of the collection and more catalogue information about the collection; and
- ◆ capturing the community's imagination and building new audiences for the archives.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses are budgeted at \$13.8 million in 2003-04. This includes specific initiatives such as digitisation of key parts of the collection to make them accessible online, infrastructure and documentation projects for improving the preservation and use of archives in rural and regional New South Wales and a program of exhibitions to showcase the State archives collection.

### **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$4.8 million. \$4.5 million of this is self-funded and related to the commencement of Stage 6 of the repository building.

## **NEW SOUTH WALES FILM AND TELEVISION OFFICE**

The New South Wales Film and Television Office:

- ◆ promotes, encourages and facilitates film and television production in New South Wales;
- ◆ invests in script development;
- ◆ provides grants for industry and audience development and new media grants; and
- ◆ offers a liaison service between filmmakers and location owners.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The growth in production activity in New South Wales has significantly increased demand on the Film and Television Office's production funds over the past two years. To address this approval was given for the transfer of \$1 million from the Production Loan Fund administered by the Film and Television Office to provide additional production investment grants in 2003-04.

As a result, the Production Loan Fund has been reduced to \$4 million. Based on current and predicted demand, this lower balance in the Production Loan Fund is sufficient to meet expected future demand and to continue to attract production activity in the State.

Funding of \$0.3 million received in 2002-03 for Industry and Audience Development was directed in part to initiatives and activities in regional New South Wales and Western Sydney. This included a range of activities such as the very successful and well received 'Shooting West' film information, training and seminar at Casula Powerhouse.

These initiatives have enabled the Film and Television Office to improve community access and assist the expansion of the film-related activities and training in areas outside Sydney. Regional youth, in particular, have benefited from increased access to training and employment opportunities offered by the programs.

## **STRATEGIC DIRECTIONS**

Key priorities of the Office are:

- ◆ the promotion of employment, investment and export growth in the New South Wales film and television industry;
- ◆ the commitment to quality, innovation and local identity; and
- ◆ the encouragement of initiatives to assist the skills and experience of emerging and established talent.

Established in March 2002, the Aurora program of intensive feature film script development workshops and mentoring is progressing very well. One project from the first round has already been fully financed into production, with expectations for another two to be financed in the next few months. This compares extremely favourably with the industry average of five years to finance productions.

The Film and Television Office also provided funding and practical support for X\Media\Lab ('Cross' Media Lab), an intensive new media workshop for multiple platform digital content based on the Office's Aurora script development workshop model for film production.

To service the increasing demand for quality, high end studio space for both local and international productions, the Office has been active in providing strategic support and liaison for three new privately funded studio spaces in Sydney. These new spaces will increase the production capacity of Sydney and ensure that the State retains its prominent position in Australia.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Office are budgeted at \$9.6 million. This includes the additional \$1 million transferred from the Production Loan Fund to provide additional production investment grants in 2003-04.

This level of expenses will enable the Office to continue to fulfil an integral role within the film and television industry through its core programs of script and project development, pre-production and production support, industry and audience development support, new media development and assistance and liaising with production companies, stakeholders and local interests.

### **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$44,000 for minor works funding to improve and replace office equipment.

## **COMMUNITY RELATIONS COMMISSION**

The Community Relations Commission aims to promote the value of cultural diversity and the rights of individuals and organisations in New South Wales. The Commission is responsible for promoting unity and harmony in the community and ensuring the full participation of all persons in the social, economic, public and cultural life within the State.

The *Community Relations Commission and Principles of Multiculturalism Act 2000* recognises and values the different linguistic, religious, racial and ethnic backgrounds of the residents of New South Wales and facilitates the equitable access of government services by all.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Commission's expenses have increased over the last five years from \$12.1 million in 1998-99 to a projected \$14.7 million in 2002-03. This is due in part to increases in the provision of interpreting and translation language services. Expenses have also increased due to the introduction of additional programs responding to current community needs, such as the Cabramatta City Watch and the Arabic Youth Partnership.

## **STRATEGIC DIRECTIONS**

Through the provisions of the *Community Relations Commission and Principles of Multiculturalism Act 2000*, the Government has taken a whole-of-government approach to community relations. The Act requires the Commission to assist and assess the effectiveness of public authorities in observing the principles of multiculturalism in the conduct of their affairs, particularly in connection with the delivery of government services. The Commission is strongly committed to the Government Access Program and will be utilising Government Access Centres in small country towns to improve its service delivery to rural and regional New South Wales.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Commission are budgeted at \$15.5 million compared with a budget of \$13.6 million in 2002-03. This is due to further increases in the provision of languages services and the continuation of special projects such as the Arabic Youth Partnership, Cabramatta City Watch and the Pacific Islanders Youth Program.

### **Asset Acquisitions**

The Commission has been allocated \$0.5 million to continue with the implementation of the Online Language Services Project which originated in 2001-02 under the Government's *connect.nsw* initiative.

## **AUDIT OFFICE OF NEW SOUTH WALES**

The New South Wales Auditor-General is responsible for audits and related services under the *Public Finance and Audit Act 1983* and other New South Wales Acts. The Auditor-General forms part of the mechanisms whereby Parliament holds the Government accountable for fulfilling its responsibilities. The Audit Office assists the Auditor-General in fulfilling this role.

The Audit Office's core businesses are:

- ◆ financial audits that provide an independent opinion (report) on the financial statements of government agencies;
- ◆ reviews, involving the examination of compliance with, laws and regulations and policy directives of central agencies;
- ◆ performance audits that provide an independent assessment on selected government programs or activities in terms of their economy, efficiency, effectiveness and compliance with appropriate legislation; and
- ◆ advising Parliament and the Government on substantial matters identified during the audit process.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Audit Office derives its revenue from audit charges levied on its clients. Expenditure consists primarily of employee and accommodation expenses which have been driven by award and rental increases over time. Expenses have increased from \$22.7 million in 1998-99 to \$25.2 million in 2002-03.

## **STRATEGIC DIRECTIONS**

The Office is committed to providing appropriate training and opportunities to all staff. It is committed to an integrated information management and technology framework and using audit methodologies that:

- ◆ add value to clients and stakeholders;
- ◆ focus on client and business risk;
- ◆ are cost effective; and
- ◆ meet the requirements of the Australian Auditing Standards and quality standard AS/NZ ISO 9001:94.

## **2003-04 BUDGET**

### **Total Expenses**

Expenses are estimated to increase in 2003-4 to \$27 million from \$25.2 million in 2002-03. This is the result of the award increase to salaries and the expected make-good and re-location costs of moving to new premises. Expenditure on performance audits is expected to total \$2.8 million.

### **Asset Acquisitions**

Asset Acquisitions are estimated to total \$2.5 million in 2003-04. The majority of this will be spent on the fit-out of the proposed relocation of Office premises.

Other capital requirements are expected to be small as the Office continues to use operating leases to fund its computer requirements.

**PREMIER, MINISTER FOR THE ARTS AND MINISTER FOR  
CITIZENSHIP**

**4 PREMIER'S DEPARTMENT**

---

**4.1 Services for Administration of Government**

**4.1.6 Public Sector Management**

Program Objective(s): To support the public sector to deliver government objectives through leadership and provision of advice concerning reform, employee relations, equal employment opportunity, superannuation policy and actuarial services. To facilitate a whole-of government approach, where appropriate, to the improved delivery of public sector services, including e-Government.

Program Description: Development and monitoring of strategies to improve service delivery, and the effectiveness of electronic means of delivery. Provision of strategic advice on public sector reform and assistance to agencies in resolving complex management, employment equity and employee issues across the New South Wales public sector. Provision of advice to Government in the Department's statutory role as employer of public servants for industrial purposes.

**PREMIER, MINISTER FOR THE ARTS AND MINISTER FOR  
CITIZENSHIP**

**8 INDEPENDENT PRICING AND REGULATORY TRIBUNAL**

---

**8.1 Pricing Regulation**

**8.1.1 Pricing Regulation**

Program Objective(s): To provide independent assessments of pricing and associated activities including setting maximum prices and undertaking pricing reviews of monopoly services supplied by government agencies. To regulate natural gas pricing and third party access to gas networks, undertake general reviews of industry pricing or competition and to register agreements for access to infrastructure assets and to arbitrate in disputes arising from such agreements. To investigate complaints about competitive neutrality referred by the Government. To administer licensing or authorisation of water, electricity and gas businesses and monitor compliance with license conditions, including full retail competition requirements. To administer the NSW Greenhouse Gas Abatement Scheme.

Program Description: Provision of research and advisory services to support price regulation and review activities. Conduct of public inquiries, seminars, establishment of working groups and other consultative mechanisms and dissemination of information to ensure public involvement in Tribunal processes. Provision of services to settle disputes on third party access to infrastructure assets. Administrative arrangements to administer and monitor licenses and investigate complaints. Provision of a Registry to permit the creation and trading of greenhouse gas abatement certificates.

## DEPARTMENT OF AGRICULTURE

The Department of Agriculture's key role is to assist the New South Wales food and fibre industries to be economically viable and environmentally sustainable.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Projected expenditure in 2002-03 is \$276.4 million. Some notable enhancements to the Department's expenditure and budget in recent years include assisting noxious weed control and providing science based solutions to problems with salinity, acid soils, water use efficiency and on-farm risk management. To support these initiatives, while improving productivity and efficiency, the Department has continued modernising and rationalising its internal corporate support services.

Due to the prolonged and widespread nature of the drought in 2002-03, initiatives to support affected farmers and rural communities have been extended into 2003-04. Projected drought expenditure in 2002-03 is \$28.5 million. Primary producers and rural communities are faced with another winter of supplementary feeding stock. Continuing assistance measures into 2003-04 will help farmers to manage this.

## **STRATEGIC DIRECTIONS**

The Department's primary mission is to assist the State's \$8 billion per annum agriculture industries. The New South Wales economy, farmers, rural and regional communities are the main beneficiaries of the Department's research, advisory, education and regulatory services.

The key thrust of the Department's 2001-04 Corporate Plan is to provide practical, economically viable solutions to current agricultural and environmental problems. These initiatives assist the profitable production, processing and marketing of high quality residue food and fibre products for increasingly discerning domestic and overseas markets, in synergy with the Government and the community's commitment to the long term care of the State's environmental assets.

The Department's key strategies to achieve these goals are to:

- ◆ provide innovative and internationally competitive production, marketing and management technologies to industry by strengthening research, extension, education and regulatory capabilities;
- ◆ develop environmentally and economically acceptable practices for industry;
- ◆ minimise the risk of plant and animal diseases to agriculture, the environment and the community through integrated regulatory, diagnostic, surveillance, research, advisory and education services; and
- ◆ provide policy advice, information and regulatory responses to natural disasters, animal welfare and national competition policy.

## 2003-04 BUDGET

### Total Expenses

Components of the Department's \$275.3 million total expenses for 2003-04 are:

- ◆ \$80.3 million for innovative and internationally competitive agricultural industries programs aimed at delivering credible science based research into productivity, efficiency and marketing, delivering accredited training and maintaining certification systems to ensure market access;
- ◆ \$99.5 million for sustainable natural resource management programs aimed at providing solutions for sustainable farm management practices through adult learning techniques and peer group support with farmer groups;
- ◆ \$31.9 million for animal and plant protection programs to deliver credible information on pest and disease control, chemical residues, disease surveillance and chemical contamination from agricultural practices; and
- ◆ \$63.6 million for serving the broader community programs to deliver and manage the State's animal welfare legislation, respond to natural emergencies, support regional and rural development and provide advice to the Government.

Major allocations in the 2003-04 Budget include:

- ◆ \$22 million as one part of the Government's response to the drought, which includes the transport of stock to sale or slaughter, to and from agistment, transport of domestic water, fodder, and honey bee nectar. Assistance will also be provided for a feral pig and fox eradication program, the employment of Drought Support Workers, special grants to Rural Financial Counselling Services and farm family gatherings;
- ◆ \$7.2 million to improve the delivery of noxious weed control programs across New South Wales through local government authorities;
- ◆ \$7 million for the Red Imported Fire Ant eradication campaign being undertaken by the Queensland Department of Primary Industries;
- ◆ \$4.5 million towards the establishment of Safe Food Production NSW to oversee and co-ordinate food safety regulations across all New South Wales' food industries;
- ◆ \$2.6 million to introduce a Mandatory Livestock Identification Scheme, \$5.4 million to be provided over four years;

- ◆ \$2.5 million under the Government's five-year water reform program as embodied in the *Water Management Act 2000*;
- ◆ \$2.2 million towards biotechnology projects, including the establishment of an agricultural genomics centre at Wagga Wagga and preservation of biological assets;
- ◆ \$1 million to assist the sheep industry combat Ovine Johne's disease;
- ◆ \$0.9 million to fund actions under the Government's four-year \$52 million salinity strategy. Approximately \$13 million is being spent on salinity in 2003-04 across several agencies; and
- ◆ \$0.8 million to facilitate start up of the NSW Game Council. Total funding of \$1.3 million will be allocated to the Council over two years, from 2002-03.

### **Asset Acquisitions**

In 2001, NSW Agriculture produced its first strategic asset plan to facilitate asset management planning within the Department.

A key component of the Department's capital strategy is delivering multiple services from the Department's centres of excellence. The program focuses on linking the Department's asset requirements to service delivery needs.

Major items of NSW Agriculture's \$11.8 million asset acquisition program for 2003-04 include:

- ◆ \$2.5 million to enhance and upgrade information technology infrastructure;
- ◆ \$0.7 million to construct a vocational education centre at Orange;
- ◆ \$0.7 million to correct occupational health and safety and environmentally related issues at various locations;
- ◆ \$0.5 million for construction of organic waste recycling facilities at Menangle; and
- ◆ \$0.5 million for a genetic plant research laboratory at Wagga Wagga.

## RURAL ASSISTANCE AUTHORITY

The Authority administers assistance schemes, loans and financial support including:

- ◆ assistance to primary producers under the Commonwealth's Advancing Australian Agriculture package;
- ◆ the Special Conservation Scheme, which provides concessional loans to assist farmers to implement improved land management practices;
- ◆ the Natural Disaster Relief Scheme, which provides assistance to both producers and small businesses suffering from the effects of natural disasters;
- ◆ financial support for water use efficiency schemes under the water reform structural adjustment program, farmers' attendance at training programs under FarmBis, properties infected with Ovine Johne's Disease, and the future management of groundwater in the Namoi Valley;
- ◆ the *Farm Debt Mediation Act 1994*, which requires financiers to offer farmers mediation prior to commencing legal recovery action on secured debts; and
- ◆ other initiatives such as the Murrumbidgee Rural Partnership Program and West 2000 Plus program.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Projected expenditure in 2002-03 is \$56.8 million. Drought assistance under Exceptional Circumstances is expected to total \$16.5 million in 2002-03. Drought related initiatives will increase Special Conservation Scheme expenditure by \$4.5 million to \$12.3 million in 2002-03.

The FarmBis - Skilling Farmers for the Future Program, commenced on 1 July 2001. The program is an assistance scheme for farmers to undertake farm business management training. The New South Wales and Commonwealth Governments are providing joint funding of \$26.8 million over three years.

The Authority also manages the Water Use Efficiency Scheme, as part of the Water Reform Structural Adjustment Program. A total of \$25 million was allocated to the program over a five-year period. The scheme is designed to encourage irrigators to make optimal use of irrigation water by providing financial assistance to irrigators with the capacity to undertake capital improvements to increase on-farm water use efficiency and the adoption of water use monitoring technologies.

The West 2000 Plus program commenced in 2001-02. The scheme will allow farmers in the Western Division to improve their economic performance, business management skills and develop alternative industries. The region's natural resource base will also be better managed.

The Authority commenced administering Ovine Johne's Disease grant assistance in 2002-03. Grants are allocated from industry funds to owners of infected flocks, to manage and control the disease. The State and Commonwealth Governments are providing joint funding of \$11.8 million over three years.

In 2002-03 the Authority commenced administering structural adjustment for Namoi Groundwater users, by providing assistance to irrigators. Funding for the program is provided to the Authority by the Department of Infrastructure, Planning and Natural Resources.

## **STRATEGIC DIRECTIONS**

The Authority will continue to emphasise measures which improve performance in the areas of productivity, profitability, sustainability and farm financial management skills.

## **2003-04 BUDGET**

### **Total Expenses**

In 2003-04, total expenses of the Authority are budgeted at \$36.1 million. Increased expenditure is mainly due to drought related initiatives.

Key areas of expenditure include:

- ◆ \$14.8 million for the Advancing Australian Agriculture program, which includes FarmBis and Exceptional Circumstances provisions;
- ◆ \$5.4 million for the Water Use Efficiency scheme; and
- ◆ \$1.3 million in Commonwealth funding for the West 2000 and West 2000 Plus schemes.

### ***Special Conservation and Natural Disaster Schemes***

The Authority manages the Special Conservation Scheme which provides concessional interest loans for works such as soil conservation, irrigation and water supply. Loans are provided on the basis that the proposed works would have a beneficial impact on the land, the community and the environment. The scheme has been extended to include drought related initiatives such as stock and domestic water and dam desilting. An amount of \$7 million has been provided for the scheme in 2003-04.

The Authority also manages the Natural Disaster Relief Scheme on behalf of the State. Under this scheme, concessional interest rate loans are made available to assist eligible primary producers and small businesses recover from the effects of natural disasters, such as storms, floods or bushfires. In 2003-04, \$2 million has been notionally provided for this scheme.

### **Asset Acquisitions**

The Authority receives a minor allocation of \$50,000 for the replacement and upgrade of computer facilities. An additional \$90,000 has been provided in 2003-04 to purchase replacement storage facilities.

## **NEW SOUTH WALES FISHERIES**

New South Wales Fisheries is the State's aquatic resource management agency. It conserves, develops and shares the fisheries resources of the State for the benefit of present and future generations. Its role involves developing strategies for the conservation and sustainable use of fisheries resources, undertaking research to underpin those strategies, and carrying out compliance activities.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

During 2002-03, New South Wales Fisheries has achieved significant milestones in conserving the State's fisheries and fostering growth in the emerging aquaculture industry. Projected expenditure is \$59.1 million and key initiatives over the past year have included:

- ◆ completing the final year of the Government's three year \$3 million Aquaculture Initiative – which featured a series of business investment forums, the development of sustainable aquaculture strategies for regional areas, and key research initiatives;
- ◆ finalising environmental impact statements for three commercial fisheries – the estuary general fishery, the ocean hauling fishery and the estuary prawn trawl fishery;

- ◆ buying out 251 fishing businesses as a result of the establishment of 29 new recreational fishing havens in estuaries along the New South Wales coast, funded by a \$20 million loan to be repaid from recreational fishing fees;
- ◆ finalising recovery plan for the grey nurse shark and implementing a range of initiatives to protect the endangered Murray ecological community;
- ◆ implementing a control program for the pest weed *Caulerpa taxifolia* in affected estuaries;
- ◆ finalising an indigenous strategy; and
- ◆ finalising the zone plan for the Jervis Bay Marine Park and buying out 30 fishing businesses in the Solitary Islands Marine Park and 17 in the Jervis Bay Marine Park to ensure no transfer of fishing effort as a result of establishing sanctuary zones.

## **STRATEGIC DIRECTIONS**

New South Wales Fisheries' strategic direction includes:

- ◆ progressing the development of fishery management strategies and environmental impact statements for each of the State's significant commercial fisheries, recreational fishing and fish stocking;
- ◆ developing regional sustainable aquaculture strategies;
- ◆ providing certainty in the commercial fishing sector by progressing the issue of shares in the share management fisheries;
- ◆ working with local communities to expand the marine parks network;
- ◆ finalising zone and operational plans for the Lord Howe Island Marine Park; and
- ◆ developing recovery plans for listed threatened species, populations and ecological communities.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 will be \$60.2 million. This is an increase of over \$2 million on 2002-03 budget and includes:

- ◆ an additional \$0.8 million for the Indigenous Fishing Strategy – the second stage of a two year \$1.6 million funding package;
- ◆ an additional \$0.2 million to assist in the conservation of marine biodiversity at the Cape Byron Marine Park; and
- ◆ an additional \$4.4 million for the buy-out of commercial fishers from the Cape Byron Marine park.

### **Asset Acquisitions**

The Asset Acquisitions program for 2003-04 totals \$1.8 million. This includes:

- ◆ \$0.6 million to continue the upgrade the department's corporate information network and ongoing computer replacement, to allow more effective service delivery;
- ◆ \$0.5 million to maintain and replace essential operational and administrative equipment;
- ◆ an additional \$0.4 million for marine parks;
- ◆ \$0.2 million for an ongoing boat replacement program; and
- ◆ \$0.2 million for outboards and small marine craft in accordance with New South Wales Fisheries' replacement program.

## **SAFE FOOD PRODUCTION NSW**

Safe Food Production NSW (Safe Food) was established in December 1998 as a first step towards a single government agency responsible for food safety. Safe Food's coverage, which is being implemented in stages, extends from production, harvest or catch to the "back door of retail". Safe Food also covers retail butcher shops and supermarket meat departments.

Safe Food develops and manages food safety schemes. Each scheme is tailored to specific industries or sectors and is introduced by regulation. Dairy and meat food safety schemes have been implemented. A seafood safety scheme regulation was introduced in December 2001 and Safe Food is currently implementing a food safety program. Schemes are also being developed for plant products and goat and sheep milk. Regulations for these programs will shortly be introduced. Safe Food has commenced work with the egg industry to achieve regulation in late 2004.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

In December 2000, the Hon. John Kerin was appointed to review these arrangements and related issues. The Government has since accepted all recommendations in the final report of the Kerin funding review. Under this framework, it was agreed that the funding of Safe Food would be shared by government and industry.

Safe Food was reviewed during 2002 under Section 73 of its legislation. The review recommended that Safe Food be merged with the food regulatory staff and resources of NSW Health to establish a single agency responsible for food safety and other food regulatory matters. The Government has accepted this recommendation. Safe Food and NSW Health are working on transitional arrangements with a view to launching the new agency by December 2003.

## **STRATEGIC DIRECTIONS**

Safe Food's mission is to protect consumers by developing scientifically robust food safety systems and ensuring their effective adoption by the New South Wales food industry.

Safe Food's key strategies are:

- ◆ ensuring that food safety scheme requirements are based on sound science, are proportionate to food safety risks, and are regularly reviewed;
- ◆ involving stakeholders, including industry and consumers in scheme development and review processes to ensure that food safety requirements are practical, effective and understood by industry;
- ◆ establishing robust mechanisms for consultation on the continuing operation of food safety schemes; and
- ◆ maintaining strong awareness of emerging food safety issues and regulatory developments.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenditure in 2003-04 is estimated at \$17.7 million. This mainly relates to the provision of food safety audit, enforcement, scheme development, implementation and licensing services.

Increased expenditure in 2003-04 is due to the establishment of a single agency responsible for food safety and other food regulatory matters.

### **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$1.1 million. This includes \$0.9 million towards the purchase of an office building to provide for Safe Food's future accommodation requirements at a total cost of \$7 million.

## MINISTER FOR AGRICULTURE AND FISHERIES

### 21 NEW SOUTH WALES FISHERIES

---

#### **21.1 Fisheries Conservation and Management**

##### **21.1.1 Fisheries Conservation and Management**

**Program Objective(s):** To conserve, develop and share the fishery resources of the State for the benefit of present and future generations.

**Program Description:** Management, research and compliance programs to conserve the State's fisheries resources and habitat, promote sustainable harvest, allocate resources fairly between users and facilitate the further development of a viable aquaculture industry.

(a) A number of Public Sector agencies have been restructured as at 2 April 2003. At this stage only high level aggregates are available for the 2002-03 year and 2003-04 Budget. Detailed Financial Statements and program statements for these agencies will be published on 26 August 2003.

(b) The 2002-03 figures are agency figures prior to the restructure.

## ATTORNEY GENERAL'S DEPARTMENT

The role of the Attorney General's Department is to administer the legal system of New South Wales and develop and implement programs which promote a safe and harmonious society.

The Department provides the legal and administrative framework to facilitate the conduct of the Attorney General's role as the first Law Officer of the Crown, as well as providing support services to enable the fulfilment of the Attorney General's legislative and advisory responsibilities to Parliament and Cabinet.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Key initiatives and achievements in 2002-03 included:

- ◆ Continued support for the courts to achieve reform to further reduce delays and improve services. In partnership with the judiciary these reforms have led to an immense improvement in the time taken by the NSW Supreme Court to finalise criminal matters. In particular, the percentage of criminal matters finalised within 6 months has increased from 12 percent to 34 percent since 2000-01. The percentage of criminal matters finalised within 12 months has more than doubled since 2000-01, increasing from 38 percent to 79 percent.

- ◆ The Lawlink NSW website ([www.lawlink.nsw.gov.au](http://www.lawlink.nsw.gov.au)) experienced significant growth during the year, maintaining Lawlink's position as one of Australia's premier legal and government websites. For example, the *Caselaw* link now regularly receives in excess of 900,000 hits per month, an increase of 100 percent in 12 months.
- ◆ Drug crime diversion programs, such as the trial of the Youth Drug Court at Cobham and Campbelltown Children's Courts, and the NSW Adult Drug Court, were significantly enhanced and extended. In addition, the MERIT (Magistrates Early Referral Into Treatment) program is now operating in 31 Local Courts across New South Wales.
- ◆ Continued improvement in access to courts for people with disabilities. The Department has purchased 25 infra-red hearing assistance systems and 26 TTY (telephone typewriter) systems. The Department's Flexible Service Delivery Project has been completed at 38 sites within the Department. This Service provides training, resources and a management framework for frontline staff to provide better services to clients with a disability.
- ◆ Improved physical access for people with disabilities was achieved (via ramps, improved signage, and accessible counter designs) at a number of locations including Glen Innes, Kempsey, Kyogle, Tumut, Moree, Bombala, Gundagai, Penrith and Moruya.
- ◆ For victims of crime, service standards were reviewed and procedures for compensation were streamlined. New fact sheets for victims were developed, and information about the Charter of Victims Rights was translated into 24 community languages and made available on the Lawlink website. The Homeless Persons Project was established, and new payment options were provided to debtors, including Direct Debit and Direct Payment. Ninety-eight percent of applications for initial two-hour counselling sessions were processed within 48 hours.
- ◆ A review of the procedures in the Land and Environment Court was undertaken and resulted in a number of recommended reforms which were implemented during the year. These reforms included a merit planning appeals review, which has resulted in a significant improvement through the adoption of on-site hearings.
- ◆ Promotion and extension of the video conferencing infrastructure in the courts and justice agencies which included the addition of a tailored system to support the government initiative in managing child sexual assault cases.

- ◆ Major conservation and renovations at the historic King Street Court complex. The project has included the provision of new cells, new facilities for interviewing and transporting of prisoners, upgrading Court three and new accommodation for the Sheriff.
- ◆ Ongoing major upgrading of court facilities at Woy Woy, Grafton, Glebe Coroners Court, and completion of major upgrading of Moree Courthouse which included the provision of a new local court.

2002-03 enhancements:

- ◆ The Office of the Public Guardian has continued with the Early Discharge Strategy which involves the employment of additional guardians to better manage the needs of an increasing number of people requiring guardianship and advocacy services; and
- ◆ A project aimed at steering young people away from graffiti vandalism has been introduced through a \$0.4 million grant to the Beat Graffiti Scheme. The scheme funds legal art and other anti-graffiti projects which improve community spaces with art works and community events, as well as developing the artistic and personal skills of the participants. The projects also strengthen relationships between young people and their communities. The Crime Prevention Division is also continuing to develop partnerships with local and state government agencies and industry to find innovative solutions to graffiti vandalism on transport and public facilities such as schools.

## **STRATEGIC DIRECTIONS**

The key challenges driving the Department's strategies and business planning are excellence in client service, good management and working well with others. There is a strong commitment at all levels of the organisation to respond to these challenges to ensure client satisfaction, community confidence and a motivated and productive workforce.

Key priority areas include:

- ◆ implementing the CourtLink NSW system (formerly Courts Administration System) in the Supreme Court and District Court;
- ◆ implementing improved court security through the training and deployment of more Sheriff's Officers in key locations throughout NSW;
- ◆ continuing to progress and support reform in NSW courts;

- ◆ establishing the NSW Sentencing Council;
- ◆ establishing Child Sexual Assault Courts in Sydney, Western Sydney and Dubbo;
- ◆ continuing the enhancement of crime prevention responses, including expansion of drug crime diversion programs. These diversion programs are targeted at serious offenders who, without intervention, could face incarceration. They provide intensive supervision and appropriate treatment and rehabilitation services to eligible offenders with drug problems. The objective is to break the drug-crime cycle and thereby reduce re-offending by the participants;
- ◆ extending the trial implementation of Circle Sentencing for indigenous communities to Dubbo, Walgett and Brewarrina;
- ◆ continuing development of e-business and electronic service delivery;
- ◆ improving information sharing within the NSW justice sector through linkages between Local Courts and Police which allow electronic exchange of criminal histories and court outcomes. The Department is exploring new approaches to the sharing of information, including complementary work processes across traditional agency boundaries, and common tools to share information in the most efficient and effective manner;
- ◆ progressing the implementation of improved national key performance indicators for courts in the *Report on Government Services*; and
- ◆ continuing to develop and implement initiatives for Corporate Services Reform.

The Department will also continue to take lead responsibility for a wide range of key programs including:

- ◆ support for the Waterfall Inquiry;
- ◆ provide videoconferencing facilities for the justice sector; and
- ◆ provide core legal services to the State.

Due to changes to the workers compensation scheme, the Compensation Court did not accept claims lodged after 31 March 2002. The Court is expected to clear all matters that existed at 31 March 2002, and to cease operations by 31 December 2003. All claims are now lodged at the Workers' Compensation Commission.

## **2003-04 BUDGET**

### **Total Expenses**

In 2003-04, the total expenses of the Attorney General's Department are estimated to be \$534.2 million.

Funding of \$3 million has been provided to the Office of Protective Commissioner to provide services to those clients who cannot afford its services. Those funds will allow the Office to better assist its clients, particularly those that have less than \$50,000 in assets and cannot afford the fees.

Funding of \$1.7 million has been provided to the Public Trust Office to cover operating losses incurred by the Office on preparation, estate and trust administration costs of wills for estates valued at less than \$50,000.

Continuation of funding of \$4.3 million for video conferencing will allow current and new initiatives to be progressed improving operational efficiency and service delivery across the justice sector. Video conferencing has quickly gained acceptance as a key element in the service delivery strategies of participating agencies.

Over the next four years an additional amount of \$7.1 million will be provided to the Sheriff's Office to enhance existing capabilities to address risks in the State's system of courts. The various measures proposed are considered to be a balanced response to the changed global and domestic risk environment. Of the additional amount provided, \$1 million has been allocated in 2003-04.

The Government has established a Special Commission of Inquiry into the Waterfall Rail Accident. The Inquiry is expected to conclude in 2003-04, and \$6 million has been allocated in that year to meet the Inquiry's costs (\$3.7 million in 2002-03).

Funding of \$0.2 million will enable the Department to establish a pilot project to trial a specialist child sexual assault jurisdiction. The specialist jurisdiction will be staffed by trained judges, prosecutors and court staff to protect children from further trauma and victimisation, and to receive their evidence in the best possible way by using pre-recording and closed circuit television equipment.

Funding of \$0.3 million per annum is provided for the establishment of the NSW Sentencing Council to advise the Attorney General on sentencing matters. The Council will also monitor and report annually to the Attorney General on sentencing trends and practices, including the operation of standard non-parole periods and guideline judgements.

## Asset Acquisitions

The Attorney General's Department's asset acquisition program provides for the construction of new courthouses, expansion and modification of existing courthouses, development of major computing facilities, and the purchase and replacement of plant and equipment. The funding for the 2003-04 program is \$58.2 million.

The major new works, with their estimated total costs (ETCs), are:

- ◆ planning processes to construct a new Sydney West Trial Court facility at Parramatta. The project includes refurbishing the existing Parramatta Courthouse facility. The new trial court complex will feature nine trial courts, court registry, jury assembly rooms, conference and interview rooms and accommodation for support services. The courtroom will be designed to allow sittings of the Supreme Court, District Court and Local Courts for serious criminal matters as well as the NSW Parole Board (ETC \$58 million, \$1 million in 2003-04);
- ◆ accommodation fitout of the Industrial Relations Commission. This is included in the refurbishment of the Chief Secretary's Building being undertaken by the Department of Commerce at an estimated total cost of \$31.9 million. The Attorney General's Department's component is estimated at \$8.4 million over three years (\$3.3 million in 2003-04);
- ◆ establishment of a regionally based community residential centre for Aboriginal young people at risk of contact with the criminal justice system. This facility will provide drug and alcohol rehabilitation, life skills and cultural education for young people. It is aimed at reducing rates of offending and recidivism, and addressing concerns in regional towns about the level of juvenile offending (ETC \$2.3 million, \$2.1 million in 2003-04); and
- ◆ establish a new centralised information technology network infrastructure. This solution involves the provision of a modern, scalable and reliable network for user access to centralised mission-critical applications via intranet/internet portals. The project aligns the Department with the wider government initiatives related to the development of shared services, the NSW Bandwidth Plan and other objectives (ETC \$11.4 million, \$3.1 million in 2003-04).

Other components of the 2003-04 program are:

- ◆ continuation of implementation of the Courts Administration System (CourtLink). CourtLink will provide a “single counter” ability for the courts and provide seamless access to the Supreme, District and Local Courts together with other courts and tribunals such as the Coroner’s, Drug and Children’s Courts. The centralised database structure of the software will mean that matters can be easily transferred between courts and locations. The estimated total cost of the project is \$15.7 million (\$15.4 million in 2003-04);
- ◆ construction of six new children’s courts at Parramatta (ETC \$21.8 million, \$4.4 million in 2003-04);
- ◆ a new children’s court in the Hunter District at Broadmeadow (ETC \$7.6 million, \$2.5 million in 2003-04);
- ◆ construction of new local courts at Bankstown (rebuilding the existing three courts) and Mount Druitt (a two court complex) and upgrading and extending existing courts at Blacktown (one new courtroom) and Nowra (one new court). These projects will provide capacity for five additional local courts, and modernised support facilities to service the community needs with enhanced security and access (ETC \$35.1 million, \$9.8 million in 2003-04); and
- ◆ a building upgrade allocation of \$8.3 million in 2003-04 to correct non-compliance with current building codes and standards including fire safety.

## **JUDICIAL COMMISSION OF NEW SOUTH WALES**

The Commission's major functions are:

- ◆ organising and supervising the continuing education and training of judicial officers;
- ◆ assisting the courts to achieve consistency in imposing sentences; and
- ◆ examining complaints against judicial officers.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Over the last five years, the core responsibilities of the Judicial Commission have remained unchanged. Expenditure trends over that period have also not varied markedly.

In October 2002, the Commission launched a revised Criminal Trial Courts Bench Book for use by judges in directing juries in criminal trials. The standard directions contained in this publication will improve the efficiency of the administration of criminal justice and assist in eliminating error on the part of trial judges. For the first time the Commission has made the Bench Book generally available on its website.

During 2002-03 the Commission undertook a conduct inquiry at a cost of \$0.4 million.

## **STRATEGIC DIRECTIONS**

The Commission will continue to focus on providing high quality, relevant programs to help judicial officers perform their professional duties. These initiatives include various seminars, publications and the computerised Judicial Information Research System containing sentencing and other information.

An extensive range of conference and seminar programs will be offered to judicial officers in each court. These will range from induction courses for new appointees to specialist conferences on specific aspects of law, procedure, judicial skills and technique. Regular seminars will address current developments and emerging trends in the law as well as areas in need of review.

The Commission will continue to promote judicial officers' awareness of social context issues involving children, women, sexual offences, domestic violence and ethnic minorities.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses of the Commission are projected to be \$3.9 million in 2003-04.

An amount of \$0.1 million has been provided to maintain the Lawcodes databases to meet current demands from the justice system and to re-engineer the databases to take advantage of new technologies.

## **Asset Acquisitions**

An amount of \$48,000 has been provided to meet the Commission's ongoing plant and equipment needs.

## **LEGAL AID COMMISSION OF NEW SOUTH WALES**

The Legal Aid Commission is established under the *Legal Aid Commission Act 1979*, and provides legal assistance in matters arising under New South Wales and Commonwealth law. The Commission promotes access to justice for disadvantaged people by providing legal information, advice, alternative dispute resolution and representation.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The primary sources of funds for the Legal Aid Commission are the State and Commonwealth Governments and the Public Purpose Fund. The Commission is funded by the Commonwealth to provide legal assistance in matters arising under Commonwealth law in line with the priorities and guidelines set by the Commonwealth.

The Commission's Criminal Law program continues to change rapidly as a result of initiatives introduced by other justice sector agencies. Higher expenditure is being incurred as a result of increased prisoner numbers, new laws, a higher incidence of complex and expensive criminal trials and increased courts activity. Additional funding has been allocated in the 2003-04 Budget to offset the cost to the Legal Aid Commission of these trends.

## **STRATEGIC DIRECTIONS**

In 2003-04, the Commission will improve service delivery and better manage costs through the following initiatives:

- ◆ implementation of panels of private legal practitioners in designated areas of legal practice to perform legal aid work;
- ◆ enhancement of equitable access to family law services across the State;
- ◆ enhanced delivery of quality, targeted civil law services across the State;
- ◆ increased use of electronic lodgement of applications and claims;
- ◆ improved business analysis and reporting tools, linking financial, human resource and operational information;

- ◆ implementation of the recommendations of the Commission's Criminal Law Review;
- ◆ development of a comprehensive recruitment strategy to attract multi-skilled entry level staff;
- ◆ enhancement of links with the Government, courts and partners in the justice system; and
- ◆ development of an on-line resource for private legal practitioners.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses of the Commission are projected to be \$141.8 million in 2003-04.

The Criminal Law Program has been allocated an additional \$4 million to offset the downstream effects of initiatives introduced by other justice sector agencies which are resulting in an increasing workload for the Commission.

The Commission will increase activity levels in the Family Law Program in 2003-04 to utilise additional funding made available by the Commonwealth under a four year agreement which commenced in 2000-01.

The Commission has allocated \$0.6 million for its new office at Dubbo. This will enable the Commission to provide the full range of legal aid services to clients in Dubbo and surrounding areas.

### **Asset Acquisitions**

The Commission's asset acquisition program of \$3.7 million in 2003-04 will enable:

- ◆ the ongoing replacement of its core business system, LA Office;
- ◆ continued implementation of electronic lodgement of applications and pro forma invoicing by the private profession and in-house solicitors; and
- ◆ improved access to the Commission by upgrading the existing communications network.

## OFFICE OF THE DIRECTOR OF PUBLIC PROSECUTIONS

The Office of the Director of Public Prosecutions is responsible for the prosecution of all indictable and certain summary offences against New South Wales' laws, and the conduct of appeals in the Local, District, Supreme and High Courts.

### EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Since 1999-2000, the Office has received additional recurrent funding of \$14.4 million as a result of increased workloads, including \$3.1 million per annum from 2001-02 to meet increased costs associated with the appointment of additional police officers.

The Drug Court pilot commenced in 1999 in Parramatta and continued through 2002-03. The Office will continue its commitment to the program during 2003-04.

The *Criminal Procedure Amendment (Pre-Trial Disclosure) Act 2001* commenced on 19 November 2001. The legislation allows the court, on a case-by-case basis, to impose pre-trial disclosure requirements on both the prosecution and the defence in order to reduce delays in complex criminal matters in both the District and Supreme Courts.

Under this legislation, strict limitations apply to the presentation and amendment of indictments in trials before the District Court and Supreme Court. In order to settle a final indictment within the limited timeframe allowed, and to avoid serious consequences of an unamendable error in the indictment, additional Crown Prosecutors were appointed and increased recurrent funding of \$1.3 million was provided to the Office in 2001-02 (\$2 million per annum thereafter). The Office has been involved in a review of the longer-term financial implications of the legislation during 2002-03.

In February 2002, the Office provided a substantial increase in resources to the Supreme Court to permit additional sittings in May and June 2002, mainly to address the increases in the pending caseload of the Court of Criminal Appeal. This trend of increased caseload is expected to continue in 2003-04.

The Chief Judge of the District Court has initiated two additional trial courts-sittings in Sydney West, to address both the increased number of registered criminal trials during the year and to maintain time standards for the disposition of criminal trials. Given the significant increases in serious criminal matters dealt with in Sydney West, these additional sittings are expected to continue during 2003-04.

## **STRATEGIC DIRECTIONS**

The Office will continue its commitment to improving the criminal justice system and to providing the people of New South Wales with an independent, fair and just prosecution service.

The Office and NSW Police have successfully implemented a system for electronic interchange of information relating to indictable charges. As a further development of this initiative, the two agencies are working closely to develop a project implementation plan for the electronic transfer of briefs of evidence.

The Reporting Service Branch of the Attorney General's Department provided facilities for the Office during 2002-03 to pilot the electronic provision of District and Supreme Court transcripts. The pilot has been successful, and further testing will be conducted in the first quarter of 2003-04.

Upgrading of the Office's information technology infrastructure will continue in 2003-04. This will provide an integrated document management system and improve the Office's capacity to report on performance. The upgrading will significantly improve the Office's efficiency and enable more effective communication with other criminal justice agencies.

The Office will implement an activity based costing system for recording and reporting the costs associated with the prosecution of indictable matters, to enable the Office to compare costs with similar services provided by other prosecuting agencies, and develop benchmarks for improved management of costs.

During 2003-04, the Office will continue to give high priority to increased co-operation with other criminal justice agencies to improve performance of the criminal justice system. Additionally, emphasis will continue to be placed on the provision of services to victims and witnesses.

## **2003-04 BUDGET**

### **Total Expenses**

In 2003-04, the Office's total expenses are estimated at \$72 million, which includes \$3 million for the reimbursement of witnesses' expenses, and \$2.1 million for the continuation of the pre-trial disclosure regime.

## Asset Acquisitions

The Office's asset acquisition program in 2003-04 is \$1.8 million.

The Office will implement an activity based costing system for recording and reporting the costs associated with the prosecution of indictable matters to enable the Office to compare costs with similar services provided by other prosecuting agencies, and develop benchmarks for improved management of costs. Capital funding of \$0.5 million has been allocated to this project.

Testing of the electronic provision of District and Supreme Court transcripts pilot project should be completed in the first quarter of 2003-04. The estimated cost is \$0.8 million.

In addition, the Office will spend its minor works allocation of \$0.6 million for various ongoing plant and equipment replacement, furniture and fittings.

## ENVIRONMENT PROTECTION AUTHORITY

The Environment Protection Authority has been restructured.

The Healthy Rivers Commission and its staff have moved from the Environment Protection Authority to the Department of Infrastructure, Planning, and Natural Resources.

---

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	138,471	95,621
Capital Appropriation .....	8,729	3,179
Total Expenses .....	171,432	124,292

---

## STRATEGIC DIRECTIONS

The Environment Protection Authority's (EPA) objectives are to protect, maintain and restore the quality of the environment, having regard to the need to maintain ecologically sustainable development. It also seeks to reduce environmental risks to human health and to prevent degradation of the environment.

The EPA's *1998 to 2003 Corporate Plan* sets its mission as that of guiding the community to achieve and maintain a healthy environment in a productive New South Wales.

The EPA has developed strategies involving innovative and targeted monitoring, regulation and enforcement as well as the use of economic mechanisms, education and the planning process.

Of particular importance have been recent legislative changes to the overall regulatory regime for environmental control in New South Wales. This has included the introduction of a system of load based licensing as a means of focusing on the total load of pollutants discharged into the environment rather than the concentration of pollutants in discharges. The system directly links the level of licence fee to the total load.

These strategies will assist the EPA in addressing:

- ◆ issues of waste generation, transport, disposal and management;
- ◆ increased pressures on the environment as a result of increased urban population and development;
- ◆ problems of maintaining and improving the health and sustainability of marine and freshwater environments; and
- ◆ the adverse impacts on the environment and public health of chemicals, hazardous substances and other contaminants.

## **2003-04 BUDGET**

### **Initiatives/Total Expenses**

Due to the estimated accumulated cash balance of \$57.4 million in the Waste Fund, the Government has decided to suspend contributions from the EPA into the Waste Fund until the existing cash balance has been utilised. This has reduced the EPA's expenses in 2003-04 by more than \$40 million.

Major initiatives for 2003-04 include:

- ◆ \$0.6 million in expenditure on the maintenance of the air quality monitoring network; and
- ◆ a contribution of \$23.8 million to the Zoological Parks Board for various purposes, including the continuing comprehensive program of rebuilding and modernisation of facilities, research and public education.

## Asset Acquisitions

Asset acquisitions in 2002-03 total \$3.2 million.

Capital expenditure of \$0.7 million will be incurred for the continuing upgrade of the air-quality monitoring network.

## ENVIRONMENTAL TRUST

The Environmental Trust operates under the *Environmental Trust Act 1998*. The objectives of the Trust are:

- ◆ to promote environmental education, encourage the development of education programs and increase the awareness of environmental issues;
- ◆ to promote research into environmental problems;
- ◆ to encourage and support restoration and rehabilitation projects that are likely to reduce pollution, the waste stream or environmental degradation within New South Wales; and
- ◆ to fund acquisition of land for national parks.

In addition, the *Forestry Restructuring and Nature Conservation Act 1995* provides access to the Trust's funds to meet various costs. This Act requires the Trust to reimburse the Consolidated Fund for authorised expenditure originally made from the Consolidated Fund associated with the following objectives:

- ◆ restructuring the timber industry for the purpose of conserving New South Wales forests;
- ◆ reserving and conserving new national parks; and
- ◆ implementing a range of high priority environment projects.

The Trust makes grants on an annual basis to projects and programs which often run over two or three years.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Expenditure from the Trust and its predecessor bodies has risen steadily from 1995-96 reflecting refunds to the Consolidated Fund for initiatives under the *Forestry Restructuring and Nature Conservation Act 1995*. Amendments to this Act have increased the total amount of forest industry restructuring payments from \$60 million to \$80 million and extended the scheme by a further five years to June 2006.

Since 1995-96, a total of \$56.4 million has been reimbursed from the Trust for forestry purposes.

Since July 2000, the *Environmental Trust Act 1998* empowered the Trust to fund larger grants programs, land acquisition and high priority environmental projects. These programs and projects commenced in 2000-01 and are still increasing in number and size.

## **STRATEGIC DIRECTIONS**

As the first round of high priority programs (commenced in July 2000) draws to a close, these are being replaced with new programs. For example, in 2003-04, significantly increased funds will go to land acquisition for national parks.

Under the *Environmental Trust Act 1989*, the Trust receives a standing appropriation from the Consolidated Fund to fund its programs (\$15.6 million in 2003-04).

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are projected to be \$19.3 million, an increase of \$3.3 million on actual expenses in 2002-03, and include the following:

- ◆ forest industry restructuring expenditure incurred under section 4 (1) (a) of the *Forestry Restructuring and Nature Conservation Act 1995*;
- ◆ new grants awarded to state and local government agencies, community groups and research organisations; and
- ◆ committed but unpaid instalments on grants from previous years.

## NATIONAL PARKS AND WILDLIFE SERVICE

The National Parks and Wildlife Service and the Department of Sport and Recreation are in the process of reviewing the administration and transfer of certain regional parks to the Department of Sport and Recreation.

---

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	187,439	198,792
Capital Appropriation .....	32,097	26,144
Total Expenses .....	342,440	305,305

---

### STRATEGIC DIRECTIONS

The objectives of the National Parks and Wildlife Service (NPWS) are to conserve, protect and manage the State's natural and cultural heritage and to provide opportunities for members of the public to enjoy, appreciate and support national parks, and the conservation of the State's heritage.

The NPWS has adopted three key conservation themes that reflect a shift in focus towards greater community involvement:

- ◆ facilitating conservation outside of the formal reserve system;
- ◆ managing the reserve system within a regional landscape context; and
- ◆ introducing agreed conservation criteria to target further improvement to the reserve system.

Within this framework, specific initiatives focus on strategic additions to the reserve system in under-represented bioregions, especially in western New South Wales, as well as enhancing the conservation value of reserves and improving visitor facilities and education programs. The initiatives also provide improved protection of biodiversity and cultural heritage and foster working with Aboriginal communities in joint management arrangements for culturally significant lands.

The NPWS also works with the general community to promote conservation efforts on privately owned lands.

## 2003-04 BUDGET

### Initiatives/Total Expenses

Total expenses in 2003-04 are estimated at \$305.3 million. Major expenditure areas include fire management, pest species management and the maintenance of essential infrastructure to facilitate management, access and enjoyment of the reserve system by the community. Emphasis will continue on community education and consultation to further engage stakeholders in the delivery of conservation programs.

Major new areas of expenditure include:

- ◆ additional funds for pest, animal and weed control;
- ◆ dedicated funds to establish and facilitate joint management of national parks with Aboriginal people from 2004-05;
- ◆ management of high conservation “icon areas” in North East New South Wales that have been transferred from NSW State Forests; and
- ◆ improvements in parks in the Blue Mountains and Central Coast areas from 2004-05.

### Asset Acquisitions

Total capital program for 2003-04 is estimated at \$48.1 million, which is a decrease of \$4.3 million from the 2002-03 capital program, due mainly to the near completion of a number of large projects and the high level of land purchases in 2002-03, which is not expected to recur in 2003-04.

For 2003-04 new major capital works projects will focus on:

- ◆ further land acquisitions, including \$2 million for purchases under specific government programs (for example the Dunphy Wilderness Fund), purchasing high conservation lands in Western New South Wales, and further reservations in North East New South Wales;
- ◆ additional funds for establishing parks on lands purchased in 2002-03; and
- ◆ upgrade of water, sewerage and road infrastructure at the Perisher resort within Kosciuszko National Park.

In addition, a number of projects are to commence in 2004-05 to work towards creating an unbroken chain of reserves stretching from the Victorian border, through the suburbs of Sydney, and on to the Hunter Valley.

## ROYAL BOTANIC GARDENS AND DOMAIN TRUST

The Royal Botanic Gardens and Domain Trust maintains the Royal Botanic Gardens, Government House Grounds, the National Herbarium of New South Wales, the Domain, the Mount Tomah Botanic Garden and the Mount Annan Botanic Garden. The Trust also provides scientific and horticultural research, together with advice, and education on botanical, horticultural and biodiversity issues.

### EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Expenses for 2002-03 were \$29 million, \$8 million of which was funded from earned revenue of the Trust. The cost of operations has increased over recent years from \$25 million in 1999-2000. Earned revenue of the Trust contributed \$7.2 million in 1999-00.

The Trust implemented a new program structure based on service costing during 2002-03. This change has limited the ability to make historic year on year comparisons in program areas, particularly for average EFT staffing. However, the change will enable a clearer understanding of the true costs and benefits of the Trust's core and commercial activities.

The asset acquisition program for 2002-03 included:

- ◆ improvements to the irrigation and drainage systems at the Royal Botanic Gardens and the Domain, the Mount Annan Botanic Garden and the Mount Tomah Botanic Garden;
- ◆ upgrade of the Tropical Centre at the Royal Botanic Gardens;
- ◆ completion of the vertical compost unit at the Royal Botanic Gardens;
- ◆ implementation of a booking management computer system to enable online tracking and processing of events bookings;
- ◆ commencement of a project to introduce an asset management computer system that will facilitate control over the assets of the Trust;
- ◆ completion of the Rathbourne Lodge refurbishment utilising funds provided through a private bequest; and
- ◆ upgrade of the computer network.

## **STRATEGIC DIRECTIONS**

The major priorities to be addressed by the Trust in the coming year include:

- ◆ managing and developing the horticultural displays and living collection of plants at the Royal Botanic Gardens, Mount Annan and Mount Tomah Botanic Garden;
- ◆ maintaining and developing all sites, including the Domain, to accommodate multiple uses including recreation, relaxation, celebration, events, education and the promotion of conservation;
- ◆ advancing knowledge and understanding of plant biodiversity, horticulture and conservation through scientific research, the Centre for Plant Conservation and a wide range of targeted school and community education programs; and
- ◆ managing and developing viable commercial businesses and hosting externally operated commercial services to increase and diversify the Trust's revenue base.

## **2003-04 BUDGET**

### **Total Expenses**

Budgeted expenses for the Trust total \$29.4 million. The Trust has a strong focus on generating additional revenue to offset increased expenses to ensure that services can be maintained and improved. The revenue target for 2003-04 is \$8.7 million, including commercial revenue of \$5.5 million.

The development of the State's node of the Australian Virtual Herbarium will continue in 2003-04. Commonwealth and private funds are matched by the State Government on a dollar-for-dollar basis. On completion in 2005-06, the one million collections held in the National Herbarium of New South Wales will be fully accessible to the general community via the internet.

## **Asset Acquisitions**

The Trust's asset acquisition program for 2003-04 includes:

- ◆ \$1 million to improve the water supply at the Royal Botanic Gardens;
- ◆ \$1.7 million for maintenance of all of the Trust's assets; and
- ◆ \$0.6 million for privately funded capital works including a pedestrian "cross-over" bridge at the Mount Tomah Botanic Garden and the redevelopment of the Rose Garden at the Royal Botanic Gardens.

## **PUBLIC TRUST OFFICE - ADMINISTRATION**

The Public Trust Office offers:

- ◆ will making, where it is appointed sole executor, co-executor or substitute executor;
- ◆ long term asset management in estates and trusts;
- ◆ general estate and trust management;
- ◆ private client services (asset management under a power of attorney); and
- ◆ document safe custody (eg title deeds to realty).

The Public Trust Office also attends to the management of assets seized and confiscated under the *Criminal Assets Recovery Act 1990* and the *Confiscation of Proceeds of Crime Act 1989*.

Total expenses and asset acquisitions are funded mostly through revenue generated from clients. The Public Trust Office has a statutory obligation to accept all estates regardless of their value. The 2003-04 Budget will provide for community service obligation payments from the Consolidated Fund to meet obligations for administering low value estates and trusts, and the preparation of small value wills.

The Public Trust Office's fee structure was reviewed in 2001 with a staged increase over two years to be implemented from 1 November 2001. The 2003-04 Budget reflects full implementation of the new fee structure.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The focus of expenditure continues to be on improving customer service, the consolidation and development of core business and technical support systems. Some savings are anticipated for 2002-03 against budget.

The significant reduction in surplus after distributions in the revised 2002-03 figures is due to dividends not previously included in the budget.

## **STRATEGIC DIRECTIONS**

The Public Trust Office continues to focus its business and marketing on widening entry points for clients to all products through an “ages and stages” approach. A beneficiary communication plan developed in the previous year is now being implemented, to enhance retention, referral and conversion to other products. Similar strategies will be developed and implemented for other client groups to enhance business development.

The reserves in the Interest Suspense Account of the Common Fund, the clients’ funds under management by the Public Trustee, have been reviewed by actuarial assessment. The review has determined the amount for use by the Corporation on its operations, and funds management.

A review of potential shared corporate services continues to be conducted in conjunction with the Attorney General’s Department.

## **2003-04 BUDGET**

### **Total Expenses**

The 2003-04 Budget provides for total expenses of \$28.3 million, an increase of 4 percent from the previous year. Salary and related items account for approximately 70 percent of total expenses, while working expenses are used to maintain agency structures and a State wide branch network, as well as plant and equipment items.

The Public Trust Office will commence paying cash dividends to government in 2003-04 and will be part of the income tax equivalent regime from July 2003.

### **Asset Acquisitions**

The 2003-04 asset acquisition program will cost approximately \$2.1 million. This includes expenditure on a wills production system, and systems to comply with the *State Records Act*.

## REGISTRY OF BIRTHS, DEATHS AND MARRIAGES

The New South Wales Registry of Births, Deaths and Marriages records in perpetuity all births, deaths and marriages occurring in New South Wales and provides documentation on these events to individuals to help establish a range of legal entitlements. The Registry also collects statistical data for government and other organisations, performs civil marriages and undertakes searches of the records. It has been operating commercially since 1992.

### EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

The Registry's operating profits for 2002-03 has been impacted by the inclusion of a retrospective adjustment to depreciation owing to changes in the treatment of costs associated with the digital imaging of paper records, and the inclusion of superannuation costs that were previously categorised as "abnormal items".

Total expenses projected for 2002-03 are expected to increase by 8.5 percent to \$16.3 million mostly due to the increase in operating costs associated with the employment of agency staff and contractors. The increases were approved in the Registry's 2002-03 Statement of Business Intent.

Achievements in 2002-03 included:

- ◆ the launch of online marriage registrations;
- ◆ the expansion of the online death registrations to now cover approximately 60 percent of all deaths registered;
- ◆ the start of a joint project with NSW Department of Health under the *connect.nsw* program to establish online systems for the notifications of births and transmission of cause of death information;
- ◆ a review of the BDM website (now receiving approx 3 million hits per month) to improve navigation and content;
- ◆ the development of specifications for a replacement registration system;
- ◆ targeted customer forums with Funeral Directors and Solicitors; and
- ◆ the relocation of the Wollongong office into new accommodation.

## STRATEGIC DIRECTIONS

The Registry's strategic priorities continue to be a focus on innovation, sustained growth, risk minimisation, increased electronic service delivery and better management of customer relationships.

Key priorities for 2003-04 will be:

- ◆ the continuation of the records conversion program with the digital imaging of the 1952-1994 marriage and death records;
- ◆ the continued development of the replacement registration and certificate production system;
- ◆ further development of the services available at [www.bdm.nsw.gov.au](http://www.bdm.nsw.gov.au);
- ◆ continued roll-out of the Fraud Minimisation Plan; and
- ◆ further development of joint national initiatives across all Australian births, deaths and marriages registries.

## 2003-04 BUDGET

### Total Expenses

Total expenses for 2003-04 are estimated at \$16.4 million. This represents an increase of 9.5 percent above the 2002-03 Budget. The increase is due mostly to employee related expenses as a result of the salary award increases from 1 July 2003 and superannuation costs. The rise in staffing costs is caused by the shift to more skilled staff as computerised data retrieval becomes prevalent and recognition of contractors and agency staff costs, which were previously included in other operating costs. Total operating revenue for 2003-04 is expected to increase by 13.8 percent from increased sales of Birth Cards.

From July 2003 the Registry will be part of the tax equivalent regime.

### Asset Acquisitions

The Registry's asset acquisition program in 2003-04 will be \$2.2 million. This includes \$0.8 million to convert the Registry's paper record to digital format and \$0.7 million to upgrade technological infrastructure and support service delivery. A further \$0.4 million has been allocated for the continued development of online registration services and the certificate validation service.

# RESOURCE NSW

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Formed in October, 2001, Resource NSW was established under the *Waste Avoidance and Resource Recovery Act 2001* with a clear mission to change the focus of waste management in New South Wales from disposal to waste avoidance and resource recovery.

A key task for Resource NSW in its first year was to produce a Waste Avoidance and Resource Recovery Strategy in accordance with its legislation. A draft strategy was exhibited for public comment in September 2002 with the final document released by the Government in February 2003. At the same time, successful programs of the previous Waste Boards have been integrated and enhanced and a range of new programs developed. Resource NSW will also take over the WRAPP and Anti-Littering programs from the Environment Protection Authority (EPA) in 2003-04.

New programs implemented during 2002-03 include a Research and Development Fund and a Household Chemical Collection program designed to clean out stocks of unwanted chemicals from household storage. A program of Public Place Recycling centred on the State Rail network was taken over from the EPA during the year. A Regional Support program was introduced to encourage and assist the expansion of Waste Avoidance and Resource Recovery programs into rural areas utilising existing networks of councils and recovery facilities.

## STRATEGIC DIRECTIONS

The Waste Avoidance and Resource Recovery Strategy was released in February 2003 and is a first for Australia. New South Wales is the first State to develop targets for waste avoidance and resource recovery and a framework for action. The strategy is broadly supported by industry, community groups, environment groups, individuals and state and local governments, all of whom have expressed a commitment to working together to achieve its goals.

The strategy is designed to guide all sectors – to help them identify priorities for action and opportunities for partnerships. It will also enable policy and priority setting and delivery of a more co-ordinated approach across government and industry at all levels.

In 2003-04, Resource NSW will continue development of a detailed implementation plan to support the strategy in the following key outcome areas:

- ◆ avoiding and preventing waste;
- ◆ increased use of renewable and recovered materials;
- ◆ reducing toxicity in products and materials; and
- ◆ reducing litter and illegal dumping.

## **2003-04 BUDGET**

### **Total Expenses**

As programs continue to ramp up during 2003-04, total expenses are expected to be \$24.2 million which incorporates carry forward funding for Research and Development Grants, the State Rail Public Place Recycling program and take over of the WRAPP and Anti-Littering programs from the EPA. This is an increase of nearly \$480,000 on actual expenditure by Resource NSW in 2002-03.

## **STORMWATER TRUST**

In May 1997 the New South Wales Government released the Waterways Package, which contained a range of initiatives to improve the quality of the State's waterways. A key initiative of the package is improved management of urban stormwater. This is to be achieved by requiring councils to prepare Stormwater Management Plans, trialling innovative stormwater treatment measures and implementing remedial works linked to these plans. Educating the community about essential changes in behaviour is another critical component of the package.

## **STRATEGIC DIRECTIONS**

The Government has committed up to \$80 million over the years 1997-98 to 2001-02 for the Stormwater Trust Fund. This Fund is intended to assist with the implementation of stormwater commitments in the Waterways Package.

This funding has been allocated to:

- ◆ assist councils and certain state government agencies to pilot innovative stormwater management techniques or to undertake remedial activities;
- ◆ provide assistance to councils for the preparation of Stormwater Management Plans;
- ◆ a statewide education program coordinated by the Environment Protection Authority; and
- ◆ engage nine officers to support council stormwater initiatives.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Government has provided a further \$2 million in 2002-03 to assist the Trust in continuing its grants program while it explores alternative methods of funding urban stormwater initiatives.

An evaluation of the stormwater grants and management plans found they have been successful in reducing waterway pollution and increasing the ability of local councils to manage urban stormwater. The evaluation also found that further efforts should be made to increase the capacity of councils to manage urban stormwater in a more sustainable way. The review recognized the need for sustainable sources of funding for stormwater management.

## **2003-04 BUDGET**

### **Total Expenses**

The program expenditure will focus on managing remaining grants for cost effective projects, tackling significant stormwater issues across New South Wales and developing the capacity of councils and council officers to manage stormwater issues.

Existing funding will be carried over to 2003-04 to make final part-payments of council grants and to finalise existing stormwater improvement projects. No new funding allocations have been made to date.

## WASTE FUND

The Waste Fund (formerly the Waste Planning and Management Fund) is established under the *Waste Avoidance and Resource Recovery Act 2001*.

Over the past eight years, the total funding allocated to the Waste Fund amounts to \$191 million. Most of this funding was provided for the establishment, operations and waste reduction programs of regional waste boards and their successor organisation, Resource NSW.

Other initiatives funded include a community waste reduction grants program, statewide waste and litter education initiatives, a series of rural pilot schemes to reduce waste, a range of programs to promote kerbside recycling, an industry partnership program of cleaner production grants, waste regulation compliance and enforcement (including illegal dumping), and support for New South Wales' commitments to national programs such as ChemCollect and the National Packaging Covenant.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Major expenditure has included:

- ◆ \$102 million to support Regional Waste Boards and their successor, Resource NSW, for establishment, recurrent and program funding;
- ◆ \$8 million to provide support for kerbside recycling, including emergency support and structural improvement programs and the Government's commitment to initiatives arising from the National Packaging Covenant;
- ◆ \$12 million for the Waste Challenge, litter and *It's a Living Thing* community awareness and education campaigns;
- ◆ \$6.7 million over five years for the annual Community Waste Reduction Grants program;
- ◆ \$2.5 million to support two important programs to tackle the problem of unwanted hazardous substances – farm chemicals and unwanted pharmaceuticals;
- ◆ \$1.7 million to support an Industry Partnership Program promoting cleaner production;
- ◆ \$2.1 million to initiatives addressing compliance and enforcement of waste laws (including illegal dumping);

- ◆ \$1 million to a public recycling initiative aimed at introducing recycling bins across a range of public precincts in Sydney and ultimately across the whole of New South Wales;
- ◆ \$0.9 million to support implementation of the Government's Waste Reduction and Purchasing Policy; and
- ◆ \$0.9 million to support an electronic service delivery initiative for the collection and analysis of waste data.

## **STRATEGIC DIRECTIONS**

The *Waste Avoidance and Resource Recovery Act 2001* established the new agency Resource NSW. A major driver for future waste funding is the NSW Waste Avoidance and Resource Recovery Strategy, developed by Resource NSW and released in February 2003. Its purpose is to develop a framework and to support implementation of statewide, regional and local programs to avoid waste and recover resources.

The establishment of Resource NSW and the Strategy will provide the framework for:

- ◆ increasing the focus on avoiding and preventing waste;
- ◆ increasing the use of renewable and recovered materials;
- ◆ reducing toxicity in products and materials; and
- ◆ reducing litter and illegal dumping.

## **2003-04 BUDGET**

### **Total Expenses**

It is estimated that by June 2003 the Waste Fund will have a cash balance of \$57.4 million. The Government has decided to suspend contributions into the Waste Fund until the existing cash balance has been utilised.

The Waste Fund forecasts to expend \$30 million in 2003-04, an increase of nearly \$1.2 million on actual expenses in 2002-03. A large proportion of this expenditure will be allocated to Resource NSW to fund major waste avoidance and resource recovery programs and initiatives arising out of the NSW waste strategy, released in February 2003. These include:

- ◆ development of a Waste Prevention Strategy;
- ◆ integration of, and improvement to, waste and resource recovery processes, systems, services and infrastructure;
- ◆ research and development grants supporting innovation in resource recovery;
- ◆ development of whole of system initiatives to prevent waste, recover resources, phase out toxic substances, improve product stewardship, and reduce litter and illegal dumping;
- ◆ ongoing support for regional illegal dumping initiatives;
- ◆ regional and rural support programs for groups (including councils) working co-operatively to tackle waste management issues; and
- ◆ establishment of a coordinated, statewide education strategy to support waste avoidance and resource recovery. This strategy will be consistent with the NSW Environmental Education Plan 2002-05.

In addition, ongoing funding will be provided to maintain the Government's commitments to the *It's a Living Thing* environment awareness and education campaign, the Industry Partnership Program, investigation, compliance and enforcement of waste and illegal dumping offences, and support for enhanced waste data collection and analysis capability.

**24 LEGAL AID COMMISSION OF NEW SOUTH WALES**

---

**24.1 Legal Aid and Other Legal Services**

**24.1.1 Legal Aid and Other Legal Services for Eligible Persons in Disputes  
Arising from Family Relationships**

Program Objective(s): To provide legal services for eligible persons under Commonwealth family law and relevant State legislation. To promote the role of alternative dispute resolution in family law matters.

Program Description: Provision of legal services for persons by the Commission or private legal practitioners in matters under the Family Law Act, the De Facto Relationships Act and the Adoption of Children Act in disputes arising from family relationships, including domestic violence and in child maintenance matters under the Child Support Scheme. All legal assistance is subject to guidelines, discretions, means and merit tests.

## ATTORNEY GENERAL AND MINISTER FOR THE ENVIRONMENT

### 29 ROYAL BOTANIC GARDENS AND DOMAIN TRUST

---

#### 29.1 Royal Botanic Gardens and Domain Trust

##### 29.1.2 Botanic Gardens and Parks

Program Objective(s): To manage and develop garden sites to accommodate multiple uses including recreation, relaxation, celebrations, education and the promotion of conservation.

Program Description: Managing, making accessible and interpreting the landscapes and living collections of plants in the botanic gardens. To maintain conservation collections and conserve and interpret the Aboriginal and contemporary heritage of the gardens.

	Units	2000-01	2001-02	2002-03	<b>2003-04</b>
<u>Outputs:</u>					
Accessions of rare and endangered species at Mount Annan Seed Bank	no.	735	750	684	<b>729</b>
Number of hectares of turf maintained	no.	n.a.	n.a.	68.4	<b>68.4</b>

(a) *The Ministerial totals have been reduced to exclude recurrent payments made by the Department of Ageing, Disability and Home Care to the Home Care Service of New South Wales.*

(b) *The Community Services Commission was merged with the Office of the Ombudsman and the Commission for Children and Young People transferred from the Premier's portfolio during 2002-03.*

## DEPARTMENT OF COMMUNITY SERVICES

The Department's primary role is to promote and enhance the wellbeing and development of children, young people, families and communities in need. Broadly, the Department's activities in support of this objective include:

- ◆ assisting families to protect and care for their children;
- ◆ child protection assessment;
- ◆ providing and funding accommodation and support services for children and young people who can no longer live with their families;
- ◆ funding the provision of services for people who are homeless or in crisis;
- ◆ regulating childcare; and
- ◆ co-ordinating services for people affected by disasters.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

The Department has undergone a significant and prolonged period of change in recent years. This includes proclamation and implementation of the *Children and Young Persons (Care and Protection) Act 1998*, proclamation of the *Adoption Act 2000* and the establishment of the Helpline, a centralised intake service.

This period of legislative and structural change coincided with sharp increases in demand for the Department's core services. The number of child protection reports received increased by 119 percent between 1999-2000 and 2001-02. Reports have continued to increase steadily with an estimated total of 185,000 for 2003-04. Similarly, the number of children in out-of-home care at any point in the year increased by 40 percent between 1997-98 and 2001-02. These increases in demand significantly affected the Department's ability to deliver quality community services for children, families and communities in New South Wales.

In December 2002, the Government responded to this increase in community demand by announcing a \$1.2 billion five-year funding package to boost child and family services. This package included:

- ◆ 875 'frontline' staff positions (caseworkers) and associated managers at a cost of \$257.3 million, on top of the 130 announced by the Government in August 2002;

- ◆ \$186.2 million for new systems and other support for frontline workers;
- ◆ \$156.4 million for additional early intervention services designed to tackle problems before they become entrenched and/or intractable; and
- ◆ \$580.9 million to oversee children in out-of-home care, and set up new services.

The new funding package is part of a five-year strategy intended to address deficiencies and improve service delivery by the Department's frontline staff. The Department is currently engaged in detailed planning and consultation leading to deployment of the new funds from 1 July 2003.

For 2002-03 the Department received additional recurrent funding of \$76.9 million, including:

- ◆ increased funding for foster care and children with complex needs. Additional funding of \$31 million has provided funding flexibility to allow a range of initiatives for improved accommodation and care management of children requiring very costly services and foster care;
- ◆ \$5.9 million for additional frontline casework staff to offset the anticipated additional workload associated with proclamation of the 'permanency planning' provisions of the *Children and Young Persons (Care and Protection) Act 1998*;
- ◆ \$4.2 million to ensure that the new Client Information System is operational in 2003-04; and
- ◆ \$35.8 million for a number of programs including: provision of funding to the non-government sector for the Social and Community Services Award increase; the implementation of a range of administrative systems improvements; and disaster relief provisions to assist families disadvantaged by natural and other disasters.

The Department moved quickly to recruit the caseworkers and associated staff, which will improve service delivery.

## **STRATEGIC DIRECTIONS**

In 2003-04 the Department will commence the process of deploying these substantial new resources. This will involve:

- ◆ recruiting to full staff establishment;
- ◆ introducing new IT systems for client information and records management;

- ◆ establishing new procedures and systems for managing occupational health and safety issues, disaster recovery and performance management;
- ◆ building operational support for frontline staff;
- ◆ meeting demand for highest priority cases;
- ◆ modifying demand for expensive and intrusive child protection and out-of-home care services by boosting investment in preventative services;
- ◆ developing additional capacity and placement options in the NSW out-of-home care system;
- ◆ finding cost-effective solutions for children and young people with complex needs requiring expensive service responses;
- ◆ reviewing the role of the State Government in inter-country adoptions;
- ◆ reviewing external cost drivers for the Department's services;
- ◆ meeting the specialised needs of Aboriginal and Torres Strait Islander communities;
- ◆ progressing implementation of the *Children and Young Persons (Care and Protection) Act 1998* particularly in the area of out-of-home care; and
- ◆ further implementation of *NSW businesslink*, a shared corporate service provider to the Departments of Housing, Community Services, and Ageing, Disability and Home Care. The transfer of functions and staff to the new organisation commenced in December 2002 and will proceed during 2003-04.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Department in 2003-04 are estimated at \$803.2 million, an increase of \$162.1 million or 25.3 percent on the 2002-03 Budget. This increase is due primarily to the recently announced five-year funding package to boost child and family services.

The main service delivery initiatives from the package in 2003-04 include:

- ◆ \$13.9 million for new caseworkers, including \$2.3 million to strengthen Joint Investigation Response Teams working with the Police and Health Department;

- ◆ \$3 million for additional family support services to help those in need of advice and counselling;
- ◆ \$5.5 million for intensive early intervention support to high-risk families with children aged 0-3 years;
- ◆ \$37 million for growth in the number and needs of children in out-of-home care;
- ◆ \$9.6 million to provide a wider range of care options across out-of-home care that better addresses individual needs; and
- ◆ drought relief payments will be continued for households ineligible for Commonwealth assistance, with \$5.3 million provided to the Community Disaster Relief Fund.

In 2002 the Department redefined its program structure to more accurately reflect its business aims and improve managerial accountability generally. The new program structure has been retained for 2003-04, as follows:

- ◆ Prevention Services (\$183 million) – services whose focus is to prevent the emergence of a community service need;
- ◆ Early Intervention Services (\$187.9 million) – services whose focus is to intervene in the life of a family or individual whose needs have become manifest but before these needs have become acute;
- ◆ Intensive and Statutory Intervention Services (\$181.7 million) – services geared to meet the urgent or substantial needs of children and young persons once these have been identified; and
- ◆ Out of Home Care and Adoption Services (\$250.5 million) – services for children and young people who can no longer live with their birth families.

### **Asset Acquisitions**

The Department's 2003-04 asset acquisition program of \$14.9 million will fund the following major initiatives:

- ◆ relocation and/or expansion of Community Service Centres to meet the accommodation requirements for the additional caseworkers and associated staff (\$5.9 million);

- ◆ the Minimum Data Set – Data Exchange Project, designed to provide a common minimum data set model across government, and to position the model for monitoring the outcome of service delivery funding provided to non-government organisations (\$2.0 million); and
- ◆ enhancing out-of-home-care service options (\$3.8 million).

## **OFFICE OF THE CHILDREN'S GUARDIAN**

The Office of the Children's Guardian was established in December 2000 under Chapter 10 of the *Children and Young Persons (Care and Protection) Act 1998*.

The responsibilities of the Children's Guardian include:

- ◆ promoting the best interests of all children and young persons in out-of-home care and ensuring their rights are safeguarded;
- ◆ accrediting designated agencies and monitoring their responsibilities under the Act and the regulations; and
- ◆ auditing and reviewing the case files of children and young people in out-of-home care.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Proclamation of the remainder of Chapter 10 of the *Children and Young Persons (Care and Protection) Act 1998*, which sets out the functions of the Children's Guardian, is scheduled for 2003-04.

## **STRATEGIC DIRECTIONS**

In 2003-04 the major focus of the Office will be:

- ◆ implementing an accreditation and quality improvement program for government agencies and other organisations providing out-of-home care to children and young people; and
- ◆ developing and implementing a system for monitoring the responsibilities of designated agencies under the Act and regulations.

## **2003-04 BUDGET**

### **Total Expenses**

The Office's total expenses for 2003-04 are projected to be \$3 million.

### **Asset Acquisitions**

The total capital allocation for 2003-04 is \$40,000, which will be used for minor enhancements to the Office's information management systems and the purchase of minor plant and equipment.

## **DEPARTMENT OF AGEING, DISABILITY AND HOME CARE**

The Department of Ageing, Disability and Home Care Services (DADHC) is responsible for ensuring that older people, people with a disability and their carers have equitable opportunities to participate in community life. The Department does this through the provision of strategic policy and planning and direct community based support.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Departmental expenses are estimated at \$1,216.2 million in 2002-03, an increase of 4.2 percent over the 2002-03 Budget.

Allocations to the Department have increased by an estimated \$348 million between 1999-2000 and 2002-03 in response to growing demand for services for people with a disability, older people and their families.

During 2002-03, the New South Wales Government committed a five-year \$290 million package for non-government organisations to meet award wage increases for community-based staff. This level of assistance was necessary as a result of the Commonwealth Government not meeting its share of the award increases.

An additional \$1.5 million in recurrent funding and \$2 million in capital funding was provided in the 2002-03 Budget to allow the relocation of individuals with a disability from Licenced Residential Centres (Boarding Houses) to more appropriate living arrangements. Two closures have occurred and thirty-six clients have been moved to date in 2002-03, with a further twelve bed closures planned for June 2003.

An additional \$17 million (\$36 million over four years) was provided to the Adult Training and Learning System (ATLAS) program in 2002-03 to support improved transitional services for school leavers with a disability. In 2002-03 this funding will be used for reform initiatives around client assessment, industry training and transition to employment and establishing a number of pilot projects across the state. Further initiatives will be developed for improving the quality of day programs and ATLAS services in the coming year through this budget enhancement.

## **STRATEGIC DIRECTIONS**

The strategic directions of the Department of Ageing, Disability and Home Care focus on ensuring equitable opportunity for participation in community life by older people and people with a disability and their carers. Support for older people and people with a disability is, in the vast majority of circumstances, provided by family and carers, the community and mainstream services. Services funded or provided by DADHC play a specialist role in assisting with the support of people with high support needs and in early interventions and prevention strategies that maximise opportunities for people to be supported within the community.

Accordingly, DADHC will focus on three desired outcomes which are reflected in this year's program structure:

- ◆ community resources and relationships that facilitate older people, people with a disability and their carers to live independently;
- ◆ prevention, early intervention and basic support services that enable older people, people with a disability and their carers to remain in their own home environments; and
- ◆ equitable and sustainable assistance to older people and people with a disability who have higher support needs to increase their opportunities to participate in community life.

Five strategic priorities are to be implemented in the forthcoming year:

- ◆ achieve greater influence over the whole service support structure (not just DADHC provided services);
- ◆ strengthen clients' capacity to use community and mainstream government services;
- ◆ increase the emphasis on prevention and early intervention;

- ◆ increase the integrity of high intensity support services; and
- ◆ develop a responsive organisational capacity.

## **2003-04 BUDGET**

### **Total Expenses**

The Department's total expenses in 2003-04 are \$1,275.5 million, an increase of 9.3 percent over the 2002-03 Budget. This increase is mainly due to additional expenditure in both the Home and Community Care and the Disability Programs. These will be administered under three major programs that reflect the outcomes of the organisation: Community Resources and Relationships; Prevention, Early Intervention and Basic Support; and Higher Support Needs.

### **Community Resources and Relationships**

The Department undertakes and funds a range of advisory, facilitating and partnership activities to maximise opportunities for older people, people with a disability and their carers to participate in community life and to access mainstream services and supports.

Total expenses for the Community Resources and Relationships Program in 2003-04 are estimated at \$26.8 million, an increase of 7.6 percent over the 2002-03 Budget.

The program also includes funding to the Disability Council and the Guardianship Tribunal. The Disability Council is a body established through legislation that provides advice to the New South Wales Government on issues affecting people with disabilities, their families and carers. The Guardianship Tribunal is a statutory authority dealing with applications for guardianship and financial management orders.

### **Prevention, Early Intervention and Basic Support**

This program reflects the provision of services such as the delivery of intervention services, case management and therapy services, community access services, respite services and services which support older people, people with a disability and their carers with the objective of maintaining these persons in their own home environments.

Total expenses for the Prevention, Early Intervention and Basic Support Program in 2003-04 are estimated at \$596.4 million, an increase of 10.8 percent over the 2002-03 Budget.

Total expenditure under this program includes new funding for additional personal attendant care services that will be made available for people with physical disabilities to help them perform personal care activities. Additional funding of \$28.5 million has been allocated over four years, with \$2 million allocated in 2003-04.

A Transition Rehabilitation Pilot Project will be set up to assist people who have sustained major injury to move from acute care and rehabilitation into the community. The Motor Accidents Authority will contribute \$1 million per annum in 2003-04 and in 2004-05 to the Department for undertaking a pilot project that will focus initially on people with spinal cord injury.

Additionally, funding of \$1.6 million in 2003-04 and \$3.2 million per annum thereafter has been allocated for increased flexible respite care for people with a disability and their carers.

### **Higher Support Needs**

The Higher Support Needs program reflects provision of disability services by the Department and non-government organisations to people with a disability and higher support needs.

Total expenses for this program in 2003-04 are estimated at \$652.3 million, an increase of 8 percent over the 2002-03 Budget.

Funding of \$1.5 million in recurrent and \$2 million in capital has been provided in 2003-04 for further relocations of individuals with a disability from boarding houses into more appropriate community-based supported accommodation, and to provide additional support services such as personal care and recreational and training programs for people remaining in licensed boarding houses.

An additional \$2.8 million (\$8.4 million over three years), has been provided to allow the establishment of a comprehensive occupational health and safety function for the Department in order to improve OHS risk management systems and practices and to better deliver injury management and rehabilitation services.

## **Commonwealth and State Joint Funding Initiatives**

Expenditure across these programs includes two Commonwealth and State joint funding initiatives:

### ***Commonwealth-States/Territories Disability Agreement***

The Commonwealth is expected to provide \$190.9 million in 2003-04 as funding for persons with a disability under the Third Commonwealth-State/Territories Disability Agreement. This includes an estimated \$9.2 million in indexation and growth funding from 2002-03. The New South Wales Government's contribution for 2003-04 is estimated at \$698.6 million.

The Agreement provides services to people with a disability including grants to non-government organisations, assistance in transitioning individuals to employment, and accommodation and respite services.

Over the life of the Agreement, which covers the period 2002-03 to 2006-07, New South Wales will provide total growth funding of \$434.5 million, or 4 percent average annual growth. The Commonwealth is expected to provide total growth of \$106.9 million, or 3.7 percent average annual growth, over the same period.

Commonwealth and State funding are subject to the signing of the new Agreement which is being finalised.

### ***Home and Community Care Agreement***

The Home and Community Care (HACC) Program is a joint Commonwealth-State Program which has operated since 1986. The program provides funding to an extensive range of support services to assist frail older people and people with a disability, to continue to live independently and to minimise premature or inappropriate admission to permanent residential care.

The Department of Ageing, Disability and Home Care administers the program with assistance from the Departments of Health, Housing and Transport. One of the main service providers is the Home Care Service of New South Wales, which is shown separately as an agency within the Budget Papers.

Total estimated expenses for HACC in 2003-04, including funding allocated to the Department of Health and the Home Care Service, is estimated at \$405.4 million. This expenditure, after excluding some carry over of funding for previous year commitments, provides a 13.5 percent increase over the 2002-03 Budget.

The New South Wales Government's direct contribution to the 2003-04 HACC Program will be an estimated \$160.2 million, an increase of 13.8 percent over the 2002-03 Budget. This includes \$4 million provided to HACC services affected by changes to the Social and Community Services (State) Award.

The increased HACC expenditure will enable services to be maintained as well as expanded in areas such as domestic assistance, home help and personal care, home maintenance, food services, day activity centres, and services for Aboriginal and Torres Strait Islander people and people from cultural and linguistically diverse backgrounds.

### ***Non-Government and Other Providers***

Expenditure across these programs also includes funding for the non-government provision of community and accommodation support services to maximise the independence of older people, people with a disability and their carers. Total 2003-04 expenditure on non-government provision is estimated to be \$633.5 million (excluding grants to the Home Care Service of NSW). This includes an estimated \$11 million to assist non-government services with the cost increases stemming from changes to the Social and Community Services (State) Award.

### **Asset Acquisitions**

The Department's asset acquisition program of \$14.1 million includes \$6 million to develop a new Client Information System to integrate client service functions across the composite parts of the Department and to assist with the creation of a single intake and assessment process for clients of the Department.

## **HOME CARE SERVICE OF NEW SOUTH WALES**

The Home Care Service of New South Wales (Home Care) provides home-based assistance to frail, older people, younger people with a disability and their carers. Assistance is provided to maintain the independence of clients in a community setting and to avoid or delay their admission into institutional care. Home Care receives the bulk of its funding from the Home and Community Care (HACC) Program, but also receives funding from the New South Wales Disability Services Program and from the Commonwealth Department of Health and Ageing, and Department of Veterans' Affairs.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Recent years have seen a steady increase in expenditure as Home Care has successfully bid for new funding under various community care programs, especially in rural New South Wales. Expenditure has risen from \$132.3 million in 1997-98 to \$174.9 million in 2003-04, representing an increase of 32 percent.

## **STRATEGIC DIRECTIONS**

In 2002-03, the Home Care Service continued to focus on:

- ◆ reducing administrative costs through improvements in occupational health and safety performance;
- ◆ re-engineering business processes in line with the Department of Ageing, Disability and Home Care's Strategic Plan;
- ◆ competing for new business opportunities in the field of home-based community care; and
- ◆ investing in the skills and competence of staff to ensure the delivery of high quality services.

Home Care is well placed to contribute to the development and operation of the Department of Ageing, Disability and Home Care, to ensure a continued focus on improved outcomes for older people, people with disability and their carers.

## **2003-04 BUDGET**

### **Total Expenses**

Home Care's total expenses are expected to be \$174.9 million for 2003-04, an increase of \$12.2 million, or 7.5 percent on the 2002-03 Budget.

### **Asset Acquisitions**

The Service's \$3 million asset acquisition program provides \$1.4 million for the replacement of plant and equipment, and \$1.6 million for motor vehicles.

## COMMISSION FOR CHILDREN AND YOUNG PEOPLE

The Commission aims to listen to children and young people and promote their interests by working with others in the government and community.

### EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

During 2002-03, the Commission released its report from the inquiry into “Children who have no-one to turn to”, conducted community education activities to support the *Crimes Amendment (Child Protection – Physical Mistreatment) Act 2000*, released its research report into suicide and risk-taking behaviours, released a further annual report of the Child Death Review Team (CDRT) and continued research into sudden unexpected deaths of infants.

Legislative amendments were made to the *Commission for Children and Young People Act 1998* allowing implementation of employment screening for relevant Apprehended Violence Orders. Changes to the *Child Protection (Prohibited Employment) Act 1998* provided for the Commissioner to make orders exempting people from the provisions of the Act.

In 2002-03 the Commission received a Budget enhancement of \$0.5 million to fund a pilot program for employment screening and capacity building in the volunteer and student placement sectors. Screening of volunteers in high risk categories with targeted employers has commenced. The Commission is also developing a suite of tools to assist volunteer organisations implement child protection strategies and procedures.

### STRATEGIC DIRECTIONS

In 2003-2004, the major focus of the Commission will be:

- ◆ completing its research into sudden unexpected deaths of infants;
- ◆ releasing new modules for the ‘TAKING PARTicipation Seriously’ kit on Kids in Casework and Kids’ Participation in Research; and
- ◆ continuing to undertake Working With Children Checks for the volunteer and student placement program.

## **2003-04 BUDGET**

### **Total Expenses**

Estimated total expenses for the Commission in 2003-04 are \$6.5 million, a decrease of 1.4 percent on 2002-03. This decrease mainly reflects funding specifically provided in 2002-03 to conduct community education activities to support the *Crimes Amendment (Child Protection – Physical Mistreatment) Act 2000*.

### **Asset Acquisitions**

The capital allocation of \$0.1 million for 2003-04 is for enhancements to the Commission's employment screening system and the purchase of minor plant and equipment.

**30.1 Child and Family Services**

**30.1.1 Prevention Services**

Program Objective(s): To support and assist people and families so as to be able to care for themselves and their children, to provide young people with opportunities for self-development, and to reduce the isolation of people in communities by increasing their ability to engage in community activities.

Program Description: Planning and provision of funds towards the delivery of early childhood and related services for children, including pre-schools and day care centres, vacation care, licensing of child care services, monitoring and evaluation of compliance with legislation and standards covering those services. Provision of support for community development and support services, and administration of essential concessions. Effective prevention services that support and educate families and assist communities to build their capacity for life management.

**30.1.4 Out of Home Care and Adoption Services**

Program Objective(s): To provide alternative care options for children and young people unable to live at home. To ensure that young people have the support and skills they need for independent living following a period in care. To assist people to adopt children and young people, from within and outside Australia. To provide information and assistance to people wishing to contact their natural parents.

Program Description: Provision of a range of out-of-home care options, such as foster care and residential care, for children separated from their parents; monitoring and review of placements, licensing and management of carers. Provision of support to young people who are leaving or who have left care. Provision of services to effect the adoption of children by families, that takes into account the needs of the child and legislative requirements. Provision of information about adoptions. Plan and monitor funding to non-government agencies to deliver a range of accommodation and support services to children and young people across New South Wales.

**32 DEPARTMENT OF AGEING, DISABILITY AND HOME CARE**

**32.1 Community Resources and Relationships**

**32.1.1 Community Resources and Relationships**

Program Objective(s): To provide community resources and strengthen relationships that facilitate older people and people with disabilities to live independently. To enhance attitudes and initiatives supporting inclusion and participation and ensure access to culturally appropriate general community and other services across New South Wales. To improve access to mainstream services so that co-ordinated human services across government include older people, people with a disability and their carers in cross-government initiatives.

Program Description: Providing funding and services that assist older people, people with a disability and their carers, to maximise their independence and participation in the community. Investing in community and informal supports to facilitate working partnership with other agencies and communities to maximise participation by older people, people with a disability and their carers.

\* Government funding for expenditure under the HACC Program will rise by an estimated \$46.8 million or 13.5 percent in 2003-04. This funding is allocated to the Department of Ageing, Disability and Home Care to maintain and purchase more HACC services. These services are provided by the Government's Home Care Service and non-government service providers. Hours of service provided through the Home Care Service could rise further if it successfully competes for a share of this funding. See programs under the Department of Ageing, Disability and Home Care.

## DEPARTMENT OF EDUCATION AND TRAINING

The Department of Education and Training is responsible for the provision of high quality public school education and vocational education and training services through an extensive network of government schools, TAFE campuses and adult and community evening colleges. The Department also provides assistance to non-Government schools and funds specialist training, employment and youth programs.

The key priorities in education and training for 2003-04 will be to:

- ◆ ensure that all children get the best possible start in school through initiatives such as the reduction of class sizes, the building of new public pre-schools and comprehensive early literacy and numeracy initiatives;
- ◆ support the provision of high quality teaching across the State through significant enhancements to school-based professional development, specific initiatives to attract and retain teachers and through the development of professional teaching standards;

- ◆ enhance the place of schools as safe and productive learning environments, through more effective management of student behaviour and discipline and school security initiatives;
- ◆ further develop the information and communications technology infrastructure of schools and TAFE NSW campuses;
- ◆ target resources to students and communities experiencing disadvantage through funding specific programs. Major initiatives such as class size reductions will first be targeted to schools serving the most disadvantaged communities; and
- ◆ continue to improve the amenity of Government schools and TAFE campuses through new capital works and maintenance.

## ***SCHOOL EDUCATION SERVICES***

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Department has a legislative responsibility to provide education services to public school students of New South Wales. These encompass core, equity and strategic education services for both primary and secondary education. These services reflect general education provision, as well as services which address the range of identified equity groups.

Expenses on Government pre-school, primary and secondary education programs are estimated at \$6,033.2 million in 2003-04, an increase of \$447.4 million on the 2002-03 budget and an increase of \$1,272.6 million since the 1999-2000 budget.

The Non-Government School Assistance program provides financial support of \$585.5 million in 2003-04 to non-Government schools.

### **2002-03 Budget Enhancements**

The Department's 2002-03 budget included additional funding of \$113 million for a range of Government initiatives, focussing on improving quality teaching and teacher supply, expanded information technology services in schools and TAFE campuses and additional resourcing to Government schools.

The programs implemented under these initiatives and achievements in 2002-03 include:

### ***Quality Teaching and Teacher Supply***

150 new teaching scholarships were offered in 2003, to attract students to train as teachers in technological and applied studies, mathematics, science and English.

18 teachers who commenced the full-time Secondary Mathematics Retraining Program, were appointed to schools in difficult to staff locations for the 2003 school year.

50 teacher mentors have been appointed in 2003 to schools with high proportions of newly appointed teachers.

The Interim Committee for a NSW Institute of Teachers has developed a draft framework of professional teaching standards, and draft processes for assessment, induction, and professional development. The Interim Committee is currently consulting on options for implementation with teachers and other stakeholders.

### ***Priority Action Schools Program***

This initiative which provides intensive support for specific schools has been implemented in 74 government primary, secondary and central schools. The program has resulted in improved student attendance, teacher morale, community-school interaction, enhanced focus on context based professional development, a renewed focus on aligning student welfare and curriculum planning and implementation and improved sharing and networking between schools.

### ***School Global Funding***

This initiative has resulted in increased global funding allocations to government schools, in socio-economically disadvantaged areas and remote locations. This additional funding has given these schools greater flexibility in meeting local service delivery requirements.

### ***Information Technology***

The provision of enhanced bandwidth services has resulted in 1,677 sites receiving upgraded services. These upgrades have enabled faster Internet access speeds for students and teachers in the classroom.

E-learning accounts for students and teachers have been piloted in 7 schools and one TAFE college. The pilot is part of the user acceptance testing process, which will lead to the rollout of e-learning accounts throughout 2003.

The technical support for schools project involved an initial local area network assessment and improvement program, and the subsequent development of models for improved technical support. All schools have been assessed and improvements recommended. Of those schools requiring local area network improvement, 243 have been completed.

An enterprise portal (gateway) is being developed to provide users with a secure, single point of entry to access services in a controlled environment when using the Department's network. The Request for Quotation process has been completed and a vendor recommended.

Additional funding for software licences has resulted in a revised Microsoft enterprise agreement, which allows students and staff access to the full suite of Microsoft products, including educational products.

### ***K-3 Class Size Pilot***

Funding under this initiative has resulted in the appointment of an additional 65 teachers to 63 schools, to reduce the size of approximately 200 classes. For schools included in the pilot, class sizes have been reduced to a maximum of 20 students for Kindergarten, 22 for Year 1, 24 for Year 2 and 26 for Year 3.

Following the announcement of the Government's commitment to reduce all class sizes in Kindergarten to Year 2 by 2007, the design of the pilot is being revised. Information gathered from the pilot will be used to inform the broader class size reduction program.

## **STRATEGIC DIRECTIONS**

The Department of Education and Training implements the strategic directions outlined in plans for NSW public schools, TAFE NSW, vocational education and training services, adult and community education and the Adult Migrant English Service. These plans reflect the NSW Government's commitment to public education and training.

The Department's 2003-04 budget allocates resources to new initiatives and existing services, to strengthen the provision of public education and to achieve the best outcomes for all students.

## **Class Size Reductions**

The first three years of schooling are critical in laying the foundations for success at school.

The Government has made a key commitment to significant reduction in class sizes from Kindergarten to Year 2. The investment in class size reduction will include \$107 million for additional classrooms as well as \$222 million in funding for additional teachers over the next four years.

By 2007, class sizes will be reduced to a statewide average of 20 in Kindergarten, 22 in Year 1 and 24 in Year 2. Class size reductions will begin with schools serving the most disadvantaged communities.

## **Pre-schools**

For many students, public pre-schools underpin a successful transition to school which in turn supports later learning.

The quality of early learning will be supported through the establishment of 21 new public pre-schools by 2005. This initiative will bring to 100, the total number of public pre-schools statewide.

## **Literacy and Numeracy**

Over the next four years almost \$492 million will be allocated to the Department's Literacy and Numeracy Strategy.

Literacy and numeracy programs such as *Reading Recovery* and *Count Me in Too* will continue to provide essential support in the early years of schooling to ensure that all students have sufficient basic skills to underpin success in later years. Programs such as the online discussion of books through *Book Raps* will be expanded across the State through the availability of expanded network bandwidth.

New South Wales has Australia's most rigorous program of assessment which carefully monitors the progress of each student through each stage of schooling from the Basic Skills Test in Year 3 to the Higher School Certificate in Year 12. This program will be further enhanced through computer skills testing in Year 6.

The success of the Department's programs is evident in the State's strong performance in national and international assessments of literacy and numeracy standards.

## **Quality Teaching**

A number of initiatives are focused on ensuring that NSW schools have the highest teaching standards in Australia. Over the next four years, \$139 million will be allocated specifically to initiatives which enhance the quality and availability of teaching.

A significant priority will be the development of professional teacher standards, including the establishment of a NSW Institute of Teachers.

There will also be a significant increase in resources provided for school-based professional development, which includes additional funding of \$39 million over the next four years.

Initiatives such as increased teaching scholarships to attract teachers to hard-to-staff schools, expanding teacher retention benefits and improving rental subsidies in isolated areas will ensure that all schools benefit from the availability of quality teaching.

## **Priority Schools Programs supporting disadvantaged communities**

The Government is committed to providing the opportunity for all students to develop the knowledge, skills, understanding and values they need for a productive and rewarding life.

The Government has made a significant commitment to providing additional support for schools to overcome high levels of disadvantage within their communities, through a range of Priority Schools Funding Programs.

This includes funding of over \$16 million in targeted funding for the Priority Action Schools Program in 2002-03 and 2003-04.

## **Behaviour and Discipline**

Over the next four years, \$56.4 million will be allocated to improving the range of placement and support options for disruptive students. This includes \$8 million new funding over four years for the establishment of 20 new suspension centres by 2007.

Eight new behaviour schools and seven new tutorial centres for secondary students will be established by 2007. This will bring the total number of behaviour schools to 35 and tutorial centres to 40.

Additional specialist teacher positions will be established to assist schools to manage difficult students.

## **School Security**

The safety of staff, students and school property will be improved through the provision of security fencing to at least 200 schools over the next four years at a cost of approximately \$20 million. New and upgraded security alarms will continue to be provided to at-risk schools.

## **Technology**

NSW schools lead Australia in their use of information and communications technology. The next four years will see recurrent funding of \$846.2 million for technology initiatives, which include:

- ◆ \$572.3 million for the continuing Computers in Schools program. This includes the provision of new computers, internet services and technology support in schools;
- ◆ \$172.3 million for the network bandwidth initiative. This initiative will progressively upgrade bandwidth in schools and TAFE NSW colleges, using available technology including government owned infrastructure and a range of telecommunication carriers;
- ◆ \$84.1 million for e-learning accounts for staff and students in schools and TAFE. This project will provide e-mail accounts to teachers and students, filtered access to the internet, discussion forums and web hosting facilities to all schools and colleges. Remote access will also be available from locations such as home or libraries; and
- ◆ \$17.6 million for Technology in Learning and Teacher Training. This program is continuing to provide teacher training in schools in the use of the latest computer technology.

## **Quality Learning Environments**

A further \$119 million in capital funding will be provided over the next three years to support technology initiatives. The Government will continue its significant investment in the expansion and upgrading of school accommodation, through the four year \$1.2 billion Schools Improvement Package.

An amount of \$107 million will be provided over the next four years, including \$18.7 million in 2003-04, on the provision of accommodation at schools to allow for reduced class sizes.

The amenity of Government schools will continue to be improved through the replacement of demountable buildings with permanent classrooms. Work will continue on the air conditioning of both demountable and permanent buildings, with an allocation of over \$10 million in 2003-04.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses on school education services for 2003-04 are estimated at \$6,033.2 million. This represents an increase of \$447.4 million, or 8 percent on last year's budget.

Key initiatives include:

- ◆ recurrent and capital funding of \$329 million will be provided over the next four years, to progressively reduce class sizes in Government schools for students enrolled in Kindergarten to Year 2;
- ◆ increased funding of \$39 million over the next four years, for initiatives to increase the quality of teaching in Government schools, ensure an adequate supply of teachers in key learning areas and enhance teacher professional development;
- ◆ over \$492 million over four years for the further expansion of the State Literacy and Numeracy Plan with \$126 million to be spent in 2003-04;
- ◆ over \$846.2 million over four years for technology initiatives, including \$172.3 million for upgrading bandwidth in schools and TAFE NSW colleges. In addition, \$84.1 million will be provided for the provision of e-mail and a range of other e-services for students and teachers in Government schools and TAFE NSW. \$572.3 million will be provided for the continuing Computers in Schools program;
- ◆ \$280.4 million will be provided in 2003-04 for global allocations to Government schools. This funding includes over \$10 million per annum for the initiative introduced in 2002-03, to increase allocations to Government schools which have specific needs in meeting service delivery requirements at the local level;
- ◆ \$2.6 million will be provided in targeted funding to continue the class sizes pilot of 20 students, in designated schools, in Kindergarten to Year 3 to provide early identification of, and intensive support to young students, leading to improved educational outcomes;

- ◆ \$8.4 million will be provided in targeted funding in 2003-04, as part of the \$16.1 million over 2 years provided in 2002-03, to continue the pilot programs to provide intensive support to specifically targeted primary, high and central schools;
- ◆ \$56.4 million over the next four years to continue to provide a wider range of placement and support options for students with disruptive behaviour, including \$8 million for the establishment of 20 new suspension centres;
- ◆ \$22.1 million over four years will be provided to prepare young people for work through the development of individual school to work plans for all students in Years 9 to 12; and
- ◆ \$186 million will be spent in 2003-04 to maintain public schools. This includes a funding component of \$15.4 million in school global funds to support school maintenance.

## **Asset Acquisitions**

### **Schools**

The capital allocation for school education provides for the construction of new and replacement schools, construction of additional facilities at existing schools and the upgrading of buildings to modern standards. The cost of sites for new schools, furniture and equipment and major information and communications technology projects are also funded under this program.

Capital funding of \$333 million has been allocated for the construction and enhancement of school facilities. The allocation is part of a four year \$1.2 billion Schools Improvement package, which will not only provide for a significant upgrade of school accommodation, but will also provide for a major thrust in the expansion of internet services for staff and students.

This year's program will provide for:

- ◆ the commencement of 27 new building projects including funds for continued upgrade of facilities at Callaghan College and Tuggerah Lakes College and the provision of secondary facilities at Jindabyne;
- ◆ work to commence on the second stages of new or redeveloped schools at Banora Point, Berala, Blakehurst and Harbord;

- ◆ commencement of a \$107 million program over four years for the provision of accommodation at schools to meet the Government's commitment to lower class sizes. \$18.7 million will be spent on this initiative in 2003-04; and
- ◆ pre-school accommodation at a number of existing schools at a cost of \$7.9 million in 2003-04.

Work will continue on over 70 projects commenced in previous years, including new or replacement schools at Bogangar, St George (Rockdale), Jerrabomberra and Banora Point as well as staged works at Auburn West, Blue Haven, Denistone East, James Ruse (Carlingford), Lightning Ridge, Mullumbimby and Westfields (Fairfield West). Work will also continue on the redevelopment of the Northern Beaches Secondary College, Brisbane Waters College, Tuggerah Lakes College and Callaghan College.

Sixteen of the 70 continuing projects are being undertaken as part of the Revitalisation of Inner Sydney Schools program. These include the redevelopment of facilities for Alexandria Park Community School, Cleveland Street Intensive English High School, Rose Bay Secondary College, and the Sydney Secondary College campuses at Balmain, Blackwattle Bay and Leichhardt. \$45 million will be spent on this program in 2003-04.

Work will continue on the \$96 million project to increase the capacity of the communications network to support online learning and teaching programs in schools and TAFE colleges. The Government's aim is to provide internet services and products to all staff and students, including email accounts. The project to standardise and link all education and training websites through a single point of entry will continue and be completed at a total cost of \$4 million. Students, teachers and staff will have customised profiles to access appropriate e-services and communicate with business and the community. Other information technology related projects costing \$47 million over three years will be commenced.

In addition \$1 million has been provided for the commencement of the upgrading of the National Art School at East Sydney at an estimated total cost of more than \$8 million.

\$34 million has also been provided to fund six new primary schools, two new secondary schools and a new specific purpose school constructed under a separate funding arrangement with the private sector.

The primary schools will be constructed at Horsley, Kellyville, Mungerie Park, Shell Cove, Stanhope Gardens and Wongarah. The secondary schools will be constructed at Glenwood and Horningsea Park and the special needs school will be constructed at Kellyville.

## **TAFE AND RELATED SERVICES**

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

TAFE NSW is the largest supplier of workforce training in Australia at a time of significant technological change in business, industry and government enterprises. TAFE NSW has an on-going commitment to ensure that programs and services are responsive to industry and community needs. TAFE NSW is also committed to improving access to education and training through the provision of more flexible delivery options, including workplace learning and online learning.

TAFE NSW is facing increasing demand for its programs and services. The changing skill requirements resulting from the need for NSW businesses to be competitive in the global economy and emerging skill needs of industries such as biotechnology are increasing the demands on TAFE NSW to provide relevant programs to support these developments.

TAFE NSW has a particular responsibility to assist with the economic development of regional communities. The development of an appropriately skilled workforce in regional areas is essential if those areas are to attract and retain industry.

TAFE NSW has a strong commitment to quality. By mid 2001, all TAFE institutes were externally validated as Quality Endorsed Training Organisations (QETO) by the NSW Vocational Education and Training Accreditation Board. In 2001, the TAFE Board and management decided that all TAFE Institutes would achieve International Standards Organisations (ISO) certification against the new quality management standard ISO 9001:2000. To date, 10 TAFE NSW Institutes and Open Training Education Network have been certified under the new ISO standard.

The State Government has successfully negotiated the 2001-2003 Australian National Training Agreement with the Commonwealth Government. This Agreement provides for the provision of growth funds of \$150.9 million over the life of the Agreement for vocational education and training in New South Wales. These funds are to be met equally by the State and Commonwealth governments.

Total expenses in 2003-04 on TAFE NSW and related services are estimated at \$1,540.6 million, an increase of \$52.4 million or 3.5 percent on the 2002-03 budget.

## **STRATEGIC DIRECTIONS**

The TAFE NSW strategic directions for 2002–2004 are to:

- ◆ grow the business of TAFE NSW for our customers;
- ◆ drive the integration of skill formation in social and economic development;
- ◆ empower TAFE students and teachers to excel;
- ◆ innovate to improve TAFE products and services; and
- ◆ be acclaimed for quality.

## **Total Expenses**

Major initiatives to be undertaken during 2003-04 include:

\$19.5 million over four years to support TAFE scholarships and students at risk programs with some \$4.9 million being allocated this year. This includes:

- ◆ \$1.9 million in 2003-04, for a joint TAFE and schools initiative through TAFE NSW outreach and school substitute care, to target youth and expand their access to vocational education and training. TAFE NSW will provide 100 places for students in juvenile centres;
- ◆ \$3 million in 2003-04, to assist students from rural and low socio-economic areas who have successfully completed vocational education training courses as part of the Higher School Certificate to continue full-time study at TAFE NSW;
- ◆ the ongoing development of partnerships between TAFE and industry to deliver flexible training programs specific to client needs and at times and locations suitable to the client; and
- ◆ continuing the Government initiative to provide opportunities for city and country government school students in years 9, 10 and 11 to undertake learning activities, with a career path focus during the Christmas vacation period in TAFE NSW summer schools.

## **Asset Acquisitions**

The TAFE NSW asset acquisition program for 2003-04 is \$72 million. This program provides for the commencement of 14 new major projects in 2003-04, including facilities at Belmont, Blue Mountains, Chullora, Grafton, Granville, Meadowbank, Mount Druitt, Mudgee, Northern Beaches, Orange, Ultimo, Wagga Wagga and Wollongong.

Construction will continue on 23 major projects commenced in previous years at an estimated total cost of more than \$86 million. These projects include the construction of a multi-storey building at the Ultimo campus of TAFE NSW Sydney Institute at an estimated total cost of more than \$28 million. Other major works continuing in 2003-04 include projects at Albury, Cootamundra, Dubbo, Crafton, Lightning Ridge, Liverpool, Shellharbour, Wollongbar and Wyong.

## **OFFICE OF THE BOARD OF STUDIES**

The Office of the Board of Studies provides professional and administrative support to the Minister for Education and Training and the Board of Studies for their respective functions under the *Education Act 1990*. This includes the development of syllabuses and curriculum support materials for all schools from Kindergarten to Year 12, registration and accreditation of non-government schools, the administration of the home schooling program and the development and conduct of the School Certificate (SC), Higher School Certificate (HSC) examinations and Computing Skills Assessment for Year 10 students. The Office of the Board of Studies also encompasses the Australian Music Examinations Board (NSW) and the Aboriginal Education Consultative Group.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

In 2002-03 the Office's key activities involved:

- ◆ developing revised Years 7-10 syllabuses;
- ◆ developing and trialling Computing Skills Assessment for Year 10 students;
- ◆ implementing the recommendations of the 2002 Masters Review of the New HSC examinations in 2001, including the provision of additional support materials to assist teachers and students;
- ◆ statewide testing as part of the standards referenced School Certificate;
- ◆ releasing new K-6 Mathematics, Years 7-10 English and Years 7-10 Mathematics syllabuses;

- ◆ continuing the HSC Advice Line; and
- ◆ enhancing the range of online information services available for schools, teachers, students and parents.

### **Revised Years 7 to 10 Syllabuses**

The Government has allocated over \$27 million to the Office of the Board of Studies and the Department of Education and Training over the 2001-02 to 2004-05 period for the evaluation and re-development of Years 7-10 syllabuses within a standards framework. This revamp will complete the establishment of a standards based continuum of learning for students from Kindergarten through to Year 12 and closely follows the implementation of the New 'standards based' Higher School Certificate. The development of revised Years 7-10 English and Mathematics syllabuses released in 2002 was accompanied by an evaluation of the remaining Years 7-10 syllabuses and the distribution of revised syllabuses to schools during 2003.

### **Computing Skills Assessment for Year 10 Students**

A total of \$3.9 million in recurrent and capital funds over the 2001-02 to 2004-05 period (\$1.1 million in 2002-03) was allocated for the introduction of statewide external Computing Skills Assessment for all Year 10 students. This will determine their level of computing competency as an addition to the statewide 'standards based' testing already established in 1998 for the new School Certificate.

The Computing Skills Assessment for Year 10 students was trialled by 1,500 students across 20 government and non-government schools in 2001. The trial was extended to over 7,500 students in 160 schools during 2002 so that all schools can participate in 2003.

### **Vocational Education and Training**

The Office of the Board of Studies has been allocated \$1.1 million over the 2002-03 to 2005-06 period to support the maintenance and revision of existing Vocational Education and Training frameworks and the development of new frameworks. During 2002-03, new frameworks in Hospitality and Tourism were developed and revisions to the Information Technology and Retail frameworks were finalised.

## **STRATEGIC DIRECTIONS**

### **Syllabus Development and Support**

In 2002, the Office finalised the development of a Kindergarten to Year 10 curriculum framework. The framework takes into account current and emerging issues for the delivery of curriculum within schools, particularly the use of information and communications technology in the classroom and its impact on learning and assessment. The framework has supported the revision of Years 7 to 10 syllabuses.

In 2003, the Office will have completed the development of new up to date, standards based syllabuses for the K-6, 7-10 and 11-12 stages of schooling. The Office has begun the process of post implementation evaluation of the Years 11-12 syllabuses which were released in 1999. The Office is currently working with teachers and school systems to develop strategies and materials to support the implementation of the full set of K-12 syllabuses now completed.

### **Registration and Accreditation**

The Office of the Board of Studies is the regulator of non-government schools in New South Wales. In October 2000, the Government commissioned an independent Review of non-Government Schools in New South Wales conducted by Mr Warren Grimshaw, AM. The first report of the Grimshaw Review was released in April 2002 and addressed the issues of school registration, accreditation, administrative structures, school reporting and the planning of new schools. In December 2002, the Government announced that key recommendations of the Grimshaw Review would be implemented including those that address strengthened registration criteria and detailed school annual reporting requirements. The 2003-04 Budget provides funding to the Office to support the implementation process.

### **Information and Communications Technology**

The 2002-03 Budget included \$4.2 million to fund the introduction of new information and communications technology to assist the development of new syllabuses and support materials, online services and support for schools, a trial of computing skills assessments and further development in the broader use of computers in examinations. The Office of the Board of Studies was allocated \$0.7 million over 2 years (\$0.2 million in 2002-03 and \$0.5 million in 2003-04) to support the review, development and small scale trial of online testing for appropriate HSC and School Certificate courses.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for 2003-04 are estimated at \$91.4 million, an increase of \$1.6 million on 2002-03. Key expenditure initiatives in 2003-04 include:

- ◆ continuing revision of Years 7-10 syllabuses: \$2 million will be provided to complete the review and revision of Years 7 to 10 syllabuses for distribution to schools during 2003;
- ◆ Computing Skills Assessment for Year 10 students and online testing: \$1.1 million will be allocated to further develop and trial the assessment of the computing skills of Year 10 students and further development and small scale trailing of online testing;
- ◆ Vocational Education and Training: \$0.3 million has been provided to develop a new framework for Primary Industries for release in 2003 and to support new framework development and revisions to the Construction, Information Technology, Metal and Engineering, and Entertainment frameworks for release in 2004; and
- ◆ enhanced registration requirements for non-government schools: \$0.5 million has been allocated to the Office in 2003-04 to fund the establishment costs of the implementation of the Grimshaw Review.

### **Asset Acquisitions**

An amount of \$0.7 million will be provided to further develop computer systems to support the Computing Skills Assessment test for Year 10 students and for the Years 7 - 10 syllabus redevelopment project.

## **DEPARTMENT OF ABORIGINAL AFFAIRS**

The Department, through the partnership between the Government and the Aboriginal people of New South Wales, is the leading agency for positive change and achievements in Aboriginal affairs and for facilitating co-ordination of Aboriginal programs.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Aboriginal Communities Development Program (ACDP) will raise the health and living standards of 22 selected priority Aboriginal communities that have major environmental health needs. The ACDP began in 1998-99 with a budget of \$200 million over seven years. The Department works closely with the Aboriginal Housing Office in determining the housing strategy within this program. The program is now expected to be completed in 2007-08.

During 2002-03, expenditure on the ACDP was revised from \$33.8 million to \$29.2 million. Critical non-housing expenditure has been brought forward into 2002-03 to maintain momentum in the program due to delays in establishing accredited Aboriginal housing providers.

In 2002-03, the Department received additional funding of \$1 million per annum for four years for the Aboriginal Community Partnerships project. The project aims to give Aboriginal communities greater control over the planning, design and delivery of Government services. While the project is still in its infancy, significant work has gone into preparing the local communities and forming the stakeholder linkages necessary to ensure the project's success.

An additional \$0.3 million was allocated in 2002-03 to establish and operate an Aboriginal Languages Resource and Research Centre. The purpose of the Centre is to assist Aboriginal communities to revive and permanently preserve some of the 70 Indigenous languages once spoken across New South Wales. In April 2003 the Centre was opened at Tranby College, Glebe.

In 2002-03, the Department received an additional \$0.1 million to index the records of the Aboriginal Welfare Board. The objective of the indexing project is to assist Aboriginal people with researching family history when trying to reconnect with kin. Indexing began in January 2003 with approximately 15,000 records to date entered onto the database from the files held at State Records.

In 2002-03, the Department received \$1.65 million in relocation and fitout costs for new premises. New accommodation was required due to overcrowding in the existing location. The Department moved to its new location in April 2003.

## **STRATEGIC DIRECTIONS**

The Department has ongoing commitments to key initiatives that extend into the 2003-04 year and beyond. These include the development of the new policy for Aboriginal Affairs in New South Wales, *Two Ways Together, Partnerships: A New Way of Doing Business with Aboriginal People*. The Department continues to work closely with the New South Wales Aboriginal Land Council (NSWALC), to monitor and advise on the administration of Aboriginal Land Councils.

## **2003-04 BUDGET**

### **Total Expenses**

Estimated total expenses for 2003-04 are \$42.1 million. The major expense is \$33.5 million for the Aboriginal Communities Development Program of which \$19 million will be channelled through the Aboriginal Housing Office to procure housing in accord with the *Aboriginal Housing Act 1998*.

In 2003-04, additional funds of \$0.1 million will be provided to the New South Wales Reconciliation Council. The Council is the peak body for reconciliation in the State and will use the funds to:

- ◆ deliver information technology training to Local Reconciliation Groups;
- ◆ run a small grants program which will provide seed funding to local reconciliation projects;
- ◆ operate a local history project in one community in New South Wales; and
- ◆ employ a field officer to provide support to local reconciliation groups.

### **Asset Acquisitions**

Capital expenditure is budgeted at \$39,000 for 2003-04 for the upgrading of computer software and office equipment.

(a) A number of Public Sector agencies have been restructured as at 2 April 2003. At this stage only high level aggregates are available for the 2002-03 year and 2003-04 Budget. Detailed Financial Statements and program statements for these agencies will be published on 26 August 2003.

(b) Total figures are not available due to the restructure of some agencies.

\* Funding to support the Minister for Science and Medical Research is shown under the Premier's portfolio within the Cabinet Office.

## MINISTRY OF ENERGY AND UTILITIES

The Ministry of Energy and Utilities (the Ministry) was expanded on 2 April 2003 to include the State Water and Town Water and Recycling Services Branches from the former Department of Land and Water Conservation.

### STRATEGIC DIRECTIONS

The Ministry provides the Minister for Energy and Utilities with strategic policy, legislative and regulatory advice on the State's energy sector, urban and rural water utilities, and related social programs. The Ministry is also responsible for bulk water delivery services in non-urban areas through State Water.

The Ministry is focused on ongoing competition reform of the State's natural gas and electricity markets, the sustainable use of energy and water, integrated water cycle management, safety, and supply reliability.

### 2003-04 BUDGET

#### Initiatives/Total Expenses

Total expenses for the Ministry are estimated at \$243.7 million.

Expenditures include:

- ◆ commitments to deliver backlog water supply and sewerage projects in country towns;
- ◆ operating, maintenance, metering and other expenditures in delivering bulk water to rural and regional customers; and
- ◆ pensioner energy and life support rebates and energy accounts payment assistance program.

## **Asset Acquisitions**

Total asset acquisitions in 2003-04 are estimated at \$24.8 million. Major capital works include flood security and upgrade works at various dam sites, rehabilitation of river structures and periodic maintenance programs.

## **PAYMENTS FOR WATER AND SEWERAGE ASSISTANCE**

Payments for Water and Sewerage Assistance provides social program funding, totalling \$89.8 million, to Sydney and Hunter Water Corporations for:

- ◆ concessions granted to pensioners on water and sewerage rates (\$77.9 million in 2003-04);
- ◆ concessions granted to properties exempt from water and sewerage rates (\$9.8 million in 2003-04);
- ◆ the connection of selected un-sewered areas to the sewerage network, based on public health and environmental priorities (\$1.3 million in 2003-04); and
- ◆ the Blue Mountains septic pump-out service (\$0.9 million in 2003-04).

# MINISTER FOR FAIR TRADING

---

The Minister for Fair Trading is responsible for:

- ◆ the protection of consumer rights and to advise business and traders on fair and ethical practice;
- ◆ the development and promotion of value and fairness in the New South Wales marketplace;
- ◆ the detection, remedy and discouragement of unfair trading practices in the marketplace;
- ◆ the registration of business names and co-operatives, incorporation of associations, issue of licences to traders and the maintenance of public registers and licensing systems;
- ◆ the provision of advice and mediation services to consumers and traders;
- ◆ the administration of the Register of Encumbered Vehicles; and
- ◆ the resolution of disputes through the Consumer, Trader and Tenancy Tribunal and the Strata Schemes Board.

The Minister for Commerce is responsible for the following fair trading activities:

- ◆ home warranty insurance; and
- ◆ supporting the home building industry and maintaining confidence in the marketplace through the provision of building licensing services.

The expenditure associated with these responsibilities is contained in the financial information of the Office of Fair Trading operating within the Department of Commerce.

## DEPARTMENT OF GAMING AND RACING

The responsibilities of the Department of Gaming and Racing are to ensure the proper conduct and balanced development of the liquor, gaming, racing and charity industries.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

The Department is currently implementing the Government's Gaming Reform Package that introduces a number of gambling harm minimisation strategies.

During 2002-03, the Department:

- ◆ commissioned research into specific regulatory measures to reduce gambling-related harm;
- ◆ commenced implementation of the five year policy framework that is guiding the effective provision and co-ordination of gambling treatment services and increasing awareness about problem gambling related harm;
- ◆ completed reviews of the gaming machine, casino gaming, lottery gaming and charitable fundraising legislation in accordance with National Competition Policy requirements;

- ◆ developed and progressed further initiatives to promote liquor harm minimisation and responsible service of alcohol;
- ◆ oversaw upgrades to the centralised monitoring system for gaming machine operations and the commencement of one statewide links jackpot system;
- ◆ revised and republished the Best Practice Guidelines for Charitable Organisations;
- ◆ tabled in Parliament recommendations made in a review of the Thoroughbred Racing Board legislation and amended shareholding restrictions in totalizator legislation;
- ◆ commissioned an automatic totalizator monitoring system;
- ◆ implemented new governance arrangements for the control and management of the harness and greyhound racing industries; and
- ◆ initiated a process leading to a national co-operative framework for cross-border betting.

## **STRATEGIC DIRECTIONS**

Specific initiatives that will be undertaken by the Department, in the short to medium term include:

- ◆ ongoing refinement of the outcomes from the Government's gaming machine policy reforms and examination of further regulatory measures to reduce gambling-related harm;
- ◆ progressive implementation of the five-year policy framework for gambling treatment services including the introduction of triennial funding and education initiatives to raise community awareness about gambling-related harm;
- ◆ implementation of new initiatives to promote liquor harm minimisation and responsible service of alcohol, in the context of the Alcohol Summit;
- ◆ finalisation of the reviews of the liquor, club management, gaming and charitable fundraising legislation in accordance with National Competition Policy requirements;
- ◆ delivery of further efficiencies from the implementation of the centralised monitoring system for gaming machine operations;
- ◆ further implementation of the restructured arrangements for control and management of the harness and greyhound racing industries;

- ◆ finalisation of a national co-operative framework for cross-border betting and Exchange Betting services;
- ◆ implementation of recommendations made in a review of the Thoroughbred Racing Board legislation;
- ◆ establishing a national co-operative framework for Exchange Betting services;
- ◆ finalisation of the project to upgrade the Department's information systems; and
- ◆ conducting a review of the totalizator legislation.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Department of Gaming and Racing in 2003-04 are estimated at \$35.3 million. This is a reduction of approximately 2.2 percent on the projected 2002-03 expenditure, attributed mainly to the finalisation of a redundancy program in 2002-03.

The estimated level of expenditure by the Casino Community Benefit Fund is maintained in 2003-04 at \$12.2 million. This funding is from a 2 percent levy on the casino operator which is used for problem gambling research, education, treatment, support and rehabilitation services and other community benefit projects.

The Department will continue to provide Central Monitoring Fee assistance of \$1.5 million to small clubs.

## **CASINO CONTROL AUTHORITY**

The main objectives of the New South Wales Casino Control Authority are to maintain and administer systems for the licensing, supervision and control of a casino in New South Wales.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Authority is responsible for the supervision and control of Star City Casino in New South Wales and a number of investigations/inquiries (including the second and third statutory investigations into the casino operator).

Total expenses in 2001-02 and 2002-03 were significantly higher than previous years. This was primarily due to transfer of 29 positions from the Department of Gaming and Racing to the Casino Control Authority from 1 July 2001. The increase was also due to the recruitment of additional Government inspectors/surveillance staff in 2001-02 and 2002-03, but was funded by Star City Casino under an agreement between the Treasurer and the Casino.

## **STRATEGIC DIRECTIONS**

Following the transfer of the Casino Surveillance Division from the Department of Gaming and Racing to the Casino Control Authority on 1 July 2001, the Authority conducted a review of its organisational structure with a view to streamline its operations and to take advantage of efficiency synergies generated by the transfer. The review was completed in July 2002 and its recommendations were implemented during 2002-03. This resulted in a more efficient organisational structure and a reduction in the total number of positions.

In accordance with the recommendations of the McClellan Report, the Authority also conducted a review on the progress of Star City Casino towards achieving a "satisfactory culture". The review report was released in July 2002 and concluded that Star City had substantially commenced the process of implementing management procedures to deal with the issues raised in the McClellan Report. The Authority will continue to monitor Star City's progress.

The Authority has reduced its office accommodation requirements with its new lease in March 2003, achieving significant rental savings and improved service standards.

## **2003-04 BUDGET**

### **Total Expenses**

The Authority's total expenditure budget is \$7 million. This is 2.9 percent below the 2002-03 Budget. The decline is mainly due to the provision of only \$0.1 million in 2003-04 for the Authority's third Section 31 investigation. The bulk of the funding for the investigation (\$0.4 million) was provided in 2002-03.

### **Asset Acquisitions**

The capital allocation of \$70,000 is for replacing fully depreciated and obsolete computer and office equipment.

## DEPARTMENT OF HEALTH

### EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

The Government is meeting increasing demand for health services in New South Wales by delivering the largest ever State Health Budget with expenditure rising to nearly \$9.3 billion 2003-04. This is an increase of over \$900 million or 11 percent on the 2002-03 Budget. It continues the Government's commitment to significant real increases in health funding.

This funding is being delivered in an environment of uncertainty due to changes in Commonwealth health policy and the renegotiation of the Australian Health Care Agreements. These changes may not only affect the level of funding available from the Commonwealth for public hospitals, but may also impact on the demand for services provided by New South Wales. In particular, foreshadowed changes to Medicare have the potential to lead to increased demand on emergency departments as patients are faced with co-payments for general practitioner visits.

The Government's investment in the development of new models of care and in hospital technology and infrastructure is helping the State's health system meet rising demand. Many patients are now treated in ambulatory or community settings rather than hospitals, minimising the disruption caused to their lives. The average length of stay in public hospitals has declined from 6.1 days in 1993-94 to 4.8 days as at 30 April 2003, an improvement of 21 percent over this period.

The percentage of booked surgery performed where discharge occurs on the same day has increased from 49 percent in June 1996 to over 58 percent in April 2003. The number of overnight elective surgical patients that have their operation on the day they are admitted has risen from 50 percent in December 1997 to 88 percent in April 2003.

## **STRATEGIC DIRECTIONS**

The Government will continue to implement the Government Action Plan for Health and the NSW Rural Hospital and Health Services Program to deliver improved health services and outcomes to the people of New South Wales.

Implementation of the reform agenda has been through a number of strategies that focus on the coordination and optimisation of resources within and across clinical specialities. Clinicians, other health professionals, consumers and communities have been involved in the development of the reforms. A number of major initiatives will continue to be funded in 2003-04:

- ◆ The Government has invested heavily in Emergency Departments over the past four years. This includes building new or refurbishing Emergency Departments in several hospitals. In addition, to address the need for specialised care in the assessment and treatment of older people, the Government is allocating \$5.5 million in 2003-04 to provide 36 Aged Care Services Emergency Teams across metropolitan and rural New South Wales.
- ◆ The commencement of a major metropolitan service planning initiative has seen the rationalisation and improvement of service delivery across the metropolitan area. In 2003-04, \$64 million will be provided for a range of specific program initiatives including:
  - establishment of the State Spinal Cord Injury Service to coordinate spinal care across the State. The Transitional Care Service will see that patients are supported in their local community, reducing the need for readmission associated with the complications of spinal injury;

- development of clinical networks to provide greater clinical liaison between staff at metropolitan hospitals and principal referral hospitals. This will lead to a better integrated hospital system with a single point of entry to the health system;
  - the State Renal Network which has seen a significant increase in the rate of living kidney transplantation;
  - new bone marrow transplantation services commenced on the Central Coast and Wollongong, increasing access for patients;
  - new cardiac catheterisation services commenced at Nepean and Wollongong hospitals and access has been improved in the Hunter area;
  - new acute stroke units in 16 locations opened under the Stroke Initiative which also provides additional medical, nursing and allied health staff; and
  - new CT scanners being installed, with supporting staff recruited, at Ryde, Auburn, Mt Druitt, Katoomba and Wyong Hospitals. This has reduced the need for the transfer of acutely ill patients.
- ◆ Improved management of chronic and complex conditions is a focus of the Government's reforms and better coordination and provision of care in appropriate settings offers the opportunity to significantly improve patient quality of life. The continuation of \$15 million funding on an annual basis for the Chronic Care Program will initially focus on respiratory disease, cancer and cardiovascular disease.
- ◆ Implementation of the Rural Health Plan will result in significant improvement in access to and the quality of health services in rural and remote areas. Ongoing initiatives that will receive funding in 2003-04 include:
- funding of \$5 million for orthopaedic surgery to eight rural health services; and
  - the Transport for Health initiative which assists people living in rural New South Wales to gain access to health services. Funding of \$2.5 million continues to be allocated to support implementation of this program in rural areas.

- ◆ Improvements in information management and better availability of patient and clinical information can significantly improve clinical outcome, lead to better coordination of care and increase the efficiency of service provision. Ongoing projects that will receive funding in 2003-04 include:
  - the State Electronic Health Record being developed in association with the Commonwealth. The infrastructure has been prepared for two pilot projects, the Child Health Information Network in Greater Western Sydney and Chronic Disease Management in the Hunter;
  - implementation of the Integrated Clinical Information Program, including: roll out of the Replacement Patient Administration Systems; implementation of the Community Health Information System in four Areas; and planning for the implementation of a Point of Care Clinical solution will commence;
  - New South Wales Telehealth services being expanded with 51 new sites across the State (a total of 204 sites and 21 new or expanded services). Research projects have been established for critical care, renal and primary care; and
  - 'Last mile' telecommunications infrastructure and services being developed at 60 health and education facilities in 18 towns across rural and regional New South Wales. This \$8.4 million project is being carried out with the Department of Education and Training and the Office of Information Technology. The implementation of the new infrastructure will commence in July 2003.
- ◆ The Government remains committed to a range of health promotion programs that are designed to improve the overall level of health in the community and encourage people not to engage in lifestyles which might endanger their health. The following initiatives will continue in 2003-04:
  - reducing the prevalence of smoking in the community, particularly amongst high priority groups, with a budget of \$3.3 million. Funding of \$0.5 million for the Car and Home Smoke Free Zone campaign during 2003-04 will largely be spent on extending the reach of the campaign into Aboriginal and cultural communities with high rates of smoking; and
  - immunisation which remains a key strategy in preventing illness, particularly amongst vulnerable groups. In 2003-04 the National Meningococcal C Vaccination Program will commence and progressively immunise all high school and primary school students throughout New South Wales by June 2007.

- ◆ Health outcomes for indigenous communities continue to be lower than those for the remainder of the State. A number of projects designed to improve the health outcomes of indigenous communities will continue in 2003-04. These include:
  - the Aboriginal Vascular Health Program directed at the prevention and management of vascular disease in Aboriginal people in 20 locations across New South Wales. A move from a series of pilot programs to an ongoing program will see approximately \$1.6 million provided in 2003-04; and
  - the Aboriginal Family Health Strategy designed to address family violence, sexual assault and child abuse in Aboriginal communities in accordance with each community's unique local needs. In 2003-04, \$1.5 million has been allocated to support the program.
- ◆ The Oral Health Promotion Action Plan will provide a framework for a co-ordinated statewide approach to the promotion of oral health and the prevention and early intervention of oral disease and conditions. It is the first Action Plan for Oral Health Promotion in New South Wales and will build on other oral health strategies taking place in the State.
- ◆ \$8 million will be made available on an ongoing basis to fund the *Statewide Infant Screening – Hearing program (SWISH)*. Under this new initiative free hearing tests are available for all babies across New South Wales within the first few days of being born. This will enable the early identification of newborns with significant hearing impairment and thereby ensure early treatment.

## **2003-04 BUDGET**

### **Total Expenses**

Budgeted total expenditure in 2003-04 of \$9.3 billion is provided within the previously announced framework of budget certainty and growth funding. This level of funding reflects the cost of award increases to health staff under the Government's memorandum of understanding with public sector unions and the full annual cost of the Nurses' 6 percent increase granted by the Industrial Relations Commission effective 1 January 2003. The annual value of salary increases to health services' staff since 1 January 2003 is around \$530 million per year.

The Government's strategy for improved health care is being implemented through a range of strategies and plans including the Government Plan of Action for Health, the New South Wales Rural Hospital and Health Service Program, the New South Wales Aboriginal Health Strategic Plan and initiatives to improve mental health services across the State.

Additional expenditure in 2003-04 is being directed at:

- ◆ improving access to quality health care services;
- ◆ continued improvements in service delivery, including a focus on emergency departments and the treatment of cancer; and
- ◆ ensuring that the NSW Health system can attract and retain a highly skilled professional workforce.

The Government's commitment to improving the way that New South Wales deals with cancer is highlighted by the appointment of a Minister for Science and Medical Research, and a Minister Assisting the Minister for Health (Cancer). Major funding initiatives in relation to cancer are:

- ◆ \$5 million will be allocated to the newly created New South Wales Cancer Institute in 2003-04. The Institute will bring together cancer experts to find new ways to improve outcomes for cancer patients;
- ◆ increased funding of \$3.0 million for the operating cost for linear accelerators resulting from further enhancements to Radiation Oncology Services in New South Wales. The planning for these services resulted in the installation of a second linear accelerator at the Nepean Cancer Care Centre and a fourth linear accelerator at the Campbelltown Cancer Centre;
- ◆ funding of \$0.6 million for implementation of a five year training program to assist existing medical physicists; and
- ◆ the employment of radiation therapist tutors will assist in the recruitment and retention of radiation therapists, an area in which there are sustained high vacancy rates. Funding of \$0.4 million has been provided in 2003-04.

The Government continues to improve service delivery in public hospital Emergency Departments. In 2002-03, trials were introduced at a number of metropolitan hospitals aimed at providing better response times and patient care. The evaluation of the trials is scheduled for 2003-04 with future annual funding to be allocated at the optimal sites based on outcome of these evaluations. The annual commitment to providing funding for these initiatives is:

- ◆ An additional \$8 million for Rapid Emergency Assessment Teams (REATs) dedicated to improving triage waiting times in emergency departments. The teams make clinical decisions and start minor treatment prior to a full medical assessment.
- ◆ An additional \$23 million for the Emergency Medicine Units (EMUs) initiative aimed at improving the Emergency Department waiting times through the provision of observation or short term treatment beds. EMUs accept patients that require a stay of 23 to 48 hours in the Emergency Department for observation or diagnostic tests and treatment but do not require care in an inpatient bed.
- ◆ NSW Health and the Ambulance Services' ability to respond to large scale disasters and emergencies has been enhanced through increased training, purchase of specialist equipment, enhanced laboratory capacity and improved planning. Funding of \$4 million has been provided in 2003-04 for implementation and operating costs, plus a further \$4 million for capital related equipment.

Any health system is dependant on highly skilled and motivated professionals to deliver high quality patient care. Workforce development remains a major focus of the Government's reforms. The following workforce initiatives are being introduced in 2003-04:

- ◆ an additional \$0.5 million for the Nurses Scholarships program. Nursing Scholarships are provided to individual nurses to improve retention of nurses and increase skill levels and expertise;
- ◆ funding of \$3.0 million is being provided to enable more nurses to utilise study leave so that they may access further education; and
- ◆ accelerate the roll out of Nurse Practitioner Services. The scheme provides clinical career paths for experienced nurses and will improve retention of experienced nurses within the health system. This initiative is valued at up to \$1.1 million.

Significant investments have been made in providing improved access to health services in rural areas. In the coming year, funding is to be provided for the following additional measures to improve access to services in rural areas:

- ◆ A \$5 million medical indemnity package is to be offered to visiting medical officers and staff specialists who treat private patients in public hospitals in rural and regional areas. To be eligible for this coverage doctors will need to agree that private patients do not have to pay 'any gap fee'.
- ◆ An additional \$2.6 million has been allocated in 2003-04 for the recruitment of additional ambulance staff to be located in rural areas of New South Wales. This is the first stage of an overall recruitment initiative to employ an additional 230 Ambulance personnel across rural Ambulance Centres over the next four years.
- ◆ Funding of \$2.6 million for the trial of the Mobile Surgical Service which began in March 2003. Depending on the success of the trial will be extended to other locations throughout rural New South Wales. The service will not replace existing operating theatres but, because of the technology and equipment it contains, will be able to provide an extension of services.
- ◆ An additional \$2.0 million is to be provided to expand renal services in rural areas, in addition to the existing \$2.5 million allocation. This money is being spent establishing new dialysis centres in key rural areas, enhancing facilities already provided, and providing services to support people in rural areas on home dialysis.

NSW Health is also involved in a number of significant whole-of-government initiatives. Significant funding was provided to NSW Health under the BioFirst strategy, with \$36 million allocated over five years to NSW Health to implement initiatives. In 2003-04, a total of \$12 million has been allocated to:

- ◆ establishing the St Vincent's Research and Biotechnology Precinct;
- ◆ developing the Westmead Millennium Institute (Stage 2) as part of the Westmead Research Hub;
- ◆ enhancing existing research capabilities through the establishment of research clusters;
- ◆ implementing Converging Technologies;
- ◆ implementation of the New South Wales BioFirst Awards Program; and
- ◆ establishing Bio-Link, to facilitate the commercialisation of life sciences research in New South Wales.

The Government has announced a new four year Drug Budget that provides funding for new and ongoing initiatives commencing in 2003-04. Expenditure on these projects in 2003-04 will be \$34.9 million and will include:

- ◆ continued funding for the methadone program including both program places and case management of clients (\$13 million);
- ◆ treatment and rehabilitation programs to inmates and detainees conducted within adult correctional facilities and juvenile justice centres (\$4.2 million);
- ◆ continued funding for residential rehabilitation through non-Government organisations (\$1.5 million);
- ◆ augmentation of rural drug and alcohol counsellors and clinical nurse consultants (\$1.1 million);
- ◆ two new medicated detoxification facilities at Illawarra and Hunter (\$0.6 million);
- ◆ new cannabis intervention and treatment clinics to be established (\$0.2 million);
- ◆ heroin overdose and psycho-stimulant strategies (\$0.4 million);
- ◆ new residential rehabilitation places (20) for Methadone to Abstinence (\$0.1 million);
- ◆ continuation of inpatient and outpatient facilities at Nepean and Wyong; and
- ◆ establishment of a new Youth Detoxification Service to be established in Western Sydney.

As well, continued funding of \$2.3 million in 2003-04 will be spent on the Adult Drug Court Initiative to provide treatment alternatives for drug offenders to the criminal justice system.

### **Asset Acquisitions**

The Government has again provided NSW Health with funding for the next four years to build and upgrade health services. This future funding makes it possible for NSW Health to plan for long-term construction programs with certainty within an approved asset acquisition capped commitment. Major regional strategic projects have been commenced and include clinical and community participation in the planning and implementation of projects.

Provision has been made for the commencement of the following major new works in 2003-04:

<i>Project</i>	<i>2003-04 Allocation \$m</i>	<i>Estimated Total Cost \$m</i>
<b>Mental Health Stage 3A</b>	<b>1.0</b>	<b>12.0</b>
<ul style="list-style-type: none"> <li>◆ <i>Northern Mental Health Network</i> (Estimated Total Cost \$6 million): 15 bed Intensive Psychiatric Care Unit at Macquarie Hospital to serve both the acute secure inpatient needs of Northern Sydney and Central Coast Area Health Services.</li> <li>◆ <i>Western Mental Health Network</i>: (Estimated Total Cost \$6 million): This specialist 20 bed non-acute service will enable patients who require non-acute care to be discharged to more clinically appropriate services.</li> </ul>		
<b>Forensic Hospital</b>	<b>0.5</b>	<b>57.6</b>
<p>This project will deliver a new 135 bed Forensic Hospital consisting of 120 beds for forensic mental health patients and 15 high security non-forensic beds for difficult civilian patients who cannot be managed in the acute mental health system.</p> <p>The hospital will involve redevelopment and new extension of the existing Prison Hospital on land to be de-gazetted from the Long Bay Correctional Centre. The new facility will operate independently of the Long Bay complex and the Corrective Health Service will have custodial control of the forensic patients as well as providing mental health care services.</p>		
<b>Information Management and Technology Patient and Clinical Systems Implementation (Point of Care Clinical)</b>	<b>2.5</b>	<b>42.5</b>
<p>Clinical decision support information systems to complement the Patient Administration System already proceeding in works in progress.</p>		
<b>Information Management and Technology Infrastructure</b>	<b>1.0</b>	<b>15.0</b>
<p>Provision of the telecommunications network and consolidated data as required to support current system upgrade to patient, clinical and corporate services groups.</p>		
<b>Counter Terrorism</b>	<b>4.1</b>	<b>4.1</b>
<p>Funding for counter terrorism has been provided to upgrade NSW Health and the Ambulance Services' response and treatment capacity for victims of a terrorist attack involving chemical, radiological or biological weapons.</p>		

<i>Project</i>	<i>2003-04 Allocation \$m</i>	<i>Estimated Total Cost \$m</i>
<b>Rural Hospital and Health Services Program Planning</b>	<b>1.0</b>	<b>1.0</b>
Planning funds for Rural Hospital and Health Service Program projects to commence in future years. The projects are at Bingara, Bombala, Dunedoo, Guyra, Merriwa, Portland, Berrigan, Tullamore, Walcha and Warialda. Projects at Junee, Tottenham, Batlow and Tinga will commence planning in June 2004.		
<b>Major Projects Planning</b>	<b>1.0</b>	<b>1.0</b>
Planning funds for projects to commence in future years includes Mid North Coast Area Health Service Radiotherapy Service, Bathurst/Orange Hospital Redevelopment, Wagga Wagga Hospital and the Richmond Clinic at Lismore Base Hospital. These projects are high priority items in the Department's long-term infrastructure plan. Each is supported by separate Government commitments.		

The 2003-04 Asset Acquisition Program also provides for the continuation of major upgrading/redevelopment works at Gosford, Wyong, Royal Prince Alfred, Blue Mountains, Coledale, Prince of Wales, Liverpool, Royal North Shore, Milton-Ulladulla, Belmont, John Hunter, Hornsby, Sutherland, Westmead, St. George, Shoalhaven and Tweed Heads Hospitals, and ongoing implementation of works for Aboriginal and Mental Health Services.

The 2003-04 Program also provides for the continuation of Phase 2 of the Rural Hospital and Health Service Program which includes the redevelopment of hospitals at Bourke, Hay, Kyogle and Henty.

The Ambulance Service of New South Wales will continue receiving capital funding to support the ongoing infrastructure improvement program including the upgrade of medical equipment and the enhancements of clinical case and information systems, Computed Aided Dispatch communications, building works, co-location of ambulance stations with rural hospital facilities and fleet replacement.

## **HEALTH CARE COMPLAINTS COMMISSION**

The Health Care Complaints Commission is an independent statutory body reporting directly to the Minister for Health and to the Joint Parliamentary Committee on the Health Care Complaints Commission. The Commission has powers to investigate complaints against all health practitioners, hospitals, institutions and health programs in New South Wales.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Total expenses in the last five years have increased as public awareness and utilisation of the Commission's services have increased. Recent years have seen a strengthening of both the Patient Support Service and the Commission's formal investigative capacity. In addition, the evolution of alternative and flexible resolution strategies has enabled the Commission to provide a multi-faceted approach to complaint management and resolution.

### **STRATEGIC DIRECTIONS**

Over the past year, the Commission has expanded its complaint resolution staffing and re-focussed its activities on direct interaction with the parties to complaints. To support this, the Commission has moved to offices in the Sydney CBD which can accommodate its staff and which have a larger number of publicly accessible meeting and interview rooms. There is a much higher standard of access for people with disabilities in this new location than the Commission's previous accommodation.

The Commission is well placed to expand the service which it provides to people in rural and regional NSW with the appointment of Patient Support Officers located in Wollongong, Dubbo and Lismore.

### **2003-04 BUDGET**

#### **Total Expenses**

Total expenses in 2003-04 will be \$8.7 million. Expenses in 2003-04 will include \$0.25 million to establish Patient Support Service offices in the regions covered by the Illawarra, Macquarie and Northern Rivers Area Health Services.

(a) A number of Public Sector agencies have been restructured. At this stage only high level aggregates are available for the 2003-04 Budget. Detailed Financial Statements and program statements for these agencies will be published on 26 August 2003.

(b) Total figures are not available due to the restructure of some agencies.

## **HERITAGE OFFICE**

The Heritage Office manages the administration of the Government's heritage policies. It has a major educational and promotional role to encourage conservation of the State's heritage assets.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Heritage Office's expenses include the conservation of heritage assets through policy advice and the administration of heritage grants. Expenditure levels are relatively consistent from year to year. In 2003-04, total expenses are projected to be \$7.6 million compared to total expenses of \$7.8 million in 2002-03.

### **STRATEGIC DIRECTIONS**

The Heritage Office's strategic directions are to:

- ◆ complete a comprehensive inventory of the State's significant heritage items;
- ◆ develop the community's understanding of heritage as an essential component of our culture;
- ◆ achieve best practice standards in the conservation and re-use of heritage items;
- ◆ assist local councils and state government agencies to perform their heritage responsibilities;
- ◆ streamline heritage approvals processes; and
- ◆ demonstrate the economic benefits of the conservation of the State's heritage resources.

### **2003-04 BUDGET**

#### **Total Expenses**

Total expenses of \$7.6 million in 2003-04 include \$2.4 million for Heritage Assistance Grants.

#### **Asset Acquisitions**

An allocation of \$19,000 is provided for minor equipment purchases only.

## DEPARTMENT OF INFRASTRUCTURE, PLANNING AND NATURAL RESOURCES

The establishment of the Department of Infrastructure, Planning and Natural Resources was announced on 29 May 2003 to co-ordinate and streamline planning and natural resource management in New South Wales. The new Department combines many of the functions of the previous Department of Planning and Department of Land and Water Conservation, and incorporates the planning functions of the Department of Transport. Commercial and service elements of previous departments will be relocated to ensure a focus on an integrated framework for natural resource management and land use planning.

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	n.a.	461,435
Capital Appropriation .....	n.a.	16,096
Total Expenses .....	n.a.	552,820

### STRATEGIC DIRECTIONS

The objectives of the new Department are to:

- ◆ better link natural resource management and urban development, particularly in coastal areas;
- ◆ simplify government structure, policy and regulation to resolve issues of complexity and duplication;
- ◆ improve service levels by reinforcing the concept of one-stop shops for information, applications and approvals;
- ◆ reduce the costs of administration to enable resources to be redirected to service delivery; and
- ◆ better link vital infrastructure such as transport and other facilities and services to the needs of communities now and in the future.

Priorities for the new Department include:

- ◆ increasing the involvement of the community in land use and natural resource decision-making;
- ◆ strengthening of catchment management processes;

- ◆ implementation of native vegetation reform;
- ◆ a comprehensive plan for the Salinity Reforestation project;
- ◆ commencement of water sharing plans and new water licensing system;
- ◆ a strategic approach to urban water efficiency and conservation;
- ◆ enhanced governance arrangements and the strategic allocation of funds;
- ◆ simplification of the planning process;
- ◆ better management of coastal development; and
- ◆ co-ordination and strategic planning for major infrastructure development.

The Department of Infrastructure, Planning and Natural Resources will work towards a better balance between the environmental, economic and social needs of our communities and natural resources, with the ultimate aim of achieving sustainability of our natural resources and environments.

## **2003-04 BUDGET**

### **Initiatives/Total Expenses**

Total expenses in 2003-04 are estimated at \$552.8 million. A major part of this expenditure and that of future years will be directed towards a better integration of natural resource management and balanced and sustainable development. The integration of the vital areas of infrastructure, planning and natural resources will deliver infrastructure and policy that aligns with the changes that are taking place in the community.

Key initiatives that are ongoing or commencing in 2003-04 will be expenditure, in some cases spread across several agencies, of \$64.7 million over four years to meet implementation costs of the Water Management Act; \$52 million towards the implementation of the NSW Salinity Strategy program over four years; \$44.4 million as the State's share of operating costs and works programs for irrigation areas in 2003-04 with similar ongoing expenditure; \$2.5 million in 2003-04 as part of a \$5 million Aboriginal Water Trust to assist the Aboriginal community in the development of water-based farming and aquaculture enterprises; \$13.7 million for the Coastal Protection Package and Area Assistance Scheme grants; substantial support for local government in the areas of coastal bikeways, floodplain management, estuary and coastal management, with particular support for improvement to Lake Illawarra, Lake Macquarie, planning in Kosciuszko National Park and Georges River.

Expenditure on the Salinity Strategy is recognised as part of New South Wales' contribution of \$198 million to the \$396 million National Action Plan on Salinity and Water Quality, which is a joint State/Commonwealth program. A new Natural Heritage Trust program between the State and the Commonwealth will commence in 2003-04 which will also direct substantial funding through Catchment Management Boards to address New South Wales' most pressing salinity and water quality problems.

### Asset Acquisitions

Total asset acquisitions in 2003-04 are estimated at \$18.1 million, which includes expenditure on building infrastructure works at Dubbo, Wellington and Bridge St Sydney and coastal land acquisitions. Increased funding will be directed at advancing electronic information systems.

## DEPARTMENT OF LANDS

The Department of Lands comprises Crown Estate Management, Soil Conservation Service, Native Title and Aboriginal Land Claims Units and Land and Property Information. Land and Property Information is a non-budget dependent component of the Department with separate financial statements.

The Department's role covers the sustainable management of public lands, the provision of spatial information and the provision of land and property related information, including the registration of ownership in land.

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	33,269	39,584
Capital Appropriation .....	597	1,000
Total Expenses .....	51,956	58,271

### STRATEGIC DIRECTIONS

There are opportunities to manage the Crown Estate in a more efficient, effective and sustainable way through a public trading enterprise framework. The Department of Lands will concentrate on identifying commercial opportunities that are contained within its stewardship while managing and scoping community service programs.

## **2003-04 BUDGET**

### **Initiatives/Total Expenses**

Total expenses for 2003-04 are \$58.3 million. This includes \$26.8 million for the maintenance and management of Crown Lands, \$16.3 million for soil conservation activity and \$13.5 million paid to Land and Property Information to continue community service programs such as maintenance of topographical data, survey marks, aerial photography and the Geographic Names Board.

An additional \$1 million will be provided in 2003-04 for bushfire hazard reduction and weed and pest management on Crown Land.

### **Asset Acquisitions**

The capital program is \$1.3 million. This provides for the continued development of the Land Direct information system and minor works.

## **ENVIRONMENTAL PLANNING AND ASSESSMENT ACT**

Under the *Environmental Planning and Assessment Act 1979*, the Sydney Region Development Fund was established with the specific objective of acquiring land for planning purposes within the Sydney region. The program facilitates the acquisition of regionally significant land for open space, and of vacant land for future freeway and transport corridor construction purposes, and regional projects such as Rouse Hill Regional Centre.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Expenditure is mainly incurred on land acquisition, administration, loan servicing costs, and grants for ongoing improvements to open space land, in partnership with local councils through the Greenspace program and with Greening Australia for projects in Western Sydney. New initiatives include funding for the Cooks River Foreshore Improvement Program, Central Coast Open Space System and, as a Government partner, the Sydney Harbour Foreshore Access Program.

The Rouse Hill Regional Centre is a major project that will generate substantial future revenues from sale of land. This major Centre will include retail, commercial, community, educational, recreational, transport and residential uses. It will be developed in association with Landcom as a joint venture with the private sector at an estimated development cost of \$1 billion.

As required under the Heritage Act, the Fund has completed a heritage asset management program. This program provides a systematic basis for assessing the significance of historic places owned by the Fund and directing the course of their future conservation and management.

A five-year lease has been negotiated with Waste Service NSW for a waste processing and recycling facility at Eastern Creek on land owned by the Fund. The Department of Infrastructure, Planning and Natural Resources is continuing to work with the Department of Sport and Recreation and the Department of Commerce on the development of the Western Sydney International Dragway and a business park on land owned by the Fund at Eastern Creek. The business park will be developed by 2004-05, with the land to be rezoned and sold to the private sector.

## **STRATEGIC DIRECTIONS**

The Sydney Region Development Fund has a range of key strategies for the future including:

- ◆ prudent financial management to meet the objectives and commitments of the Fund including achieving an optimal return on surplus assets;
- ◆ ongoing reviews of surplus land and acquisition commitments to ensure the objectives of the Fund are achieved and the Fund is financially sustainable;
- ◆ enhanced focus on the implementation of planning outcomes, including open space strategies and land purchased for planning purposes; and
- ◆ completion of a major review of the past performance, future direction and priorities of the Fund and the supporting implementation and funding strategies.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for 2003-04 of \$23.4 million include \$6.9 million for loan servicing costs, \$5.4 million for grants for improvements to open space land, and \$5 million for lands transferred to other government bodies. Expenses involved in administration, selling, acquiring and developing land total to \$6 million.

Revenue for 2003-04 is estimated at \$21.9 million, including net rental income of \$6.2 million, investment income of \$2.5 million and contributions from local government and the State Government of \$10.9 million.

## **Asset Acquisitions**

The asset acquisition program provides for the purchase and development of land required for planning purposes such as regional open space and major road reservations, as well as the cost of planning studies for redevelopment sites and surplus land disposals. In 2003-04, asset acquisitions are estimated at \$35 million, with estimated land disposals of \$25 million.

Asset acquisition levels can vary from year to year and are difficult to accurately predict. Purchases depend on the timing of approaches from owners to acquire their land, completion of negotiations including a vendor's agreement to sell, and property settlements.

## **HONEYSUCKLE DEVELOPMENT CORPORATION**

The Corporation assists in the revitalisation of inner Newcastle. The area being revitalised is situated adjacent to the Newcastle Central Business District (CBD) and comprises 4 kilometres of waterfront real estate located on the shores of Newcastle Harbour.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Until 1996-97, the Corporation was funded through budget contributions from the Building Better Cities program. Since that time, the Corporation has been funded through land sales and borrowings.

In the last nine years, the Corporation has made community contributions of \$58.3 million in the form of grants to other organisations, housing, public domain and open space landscaping. In recognition of the significant level of community contributions, \$13.9 million is being provided to the Corporation from the Government.

Some 36 sites have been released to the market with 32 settled, two under conditional contract, and two where terms have been agreed. The total end value of works associated with the sites is estimated to be over \$522 million.

## **STRATEGIC DIRECTIONS**

The Corporation undertakes programs to fulfil its role in assisting the revitalisation of inner Newcastle. The major features of the Corporation's strategic directions are to:

- ◆ develop the city into an effective capital of the Hunter region;
- ◆ develop a mix of affordable and other housing choices;
- ◆ improve the quality of life within the CBD and inner suburbs and to open community access to the harbour foreshore areas and enhance the attractiveness of the city;
- ◆ manage the acquisition and disposal of surplus government land holdings; and
- ◆ facilitate the provision of adequate infrastructure to promote and encourage development and investment in the area.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for the Corporation for 2003-04 are budgeted at \$10.6 million. The primary components are the cost of selling land and property of \$1.8 million and community contributions of \$6.1 million.

The level of expenses between the 2002-03 and 2003-04 Budgets is expected to be constant in real terms but with an increase of \$2.2 million in contributions to the community (grants and subsidies).

The deficit in 2003-04 is due to decreased land sales in that year and an increase in community contributions.

### **Asset Acquisitions**

In accordance with accounting standards, Honeysuckle's property development activities are capitalised as inventory not property assets.

## **LAND AND PROPERTY INFORMATION NEW SOUTH WALES**

The role of Land and Property Information (LPI) is to operate the State's land and property registration and information services, to provide land valuation and survey services, and to create value through the integration of land, spatial and property information.

LPI has offices throughout New South Wales with its principal offices located in Sydney and Bathurst. LPI offers customers convenient access to services irrespective of location through the innovative use of information and communications technology.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

LPI's business activity continues to grow in line with the State economy generally and the level of property transactions in particular. LPI continues to invest in technological solutions to improve efficiency and create value for the convenience of its customers.

### **STRATEGIC DIRECTIONS**

In 2003-04, LPI will consolidate the gains made in its first three years by concentrating on its core activities. Its major focus will include continuing to integrate spatial data with all LPI information sets, whole of government spatial information initiatives and upgrading its information systems to meet public and private sector spatial information needs.

### **2003-04 BUDGET**

#### **Total Expenses**

During 2002-03 an accounting policy change resulted in a write-down of heritage assets by \$13 million. This is a one-off, non-cash impact. Superannuation expense significantly increased (\$17.2 million) over budget.

Total expenses for 2003-04 are estimated to be \$121.9 million. The majority of this expenditure is required to provide statutory land valuations, land title creation and registration services, spatial information, survey and mapping services and technical support.

## **Asset Acquisitions**

The 2003-04 Budget for asset acquisitions is \$11.9 million. The program for LPI includes consolidating and enhancing computerised land information systems; maintenance of buildings, including the heritage listed building at Queens Square and the renewal of plant and equipment. Specific projects include integrating the databases, improving the State's cadastre, replacing the spatial maintenance engine and increasing web access to information.

## DEPARTMENT OF CORRECTIVE SERVICES

The mission of the Department is to “reduce re-offending through secure, safe and humane management of offenders”.

Custody and security of inmates in correctional facilities, the provision of a court escort and security service and the supervision of offenders in the community are key elements of the criminal justice system.

The core business objective of the Department is to provide custodial and offender management services in carrying out orders of the court. The Department adds value by delivering offender development programs which seek to reduce rates of re-offending.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Expenditure trends within the Department are impacted by both the level of the full-time inmate population and the number of offenders managed under community based programs. The full-time inmate population of correctional centres averaged 5,002 in 1990-91 and has increased to more than 8,100 as at March 2003.

Following introduction of the *Bail Amendment (Repeat Offenders) Act 2002*, the number of people on remand has increased from around 1,500 in June 2002 to around 1,800 in May 2003.

The Department expects significant growth in the community corrections area. The Community Offender Service, which provides offender management programs and services within the community and pre-sentence reports to the judiciary, has seen a marked increase in workload in recent years.

## **STRATEGIC DIRECTIONS**

Key future strategic issues for the Department include;

- ◆ reducing the risk of re-offending by establishing a standardised instrument for assessment of the risk of re-offending and of the priorities to reduce that risk;
- ◆ providing rehabilitation programs for targeted high risk offenders which have been shown to be effective at reducing the risk of re-offending;
- ◆ requiring the Parole Board to give reasons for all of its decisions relating to parole;
- ◆ providing transitional residential programs for inmates who have a high risk of re-offending because of complex social and health needs. Transitional centres will be established for male indigenous offenders, and male offenders with significant mental health problems;
- ◆ establishing half-way houses for parolees assessed as being at risk of re-offending due to lack of accommodation and program places in the community;
- ◆ continue to implement “Throughcare“ and “Electronic Case Management” throughout the Department;
- ◆ improve services and programs for offenders with significant mental health disorders, including those with an intellectual disability and/or dual diagnosis;
- ◆ improve strategies for dealing with female offenders who present challenging, self-destructive or violent behaviours, including establishing alternatives to imprisonment for women with dual diagnosis;
- ◆ enhance the Department’s assistance to victims and involvement with victims support groups;
- ◆ increase inmate accommodation and custodial staffing to meet the expected increased demand for correctional centre beds; and
- ◆ resource the Community Offender Service to meet increased demands for supervision and program provision for offenders in the community.

## **2003-04 BUDGET**

### **Total Expenses**

Estimated total expenses of \$665.5 million in 2003-04 will be incurred by the Department. Services provided will include management of offenders in the community and within institutions, delivery of developmental programs and the provision of secure offender management within selected court and police cells.

Additional funding of \$0.5 million has been provided in 2003-04 for the supervision of previously unsupervised parolees.

Provision has been made in 2003-04 for the following:

### ***Increased Inmate Numbers***

Funding has been provided for expansion of the Department's correctional bed capacity to cope with the increase in inmate numbers arising from population growth and the introduction of the *Bail Amendment (Repeat Offenders) Act 2002*.

### ***Community Supervision***

An additional 2003-04 allocation of \$1 million per annum addresses the projected growth in offenders under community supervision. The number of new orders for offenders under community supervision is expected to rise from 21,573 in 2001-02 to 22,850 in 2003-04. In addition, the number of reports (pre-sentence, post-sentence for home detention and pre-release) requested by courts is expected to rise from 29,443 in 2001-02 to 35,000 in 2003-04.

### **Asset Acquisitions – New Works**

The 2003-04 capital program, which totals \$109.6 million, will include commencement of eight major new works. Highlights of the major new works program of \$23.7 million are detailed below:

### ***Mulawa Redevelopment***

This project involves the upgrade of site infrastructure to improve the accommodation for female inmates within the State. Mulawa has been identified as a pivotal facility in the management of female inmates in New South Wales. The maximum security facility will cater for both the operational and medical requirements of high need female inmates.

The project will be completed over several stages due to the ongoing use of the facility during construction. The estimated total cost of the project is \$48 million (\$3 million in 2003-04).

### ***Mid North Coast Second Chance Facility***

Following the success of the Second Chance Program for predominantly indigenous offenders in Western New South Wales, a similar program will be commenced on the Mid North Coast.

The project provides meaningful vocational training and re-establishes important cultural links for indigenous offenders. The project will provide accommodation for 80 offenders and has an estimated total cost of \$9 million.

### ***Head Office Corporate Support Relocation***

It is planned to relocate 109 corporate support positions from Sydney to Goulburn. Accommodation for the remaining Sydney staff will be rationalised. Facility plans for both locations are being prepared. An Expression of Interest is also being prepared seeking suitable accommodation in Goulburn.

The project has an Estimated Total Cost of \$17.7 million (\$0.6 million in 2003-04.)

### ***Community Offender Services Program Accommodation***

Community Offender Services (formerly Probation and Parole Service) accommodation will be progressively upgraded. The Parramatta Community Offender Services Office will be upgraded in 2003-04 at a total cost of \$1.5 million. Another \$1 million has been allocated in 2003-04 as part of a \$12 million program for fit-outs and essential fire and safety requirements at other Community Offender Services Offices.

### ***Information Management System (TRIM)***

A standard enterprise-wide system will be acquired to manage corporate and organisational information. A number of locally based records management systems will be amalgamated.

The estimated total cost of the project is \$1.8 million (\$1.3 million in 2003-04).

### ***Mid North Coast Remand Extension***

The project involves expansion of the Mid North Coast Correctional Centre from 350 beds to 500 beds to address the increasing inmate population. Planning for the expansion had been allowed for in the initial design of the correctional centre.

The project has an estimated total cost of \$25 million (\$16.1 million in 2003-04) and will be completed in 2006.

### ***Parklea Remand Extension***

The project involves the expansion of Parklea Correctional Centre by 200 beds to address the expected growth in the remand population. The project will provide associated infrastructure for programs and vocational training.

The project has an estimated total cost of \$30 million and will be completed in 2007.

### **Asset Acquisitions – Works in Progress**

#### ***Western Region Correctional Centre***

This project will provide for a 500-bed multi-classification correctional facility, including components for female and remand inmates, similar to the model developed for the Mid North Coast Correctional Centre at Kempsey.

The Department is assessing the project for development as a Privately Funded Project under existing Government guidelines.

The estimated total cost of the 500-bed project is \$115 million (\$20 million in 2003-04) with completion anticipated in 2005-06.

#### ***Mental Health Assessment Units***

This project will provide 40 new beds for men in a Mental Health Assessment Unit at the Metropolitan Remand and Reception Centre at Silverwater. A similar unit with 10 beds for women will be constructed at Mulawa Correctional Centre, Silverwater as part of a women's health facility upgrade.

The estimated total cost of the project is \$24 million (\$10 million in 2003-04) with completion anticipated in 2004-05.

#### ***Electronic Case Management***

This project will allow for initiatives in case management and risk assessment and will consolidate an information base in order to deliver quality services to high risk offenders. The project supports the Corrective Services Throughcare Model which provides a framework to support the case management of offenders before, during and after custody, in both custodial and community contexts.

The estimated total cost for the project is \$8.5 million (\$2.5 million in 2003-04) with completion anticipated in 2005-06.

### ***Integrated Management System Upgrade***

This project covers a three phased upgrade of the Department's Integrated Management System to the latest available software release (called Ellipse).

The estimated total cost for the project is \$3.9 million (\$2.3 million in 2003-04) with completion anticipated in 2004-05.

### ***Long Bay Redevelopment***

The redevelopment will cater for therapeutic special needs programs for sex offenders, violent offenders, inmates with intellectual disabilities, those at high risk of suicide, medical transients and offenders with major drug and/or alcohol problems.

The estimated total cost of the project is \$43.7 million (\$3 million in 2003-04) and the redevelopment is scheduled for completion in June 2005.

### ***Long Bay Hospital Redevelopment***

This project involves the development of a new 85-bed prison hospital to provide inpatient health care to inmates who require admission to hospital. The new prison hospital will replace the existing hospital which has only 54 beds available for the general inmate population. The existing facilities will be inadequate for projected correctional system requirements in the future.

The estimated total cost of the project is \$50.5 million (\$7.9 million in 2003-04) with completion anticipated in 2005-06.

### ***350-Bed Mid North Coast Correctional Centre at Kempsey***

This project involves the construction of a purpose built multi-classification Correctional Centre for male and female inmates. The Centre will provide 350 new beds in order to address the accommodation needs of an increasing inmate population, and a deficiency in accommodation on the Mid North Coast.

The estimated total cost for the project is \$81.6 million (\$18.3 million in 2003-04) with completion anticipated in 2004-05.

### ***200-Bed Metropolitan Women's Correctional Centre***

This project involves construction of Dillwynia Correctional Centre for female inmates at South Windsor. The Centre will provide 200 new beds and operate as a multi-classification Centre.

The estimated total cost for the project is \$53.6 million (\$2.6 million in 2003-04) with completion anticipated in August 2003.

**47.3 Alternatives to Custody**

**47.3.1 Alternatives to Custody**

Program Objective(s): To provide pre-sentence assessment and advice to the Courts to assist in appropriately sentencing offenders. To prepare pre-release reports for releasing authorities. To provide sentencers with alternatives to full-time custody. To provide a statewide range of community-based offender management programs.

Program Description: Provision to the Courts, at the pre-sentence stage, of a thorough assessment detailing the relevant factors involved with the offending behaviour. Provision of advice as to an offender's suitability for sentences other than full-time custody. Provision of offender management programs to manage the risk presented by offenders in the community, to impact on those factors which may lead to criminal behaviour and to improve offender integration into the community. Provision of direct alternatives to full-time custody such as the Home Detention Program. Supervision of convicted offenders sentenced by the Courts to conditional liberty, recognising the developmental needs of the offender and the need to protect and safeguard the community.

## DEPARTMENT OF JUVENILE JUSTICE

The Department of Juvenile Justice has responsibility, in conjunction with a number of other government agencies, for breaking the cycle of juvenile crime. The Department provides a range of custodial and non-custodial programs for the rehabilitation of young offenders.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

In 2002-03, the Department received \$0.8 million to assume responsibility from NSW Police for the transport and court supervision of juvenile detainees in the Hunter region. The pilot project has been successful and will now be progressively implemented on a statewide basis. In 2003-04, the Department will take over this function in respect of the North Coast region. The full transfer of the function will be completed over a four-year period.

The introduction of electronic case management will significantly improve the collection, storage and access to client information. This will provide for a proper tracking and mapping of the complete interaction with clients from entry to exit.

Other developments include:

- ◆ introduction of offence focused and evidence based programs for young people in custody and under community supervision;
- ◆ development of appropriate management strategies for serious high-risk young offenders; and
- ◆ enhanced co-ordination of strategies aimed at preventing illicit drugs from entering juvenile justice centres.

## **STRATEGIC DIRECTIONS**

The Department's case management framework has been reviewed in light of new trends in working with young offenders. The new policy streamlines communication between community services and detention centres and defines the expanded casework roles of staff under the new detention centre structure.

During 2003-04, the Department will implement a new framework for the training of staff. In addition to its existing Drug Summit initiatives, the Department will be developing alcohol and drug programs for indigenous clients including increasing the number of drug and alcohol counsellors in rural and regional New South Wales.

Funding will continue for Youth Justice Conferencing under the *Young Offenders Act*. Conferencing provides an opportunity for victims to attend conferences and have a direct say in outcome plans and ensuring young offenders take responsibility for their action.

## **2003-04 BUDGET**

### **Total Expenses**

The Department's total expenses for 2003-04 are estimated at \$122.7 million, allowing existing programs to be maintained at current levels of expenditure.

In 2003-04, \$3.6 million has been provided under the Government Plan of Action on Drugs. A further \$1 million has been provided for the Department to assume responsibility from the Police Service for the escorting and transporting of juveniles in the North Coast region

Cyclic maintenance programs at Juvenile Justice Centres are ongoing with maintenance expenditure in 2003-04 estimated at \$3.1 million.

## **Asset Acquisitions**

The Department is continuing to implement its strategic capital plan to improve the standard of accommodation for juveniles held in detention. The Department will be continuing to improve its IT infrastructure including upgrades to the Client Information Data System and the Management Information System.

A total of \$34.5 million has been allocated in 2003-04 for major capital projects at Reiby and Cobham detention centres, together with the new young women's centre at Lidcombe. Following the acquisition of the Worimi site by the Attorney General's Department to build a new Children's Court, the Department of Juvenile Justice has allocated \$1.1 million to acquire another property to accommodate the Broadmeadow Juvenile Justice Community Service and Newcastle Youth Justice Conferencing offices.

Capital expenditure on IT infrastructure, major systems upgrade and the juvenile escort program is estimated at \$5.5 million.

A total of \$4.3 million has been allocated to minor capital works program. Included in this program are an annual provision (\$1.5 million) for various minor capital works and \$1.5 million for design improvements to Dubbo and Frank Baxter (Central Coast) detention centres. An amount of \$0.5 million has been provided for reserve installations against electrical storms and other emergency situations, \$0.4 million for a drainage interception project and \$0.5 million for preliminary design study at Riverina detention centre (Wagga Wagga).

## DEPARTMENT OF MINERAL RESOURCES

The Department's mission is to ensure that the people of New South Wales benefit from the responsible assessment, development and regulation of their mineral wealth. This is accomplished through the assessment of the State's geology and mineral resources, allocating those resources for exploration and mining, and regulating for the safety and environmental performance of mines.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Global competition, commodity prices and developments in financial markets continue to impact on the level of exploration and development investment in the State. New South Wales maintained its share of Australian exploration investment and with increased production has achieved a significant improvement in export earnings. The total value of production was around \$7.9 billion in 2001-02, an increase of 11 percent on the previous year. Total value of production for 2002-03 is expected to be around \$7.1 billion reflecting lower coal prices and a weaker mineral market.

In this context, the Department has maintained a strong focus on attracting investment and facilitating responsible development to ensure that New South Wales continues to have a viable exploration and mining industry in the future.

Recent major developments affecting the Department were:

- ◆ implementation of the Government's \$30 million Exploration NSW initiative with funding of \$5 million in 2002-03. The focus of the initiative is on attracting exploration investment to the State by providing advanced and high quality geo-scientific data to industry and government. The 2002-03 funding was expended mainly in Broken Hill, the Murray Basin, the Central West and northern regions of the State. The geological information obtained is also important to Government in improving land use decision making;
- ◆ development consent and petroleum production leases have been granted for the first large scale commercial gas production in the State. The approvals are for the production of coal seam methane in an area near Camden in the Sydney Basin. Major mine developments include Mt Arthur North and Dendrobium coal mines;
- ◆ expenditure of \$3 million in 2002-03 on the reform of mine safety brought the total expenditure over five years to \$14.9 million. A major achievement of the reforms was the passage through Parliament of the new *Coal Mines Health and Safety Act* in December 2002. New legislation covering the non-coal sector was also tabled in Parliament as a public exposure draft;
- ◆ the Government's continued commitment to restoring derelict mine sites with funding for the rehabilitation program of \$1.6 million in 2002-03. In addition, \$2 million of a three year \$2.8 million Environmental Trust grant provided in 2001-02 was spent in 2002-03. The grant has enabled major works to be planned and undertaken on 13 significant sites across the State and minor works on a further 15 sites to reduce safety hazards and increase environmental sustainability; and
- ◆ the Government's announcement in February 2003 of the construction of the Department's new offices in Maitland to accommodate its staff, including the bulk of the Department's Sydney based positions. The relocation is planned for 2004 and will significantly boost the economy and profile of the region.

## STRATEGIC DIRECTIONS

The key issues that the Department continues to address are:

- ◆ the need to ensure that New South Wales continues to attract mineral and petroleum exploration investment;
- ◆ facilitation of new mine development that achieves the Government's economic, environmental and social objectives. The focus is on maximising social and economic benefits and minimising adverse environmental impacts;
- ◆ regulation and continuing reform of mine safety to achieve the Government's aim of ensuring the health and safety of mine workers; and
- ◆ regulation and further improvement of the environmental performance of the NSW mining industry.

The Department is implementing long-term strategies to address these issues, including:

- ◆ continuing the implementation of Exploration NSW, with \$5 million allocated in 2003-04 for work programs focusing again on Broken Hill, the Murray Basin the Central West and northern regions of the State;
- ◆ implementing the new legislation for health and safety in mines. A particular focus in 2003-04 will be on developing the regulations, guidelines, policies and procedures associated with the implementation of the new legislation. A further \$2.5 million has been allocated for continuation of safety reforms;
- ◆ working with the industry to improve the environmental performance of mining operations so that they achieve best practice standards. A further four environmental field officers will be appointed; and
- ◆ continuing focus on the rehabilitation of derelict mine sites, particularly in water catchment areas.

## 2003-04 BUDGET

### Total Expenses

Total expenses of \$53.7 million for 2003-04 include:

- ◆ \$18.8 million to provide a comprehensive information and knowledge framework on the State's geology and mineral and energy resources:
  - to optimise responsible exploration and development of the State's mineral and energy resources; and
  - to ensure that informed decisions can be made on land use, infrastructure planning, and the sustainable development of the State's resources.
- ◆ \$8.4 million to advance sustainable mineral development in the State for the benefit of the community by:
  - providing stewardship of mineral resources and ensuring sound resource utilisation;
  - encouraging and facilitating well planned, responsible mineral exploration, mining and minerals processing development;
  - allocating and managing exploration and mining titles in a timely and efficient manner;
  - ensuring a fair and equitable royalty return to the community for the development of its mineral resources; and
- ◆ \$25.2 million to ensure that mining and exploration industry satisfies community and Government expectations for health and safety, environmental management and rehabilitation and mineral resource extraction. The regulatory and educational framework involved will continue to be supported by an active regime of audits, inspections and investigations and a clear and effective enforcement policy.

## **Asset Acquisitions**

A total of \$13.6 million has been allocated for asset acquisition. The allocation includes \$5.7 million for improving the Department's information systems and relevant processes through the Process and Systems Improvement Project and \$7.1 million for facilitating the Department's relocation to Maitland. The allocation also includes capital expenditure associated with the Exploration NSW initiative (\$0.3 million), works at the Broken Hill Core Library (\$0.2 million), fire control facilities at Londonderry Core Library (\$0.2 million) and the replacement of minor plant and equipment (\$0.2 million).

## **COAL COMPENSATION BOARD**

The Coal Compensation Board is involved in a program of purchasing coal rights from owners who wish to sell their rights to the State. The Board is responsible for receiving, determining and paying compensation for claims resulting from the acquisition of coal rights under the *Coal Acquisition Act 1981*. Additionally, the Board assess applications for compensation for re-acquired coal under the *Coal Acquisition (Re-Acquisition Arrangements) Order 1997*.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The State receives royalties on re-acquired coal and has an obligation to pay compensation to former owners.

Compensation payments made by the Board totalled \$25.1 million in 2000-01 and \$9.4 million in 2001-02. For 2002-03, the Board estimates that it will pay out \$10 million in coal compensation. As at March 2003, the total compensation paid since the inception of the Board was \$619.4 million.

The Board has completed the determination of most claims and applications for compensation. The remaining work substantially involves the management of litigation. The principal litigation issue is a test case for approximately 100 appeals on the meaning of "just and equitable" in the 1997 Reacquisition Arrangements.

The Board received a capital funding supplementation of \$0.1 million in 2002-03 for the replacement of obsolete computer equipment.

## **STRATEGIC DIRECTIONS**

The Board's focus in 2003-04 will be on management of appeals to the Coal Compensation Review Tribunal against determinations by the Board. Proceedings in the Supreme Court were commenced to obtain judicial review of decisions of the Tribunal including a test case in which the outcome will have direct implication on 84 current appeals and future assessments by the Board of remaining compensation applications.

## **2003-04 BUDGET**

### **Total Expenses**

The Board estimates that it will pay \$35 million in coal compensation during 2003-04 to reduce liabilities raised in prior years. No new liabilities to pay coal compensation are currently anticipated.

Administrative expenses in 2003-04 are estimated at \$3.9 million.

### **Asset Acquisitions**

\$0.1 million has been allocated to the Board for developing a graphical database of restored coal titles and replacing obsolete office equipment.

## MINISTRY FOR POLICE

The Ministry provides the Minister for Police with independent policy advice on issues affecting the Police portfolio and supports the Minister in the performance of Ministerial and Parliamentary functions. The Ministry develops and assists the passage of legislation to meet the Government's law and order objectives for the portfolio.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

Employee related expenses have increased slightly in recent years due to the establishment of the Innocence Panel and a rise in costs for the Office of the Inspector of the Police Integrity Commission.

For 2002-03, expenses will be \$0.4 million lower than the Budget due to a delay in the planned relocation of the Ministry and some under-expenditure on enhancements.

## **2002-03 Enhancements**

In 2002-03, the Ministry was allocated funds to continue the work of the Innocence Panel.

The Innocence Panel was established on 17 October 2001. Its primary role is to facilitate DNA testing for people who have been convicted of crimes and believe that DNA evidence may assist them to prove their innocence. The Panel provides an independent process permitting persons to apply for a post-conviction comparison of their DNA with any DNA that can be found from the crime scene. The Panel also provides the Minister with advice on systems, policies and strategies for using DNA technology to assess claims of innocence.

A review of the Panel's operations will occur in November 2003 to determine, amongst other things, whether it should be given a legislative base.

## **STRATEGIC DIRECTIONS**

The Ministry provides an important source of policy ideas for Government and the portfolio agencies. It also supports the Minister's legislative program which covers a wide range of issues. These include police reform, police powers, confiscation of proceeds of crime, firearms, the security industry and registration of child sex offenders. The Ministry is also involved in wider policy issues arising from, and impacting on, the criminal justice system.

Issues of resource allocation and management continue to be a focus of attention across the portfolio. These include recurrent and capital budget monitoring, police strength and organisation, the use of technology, corporate services and performance monitoring and improvement.

In 2003-04, the Ministry will continue to support the Innocence Panel, and will co-ordinate the review to be conducted in November 2003.

## **2003-04 BUDGET**

### **Total Expenses**

Estimated total expenses for the Ministry for Police in 2003-04 are \$5.7 million. This includes expenses of the Office of the Inspector of the Police Integrity Commission, the Minister's Office and the Innocence Panel.

## **Asset Acquisitions**

The Ministry will spend \$29,000 in 2003-04 on purchasing minor equipment and on general office maintenance.

An amount of \$0.3 million has been allocated to finalise the fit-out of new offices for the Ministry (\$1 million was allocated in 2002-03) as part of the Police Portfolio Corporate Accommodation Strategy.

## **NSW POLICE**

NSW Police protects and serves the community by preventing, detecting and investigating crime, maintaining public order, promoting orderly and safe road use and undertaking and coordinating emergency and rescue functions.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Police's recurrent expenses and asset acquisitions total \$2,072.9 million in 2003-04, an increase of \$315.2 million or 17.9 percent on last year's budget. After excluding capital provisions related to Police's relocation to its new corporate headquarters at Parramatta, the increase over last year's Budget is 8.3 percent.

Significant recent developments include:

### **Increasing Police Numbers to Make the Streets Safer and Reduce the Fear of Crime**

Recruit training has been redesigned to improve its relevance to modern day policing, to make a police career more attractive and to get larger numbers of highly skilled police on the streets. The Government will more than meet its commitment to increase sworn police numbers by 1,000 by December 2003 as a result of these recent recruitment initiatives.

This increase in police numbers has assisted in the implementation of Operation Vikings, which was designed to provide a highly visible police presence across New South Wales. Police are deployed to these Operations on the basis of criminal intelligence and/or community perception. All sworn NSW Police officers, except those performing restricted or covert duties, will take part in Operation Vikings.

High visibility policing assists in:

- ◆ reducing crime and anti-social behaviour;
- ◆ increasing community and business confidence; and
- ◆ strengthening relationships between Local Area Commands and the communities they serve.

### **Greater Preparedness against Terrorist Activity**

Following September 11, the Bali bombing and the Iraq war, New South Wales continues to increase its preparedness to respond to any threat of terrorism.

NSW Police has updated its anti-terrorist strategies and formed a new command, the Counter-Terrorist Coordination Command. This command co-ordinates police responses to politically motivated violence and terrorism consistent with the National Counter-Terrorist Plan and the NSW Police Counter-Terrorist Plan.

The command also gathers tactical intelligence for analysis and investigation in areas such as politically motivated violence, terrorist activity, dignitary protection, consequence management, the protection of critical infrastructure and national icons, threats to high office holders, threats to the diplomatic and consular corps, and public order issues more generally.

### **Policing the Rugby World Cup**

Australia has the sole hosting rights for the Rugby World Cup 2003, with New South Wales hosting 17 of the 48 matches. Providing security for the World Cup is a major challenge in the current world climate.

Police has established the Rugby World Cup Command with responsibility for planning and executing the policing of World Cup events in New South Wales. This includes providing security at games, players accommodation, training venues, official functions, urban domain events, and at Sydney Kingsford-Smith airport.

NSW Police is liaising with police agencies in the other States and Territories in planning for this event.

## **Preparing for New Local Courts Legislation**

In 1999 the Attorney General's Department coordinated a review of Local Court procedures and produced a package of draft legislation to repeal the *Justices Act 1902* and simplify Local Court processes. The reform package consists of three pieces of legislation:

- ◆ the *Crimes (Local Court Appeal and Review) Act 2001*;
- ◆ the *Criminal Procedure (Justices and Local Courts) Act 2001*; and
- ◆ the *Criminal Procedures Amendment (Justice and Local Courts) Act 2001*.

Under the new arrangements police will no longer need to serve thousands of summonses that are not directly related to criminal cases. This means that officers will have more time to perform operational front line duties. The new legislation will also impact on the way in which police operate in the field.

All summonses, subpoenas, warrants and charging process will be dealt with by a single process, and the planned electronic document exchange between Local Courts and Police will significantly reduce paperwork.

## **Implementing Firearms Legislation**

New South Wales continues to enforce the toughest firearms legislation in Australia. This commitment was strengthened by the introduction of the *Firearms Amendment (Trafficking) Act 2001*, which established new powers to target the trade in illegal firearms.

State Premiers also agreed to further significant reforms for regulating handguns throughout Australia, including a national handgun buyback program, at the Council of Australian Governments (COAG) meeting in December 2002.

The NSW Police Firearms Trafficking and Regulated Industry Crime Squad focuses on organised crime in licensed premises, the security industry, gaming and racing. The Squad also conducts probity checks of proposed employees for the Casino Control Authority, the Department of Gaming and Racing, and poker machine mechanics.

Legislation to enable implementation of the *COAG Agreement* is due to be in force by 1 July 2003. New South Wales proposes to start the handgun buyback from 1 October 2003. This will allow NSW Police sufficient time to implement the efficient collection of newly prohibited pistols, for which \$29.4 million has been allocated in 2003-04.

### **Fighting Rural Crime**

The Government has created 32 Rural Crime Investigator positions located in regional Local Area Commands.

Rural Crime Investigators have been trained in specialist techniques to better investigate the theft of livestock, machinery, pesticides and fuels. Rural Crime Investigators are also being trained to provide safety and security advice to businesses and families in regional communities.

### **Relocating NSW Police Headquarters**

The Government has approved the relocation of 2,200 staff from Sydney CBD, Parramatta and Redfern to a new 33,000 square metre twin tower building in Parramatta. Construction of the new Parramatta building began in December 2001 and is expected to be completed on time.

The building has been designed by NSW Police to meet both its operational needs and greatly improve working conditions for staff. About 900 staff will move into the first tower of the new building in August 2003, while the remaining 1,300 staff will occupy the second tower in mid-2004.

The Commissioner and his Executive will relocate to new Sydney CBD accommodation.

## **STRATEGIC DIRECTIONS**

The overall goal of NSW Police is to create a safe State with a respected police force that works with the community to reduce violence, crime and the fear of crime. NSW Police is aiming to generate a high level of public trust and confidence through:

- ◆ reducing crime and violence;
- ◆ improving public safety;
- ◆ motivating its workforce; and
- ◆ improving its work practices.

This will be achieved through promoting strong partnerships with the community, other government agencies, business entities and various domestic and international policing jurisdictions. These partnerships will be underpinned by improved organisational systems and practices designed to improve the morale, occupational safety and motivation of all those who work for Police.

A renewed focus on people management practices, including leadership, compliance, updated promotional systems and accountability, will form the foundation for improving policing practices across the State. NSW Police will also continue to promote the use of cutting edge technologies to reduce and solve crime.

Policing services continue to be delivered through the following four budget programs:

- ◆ Community Support;
- ◆ Criminal Investigation;
- ◆ Traffic; and
- ◆ Judicial Support.

This program structure provides a comprehensive and meaningful grouping of services aimed at improving community outcomes, providing value for money and ensuring efficient resource allocation.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses are expected to increase by \$143.2 million to \$1,816 million in 2003-04, an increase of 8.6 percent compared to last year's allocation.

Additional funding has been provided for a number of initiatives announced during the recent Election, including:

- ◆ \$3 million to continue the high visibility policing strategy Operation Vikings, which commenced in 2002-03;
- ◆ \$1.4 million to implement legislative amendments to the *Security Industry Act*;

- ◆ \$0.9 million for an incentive package to attract officers to serve in remote areas of the State;
- ◆ \$1.2 million to commence supplying new police uniforms;
- ◆ \$0.3 million to increase the number of bicycle units; and
- ◆ \$0.3 million for financial investigators to work in areas of commercial crime.

Funding of \$2.5 million has also been provided for capital related enhancements, while \$5 million has been allocated for the ongoing maintenance of computer systems introduced over recent years and to meet the operational needs of the extra Scene of Crime Officers appointed under Police's civilianisation program.

### **Asset Acquisitions**

NSW Police's capital program is targeted at:

- ◆ providing functional and cost effective police accommodation where it is needed;
- ◆ improving the safety of operational police;
- ◆ equipping police to enable them to perform their role effectively; and
- ◆ supporting the efficient processing and use of operational and administrative data.

Police's asset acquisition program totals \$256.9 million in 2003-04. This represents an increase of 1.7 percent over last year's budget after capital provisions related to Police's relocation to its new corporate headquarters at Parramatta are excluded.

### **Major New Works**

The capital program allows for the commencement of major new works with a total estimated cost of \$49 million, of which \$21.4 million is allocated in 2003-04.

A total of \$6.5 million has been provided towards the replacement of police stations at St Mary's, Armidale and Redfern, while \$3.6 million has been provided to establish a new Forensic Research and Investigative Science Centre. Establishment of this new centre will improve both the quality and quantity of forensic science services available to NSW Police.

The integration of field and laboratory forensic investigators and scientists will also greatly enhance the research and training capabilities of NSW Police in the area of forensic investigation.

The new works program also includes:

- ◆ \$1 million to provide additional in-car video units to improve officer safety;
- ◆ \$1.3 million for prisoner modules and screens for police vehicles; and
- ◆ \$3 million for the upgrade of educational facilities, including the Goulburn Police Academy.

NSW Police will continue the roll-out of Livescan fingerprint equipment across the State, with \$0.9 million being provided for this purpose in 2003-04. An amount of \$4.2 million has also been allocated for Police's Integrated Business Information Solution (IBIZ) project to improve the delivery of resource management and rostering services.

### ***Works-in-Progress***

The budget impact of works-in-progress totals \$218.5 million in 2003-04. This includes \$187.3 million for Police's new corporate headquarters at Parramatta, which is being accounted for as a finance lease.

The balance of \$31.2 million provided for works-in-progress includes:

- ◆ \$9.5 million to complete the relocation of the Sydney Water Police to Balmain and to provide new police accommodation at Cabramatta, Griffith, Muswellbrook and Thirroul;
- ◆ \$2.3 million to continue work on the new Chatswood police station; and
- ◆ \$3.9 million to complete the purchase of additional counter-terrorism equipment approved by the Government during 2002-03.

In addition, a total of \$14.1 million has been provided for ongoing technology developments to improve operational and organisational efficiency. This includes \$8.8 million for the continuing development of NSW Police's Country Radio Communications Network; \$2.7 million to complete the PhotoTrac project; and \$2.6 million to complete work on the Enforcement Notices (e-Notices) Database.

Completion of PhotoTrac will enable operational police to access both offenders photos and related charge information within minutes of processing, while the e-Notices database will considerably improve the management and service of warrants, AVOs, summonses and subpoenas.

### **Minor Works**

The Minor Works allocation of \$17 million will be used for the upgrading of police accommodation and facilities, including prisoner handling and security, the purchase of smaller items of operational plant and equipment, the replacement of road safety equipment and for minor computer works.

## **NEW SOUTH WALES CRIME COMMISSION**

The New South Wales Crime Commission combats illegal drug trafficking and organised crime in New South Wales.

The Commission's activities include:

- ◆ gathering evidence to enable the prosecution of offenders and confiscation of criminal assets;
- ◆ reporting on illegal drug trafficking and organised criminal activity; and
- ◆ disseminating investigatory, technological and analytical expertise.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Since 1990, the Crime Commission has confiscated assets in excess of \$66 million and contributed to a number of major arrests.

In 2002-03 the Commission has been particularly successful, confiscating over \$15 million in assets. Many of the extra expenses incurred by the Commission to achieve this result have been offset by an increase in legal costs recovered by court order.

The Commission has also responded to the need to embrace new technology. An amount of \$0.3 million annually has been provided to expand the telephone interception system. In 2002-03, the Commission doubled the capacity of the Storage Network and improved the reliability and security of the system. These enhancements have allowed the Commission to provide greater support to investigators and other law enforcement agencies.

Staff numbers have increased in the last twelve months due to the adoption of new technology and an expansion in the Commission's areas of operations.

## **STRATEGIC DIRECTIONS**

The Commission remains at the forefront of new technology, particularly in the area of telecommunication interception. Investment in new technology will continue to be a significant aspect of the Commission's operations.

The Commission expects to extend the functionality and capacity of its interception system in the coming year. This technology has been applied to new and emerging areas of crime such as cybercrime.

## **2003-04 BUDGET**

### **Total Expenses**

The Commission estimates total expenses of \$13 million in 2003-04. This represents an increase of 9.2 percent on last year's budget allocation. The increase is primarily due to the cost of telecommunications interception and is met in part by increased revenue.

### **Asset Acquisitions**

In recent years, the Commission has made significant investments to increase its use of technology in combating drug trafficking and organised crime. In 2002-03, the Commission also purchased additional office accommodation at a cost of \$2.8 million.

In 2003-04, \$2.6 million has been allocated for capital purchases. The funds will be used to increase the capacity of the telephone interception system and expand its functionality to include electronic video transmissions.

## **POLICE INTEGRITY COMMISSION**

The Police Integrity Commission is responsible for preventing, detecting and investigating serious police misconduct. It also oversees and manages other agencies involved with investigating police misconduct.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Total expenses have increased over the last five years in line with the Commission's additional operational responsibilities. Recently, the Commission has been responsible for establishing a telecommunications interception facility and responding to matters arising from the Royal Commission into the NSW Police.

The Commission is currently implementing the Police Oversight Data Store (PODS), a component of the Police Complaints Case Management System. The system provides police officer profiles, statistical and trend analysis reports to the Ombudsman's Office and the Special Crimes and Internal Affairs units within the NSW Police.

## **STRATEGIC DIRECTIONS**

The Commission will develop and apply innovative investigation strategies to expose serious police misconduct. It will also take an active role in preventing and deterring misconduct and providing high quality advice on police reform.

## **2003-04 BUDGET**

### **Total Expenses**

The Commission estimates total expenses of \$17.8 million in 2003-04. This represents an increase of \$0.7 million on last year's budget.

### **Asset Acquisitions**

The Commission will spend \$1.1 million to develop its electronic surveillance technology capabilities to support complex investigations. This will also involve improving the functionality of the Police Oversight Data Store.

# **MINISTER FOR REGIONAL DEVELOPMENT, MINISTER FOR THE ILLAWARRA AND MINISTER FOR SMALL BUSINESS**

---

The Department of State and Regional Development is responsible to the Minister for State Development, Minister for Regional Development and Minister for Small Business.

The Department provides the Minister with expert advice and delivers quality services to the community in order to advance the Government's regional development and small business objectives.

The Department adopts a whole-of-government perspective in its approach and actively encourages and supports the interests of the business sector and the community in its work.

During 2003-04 initiatives will include:

- ◆ small business development programs to support and assist people who are intending to start a business as well as those who are already in business. Tailored programs and services will be delivered across the State to meet the needs of firms at different stages of the business cycle, or with particular needs and opportunities; and
- ◆ regional development assistance supporting a range of programs specifically directed at fostering business and economic growth in regional New South Wales.

The Premier's Department supports the Minister for the Illawarra as part of the Government's commitment to:

- ◆ encourage the development of the Illawarra region; and
- ◆ ensure a whole-of-government approach to issues of a strategic regional nature.

## ROADS AND TRAFFIC AUTHORITY

The Roads and Traffic Authority (RTA) is responsible for:

- ◆ testing and licensing drivers and registering and inspecting vehicles;
- ◆ managing road usage to achieve consistent travel times, particularly during peak periods, by reducing congestion delays and helping the community use the road system more effectively;
- ◆ improving road safety by encouraging better road user behaviour, ensuring compliance with regulations, improving roads and enhancing vehicle standards; and

- ◆ arterial road development, construction and maintenance, to meet community, environmental, regulatory and economic needs.

The road system comprises:

- ◆ approximately 17,600km of RTA managed major arterial roads, known as State Roads, which includes approximately 3,100 km of Commonwealth funded National Highways;
- ◆ approximately 18,400km of local council managed minor arterials, known as Regional Roads, funded primarily by the RTA;
- ◆ approximately 142,800km of local council managed access roads, funded by local rate-payers and Federal road assistance grants; and
- ◆ road and bridge infrastructure in the unincorporated area of New South Wales, managed by the RTA.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Operating expenses for 2002-03 are estimated at \$1,823.8 million and include \$502 million for depreciation of infrastructure assets. Projected capital expenditure, including asset acquisitions of \$1,245.1 million, is \$1,399.3 million. The total Capital and Maintenance Program is projected to be \$2,250.7 million.

Expenditure under the M4/M5 Cashback Scheme to reimburse tolls paid is expected to be \$65 million in 2002-03.

## **STRATEGIC DIRECTIONS**

The RTA's strategic directions and priorities are consistent with key New South Wales Government strategic plans.

A combination of government funded and public/private sector partnerships are pursued, where appropriate, for the development and management of the road network. The RTA is currently at various stages of negotiation with the private sector for the provision of about \$3 billion worth of infrastructure.

In December 2001, the Government announced a range of revenue measures (including an increase in the Sydney Harbour Bridge toll) to fund an enhanced rebuilding program, primarily for regional and rural New South Wales. All of the \$60 million raised each year will be reinvested in the State's roads. This is additional to the Government's existing \$100 million per annum Rebuilding Country Roads Program.

In conjunction with the Attorney General's Department, the RTA is expanding the Government Access Centre network to increase access to vehicle registration, driver licensing and services for 7 other government agencies for people in rural and remote areas. A total of 45 Government Access Centres will be operating by 1 July 2003, along with 22 outreach sites that will provide periodic services to remote communities.

In the Sydney region, the Orbital Strategy will improve road links between key business and residential areas and reduce congestion and travel times. Key orbital road projects continuing in 2003-04 include:

- ◆ Western Sydney Orbital link - 39 km of divided carriageway between the M5/Hume Highway at Prestons and the M2 at west Baulkham Hills; and
- ◆ Lane Cove Tunnel – a 3.4 km long twin-tunnel between the M2 and the Gore Hill Freeway. The tunnel will complete the Sydney Orbital Motorway connecting the north-west with the CBD. It will also include bus lanes along Epping Road and transit lanes on the widened Gore Hill Freeway.

A major project for Sydney is the Cross City Tunnel – a 2.1 km tunnel between Darling Harbour and Kings Cross linking the Western and Eastern Distributors. This project will remove 95,000 car and truck trips per day from city streets and improve travel times and amenity in central Sydney.

Other continuing key road projects include the \$323 million upgrade of Old Windsor Road and Windsor Road in north-western Sydney and the upgrade of Cowpasture Road and Hoxton Park Road in south-western Sydney.

Traffic and transport management priorities include the bus only Transitway network in Western Sydney. The Liverpool to Parramatta Transitway commenced operations in 2003. Other urban bus network priority initiatives include red bus lanes, bus priority 'B' signals at traffic lights and bus lane monitoring systems using camera surveillance.

Electronic tolling is now available on all Sydney tollways and tags issued for each of the systems can be used on all of the others. The next phase in the implementation is to take further advantage of increasing toll tag usage to improve traffic flow efficiency at the Sydney Harbour Bridge and Tunnel toll plazas.

Cycling and walking priorities include expanding the cycleway network, promoting easier, safer cycling and providing pedestrian overbridge.

Road safety strategies address speed management, drink driving, seat belt usage, fatigue management, motorcyclist and cyclist safety, school and youth programs, and educational programs for repeat traffic offenders. Areas which are receiving new or increased focus include: heavy vehicle safety; road safety of pedestrians; and a rollout to other areas of the successful Operation Westsafe.

The RTA will continue to combat speeding. There are now 100 fixed digital speed cameras at high-risk locations, and a further 11 cameras in selected school 40 km/h speed zones.

Customer service delivery improvements will include expansion of the RTA's online booking system to include the Driver Qualification Test.

The RTA's community support programs include the Aboriginal Action Plan, early childhood, primary and secondary school road safety education programs, and youth road safety programs including parent support workshops for the Graduated Licensing Scheme.

## **2003-04 BUDGET**

The RTA's 2003-04 Roads Program Budget is \$2,684 million.

### **Total Expenses**

Total operating expenses are estimated at \$1,812 million.

Road safety programs will remain a priority. Key initiatives include:

- ◆ Driver Qualification Test;
- ◆ continuing the road safety school education programs and the Safety Around Schools Program;
- ◆ enhancing the Graduated Licensing Scheme Parent Workshops through delivery in high schools;
- ◆ an alcohol interlock program targeting serious drink drive offenders, as a whole-of-government initiative;
- ◆ an education program for repeat drink drive offenders, as a whole-of-government initiative;
- ◆ a heavy vehicle safety strategy including developing a revised fatigue management regime for heavy vehicle drivers, and increasing their seat belt wearing rates;

- ◆ *Operation Westroads*, a joint RTA/Police road safety crackdown in western New South Wales similar to a the strategy successfully used in Western Sydney;
- ◆ an integrated program to counter excessive speeding; continuing the Accident Reduction Program including the Road Blackspot Program; and
- ◆ continuing to upgrade railway level crossings with flashing lights or boom gates as part of an accelerated four year program commencing 2003-04.

Funding of \$38.3 million will be allocated to the Transport Management Centre for improving traffic incident management.

The M4/M5 Cashback Scheme payments will continue with total costs estimated at \$71 million.

### **Asset Acquisitions**

The total Roads Program capital expenditure, including asset acquisitions of \$1,208.6 million is estimated at \$1,374 million.

The 10-year \$2.2 billion Pacific Highway Upgrade Program comprises \$1.6 billion funded by the RTA and \$600 million by the Federal Government. Major works in 2003-04 will include:

- ◆ State-funded construction of the Coopernook Bypass and Halfway Creek Upgrade; and
- ◆ State/Federal funded construction of Brunswick Heads to Yelgun, Karuah Bypass, Taree to Coopernook and Bundacree Creek to Possum Brush.

The Government will continue to invest annually an average of \$160 million in western and south-western Sydney roads. Key projects in progress include:

- ◆ completing ancillary works on the Liverpool to Parramatta Transitway;
- ◆ commencing stage one of the North West Transitway linking Parramatta, Rouse Hill and Blacktown;
- ◆ widening Windsor Road from Mile End Road to Boundary Road and from Roxborough Park Road to Showground Road;
- ◆ commencing construction of a new crossing of South Creek at Windsor; and
- ◆ continuing the Cowpasture Road upgrade and widening Hoxton Park Road.

Other major works within the Sydney area include:

- ◆ the Bangor Bypass; and
- ◆ a pedestrian overbridge at Leichhardt.

A 12-year \$460 million program to upgrade the Penrith to Orange route will continue by:

- ◆ widening the Great Western Highway to four lanes with divided carriageways between Leura and Katoomba;
- ◆ widening and realignment at Shell Corner west of Katoomba;
- ◆ improving the Great Western Highway from Hazelbrook to Lawson; and
- ◆ realignment and a new railway overbridge at Medlow Bath.

The RTA will continue the Hawkesbury Nepean Flood Plain Management Strategy co-ordinated by the Department of Infrastructure, Planning and Natural Resources.

In the Hunter and Central Coast, work will continue on:

- ◆ The Entrance Road, Terrigal Drive intersection improvements;
- ◆ The Entrance Road, Avoca Drive intersection upgrade;
- ◆ upgrading Avoca Drive at Empire Bay Road; and
- ◆ a pedestrian overbridge at East Gosford.

In the Illawarra, South Coast and Southern Highlands work will include:

- ◆ continuing the Government's ten year Princes Highway upgrade; including constructing the North Kiama Bypass and a Milton to Ulladulla overtaking lane;
- ◆ intersection improvements at the Princes Highway and O'Brien's Road, Figtree;
- ◆ the Queanbeyan northern upgrade for heavy vehicles, and
- ◆ continuing the Main Road 92 upgrade between Nowra and Nerriga.

Capital expenditure on traffic management improvements will target principal transport routes, including intersection improvements, upgrading and enhancing the co-ordinated traffic signal system and providing a range of bus priority initiatives.

Cycleway expansion will include the Homebush Bay to Fairfield, Prospect to Blacktown and Parramatta to Windsor routes.

Work will continue on the National Highways system, including:

- ◆ widening the F3 north of the Hawkesbury River;
- ◆ Hume Highway remediation at Mittagong; and
- ◆ Devils Pinch on the New England Highway.

With Federal funding, planning and property acquisition will continue for the Western Sydney Orbital and Hume Highway at Albury-Wodonga.

## **PAYMENTS TO OTHER GOVERNMENT BODIES UNDER THE CONTROL OF THE MINISTER**

In 2003-04, a total of \$642.9 million from the Commonwealth, State and other sources will assist an estimated 500,000 people on low incomes in housing need. The Department of Housing will receive \$565.5 million and the Aboriginal Housing Office \$77.4 million. Housing assistance in 2003-04 will provide support to:

- ◆ approximately 350,000 people accommodated in Government-subsidised housing managed by public, community or Aboriginal housing providers;
- ◆ around 4,100 places available in crisis accommodation for nearly 60,000 people; and
- ◆ financial help to around 76,000 private renters and home buyers.

## **STRATEGIC DIRECTIONS**

The Commonwealth and New South Wales have negotiated a new five-year multilateral Commonwealth-State Housing Agreement (the Agreement), commencing in 2003-04, and it is expected that negotiations will conclude on a new bilateral agreement by October 2003. The bilateral agreement will underpin the strategic priorities of the Department of Housing over the next five years. These priorities will build on the existing directions to:

- ◆ continue to assist those with priority needs, including the homeless, those in housing crisis or with support needs;
- ◆ build successful communities, in particular, to continue the emphasis on renewing the most disadvantaged communities. A key focus is improving the social amenity and physical environment of estates and improving older social housing stock; and
- ◆ increase the diversity and improve the viability of housing assistance services provided by the public, community and Aboriginal housing sectors.

## **2003-04 BUDGET**

In 2003-04, total expenditure of \$642.9 million on housing assistance is funded by \$467.6 million from the Consolidated Fund, consisting of \$295.5 million from the Commonwealth and \$172.1 million from the State and \$175.3 million which is predominantly internal sources of the Department of Housing.

This expenditure is broadly applied in three areas: asset management for existing dwellings, housing supply and other housing assistance for people on low incomes.

### ***Asset Management***

Continuing the Government's emphasis on improving older stock, allocations of \$244.7 million, \$6.5 million and \$25 million will respectively be given to public, community (including crisis) and Aboriginal housing, for improvements to approximately 61,000 dwellings. This includes improvements ranging from painting to major upgrading works and will bring properties up to agreed standards. It also contributes to the community renewal of public housing estates.

## ***Housing Supply Program***

The supply program of \$221.4 million will fund works-in-progress, new capital works and existing and new leased dwellings as follows:

- ◆ \$85.7 million to public housing to acquire 298 new dwellings, provide subsidies for 2,617 existing leases and to lease a further 40 dwellings from the private market;
- ◆ \$103.7 million to community housing (excluding crisis accommodation) to acquire 266 new dwellings, provide subsidies for 5,651 existing leases and to lease a further 40 dwellings from the private market;
- ◆ \$22 million to the Aboriginal Housing Office (AHO), with \$9.6 million available to acquire 42 new dwellings and complete works-in-progress of AHO properties and \$12.4 million available to acquire 40 new dwellings and complete works-in-progress for community-owned properties under the Housing for Aboriginal Communities Program; and
- ◆ \$10 million from the Crisis Accommodation Program to acquire 25 new dwellings, provide subsidies for 173 existing leases and to lease a further 15 dwellings from the private market to support homeless people and those in crisis.

In total 766 new dwellings will be available, of which 671 dwellings will be purchased or constructed and 95 dwellings will be leased from the private market.

## ***Other Assistance***

The Government also helps disadvantaged and lower income people rent in the private rental market. In 2003-04, \$25.8 million will be provided to fund Rentstart, a program that provides financial assistance such as payment of bond for private renters. The Government will also provide \$10.9 million to fund special assistance subsidies to eligible people with disabilities and people living with HIV/AIDS to enable them to access the private rental market, and \$1 million to help home owners maintain their mortgage in times of financial crisis.

Other programs for public and community housing funded in this budget (total \$77.1 million) include:

- ◆ \$25.8 million for new products and service initiatives such as intensive tenancy management on high need estates, tenant employment and training programs and new programs for homeless people;
- ◆ \$22 million for loan repayments to the Commonwealth;

- ◆ \$10.4 million for contributions to Department of Housing operating costs;
- ◆ \$4.9 million for affordable housing;
- ◆ \$3 million for research and services provided by peak and resourcing bodies;
- ◆ \$2 million for the Social Housing Subsidy Program;
- ◆ \$1.8 million for tenant participation initiatives such as regional tenant resource services and public tenant representative councils;
- ◆ \$1.5 million for programs under the Partnerships Against Homelessness;
- ◆ \$0.9 million for the Housing Appeals Committee;
- ◆ \$0.3 million for the Local Government Housing Initiatives Program;
- ◆ \$0.2 million for boarding house upgrades; and
- ◆ other assistance of \$4.3 million.

The Aboriginal Housing Office will allocate \$11.5 million to fund other non asset related programs and \$19 million will be provided for the Aboriginal Communities Development Program.

Information on the planned asset acquisition program of each housing agency is in Budget Paper No. 4.

## **ABORIGINAL HOUSING OFFICE**

The Aboriginal Housing Office (AHO) is a statutory authority established in 1998 pursuant to the *Aboriginal Housing Act 1998*. The AHO plans and administers the policies, programs and asset base for Aboriginal housing in New South Wales. This includes resource allocation, sector-wide policy, strategic planning and monitoring outcomes and performance in the Aboriginal housing sector.

The AHO manages and coordinates a substantial annual capital works program, and develops and implements a range of financial and resourcing strategies. In addition, the AHO has an important role in facilitating and improving training and employment opportunities for Aboriginal people.

In carrying out its functions, the AHO is guided by the principles of self-determination and self-management by Aboriginal people. The AHO aims to maximise the involvement of Aboriginal housing providers and the Aboriginal community (including tenants and housing applicants) in the development of housing policy and standards and the delivery of housing programs.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Significant policy developments that will impact on AHO's expenditure and activities in 2003-04 include:

- ◆ renewal of the bilateral agreement between the New South Wales Government, Commonwealth Government and Aboriginal and Torres Strait Islanders Commission (ATSIC) on the provision and management of housing and housing-related infrastructure for Aboriginal and Torres Strait Islander people in New South Wales. This agreement achieves a single point of planning and program delivery by pooling ATSIC funds from the Community Housing and Infrastructure Program with Aboriginal Housing Program funds;
- ◆ continuation of the strategy to achieve viability of community housing providers and the stock they manage. Funds and support are provided to the relevant Registered Aboriginal Housing Organisations to improve their management skills, trial new management arrangements such as engaging a single administrator for several providers, and repair and maintain community-owned assets; and
- ◆ introduction of the AHO Home Ownership Program to enhance the existing Home Ownership Program (HOP) of ATSIC by pooling and matching additional funding in partnership. The program will target Aboriginal people who are currently residing in AHO homes and who meet the HOP criteria and wish to purchase their homes.

## **STRATEGIC DIRECTIONS**

The *NSW Aboriginal Housing Office Strategic Plan 2001-02 to 2003-04* outlines the strategic directions for Aboriginal housing and housing-related assistance administered by the AHO. The four key strategic areas are:

- ◆ developing a sustainable Aboriginal housing sector;
- ◆ increased focus on asset management;

- ◆ increased access to safe, affordable, culturally appropriate housing; and
- ◆ promoting employment opportunities for Aboriginal people.

The Strategic Plan was developed in consultation with Aboriginal people and Aboriginal Housing Organisations as well as other key stakeholders. The Strategic Plan has been endorsed by the Board of the Aboriginal Housing Office, New South Wales Minister for Housing, the Chair of ATSIC and the Commonwealth Minister of Family and Community Services.

The strategic directions in the Strategic Plan are linked to:

- ◆ the *Aboriginal Housing Act 1998*;
- ◆ the Housing Ministers' *Building a Better Future: Indigenous Housing to 2010*; and
- ◆ the Commonwealth/State Bilateral Agreement.

## **2003-04 BUDGET**

### **Total Expenses**

In addition to AHO operating costs and rental property expenses for AHO properties, total expenses of \$89.9 million include:

- ◆ grants of \$12.4 million to Aboriginal communities for the acquisition of community-owned dwellings, with an expected commencement of 40 units;
- ◆ repairs and maintenance backlog expenditure on stock owned by AHO (\$10.9 million) and Aboriginal community-owned properties (\$11.2 million);
- ◆ housing component of the Aboriginal Communities Development Program (\$19 million); and
- ◆ resourcing community organisations, sector support and training.

The AHO will receive grant funding of \$43.8 million under the Commonwealth-State Housing Agreement, State funding of \$19 million for housing under the Aboriginal Communities Development Program and \$12.6 million from the ATSIC under its Community Housing and Infrastructure Program. The remainder of the AHO's funds are derived from asset sales, interest income and net rental income after rental expenses.

## **Asset Acquisitions**

The AHO housing program provides public rental housing for Aboriginal people. In 2003-04, asset acquisitions total \$9.8 million with \$9.6 million provided for the commencement of 42 units of accommodation. These units are in addition to those financed by grants to Aboriginal communities referred to above.

## **HOME PURCHASE ASSISTANCE FUND**

The Home Purchase Assistance Fund was established by Trust Deed in 1989 to support and administer government home purchase assistance programs. Income earned by the Fund's investments is used to meet shortfalls in the HomeFund Scheme and other programs supporting home purchase. The Department of Housing oversees the management of the Fund.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

There was a significant, further reduction in HomeFund Scheme costs in 2002-03. This was due to the refinancing of some FANMAC Trusts at lower cost and the contraction in the size of the underlying mortgage portfolio. Overall, the costs of the restructured HomeFund Scheme have been maintained broadly in line with original projections.

In early 2002, the Government approved new lending of \$75 million for the Government Guaranteed Loan Scheme. The scheme provides commercial banks with a guarantee to encourage lending to housing societies for on-lending to retail customers.

## **STRATEGIC DIRECTIONS**

Management is focused on risk containment, prudent asset investment, cost minimisation and the careful administration of borrowings. Within this structure, the Fund's key objective is to maintain sufficient levels of capital to meet its HomeFund support obligations.

## **2003-04 BUDGET**

Total expenses are budgeted at \$27.2 million in 2003-04 with major components being interest on borrowings (\$16.3 million) and funding of FANMAC Trust shortfalls (\$6.9 million).

## DEPARTMENT OF LOCAL GOVERNMENT

The Department of Local Government's primary functions are to:

- ◆ provide strategic direction to the local government sector;
- ◆ develop and oversight the legislative and policy framework within which local councils operate;
- ◆ examine and investigate issues affecting local government performance and operations;

- ◆ improve accountability for performance of local government to their residents and ratepayers; and
- ◆ manage the State's relationship with local government.

The Department provides an overall framework for the system of local government. Major service delivery outputs are generally in the form of legislation, policies, programs, publications, training, mediation and strategic advice.

Current operations focus on meeting the ongoing needs of the community, improving accountability for performance of local government, and responsibility for the investigation and prosecution of pecuniary interest complaints about councillors and staff.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

During the last five years, the Department has adopted a more proactive role in fostering improvements in the performance of the local government sector.

Over the same period, rate rebates for pensioners increased by nearly \$4 million to \$74 million and payments from the Companion Animals Fund established in 1998 have increased to a total of \$7.7 million in 2002-03.

During the 2002-03 financial year, the Department of Local Government relocated successfully from Bankstown to Nowra, opening for business in the new Government Office Block in January 2003.

## **STRATEGIC DIRECTIONS**

The Department of Local Government provides a high-level analytical and intervention capacity, concentrating on:

- ◆ legislation and policy;
- ◆ finances of councils;
- ◆ major investigations and pecuniary interest matters;
- ◆ performance management; and
- ◆ assisting councils with the process of structural reform.

The Department continues to promote the structural reform of councils and encourages councils to review their operations to better meet the needs of current and future communities.

## **2003-04 BUDGET**

### **Total Expenses**

Estimated total expenses for the Department in 2003-04 are \$90.3 million, including:

- ◆ \$77.5 million for the pensioner council rates rebate scheme; and
- ◆ \$0.6 million for the On-site Sewage Management Program

The Companion Animals budget for 2003-04 is \$4.6 million. The large one-off increase in 2002-03 occurred because all companion animals had to be registered by October 2002.

The total expenses in 2003-04 are lower than in 2002-03 because the 2002-03 Budget and revised expenses include one-off staff relocation and fit-out costs associated with the Department's move to Nowra.

### **Asset Acquisitions**

The Department's asset acquisition program of \$0.3 million provides for plant and equipment, including replacement of the records and document management systems and upgrading of computer systems.

## **NEW SOUTH WALES FIRE BRIGADES**

The New South Wales Fire Brigades serves and works with the community to prevent fire and to respond to fire, hazardous material and rescue incidents in order to protect and preserve life, property and the environment. The Brigades is responsible for providing fire protection to developed centres throughout the State. In times of emergency, such as a bush fire crisis or other natural disaster, the Brigades also supports the other emergency services in both urban and non-urban areas.

## EXPENDITURE TRENDS AND RECENT DEVELOPMENTS

The New South Wales Fire Brigades is funded 73.7 percent by the insurance industry, 12.3 percent by local government with a net cost to the State of 14 percent.

Between 1998-99 and 2001-02, there has been a 13 percent growth in the number of incidents attended by the Brigades. In 2002-03, the Brigades are expected to respond to 134,000 incidents, a response on average every four minutes.

The Brigades has received significant funding increases over the past nine financial years. In 1994-95, expenses and asset acquisitions totalled \$241.5 million. In 2003-04, \$439.7 million will be allocated for these items, an increase of 82 percent over this period. Since 1994-95 almost \$3 billion has been injected into the Brigades including more than \$130 million for state-of-the-art fire appliances.

In 1997, the Government embarked on the first major fire station building program in 75 years. Strategic programs in the greater Sydney area, Central Coast, the Hunter Valley and regional New South Wales, have seen 22 new stations built and made operational. Seventeen stations have been significantly refurbished including a significant rebuild of No 1 Fire Station in Sydney.

Since 1994-95, \$1.9 million has been committed to establish 224 Community Fire Units. The units operate in residential areas with a high level of bushland nearby. To date, approximately 3,500 volunteers attached to the various units have received training. These units and volunteers are an integral part of the Brigades' public education and fuel reduction strategies in bushfire affected areas.

The New South Wales Fire Brigades deployed significant resources in response to the 2002-03 bushfire emergency. Overall the Brigades incurred \$6.2 million of additional costs in responding to this emergency.

In 2002-03, enhancements of \$7 million were approved enabling the Brigades to;

- ◆ establish a further 97 Community Fire Units;
- ◆ purchase new helmets, gloves and other equipment for firefighters;
- ◆ provide staff for two new fire stations at Schofields and Shellharbour that were opened in December 2002; and
- ◆ commence the rollout of additional computing resources to all retained fire stations.

## **STRATEGIC DIRECTIONS**

The New South Wales Fire Brigades aims to minimise the impact of emergency incidents on the community. The Brigades continues to develop initiatives to maximise the effectiveness and efficiency of core business processes including incident prevention, fire suppression, management of hazardous material incidents, the provision of rescue services and response to natural hazards.

The Brigades will receive an additional \$17.1 million over the next four years to fund an additional 58 staff. This includes 33 permanent firefighters, ten positions for training instructors, eight for operational communications and seven for a Health and Fitness Assessment and Support Program.

Over the next four years, the Brigades will also receive nearly \$72 million to purchase 145 state-of-the-art fire appliances, and \$8 million for improved communications and \$12 million to improve the Brigades' information technology capability.

Since 1997 new stations have been completed at St Andrews, Blacktown, Kellyville, Horningsea Park, Rosemeadow, Narellan, Huntingwood, Regentville, Bonnyrigg Heights, Kariong, Bateau Bay, Berkeley Vale, Umina, Dubbo, Kelso, Doyalson, Toronto, Lawson, Schofields, East Maitland, Shellharbour and Portland.

The Brigades will receive \$4.7 million over the next four years in total funding for counter terrorism activities and will share a helicopter with the NSW Police, increasing the Brigades' capability for counter terrorism and hazardous materials response.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are estimated at \$401.8 million. In 2003-04, the Brigades will receive additional funding to:

- ◆ commence the implementation of the provisions of the Death and Disability Settlement (\$8.8 million);
- ◆ meet superannuation and long service leave costs (\$5.1 million);
- ◆ provide additional relieving firefighters, training instructors, communications operators and health and fitness support personnel (\$3.3 million);
- ◆ train new recruits (\$1 million);

- ◆ enhance counter terrorism preparedness (\$0.7 million);
- ◆ meet retained firefighter callout costs (\$0.2 million);
- ◆ establish a health and fitness program (\$1.6 million); and
- ◆ staff and operate new fire stations (\$1.3 million).

### **Asset Acquisitions**

The New South Wales Fire Brigades' 2003-04 asset acquisition program of \$37.9 million includes provision for the following projects:

- ◆ continuation of an ongoing program to acquire and replace firefighting appliances (\$18 million);
- ◆ upgrading of the Brigades' information technology assets (\$5 million) and communications network (\$2 million);
- ◆ maintenance and renovation of fire stations (\$3.6 million);
- ◆ the Sydney No 1 Fire Station redevelopment (\$2.8 million);
- ◆ acquisition of Hazmat and rescue equipment (\$1.7 million);
- ◆ acquisition of counter terrorism equipment (\$1.7 million);
- ◆ a new fire station at Warnervale (\$1.4 million); and
- ◆ other minor works (\$1.7 million).

These asset acquisitions will be of particular benefit to both city and rural areas of New South Wales and will continue to address the need for additional facilities in growth areas.

## **DEPARTMENT OF RURAL FIRE SERVICE**

The Department of Rural Fire Service is responsible for the promotion of effective rural fire fighting services within the State, including the co-ordination of bushfire fighting and bushfire prevention activities. The Office for Emergency Services is included under the Service's administration and is responsible for policy advice to the Minister and executive and administrative support to the State Emergency Management Committee and the State Rescue Board.

The prevention and containment of bushfires would not be possible without the unpaid work of some 66,000 volunteers, who operate through 2,259 community based bushfire brigades attached to 142 local councils.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Expenditure by the Rural Fire Service on bushfire fighting activities is financed from the Consolidated Fund (13 percent), local government (13.3 percent) and the insurance industry (73.7 percent).

The State's contribution towards fire-fighting services is paid into the Rural Fire Fighting Fund (RFFF), along with the fire levies from insurance companies and councils. These funds are then dispersed in accordance with the advice of the Rural Fire Service Advisory Committee.

The level of funding provided to the RFFF has increased significantly over the past eight financial years. The total amount provided to the RFFF in 1995-96 was \$65.8 million. In comparison, the total amount to be provided in 2003-04 will be \$125 million, an increase of 90 percent over this period.

The Rural Fire Service deployed an unprecedented level of resources towards fighting fire during the 2002-03 fire season. Significant and widespread drought conditions throughout the State resulted in one of the worst and prolonged bushfire seasons experienced since European Settlement.

In the period July 2002 to February 2003 nearly 1.5 million hectares of the State was burnt, particularly in and around the Snowy Mountains.

Unprecedented levels of firefighting resources were deployed to combat the bushfires which included many thousands of the State's volunteer fire fighters. The Service's projected level of operating expenses and grants and contributions revenue is significantly above budget in 2002-03 reflecting this effort.

Total fire bans were declared on 97 days, thirteen of which were statewide, involving the deployment of up to 485 task forces on any day. The use of aerial firefighting resources was also significant.

In 2002-03, enhancements of \$9.4 million were provided, largely enabling the Rural Fire Service to;

- ◆ employ 35 additional district staff to enhance the Service's ability in fire control management;

- ◆ employ 18 staff to meet the Service's commitment in relation to the amendments to the Environmental Planning and Assessment Act and the Rural Fires Act;
- ◆ acquire a Geographical Information System; and
- ◆ increase grants to local councils.

## **STRATEGIC DIRECTIONS**

The Department of Rural Fire Service is an integral part of a complex bushfire management infrastructure comprising volunteer rural fire brigades, local government councils, land management agencies and other fire authorities.

In recent years the agency has focussed on replacing aged tankers and developing an appropriate management structure to minimise fire hazards and improve response to fire emergencies. These arrangements have proved successful in providing a cohesive emergency service and have assisted greatly in the Rural Fire Service's successful response to recent bush fire emergencies.

The Service is planning to relocate its headquarters from Rosehill to new premises at Homebush Bay in April 2004. A new Emergency Command Centre will be established at the new headquarters. The new command centre will incorporate state of the art fire meteorological and mapping technology.

## **2003-04 BUDGET**

### **Total Expenses**

Department of Rural Fire Service 2003-04 expenses are estimated at \$129.4 million, representing an increase of 2.9 percent over the 2002-03 Budget. This level of funding will allow the Rural Fire Service to:

- ◆ continue to purchase new and refurbished tankers for local brigades (\$26.9 million);
- ◆ fund maintenance and equipment grants to local brigades (\$30.2 million);
- ◆ continue subsidies to local brigades for brigade stations (\$3 million);
- ◆ establish a statewide Fire Mitigation Unit of 40 personnel to issue hazard reduction approval certificates and audit local hazard reduction work (\$3.9 million);

- ◆ continue to provide local councils with advice about appropriate bushfire safety measures for residential buildings and other developments in bushfire prone lands;
- ◆ upgrade the Fire Investigations Unit (\$0.3 million). This unit seeks to detect bushfire arson in collaboration with the police and the community via crime stoppers; and
- ◆ meet the recurrent costs of the relocation to Homebush Bay including relocation, make good, contingency and project management costs (\$1.6 million).

Additional funds have been made available to the Office for Emergency Services to:

- ◆ enable the State Emergency Management Committee to review arrangements for the protection of Critical Infrastructure (\$0.8 million); and
- ◆ increase grants to, the Volunteer Rescue Association (\$0.1 million), following on from last years additional funding of \$0.3 million, in further recognition of the significant contribution of volunteer rescue units.

### **Asset Acquisitions**

The budget for the New South Wales Rural Fire Service's 2003-04 asset acquisition program of \$14.4 million includes provision for the following projects:

- ◆ acquisition of motor vehicles (\$7.5 million). This purchase will be partly offset from sales of motor vehicles (\$5.1 million);
- ◆ fitout of new headquarters at Homebush Bay (\$5.1 million);
- ◆ purchase of computers and other small items of equipment (\$1.5 million); and
- ◆ an allocation to the Office for Emergency Services to upgrade the State Emergency Operations Centre (\$0.3 million).

## **STATE EMERGENCY SERVICE**

The State Emergency Service (SES) is a volunteer based organisation dedicated to providing timely assistance in times of natural or man-made incidents or emergencies. While its main responsibilities reflect its role as the combat agency for floods and storms, the SES is also the major provider of land and inland water search and rescue throughout the State. Additionally, the SES provides significant support to NSW Police, the Rural Fire Service and other emergency services in a wide range of emergency situations. Currently there are around 9,000 SES volunteers responding to 30,000 incidents per year.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The SES has received significant funding increases over the past five financial years.

Since 1999-2000, funding provided to the SES has increased from \$17.4 million to \$32.7 million representing an increase of 88 percent. This additional funding has enabled the SES to address major priorities in the area of rescue equipment, improve protective clothing for all 9,000 volunteers, provide nationally recognised competency based training, purchase and maintain communication equipment, construct new division headquarters, and employ paid divisional controllers, learning and development officers, flood planners and public education officers.

Additional funding in 2002-03 included:

- ◆ \$0.8 million to meet day to day expenses of SES volunteer units;
- ◆ \$0.3 million for vaccination of all SES volunteers against Hepatitis B;
- ◆ \$0.3 million for the upgrade and maintenance of radio communications equipment; and
- ◆ \$0.1 million for employment of two additional part-time divisional controllers.

Total funding of \$2.6 million was used to purchase protective clothing and personal protective equipment. This ensured each volunteer was provided with world class protective clothing that conformed to Occupational Health and Safety standards for safety and visibility.

An amount of \$0.3 million was allocated for the supply and installation of computers to each SES volunteer unit. The 2002-03 financial year was the final year of a three year \$0.8 million Government election promise for the installation of a computer in every volunteer unit.

In 2002-03 funds totalling \$2.4 million were provided for the purchase of radio equipment. The Lachlan, Lower Hunter, Murrumbidgee and Richmond Tweed Divisions received new radio systems.

## **STRATEGIC DIRECTIONS**

The State Emergency Service will continue to improve its capability to deal with floods, storms, tempests and other incidents and emergencies.

This will be achieved through developing public communication and flood planning programs to ensure that communities at risk are aware of the nature of the risks and how to protect themselves and their property.

State Emergency Service volunteers will continue to be trained in emergency operation and rescue procedures which are of world class standard. The volunteers are also provided with protective clothing and equipment that meet Occupational Health and Safety requirements. These factors are essential in providing the community with a combat agency that will assist them during flood, storm and tempest operations.

## **2003-04 BUDGET**

### **Total Expenses**

The State Emergency Service's total expenses for 2003-04 are projected to be \$28.5 million.

Additional funding of \$0.2 million has been provided to meet day to day operating costs of SES Volunteer Units, increasing the program to \$1 million for 2003-04. This will benefit all 231 Volunteer Units located across New South Wales and reduce the need for volunteers to utilise their own time in fund raising activities.

The Rescue Vehicle Subsidy program will receive \$0.8 million. The funding will be used in partnership with local councils to purchase fifty modern, well equipped rescue vehicles.

An amount of \$0.6 million has been allocated for paging transmission and maintenance expenses incurred by the SES. Paging, in conjunction with radios and mobile telephones, provides the communication link essential for volunteers to conduct operational activities.

The SES component of the Hawkesbury-Nepean Floodplain Management project has been provided \$0.8 million. The project has improved public awareness, flood warning systems and SES flood response capability in the Hawkesbury-Nepean area.

Additional funding of \$0.2 million will be used to increase the number of hours worked by part-time divisional controllers as part of the Paid Divisional Controllers program.

### **Asset Acquisitions**

In 2003-04 the total capital acquisition program is estimated at \$4.3 million.

Funding will continue for the provision of rescue equipment and radio systems, with \$2.2 million being allocated to install new radio systems in divisions as well as maintaining a repair pool for all radios across New South Wales.

An amount of \$1.3 million will be used to continue to purchase essential rescue equipment, including road rescue equipment, flood rescue boats, emergency lighting, vertical rescue equipment and rescue call out systems.

Volunteer units, division headquarters and state headquarters will receive \$0.2 million to purchase paging hardware and paging facilities to assist during emergency operations.

(a) A number of Public Sector agencies have been restructured as at 2 April 2003. At this stage only high level aggregates are available for the 2002-03 year and 2003-04 Budget. Detailed Financial Statements and program statements for these agencies will be published on 26 August 2003.

(b) Total figures are not available due to the restructure of some agencies.

## DEPARTMENT OF COMMERCE

The Department of Commerce has been created to support a climate that makes doing business in New South Wales simple, accessible and fair for employees, consumers and industry. A number of government services have been brought under one umbrella. The Department comprises the Office of Fair Trading, Office of Industrial Relations, Office of Best Practice Information Technology and Corporate Services, and Policy Development and Risk Management Services. The Office of Government Procurement and the Office of Government Business are also within the Department of Commerce but will operate on a commercial basis without direct budget funding.

## STRATEGIC DIRECTIONS

### Office of Industrial Relations

The Office of Industrial Relations works towards productive workplace relations under New South Wales industrial laws. The Office seeks to ensure that employers and employees are informed of their rights and obligations.

The Office provides education and information to assist employers, especially those in small business, achieve compliance with industrial legislation and awards. It targets inspectorial services at industries where compliance may be low. Where necessary, the Office takes action through the courts, to either protect the rights of participants or to ensure the smooth operation of the industrial relations system.

### **Office of Fair Trading**

The Office of Fair Trading works towards fairness in the marketplace. The Office will develop and maintain a policy framework which provides appropriate safeguards for consumers while minimising restrictions on business and traders. The Office encourages compliance with regulatory requirements through information and education for consumers and traders, compliance monitoring and enforcement, complaint handling and dispute resolution, and licensing registration and certification.

### **Office of Best Practice Information Technology and Corporate Services**

The Office of Best Practice Information Technology & Corporate Services has a focus on electronic government service delivery. It will also incorporate the Corporate Services Reform Unit to reflect a shared services focus on implementation of government-wide agendas for process improvement. The Office will continue its role in the assessment of business cases for government ICT projects and will be involved in monitoring the progress and implementation of large projects. The ultimate aim of e-government is to deliver accessible and secure electronic services that are supported by efficient and customer focussed government business practices.

### **Policy Development and Risk Management Services**

This covers the development of operational policy and risk management for government to ensure the effective utilisation of resources and reduce government's risk exposure across its total procurement activities. The services include advice to agencies on procurement, risk management, total asset management, management of government-wide contracts and the provision of maintenance services for key heritage buildings.

## 2003-04 BUDGET

### Initiatives/Total Expenses

Total expenses for 2003-04 are \$266.8 million which will be applied to:

- ◆ Office of Industrial Relations – continuation of the office’s efforts to improve efficiency and compliance with NSW Industrial legislation in the clothing outworker industry and targeted inspectorate activities as areas of major focus, the operation of Government and Related Employees Appeals Tribunal (GREAT) and Transport Appeals Board.
- ◆ Office of Fair Trading:
  - the operation of the Consumer, Trader and Tenancy Tribunal;
  - licensing of real estate agents, valuers, conveyancers and private employment agents and the registration of business names, co-operatives, associations and co-operative housing societies; and
  - operation of the new Home Building Service which will provide strategic direction for NSW builders and consumers on residential building matters;
- ◆ Office of Best Practice Information Technology and Corporate Services – targeted use of information technology to improve service delivery including funding for the Online Licensing Project and Human Services Better Services Delivery Project; and
- ◆ Policy Development and Risk Management Services – maintenance of significant government buildings and the provision to agencies of policy advice and procurement risk management services. Funding is also provided for stone work and heritage maintenance projects.

### Asset Acquisitions

The 2003-04 Asset Acquisitions program is \$22.2 million. Major projects within this program are \$12.45 million to improve coverage and the mobile data network for the Government Radio Network, and \$3.2 million to amalgamate the Office of Fair Trading Call Centres into a single integrated, multi-channel contact centre.

## **OFFICE OF THE MINISTER FOR PUBLIC WORKS AND SERVICES**

From 1 July 2003, the Office of the Minister for Public Works and Services will become part of the new Department of Commerce. It will be renamed Policy Development and Risk Management Services.

The Office of the Minister for Public Works and Services provided for the development of operational policy and the risk management framework for government to ensure the effective utilisation of resources and reduce government's risk exposure across its total procurement activities.

The services included advice on procurement, risk management, total asset management, management of Government wide contracts and the provision of maintenance services for key heritage buildings.

## **SUPERANNUATION ADMINISTRATION CORPORATION** (*TRADING AS PILLAR ADMINISTRATION*)

The former Superannuation Administration Authority became a statutory State Owned Corporation, the Superannuation Administration Corporation, on 26 July 1999. In November 2001, the Corporation's trading name became Pillar Administration (Pillar).

The business of the corporation as prescribed in the *Superannuation Administration Authority Corporatisation Act 1999* is the provision of superannuation scheme administration services and related services in both the public and private sectors. Pillar's clients include the trustees of the First State Superannuation Fund, the Pooled Fund, and the Parliamentary Contributory Superannuation Fund. The services provided include collecting contributions and paying benefits, maintaining member records, inquiry services, accounting and finance, and statutory reporting.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

As a State Owned Corporation, Pillar operates on a fully commercial basis. The major corporate objectives in recent years have been:

- ◆ quality of service and compliance for existing clients;
- ◆ system development;

- ◆ market competitiveness and business expansion;
- ◆ profitability; and
- ◆ completing the relocation to Wollongong.

The relocation to Wollongong was a Government funded initiative. By the end of 2002, 300 positions had been located in the Coniston premises and further staff will be located in Wollongong in accordance with business needs.

Pillar has been successful in tendering for additional business, continues to market its services, and expects further success in winning new business. Business expansion will enable it to improve the returns it has from past expenditure on systems development and to spread the costs of general overheads.

## **STRATEGIC DIRECTIONS**

### **2003-04 BUDGET**

As a statutory State Owned Corporation, Pillar is subject to the commercial monitoring regime that provides accountability and reporting requirements to the New South Wales Government as shareholder.

The 2003-04 Statement of Corporate Intent is expected to focus on:

- ◆ maintaining existing clients;
- ◆ quality of service and compliance;
- ◆ system enhancements in line with statutory and market needs;
- ◆ profitability; and
- ◆ business expansion.

### **Total Expenses**

Estimated operating expenses for 2003-04 are forecast at \$47.7million.

### **Asset Acquisitions**

Asset acquisitions include the settlement on the \$3.5 million purchase of the Coniston property. Some additional expenditure is also likely for system enhancements to meet statutory and market needs, and for building modifications.

## **MOTOR ACCIDENTS AUTHORITY**

The Motor Accidents Authority of New South Wales (MAA) monitors and manages the Motor Accidents Scheme under which competing licensed insurers sell Compulsory Third Party (CTP) Insurance (known as the 'Green Slip') to the public in New South Wales. The MAA services the community by undertaking the following tasks:

- ◆ review and monitor premiums, handle claims enquiries and complaints, manage the Nominal Defendant Scheme, collect and analyse statistics, monitor solvency and financial performance of insurers;
- ◆ educate and advise key groups, identify special needs, support and fund awareness and prevention, injury management and research projects;
- ◆ develop and implement public education in relation to the Green Slip and road safety initiatives;
- ◆ monitor and review legislation and legal developments as well as develop and coordinate policy; and
- ◆ operate medical and claim assessment services for claimants.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The MAA has been delivering cost-effective programs without any significant change in the cost of delivery. The average CTP insurance premium has been reduced and kept under control through appropriate legislative reforms and a close scrutiny of premium filings.

The MAA manages HIH payments to claimants and service providers through its agent Allianz. The actuarial valuation of HIH liabilities has been revised from \$423 million at 30 June 2002 to \$313 million in 2002-03.

From 1 July 2003 the CTP levy increased from 1.4 percent to 1.6 percent. The increase, combined with a small rise in average motor vehicle insurance premiums, is expected to increase retained fees by 18 per cent for 2003-04.

Other operating expenses are projected to increase to \$14.5 million in 2002-03 due to a significant rise in the volume of work for the MAA's medical and claims assessment services. The MAA has a statutory obligation to assess the claims.

## **STRATEGIC DIRECTIONS**

The MAA aims to administer the programs in an effective, efficient and economical manner, whilst ensuring compliance with all relevant statutory requirements.

The MAA aims to keep Green Slips affordable, lower the level of litigation in resolving claims and improve the timeliness and effectiveness of medical treatment to injured persons through:

- ◆ regulating the CTP scheme and its participants;
- ◆ providing education and information to stakeholders and service providers;
- ◆ operating medical and claims assessment services; and
- ◆ supporting injury prevention and improved management of claimants' injuries.

## **2003-04 BUDGET**

### **Total Expenses**

The MAA's total expenses in 2003-04 are estimated to be \$32.6 million representing an increase of 78 percent over the 2002-03 budget. The sharp increase in expenses in 2003-04 results from an additional \$9.8 million in grants for road safety and rehabilitation projects, and for improvements to the medical and claims assessment services.

Most of MAA's income is derived from the CTP levy (1.6 percent in 2003-04) on gross CTP insurance premiums collected by the licensed insurers. In 2003-04, the MAA is projecting a deficit of \$8.8 million, to be funded from retained earnings, as a result of the additional \$9.8 million grant funding.

### **Asset Acquisitions**

The Authority's asset acquisition program relates solely to office equipment such as computers, office machines and furniture and is budgeted at \$95,000 for 2003-04.

## OFFICE OF GOVERNMENT BUSINESS AND OFFICE OF GOVERNMENT PROCUREMENT

The Office of Government Business and Office of Government Procurement have been restructured from the former Department of Public Works and Services. Both offices operate on a commercial basis.

---

	<i>2002-03 Revised \$m</i>	<i>2003-04 Budget \$m</i>
Surplus/(Deficit) .....	6.9	24.2

---

### STRATEGIC DIRECTIONS

The revised structure realigns the commercial services provided by the Department of Commerce into two discrete entities that will improve accessibility for clients, customers and the community and provide real value to the Government.

The Office of Government Business brings together the primarily contestable commercial services provided on a fee-for-service basis, while the Office of Government Procurement brings together the procurement functions and services as well as other functions which are mandated across the NSW Public Service.

The Central Corporate Services Unit forms part of the Office of Government Business to better reflect its commercial focus and a state and regional service group has been formed to better deliver regionally based services.

### 2003-04 BUDGET

#### Initiatives/Total Expenses

Total expenses of the Office of Government Business and the Office of Government Procurement are budgeted at \$427.4 million in 2003-04. Key expenditure items and initiatives include:

- ◆ the ongoing roll out of smartbuy which is the Government's strategy to achieve better value for money in the procurement of goods and services;
- ◆ the rationalisation and review of operating and shared services costs; and
- ◆ a review of products and service delivery to improve value for clients and government.

## **Asset Acquisitions**

The Offices will spend \$19.1 million in 2003-04, mostly on information technology projects. Major projects included are information technology infrastructure (\$8.3m), Central Corporate Services Unit's information systems (\$3.5 million) and smartbuy (\$2.3m) which is a computerised procurement system.

## **RENTAL BOND BOARD**

The Rental Bond Board is a statutory corporation, established under the *Landlord and Tenant (Rental Bonds) Act 1977*, and is the custodian of rental bonds taken on private residential tenancies in New South Wales. It comprises five members, one of whom is the Commissioner of the Office of Fair Trading.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Office of Fair Trading, part of the Department of Commerce, undertakes the administrative functions of the Board on a user pays basis. The Board is a self-funding body, and derives its income mainly from net earnings earned on rental bond deposits.

The Board estimates that it will administer \$530 million of rental bond deposits on behalf of landlords in 2003-04. These administered funds do not form part of the assets reported within the balance sheet of the Board.

## **2003-04 BUDGET**

Total expenses are estimated at \$31 million in 2003-04 (\$29.2 million in 2002-03). The Board estimates that it will earn \$33.6 million in revenue to support its activities. The Board's expenses include provision for:

- ◆ \$14.1 million to administer the rental bond scheme;
- ◆ \$7.6 million in grants supporting 50 percent of the costs of the residential tenancy functions of the Consumer Trader and Tenancy Tribunal. The Consumer, Trader and Tenancy Tribunal has power to determine matters in relation to the termination of tenancy agreements, payment of rental bonds on termination of tenancies, breaches relating to terms of tenancy agreements and payment of compensation;

- ◆ \$3.8 million in grants including support of 50 percent of the costs of the Tenancy Advice and Advocacy Program. This program provides advice, information and advocacy services to public and private tenants and, where appropriate, people seeking to become tenants. The services are provided in accordance with the *Landlord and Tenant (Rental Bonds) Act 1997*;
- ◆ \$4.2 million to meet the operating costs of providing information, education and mediation services within the framework of the *Retirement Villages Act 1989* to tenants, village residents, landlords, their agents and village managements; and
- ◆ \$1.3 million to meet operating costs of strata schemes and mediation services.

## **WORKCOVER AUTHORITY**

In undertaking its statutory role, the WorkCover Authority:

- ◆ promotes the prevention of injuries and diseases at the workplace and the development of healthy and safe workplaces;
- ◆ promotes the prompt, efficient and effective management of the return to work of persons injured at work; and
- ◆ regulates the operation of workers' compensation insurance arrangements.

While the operations of the WorkCover Authority are included in the State Budget, the Budget does not include the underwriting and investment activities of the WorkCover Scheme Statutory Funds which are managed by licensed insurers.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

To meet the Authority's key corporate objectives, expenditure in recent years reflects on-going activities in the review and reform of workers' compensation and occupational health and safety legislation. Recent legislative reform has introduced new occupational health and safety requirements.

The revised 2002-03 Budget and 2003-04 Budget data mainly reflects funding of the recently enacted reform measures in occupational health and safety and workers compensation.

As an outcome of the recent Workplace Safety Summit, the Government has dedicated \$13 million over three years to implement the recommendations of supporting industry attainment of NSW injury and fatality prevention targets, and enhance the development of government-wide initiatives to improve safety outcomes in the private and public sectors.

## **STRATEGIC DIRECTIONS**

The reforms to workers' compensation have significantly improved the position of the Work Cover scheme. An independent actuarial report on the New South Wales workers compensation scheme's financial position as at 31 December 2002 shows that accumulated deficit would have been \$919 million higher without the reforms to date.

A series of reform initiatives to further improve the operation of the scheme and reduce the deficit will continue. These reforms include an increased emphasis on injury management and return to work strategies, improvements to dispute resolution mechanisms and further compliance measures. An independent review of the Scheme design is also underway.

Major community education and awareness programs will also continue to promote improvements in occupational health and safety, injury management and delivery of benefits to injured workers.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses for 2003-04 are estimated at \$242 million, including:

- ◆ \$58 million for the safety inspectorate and activities engaged in the prevention of injuries and diseases at workplaces;
- ◆ \$45.5 million for the resolution of workers' compensation disputes being funding of the Compensation Court and the new Workers' Compensation Commission;
- ◆ \$31.1 million to meet the cost of workers' compensation related claims made in respect of uninsured employers, failed insurers and those arising from bush fire fighting and emergency services activities;
- ◆ \$34.8 million for regulation of the workers' compensation insurance scheme including the support of employers and employees with injury management;

- ◆ \$7 million to fund industry reference groups and support employer and employee organisations to implement recent legislative reforms through the “Workcover Assist” initiative; and
- ◆ \$5.5 million for an education campaign to raise community awareness on occupational health and safety.

### **Asset Acquisitions**

The capital program of \$18.4 million in 2003-04 provides for:

- ◆ \$9.9 million for a range of software applications to deliver the business of WorkCover, meet the requirements of WorkCover Scheme reform and related occupational health and safety legislative changes. The information management and technology strategic plan is consistent with the Government’s blueprint on information management and technology;
- ◆ \$3m for the implementation and enhancement of infrastructure solutions to provide the technology platform with which the core business activities of WorkCover are based;
- ◆ \$4.2 million for the ongoing program of fit-outs of a number of regional and district offices including Sydney District Office, Newcastle, Liverpool and Albury offices; and
- ◆ \$1.3 million for the purchase of minor technical and computer equipment.

### **WORKERS’ COMPENSATION (DUST DISEASES) BOARD**

The Workers’ Compensation (Dust Diseases) Board was established under the *Workers’ Compensation (Dust Diseases) Act 1942*. Under the Act, the Board is required to determine eligibility and award compensation to workers and to dependants of deceased workers. The Board is also responsible for administering the Workers’ Compensation (Dust Diseases) Fund and the payment of monies for compensation, awards, research grants, fees, salaries and all other costs of administering the Act, including the operating expenses of the Dust Diseases Tribunal.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Board's actuaries have calculated the outstanding claims liability as at 30 June 2003, to include incurred but not reported claims (IBNR). This approach is consistent with the guidance received from the Australian Accounting Standards Board (Urgent Issues Group Abstract 47). The Board previously recorded its claims liability on the basis of known claims, in accordance with the (Dust Diseases) Act.

This change has increased the Board's outstanding claims liability by \$808.9 million.

The Board has projected investment income of \$10.2 million in 2002-03, reflecting lower investment market returns. The Board's actuary has projected investment income of \$15.2 million in 2003-04.

## **STRATEGIC DIRECTIONS**

The Board's fundamental objective is to compensate and improve the care, dignity and health of workers suffering from dust diseases. Recent initiatives include the introduction of a mobile respiratory screening service for industry. The Board also funds numerous research programs and promotes awareness in occupational respiratory health.

The Board is projecting to have \$419 million of cash and other financial assets as at June 2003 to offset, together with future levy income, total liabilities of \$1.3 million.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are estimated at \$74.3 million including payments of claims liabilities of \$51.9 million and other operating expenditure of \$22.4 million.

Other operating expenditure includes administrative costs of \$6.4 million, a grant to meet the operating costs of the Dust Disease Tribunal of \$4.7 million and research grants of \$1.3 million.

### **Asset Acquisitions**

The Board is budgeting to acquire \$0.4 million of assets in 2003-04, comprising information technology, office refurbishment and scientific equipment upgrades, including a mobile respiratory testing unit.

## **BUILDING AND CONSTRUCTION INDUSTRY LONG SERVICE PAYMENTS CORPORATION**

The Corporation administers the *Building and Construction Industry Long Service Payments Act 1986*. The Act provides workers in the building and construction industry with an industry-based, portable long-service benefit scheme.

The Corporation earns its revenue through:

- ◆ a 0.2 percent levy on the cost of prescribed building and construction work in New South Wales; and
- ◆ investment earnings on scheme funds.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Corporation administers long service benefits, which are required to be readily available when members decide to claim them. The Corporation cannot control the number of claims that may be made in any year, and therefore disbursements and cash flows may vary significantly from year to year.

Over recent years, the Corporation's levy and investment income has been volatile. Investments returns in 2002-03 are projected to be a loss of \$4.9 million due to poor market conditions.

Forward projections of scheme liabilities, long service payments, investment and levy income are based on actuarial advice and current market conditions. The levy rate of 0.2 percent is based on the latest actuarial investigation undertaken at 30 June 2001.

### **STRATEGIC DIRECTIONS**

The Corporation is continuing to examine and implement ways in which customer service and the effectiveness and efficiency of the organisation's operations may be improved.

Relocations of the Corporation to Gosford and Lidcombe were undertaken in 2002-03.

## **2003-04 BUDGET**

Total expenses in 2003-04 are estimated to be \$80.2 million, of which \$69.7 million relates to scheme liabilities. This comprises long service payments which are made to beneficiaries and a long service payments liability expense, which encompasses new liabilities accumulating during the year and any changes in the accumulated liability.

Total income in 2003-04 is estimated at \$57.8 million, of which \$30 million is income from the long service levy and \$27.8 million is investment earnings from funds invested through New South Wales Treasury Corporation.

### **Asset Acquisitions**

An amount of \$1 million has been budgeted for the redesign and enhancement of the Corporation's core workers' entitlements and levy payment systems.

\* There were no estimates available at the time of preparation of the 2002-03 Budget of expected claims payments of outstanding HIH "run-off" claims liabilities.

\*\* Taylor Fry Consulting Actuaries revalued the third party motor accidents HIH claims by \$26.9 million during 2002-03. This increased MAA expenses by an equivalent amount. Funds for the claims payments are received from the Crown Finance Entity. Accordingly, an accrued revenue item has also been raised to reflect the additional Crown future funding obligations.

(a) A number of Public Sector agencies have been restructured as at 2 April 2003. At this stage only high level aggregates are available for the 2002-03 year and 2003-04 Budget. Detailed Financial Statements and program statements for these agencies will be published on 26 August 2003.

(b) Total figures are not available due to the restructure of some agencies.

## **TOURISM NEW SOUTH WALES**

Tourism New South Wales is responsible for the marketing of New South Wales as a holiday destination in the Australian domestic market and in international markets.

The organisation also provides strategic direction and leadership to the New South Wales tourism industry to ensure a wide range of tourism products and holiday experiences are available in the marketplace.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

#### **Response to International and Domestic Events**

Tourism New South Wales has continued to play a leading role in implementing the two year \$15 million government assistance package announced in 2001-02 in response to the September 11 terrorist attacks and the collapse of Ansett Airlines. In 2002-03, \$5.5 million of the package was utilised to provide assistance and support measures to aid the recovery of the tourism industry.

Tourism New South Wales has also continued to implement a special \$1 million government funded initiative to assist tourism regions impacted by the December/January 2001-02 bushfires. In 2002-03, the final \$0.3 million was utilised to promote the Blue Mountains and Shoalhaven regions.

Drought and further bushfires in 2002-03 resulted in additional marketing expenditure to assist regional New South Wales generally and, in the case of the bushfires, \$0.4 million was used to promote the Snowy Mountains and Capital Country regions.

In response to the Iraq War and Severe Acute Respiratory Syndrome (SARS), Tourism New South Wales has been coordinating with other State and Commonwealth agencies in the development and implementation of a National Tourism Crisis Response Plan. The plan aims to co-ordinate policy and marketing responses that will help the tourism industry recover from the negative impacts of these events.

#### **Domestic Marketing**

*Brand New South Wales* - The "Feel free" unifying brand identity for the State as a tourist destination was updated and enhanced in consultation with industry and relaunched in October 2002.

*Drive touring campaigns and short breaks campaigns* – These successfully raised awareness of the extensive range of driving based tourism options and easy getaway holidays available in the State.

*Farmhand* - A special campaign was undertaken to assist drought stricken regional New South Wales through promoting farm and country holidays. A kit was also developed to guide land owners and potential tourism operators interested in further involvement in the tourism industry.

*Tourism Sydney* - Tourism New South Wales, the Sydney Harbour Foreshore Authority and the Department of State and Regional Development have collaborated in a joint initiative focussed on branding and promotion of Sydney as a tourism leisure destination.

*New South Wales Holidays* - New South Wales Holidays entered its eighth year as a tourism-wholesaling program targeting Australian consumers, enabling exposure of more than 400 tourism products through the travel agency network.

## **International Marketing**

Tourism New South Wales continues to focus on trade marketing with some selected consumer campaigns in the primary markets of United Kingdom, United States of America, New Zealand, China, Japan, South Korea, Hong Kong, Germany, Malaysia and Singapore.

Activity in China, Hong Kong and Singapore is being closely monitored in line with developments in the management of SARS in these markets.

## **Development**

*Towards 2020 – New South Wales Tourism Masterplan* – The masterplan was released outlining the development of the tourism industry in New South Wales over the next twenty years.

*Regional Tourism Action Plan* – Assistance was provided in the creation of tourism marketing and development plans for South Coast, Northern Rivers Tropical New South Wales and Riverina regions. These were in addition to the already established plans for the New England, North West and Snowy Mountains regions and the Coffs Coast area.

*Infrastructure Development* – Potential investors in New South Wales tourism infrastructure are being assisted with information and advice. A signposting strategy to ensure the integration of signage and a tourism aviation strategy focussing on increasing international capacity are also being developed.

## **STRATEGIC DIRECTIONS**

The New South Wales tourism masterplan provides the framework for the new *Tourism New South Wales' Strategic Plan 2002-2005*. Key objectives are:

- ◆ Marketing - Partner with industry to attract more visitors who spend more money;
- ◆ Industry Development - Partner with industry to help improve its viability and service delivery; and
- ◆ Government Co-ordination - Partner with government organisations to help disperse the net benefits from tourism.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are estimated at \$52.4 million. The focus of work will include:

- ◆ \$47.9 million to grow tourism in New South Wales to achieve economic benefit throughout the State; and
- ◆ \$4.5 million to develop a sustainable tourism industry through long term government planning for tourism and initiatives assisting industry viability.

### **Asset Acquisitions**

The asset acquisition program of Tourism New South Wales is \$0.8 million in 2003-04. The work will include the introduction of electronic information management, improving information technology infrastructure and enhancing the Tourism New South Wales consumer website.

## **SYDNEY OLYMPIC PARK AUTHORITY**

The Sydney Olympic Park Authority (SOPA) was established under the *Sydney Olympic Park Authority Act, 2001* to manage the long-term future of Sydney Olympic Park and commenced operations from 1 July 2001.

SOPA is responsible for the management and orderly economic development and use of Sydney Olympic Park and for the promotion and co-ordination of sporting, educational, recreational, cultural, commercial and tourist activities.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

New residential and commercial development by the private sector is to be undertaken on four sites over the next 5-7 years. The development will be at a cost of approximately \$470 million. This level of investment confirms private sector confidence in the unique living and working environment that Sydney Olympic Park has to offer. The sale and development of the land will also realise a return of some \$70 million to the Government.

Together, the projects constitute approximately 116,000 square metres in seven individual buildings – they represent the first phase in the development of Sydney Olympic Park's Town Centre and will become home for some 1,500 residents, 3,000 employees as well as a variety of restaurants, shops and town facilities such as a library and childcare centre.

SOPA has also prepared a Plan of Management for the 430 hectares of surrounding parklands.

SOPA is now responsible for the budget funding of the Sydney Aquatic and Athletic Centre and asset management of the State Sport Centre.

## **STRATEGIC DIRECTIONS**

The aims for Sydney Olympic Park are to:

- ◆ increase visitors, participation and activity;
- ◆ achieve long term economic, environmental and social viability; and
- ◆ to be internationally recognised as an 'intelligent' example of place making.

These will be achieved through focusing on a number of development themes. Sport will continue to be important. The intention is to build on Sydney Olympic Park's position as Australia's premier sports destination and to create a totally integrated sports industry model.

Opportunities to become a centre for excellence in education and training will be pursued. A new 'college town' model featuring a diverse student and institutional base will be developed.

Sydney Olympic Park will also take opportunities to become a regional centre for culture, the arts, food and entertainment. The aim is to offer a distinctive array of social and cultural opportunities.

## 2003-04 BUDGET

### Total Expenses

Operating expenses in 2003-04 are estimated at \$110.9 million. The majority of the increase over last year's Budget relates to depreciation for transferred and new assets.

Expenses include:

- ◆ maintenance, security and operation of facilities at Sydney Olympic Park;
- ◆ supporting the infrastructure and ongoing land remediation works at Sydney Olympic Park;
- ◆ marketing and customer services including the staging of festivals and events; and,
- ◆ operation of Millennium and Bicentennial Parklands under the Parklands Plan of Management.

### Asset Acquisitions

The Authority's 2003-04 asset acquisition program is \$10.8 million. The major component of the program is a \$6 million injection to the Millennium Parklands for additional landscaping, picnic facilities, shade structures, cycle ways, educational technology and supporting infrastructure.

## DEPARTMENT OF SPORT AND RECREATION

The Department of Sport and Recreation has been restructured to take responsibility for a number of urban parks including Centennial Park and Moore Park Trust, Parramatta Park Trust and a number of Regional Parks previously part of the National Parks and Wildlife Service. The transfer will be effective from 1 July 2003.

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	62,121	48,942
Capital Appropriation .....	26,971	11,246
Total Expenses .....	94,421	82,911

## **STRATEGIC DIRECTIONS**

The purpose of the Department of Sport and Recreation is to create opportunities and facilitate active involvement so that people benefit from participating in sport, recreation and physical activity.

Assuming responsibility for the urban parks will provide increased scope for the Department to achieve its new Corporate Plan for 2003-2007. The vision of this plan is for a community using sport and recreation to improve its wellbeing: *more people, more active, more often.*

## **2003-04 BUDGET**

### **Initiatives/Total Expenses**

The key initiatives for 2003-04 are \$1.5 million to establish the NSW Soccer Foundation and \$1 million per annum in support of Surf Life Saving NSW.

The Department will spend \$82.9 million in 2003-04 mostly on sport and recreation programs (\$31.8 million), grants for community participation, facilities and sports and athlete development (\$15.5 million) and grant funding of \$5.7 million towards the operation of the NSW Institute of Sport. The Department will also spend \$0.5 million on the newly transferred regional parks.

### **Asset Acquisitions**

A total of \$11.2 million will be spent in 2003-04. The major components of the asset acquisition program are:

- ◆ \$10.4 million on works at Sport and Recreation Centres and Academies of Sport and Recreation; and
- ◆ \$0.8 million for projects at Regional Parks.

## **CENTENNIAL PARK AND MOORE PARK TRUST**

The Centennial Park and Moore Park Trust is responsible for the open space in Sydney, known as the Centennial Parklands. The Parklands comprise Centennial Park, Moore Park, Queens Park, Fox Studios Australia, the Hordern Pavilion, Royal Hall of Industries, and the Centennial Parklands Equestrian Centre. The Trust operates in a complex and changing business environment, balancing conflicting demands for recreational use, protection of parklands, financial sustainability, and equity of access.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Total expenses for the Trust have increased during the last five years from \$11.3 million in 1998-99 to \$17.6 million in 2002-03. This reflects additional costs for the maintenance of the Parklands, services to address public safety and environmental issues and a range of business activities to improve financial viability. In addition, there have been significant increases in the depreciation expense as a result of the large capital program in recent years. During the same period, retained revenues have grown from \$8 million to \$11.3 million.

In 2002-03, the Trust was provided with \$1 million each year for 4 years for a catch-up maintenance program for building and infrastructure assets.

This is targeted to achieve the following benefits:

- ◆ reduction of risk and liability issues, such as the repair of the running track at ES Marks Athletic Field and stabilisation works on the Kensington Culvert;
- ◆ addressing areas of public concern, including the refurbishment of amenities facilities across the Parklands and the upgrade of the Golf Course and Equestrian Centre;
- ◆ addressing compliance issues, including heritage, environmental, Building Code of Australia and Sydney Water requirements; and
- ◆ restoration of high use/visibility assets, including the heritage stone program for fences, gates and statues and the maintenance of the toll house.

Capital expenditure has increased significantly during the last four years due to the restoration of the Hordern Pavilion and Royal Hall of Industries, ponds restoration, rehabilitation of Moore Park, Centenary of Federation projects and the first year of the seven year Park Improvement Plan.

## **STRATEGIC DIRECTIONS**

The Trust's corporate strategy aims to achieve the following outcomes in six key result areas:

- ◆ maintaining and enhancing business viability;
- ◆ enhancing the integrity of Centennial Parklands;
- ◆ improving relationships with stakeholders;

- ◆ preserving the natural and cultural heritage of the Parklands;
- ◆ ensuring safe and equitable access to the Parklands; and
- ◆ securing opportunities for diversity of cultural expression.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are estimated at \$18.8 million. This includes the additional \$1 million for the asset maintenance program for buildings and infrastructure in Centennial Parklands.

### **Asset Acquisitions**

The Trust's asset acquisition program for 2003-04, estimated at \$6.9 million, is the second year of the planned seven-year Park Improvement Plan. The Plan, estimated at \$49.5 million in total, addresses the following key issues:

- ◆ improvement to the park environment - including ponds and landscape restoration, tree planting and the horticulture master plan;
- ◆ enhancing transport and access to the park- including new bridges, paths, signage, and the resurfacing and line marking of the Grand Drive cycle lane;
- ◆ improving visitor information and services - including visitor signage, restoration of public amenities buildings, new picnic facilities and the development of visitor service centres;
- ◆ heritage conservation - including restoration of heritage buildings, infrastructure and monuments;
- ◆ enhancing leisure facilities – including the upgrade of equestrian grounds and sporting fields, new playgrounds, community and sports club facilities, and enhancements to the golf course and its facilities; and
- ◆ upgrading of utilities and services - including upgrades to stormwater, water supply and sewerage, electricity and lighting systems, and security improvements.

Projects planned for 2003-04 including works carried over from 2002-03 are:

- ◆ continuation of the ponds improvement program;
- ◆ Eastern Suburbs Banksia Scrub regeneration;
- ◆ new directional signage;
- ◆ creating new cycleways;
- ◆ refurbishment of the Rotunda; and
- ◆ upgrading major new amenities buildings.

## **DEPARTMENT FOR WOMEN**

The Department for Women was established in April 1995 to improve opportunities for women in New South Wales. The Department's purpose is to act as a key agent in improving the economic and social well-being of women through capacity building, information provision, policy advice and the development of strategic alliances.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Department has established the Aboriginal and Torres Strait Island Women's Unit to work with communities across New South Wales. The Department continues to work with women across regional and rural New South Wales to develop programs, build capacity and strengthen communities. The innovative work of the Department around accessing information through the Women's Gateway and the website continued with the Women's Lives On Line project.

### **STRATEGIC DIRECTIONS**

The Department for Women provides advice, leadership and direction in shaping whole-of-government policy, programs and services for women in line with the objectives of the Department and the Premier's Council for Women. This work is complemented by the Department's role in the provision of information services, capacity building initiatives, regional development projects and partnerships through the Women's Grants Program.

## **2003-04 BUDGET**

### **Total Expenses**

The Department has estimated total expenses of \$5.7 million in 2003-04, which includes funding of \$1 million for the Women's Grants Program. The Department will continue to implement the whole-of-government framework in the areas that impact on women. The emphasis will be on working with the Premier's Council for Women, other agencies and the community to support the Government's social justice objectives.

### **Asset Acquisitions**

The total capital allocation in 2003-04 is \$68,000, which will be used for the ongoing upgrade of general office equipment.

## **LUNA PARK RESERVE TRUST**

The role of the Luna Park Reserve Trust is to manage the land and other assets of Luna Park Reserve.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

In February 2001, the Sydney Harbour Foreshore Authority (SHFA) was appointed to manage the affairs of the Luna Park Reserve Trust. The Trust's expenditure has historically been for administration, legal and consultancy fees.

Future expenditure will be driven by the Trustee's role in managing contractual arrangements with the long term operator of Luna Park, Metro Edgley Pty Limited. Metro Edgley presently occupies and operates the site under a license from the Trust. Future expenditure will also include the maintenance of heritage infrastructure on the site from the Heritage Infrastructure Fund.

### **STRATEGIC DIRECTIONS**

Metro Edgley prepared a Master Plan Development Application for the Luna Park site which was approved by the then Minister for Planning in January 2002. Detailed Development Applications were approved in February 2003 and construction is now underway.

## **2003-04 BUDGET**

### **Total Expenses**

The level of expenditure for administering the Trust is expected to decrease to \$0.7 million in 2003-04, as the expenditure will be administrative costs only.

## **STATE SPORTS CENTRE TRUST**

The State Sports Centre Trust provides affordable world-class facilities to the sporting community and assists NSW Institute of Sport athletes. To assist the Trust to discharge its community service obligations, the Sydney Olympic Park Authority provides an operating subsidy.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

The Trust is increasing its expenditure on safety and security and allocating a higher proportion to information technology to stay abreast of customer demands.

The Trust is able to cover increased costs in 2003-04 through a one-off increase in revenue resulting from activities staged in association with the Rugby World Cup.

### **STRATEGIC DIRECTIONS**

The Trust's objective is to provide the highest possible level of service to sport through its outdoor and indoor facilities and associated services. The Trust is concentrating on consolidating and co-ordinating its activities with those of the Sydney Olympic Park Authority to optimise the benefits available to its customers.

## **2003-04 BUDGET**

### **Total Expenses**

Total Trust expenses, estimated at \$4.1 million in 2003-04, will be used to operate and maintain the Centre's sporting facilities and facilitate increased usage wherever possible.

### **Asset Acquisitions**

The Trust will spend up to \$50,000 on replacement sporting equipment in 2003-04.

**67 DEPARTMENT FOR WOMEN**

**67.1 Policy Development and Projects Affecting the Status of Women**

**67.1.1 Policy Development and Projects Affecting the Status of Women**

Program Objective(s): Provision of leadership and strategic policy advice to achieve justice and equity for women.

Program Description: Formulate policy advice; develop strategic partnerships with government agencies, community organisations and the private sector; manage women's grants programs; maintain and deliver relevant co-ordinated women's interactive information services; contribute to the development and delivery of community programs to target audiences aimed at addressing issues of importance to women; and develop and deliver programs with Aboriginal and Torres Strait Island women across the state through the Aboriginal and Torres Strait Island Women's Unit.

*(a) A number of Public Sector agencies have been restructured. At this stage only high level aggregates are available for the 2002-03 year and 2003-04 Budget. Detailed Financial Statements and program statements for these agencies will be published on 26 August 2003.*

## RESTRUCTURING OF THE TRANSPORT PORTFOLIO

The Minister for Transport Services has announced important reforms for the transport portfolio. The changes focus on improving the safety, reliability and cleanliness of the transport system within New South Wales.

### Stage 1 – The Transport Safety and Reliability Regulator:

- ◆ the setting up, from 1 January 2004, of the Transport Safety and Reliability Regulator, as an independent authority responsible for investigating transport accidents, setting safety and performance standards and conducting safety and performance audits. Until that time the current Rail Safety Regulator will remain responsible;

- ◆ replacing the former Department of Transport with a Ministry of Transport from 1 July 2003, to provide strategic policy advice to the Minister; and
- ◆ the transfer of transport master planning and infrastructure to the Minister for Infrastructure and Planning.

### **Stage 2 - Reliability:**

- ◆ from 1 January 2004 the integration of the greater metropolitan region functions of the Rail Infrastructure Corporation with passenger operations of the State Rail Authority, to provide greater co-ordination between infrastructure delivery and service planning than currently exists and to increase reliability of rail services;
- ◆ formulation of a New South Wales Government position on a proposal by the Commonwealth for the Australian Rail Track Corporation to lease, operate and manage certain non-metropolitan and interstate rail lines; and
- ◆ continuation of Rail Infrastructure Corporation's management of the country and Hunter Valley rail networks pending determination of the New South Wales Government position.

### **Stage 3 - Community Consultation and Fares:**

- ◆ an Inquiry by Professor Tom Parry into the current funding arrangements for passenger and community transport, fare structures and investment options for train, bus and ferry services. The Inquiry will also look at ways of attracting more people onto the public transport network. In line with the Government's commitment to a safe and reliable public passenger transport system, the Inquiry will consider and report on:
  - the likely revenue needs of CityRail and the State Transit Authority bus and ferry operations;
  - funding options to meet these revenue needs as well as funding options for any future expansion of the public passenger transport system;
  - options for enhancing the optimum use of public passenger transport relative to other transport modes;
  - possible arrangements for incentive mechanisms which better link fares and service standards, including safety; and

- options for better targeting the funding and delivery of transport services to meet the needs of different groups in the metropolitan and non-metropolitan communities, including rural, community and health transport needs.

The Ministry of Transport will serve as a secretariat to the Inquiry during 2003-04.

#### **Stage 4 – Safety:**

- ◆ a review of security arrangements to be conducted by StateRail, in consultation with NSW Police, to address community concerns about safety and security on rail services. The review will include:
  - evaluation of the role of contract security guards on the rail network;
  - reviewing the rail safety regulation to increase penalties for anti-social behaviour on trains; and
  - using intelligence to identify problem rail stations and lines.

To boost the safety on trains, 300 transit officers will be employed by StateRail by the end of June 2003, with an additional 200 transit officers progressively deployed up to December 2004. This will bring the number of transit officers patrolling trains and stations to 500.

## **MINISTRY OF TRANSPORT**

The role of the Ministry of Transport is to provide independent, considered policy advice and strategic, financial and budgetary coordination for the transport portfolio and general support for the Minister for Transport Services. The Ministry will continue to play a lead role in strategic advice on bus and ferry operations, including management and reform of the school student and community transport services.

In view of the restructure, it is only possible at this stage to provide a high level financial summary for the Ministry of Transport.

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	2,401,693	2,403,716
Capital Appropriation .....	39,253	40,786
Total Expenses .....	2,489,154	2,487,911

## **STRATEGIC DIRECTIONS**

Increased accountability and transparency at all levels of the transport system is an essential element in further improving the public transport system. From a structural perspective, the recent reforms are designed to separate policy from operations. The Ministry's success will be measured in the efficient, reliable, safe, clean and cost effective public transport solutions that meet the community's passenger and freight needs.

### **2003-04 BUDGET**

#### **Initiatives/Total Expenses**

A key initiative for the Ministry in 2003-04 will be the management of the Integrated Ticketing System for the public transport network of the Greater Metropolitan region. This includes all rail, light rail, monorail, bus and ferry services in the urban areas of the Hunter, Central Coast, Illawarra, Blue Mountains and metropolitan Sydney. The System's capital and development costs are estimated at \$167.5 million, with \$11.4 million to be spent in 2003-04.

#### ***Safe, Reliable and Clean Rail Services***

The Government is investing significant recurrent and capital funding in the rail sector. In 2000-01 the Government began a four year rail improvement package including:

- ◆ accelerated maintenance of tracks and trains and the replacement of old infrastructure;
- ◆ new major track construction aimed at increasing flexibility on the system and allowing faster recovery from disruptions; and
- ◆ new trains for CityRail's metropolitan, outer suburban and Hunter operations.

StateRail will receive a total of \$959.2 million from the Ministry of Transport in 2003-04 in recurrent grants to fund CityRail and CountryLink rail services. This is an increase of \$150 million, or nearly 20 percent, on last years' Budget. In line with the Government's commitment to improve the safety, security, reliability and cleanliness of the rail network, the additional funding will be used to enhance operational performance of StateRail.

Capital grants to StateRail from the Ministry of Transport will be \$402.6 million in 2003-04, an increase of \$14 million on 2002-03. This includes \$119.4 million towards the Parramatta Rail Link project - a key addition to the public transport network and to supporting Sydney's growth.

StateRail's asset acquisition program of \$336.9 million is financed by \$283.2 million in grants and \$53.7 million from sale of surplus assets and other available funds. The program includes ongoing funding of both additional and replacement rolling stock, enhancements to rail infrastructure to improve service reliability and capacity, station upgrading to improve easy access, security and the provision of information to passengers.

Key capital projects include:

- ◆ \$152.4 million for the ongoing delivery of Millennium train rail carriages;
- ◆ \$18.5 million Easy Access station upgrades across the CityRail network including the completion of 7 locations currently in progress as well as the addition of 5 new sites in 2003-04;
- ◆ \$10.3 million for continuation of works on 14 new Hunter Valley rail carriages;
- ◆ \$6.9 million for continuation of works on 41 new outer suburban carriages to service the Blue Mountains, Illawarra, South Coast and Central Coast; and
- ◆ continuation of development works on amplification of the Cronulla line.

The Rail Infrastructure Corporation (RIC) will receive \$285.5 million to support rail line works throughout rural New South Wales. During 2003-04 RIC will undertake work on renewal of wrought iron bridges at various locations throughout New South Wales. This will include work on the bridge at Menangle, over the Nepean River.

In 2002-03 construction commenced on the Chatswood to Epping section of the Parramatta Rail Link. The \$1.6 billion project (2000 dollars), due for completion in 2008, will represent a major transport improvement. In 2003-04 \$420 million will be spent on project works.

### ***Safe, Reliable and Clean Bus and Ferry Services***

Recurrent funding payments to the State Transit Authority, including the School Student Transport Scheme and concessions, are estimated at \$242 million in 2003-04. This is a \$27 million increase over funding provided in the 2002-03 Budget. This increase will enable State Transit to continue its high level of operational performance.

State Transit Authority's \$69.7 million capital works program includes:

- ◆ \$24.1 million for 60 new diesel buses;
- ◆ \$17.4 million for the first 24 of 80 new high capacity compressed natural gas (CNG) buses; and
- ◆ \$3.5 million to complete the contract of 30 new Volvo buses for Newcastle.

All new buses will be wheelchair accessible, increasing the number of wheelchair accessible buses to 616, or 32 percent of the fleet, making bus travel easier for seniors, the disabled and children.

### ***Private Operators and Community Groups***

The Government will continue its commitment to a wide range of concessions and subsidies to various groups throughout the State to provide equity of access to services, education and employment to the community, particularly those with the greatest need.

Payments to private transport operators and community groups are estimated at \$443.9 million in 2003-04. This represents an increase of \$11 million over the 2002-03 Budget. The payments include funding for concessions and subsidies such as half-fare concessions for pensioners, transport subsidies provided under the Community Transport Program, Home and Community Care Program and subsidies for half-fare taxi transport for persons unable to use public transport because of a severe and permanent disability and for school student transport payments to private operators.

### ***School Student Transport Scheme***

The School Student Transport Scheme provides free travel to and from school for eligible students on government and private bus, rail, and ferry services, long distance coaches and in private vehicles where no public transport services exist.

School Student Transport Scheme payments in 2003-04 (including those to private operators, StateRail and STA) are estimated to total \$446.8 million.

The six year costs and trends under this Scheme are as follows:

**Table 21.2: School Student Transport Scheme Costs**

		1998-99	1999-2000	2000-01	2001-02	2002-03 Estimate	2003-04 Budget
Total student population <sup>(a)</sup>	'000	1,096.5	1,099.7	1,104.8	1,109.7	1,110.3	1,117.9
Beneficiaries	'000	654.0	664.9	671.8	674.8	675.2	678.8
Total costs <sup>(b)</sup>	\$m	360.3	378.1	385.1	406.1	427.2	446.8
Total cost per beneficiary	\$	550.9	568.7	574.1	601.8	632.7	658.2

(a) Source data from the Department of Education and Training

(b) Inclusive of payments to SRA and STA

### **Other Programs**

The Ministry of Transport's infrastructure improvement program, funded from the Parking Space Levy, will continue during 2003-04. The program, which provides for the construction of infrastructure, interchanges and commuter facilities such as car parks, will spend \$25 million for continuing capital works in 2003-04. Works under that program include an interchange at Mt Druitt and Bus Transit stop signage and car parks at Emu Plains and Wentworthville. In addition, \$20.6 million from Parking Space Levy funds has been provided towards the cost of bus stations on transitways.

## **OFFICE OF CO-ORDINATOR GENERAL OF RAIL**

The Office of Co-ordinator General of Rail was established in June 2000, following the Glenbrook rail accident and the subsequent establishment of Justice McInerney's Inquiry. The Co-ordinator General of Rail was appointed to:

- ◆ manage and co-ordinate the functions of the Rail Access Corporation (RAC), the State Rail Authority (SRA) and the Rail Services Australia (RSA) for the New South Wales rail network; and
- ◆ review the effectiveness of existing arrangements including contractual arrangements between RAC, SRA and RSA in achieving reliable service standards for CityRail services.

Since the establishment of the Office, numerous reforms have been put in place to address the safety and reliability of the system. Notably, the Rail Infrastructure Corporation (RIC) was created in January 2001 from the merger of the Rail Access Corporation and Rail Services Australia.

In April 2003, the Minister for Transport Services announced further reforms to the rail sector including the establishment of a Transport Safety and Reliability Regulator and the merger of the metropolitan operations of the Rail Infrastructure Corporation and State Rail Authority. Upon completion of these reforms the term of the Office of Co-ordinator General of Rail will expire on 31 December 2003. Total budgeted expenses in 2003-04 are \$1.7 million.

## **WATERWAYS AUTHORITY**

Waterways provides a range of services and funding to ensure the safety of the boating public and broader community. This includes the issue of recreational boating licences, registration of recreational, commercial and hire and drive vessels, commercial vessel surveys, on-water events, mooring management as well as promotion and education programs for the safety and protection of the marine environment. Waterways plays a key role in the provision of marine infrastructure, boat ramps and public wharves and jetties through the Waterways Assets Development and Management Program, removal of rubbish from Sydney Harbour and nearby waterways and provision of sewage pump-out facilities in Sydney Harbour and Myall Lakes.

Waterways also manages assets including the bed of the harbour in Sydney, Botany Bay, Port Kembla and Newcastle and a number of significant maritime properties such as Homebush Bay, Rozelle and King Street Wharf. Further responsibilities include the management of the regional ports of Eden and Yamba.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Waterways' core business revenues are derived from charges collected from boating clients and property and wetland management.

## **STRATEGIC DIRECTIONS**

Waterways is committed to working with all sectors of the boating community, marine industry, all levels of government and the general community to strive for equity, safety and environmental sustainability in the use of our waterways.

Waterways has developed a number of strategies to meet its objectives of promoting safety on all navigable waterways and minimising the impact of waterways users on the marine environment, including:

- ◆ improving the knowledge of waterways users regarding the safe operation of recreational vessels through the issue of licences, educational programs (including boating safety seminars and advertising campaigns), the provision of waterways information on the internet and the establishment and support of user groups;
- ◆ licensing commercial vessels and operators and, where applicable, providing appropriate conditions under which an operation is to be carried out;
- ◆ installing and maintaining navigation aids and signs;
- ◆ licensing on-water events and providing conditions to be met by licensees;
- ◆ undertaking environmental assessments of on-water events prior to approval in order to minimise adverse environmental impacts;
- ◆ undertaking environmental services that contribute to clean waters;
- ◆ participating in government environmental and open space improvement initiatives designed to protect and enhance the natural cultural elements of the seabed and foreshores; and
- ◆ reducing sewage pollution from vessels.

Strategies developed in relation to Waterways' property assets are:

- ◆ developing and maintaining maritime facilities or renewing existing assets through the capital works program and, where possible, facilitating private sector development;
- ◆ managing disposal of non-core assets and ensuring a sound financial return to Government;
- ◆ managing the regional ports of Eden and Yamba to optimise their contribution to the economic development of their respective regions and the State;
- ◆ providing advice on major planning and environmental matters involving wetland development and usage;

- ◆ assessing foreshore development plans and applications through balanced consideration of community and commercial needs; and
- ◆ managing the residual responsibilities of the former Maritime Services Board.

## **2003-04 BUDGET**

### **Total Expenses**

Total expenses in 2003-04 are expected to be \$80.4 million. This includes providing recreational boating functions involving the promotion of safety and environmental protection on the water through boat licences and registrations, patrols, education, seminars, publications, compliance and enforcement activities.

Funds will be spent conducting commercial vessel surveys, environmental services in Sydney Harbour and Myall Lakes, navigation aid maintenance, accident investigation and the construction of key waterway infrastructure.

There will also be expenditure on place management of maritime precincts and on maintenance of key assets such as commuter wharves and the remediation of Homebush Bay.

### **Asset Acquisitions**

The total capital program for 2003-04 is \$15.3 million. This includes refurbishment and enhancement of Manly Wharf, new infrastructure for the Rozelle Bay maritime precinct, restoration of the Dawes Point seawall and completion of the redevelopment of Walsh Bay 2/3.

The renewal of assets such as vehicles and vessels to support the regulatory compliance and operational requirements is a priority commitment. This includes the acquisition of vessels and outboard engines, the continued development of the computerised integrated management system and graphical leasing system, installation of navigation aids and waterway signage improvements.

**70.1 Waterways Management**

**70.1.1 Marine Safety and Environment**

Program Objective(s): To promote safety on all navigable waters and minimise the impact of waterways users on the marine environment.

Program Description: The provision of services relating to the safety and regulation of State navigable waterways for recreational and commercial vessels. Education and licensing of vessel operators. Licensing of commercial and recreational vessels. Mooring management and Sydney Harbour cleaning. Licensing of on-water organised events. Installation and maintenance of navigation aids and signs. Investigation into accidents involving vessels.

(a) A number of Public Sector agencies have been restructured as at 2 April 2003. At this stage only high level aggregates are available for the 2002-03 year and 2003-04 Budget. Detailed Financial Statements and program statements for these agencies will be published on 26 August 2003.

(b) Total figures are not available due to the restructure of some agencies.

## TREASURY

As part of the Government's organisational changes, asset and procurement policy functions of the former Department of Public Works and Services have been transferred to Treasury.

The primary objectives of the transfer are to enhance Treasury's capability to:

- ◆ assess and monitor capital investment proposals;
- ◆ adopt responsibility for asset management policy and compliance; and
- ◆ adopt responsibility for procurement policy for goods and services.

Treasury will have overall responsibility for policy and regulation concerning asset management and procurement of capital works, goods and services. Treasury's focus will be on setting the high-level policy direction, initiating and overseeing development of detailed policy proposals and approving new guidelines, codes and other whole-of-government policy documents.

Treasury consists of the Office of Financial Management (OFM) and the Office of State Revenue (OSR). The new functions being taken over by Treasury will be integrated into OFM.

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	409,847	335,721
Capital Appropriation .....	10,134	8,427
Total Expenses .....	440,669	361,223

## STRATEGIC DIRECTIONS

OFM's strategic management framework continues to be based on:

- ◆ microeconomic reform – facilitating implementation of competition policy and achieving better value for money in infrastructure-based service delivery;
- ◆ a general government financial management framework – developing and implementing a framework that assists Government agencies deliver value for money programs and services;
- ◆ a commercial policy framework – ensuring competitive neutrality, enhanced accountability for commercial performance and increased value of Government businesses;
- ◆ State balance sheet management – optimising balance sheet structure by prudent investment and asset management, efficient management of debt, unfunded superannuation and other liabilities; and
- ◆ the Government's fiscal strategy – achieving Budget and debt targets, maintaining the AAA rating, keeping taxes competitive and obtaining a fairer share of Commonwealth funding.

Integration of new functions into OFM is to strengthen its ability to undertake microeconomic reform, specifically to enhance our policy capability in regard to whole-of-government capital investment, asset management and procurement.

OSR's strategic direction is based on four business focus areas:

- ◆ stronger revenue base – providing better management of Government revenue;
- ◆ skilled and committed people – strengthen organisational capability by developing the skills and talent of OSR employees;
- ◆ powerful systems – using technology to streamline business processes and be more responsive to client needs; and
- ◆ expanded revenue – providing an increased whole-of-government approach to revenue administration.

## **Initiatives/Total Expenses**

OFM will be reviewing functions to determine the structure required to achieve appropriate alignment of existing functions with the new functions. An enhanced capital assessment and monitoring function will be established.

Key initiatives in 2003-04 include the relocation of the State Debt Recovery Office, a division of OSR, from Sydney to Lithgow.

Treasury's estimated total expenses in 2003-04 amount to \$361.2 million. This is a reduction of \$79 million compared to 2002-03, due mainly to an expected significant decline in applications for First Home Owner Grants. Excluding this factor, Treasury expenses are the same level as in 2002-03.

## **Asset Acquisitions**

For 2003-04, anticipated capital expenditure is \$8.4 million. This includes \$3.7 million associated with fitout of new premises in Lithgow for the State Debt Recovery Office.

## **CROWN FINANCE ENTITY**

The Crown Finance Entity is responsible for service-wide assets, liabilities and their related transactions for which individual agencies are not directly accountable. The major components relate to employer contributions to the First State Superannuation Scheme and the Crown funding plan contributions for the defined benefit superannuation schemes, long service leave payments on behalf of general government budget dependent agencies, interest payments on government debt to New South Wales Treasury Corporation and the Commonwealth, and the payment of interest on bank balances held by general government agencies in the Treasury Banking System.

In addition, the State is required by the Commonwealth to contribute to the administration of the GST. Other payments include HIH policyholder claims, State Bank post sale management costs, refunds and remissions of Crown revenue, natural disasters assistance, contributions to the Treasury Managed Fund, debt and investment management costs, and payments for community service obligations to Australian Inland Energy and the Hunter Water Corporation.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

For detailed commentary on asset and liability management refer to Chapter 4 in Budget Paper No. 2.

## 2003-04 BUDGET

### Total Expenses

Estimated total expenses in 2003-04 are \$3,918.6 million, with the major components being:

- ◆ \$2,356.7 million incurred on behalf of general government budget dependent agencies for employer superannuation expenses and associated payroll tax. This expense compares to a budget of \$2,042 million and forecast expense of \$4,341.7 million in 2002-03. The increase in forecast expense for 2002-03 was largely due to actuarial adjustments of \$2,100.4 million reflecting lower than expected investment returns and longer life expectancies of members;
- ◆ \$663.1 million for interest expenses on existing debt held with New South Wales Treasury Corporation, the Commonwealth and other organisations. This is a 5.4 percent decrease on forecast 2002-03 expenses, reflecting savings generated from matured long term debt being refinanced in a lower interest rate environment and a lower level of debt. The increase in the 2002-03 revised expense is due to costs associated with retirement of high coupon loans during 2002-03;
- ◆ \$306.3 million for long service leave expenses of general government budget dependent agencies;
- ◆ \$192.9 million as reimbursement to the Australian Taxation Office for GST administration and related payments;
- ◆ \$38 million to subsidise petroleum products for on-road use near the Queensland border and \$5 million to subsidise the sale of low alcohol beer in New South Wales;
- ◆ \$35 million as a grant to the Transport Accident Compensation Fund, created as a replacement for third party motor vehicle registration levy concessions granted in 1998-99;
- ◆ \$30 million to be invested in projects with the aim of increasing the flow of water in the Snowy River; and
- ◆ \$15 million as a provision for natural disaster grants. Natural disaster relief expenditure for 2002-03 was greater than expected due to the extreme bushfire season from October 2002 to February 2003. Total expenditure for fighting the fires over this period was approximately \$111 million.

In addition \$113.7 million of HIH motor vehicle third party and building warranty insurance claims will be paid out in 2003-04. These were expensed in prior years.

### **Total Retained Revenue**

Estimated total retained revenue in 2003-04 is \$244 million, with the major components being:

- ◆ \$117 million as interest on Crown advances to public sector agencies;
- ◆ \$56.7 million as a return on the State's equity investment in Snowy Hydro Limited;
- ◆ \$48.4 million in contributions for superannuation and long service leave;
- ◆ \$15.6 million as proceeds from land sales; and
- ◆ \$5 million as interest on Treasury Banking System funds held in the Treasury Corporation Hour Glass Facility;

### **CROWN LEASEHOLDS ENTITY**

The Crown Leaseholds Entity was previously incorporated within the Crown Finance Entity, and, as from 1 July 2003, will be administered by the Department of Lands under the *Crown Lands Act 1989*.

The Crown Leaseholds Entity collects annual instalments relating to the purchase of Crown land and generates revenue from leases, licences and permissive occupancies of Crown land and is the accounting entity that reports the value of vacant Crown land.

Vacant Crown land is all Crown Entity land not included in the Leasehold Estate. This land includes land on the continental shelf within the three Nautical mile zone.

Total cash transfers to the Consolidated Fund in the 2002-03 Budget were estimated to be \$40.8 million. The 2002-03 revised amount is reduced by 13 percent to \$35.6 million and the amount for the 2003-04 budget is reduced by 15 percent to \$34.6 million. These reductions are due to lower revenue from sales of goods and services and lower investment income.

The operating expense has decreased from \$5.8 million in 2002-03 to \$5 million in 2003-04 due to fewer waivers and rebates associated with lease payments. Investment income has been reduced from the 2002-03 Budget amount of \$4.1 million to \$3.2 million in 2003-04. This reduction is due to lower interest revenue associated with late rental payments.

## DEPARTMENT OF STATE AND REGIONAL DEVELOPMENT

The Department of State and Regional Development has been restructured. During 2002-03, the Office of Western Sydney (formerly part of the Department of Information Technology and Management) was integrated as a branch of the Department.

	<i>2002-03 Revised \$000</i>	<i>2003-04 Budget \$000</i>
Recurrent Appropriation .....	89,016	100,623
Capital Appropriation .....	893	110
Total Expenses .....	96,563	105,991

## STRATEGIC DIRECTIONS

The Department of State and Regional Development supports the Government by providing expert advice and quality services to advance the economic development of both metropolitan and regional New South Wales.

The Department's activities are encompassed in four strategies. These are:

- ◆ promoting investment;
- ◆ boosting exports;
- ◆ encouraging innovation; and
- ◆ improving the State's business climate.

The Department fulfils these objectives by providing business information; marketing regional and metropolitan New South Wales as an investment location; providing limited financial assistance; developing enterprises; promoting exports; and co-ordinating public sector exports. The Department also promotes innovation and acts as an advocate for business within government, and explains and implements government policies applying to industry.

## 2003-04 BUDGET

### Initiatives/Total Expenses

The Department's estimated total expenses for 2003-04 are \$106 million.

During 2003-04 the Department's initiatives will include:

- ◆ implementation of programs to assist the commercialisation of biotechnology and actively market and promote New South Wales biotechnology companies internationally at events such as Bio2004 and Medica in Dusseldorf;
- ◆ the Australian Technology Showcase (ATS), which includes over 350 innovative NSW technologies and provides an extensive range of promotional activities. Activities will include web site promotion, business growth workshops, local and international networking events and trade missions; media promotion; special exhibitions and business matching services with incoming business groups, and the introduction of the ATS Technology Demonstration program;
- ◆ coordination of a comprehensive business program in conjunction with the staging of the Rugby World Cup 2003 in Australia. The program will include international investment forums, technology site visits, country themed networking events, economic and industry briefings and a technology exhibition. The program will focus on Sydney and the regional venues of Gosford and Wollongong;
- ◆ regional development assistance delivering programs and services specifically aimed at helping the establishment and growth of regional businesses. Funding has been provided to continue the New Market Expansion and Towns and Villages Futures Programs. These initiatives assist regional firms to pursue new domestic markets, as well as confirm the commitment to proactively assisting communities with populations of less than 2,500 people pursue business opportunities;
- ◆ small business development programs which support and assist people who are intending to start a business as well as those who are already in business. The Small Business Expansion and High Growth Business programs offer fast growing businesses the opportunity to access external support to assist innovation and growth. Programs also assist small and medium firms to accelerate the adoption of new technologies through the Technology Diffusion program and access to Innovation Advisory Centres;

- ◆ customised business assistance for Aboriginal people engaged in business or intending to start a business. Support will also be provided for Indigenous community based enterprises to engage in organisational building, management skilling and business development. These services will be delivered in conjunction with other government agencies with the aim of supporting the development of sustainable business operations; and
- ◆ implementation of the New Export Opportunities Program which aims to assist small and medium companies into export and/or new overseas markets through trade missions and market visits, export advisory services and access to information and networking support.

### **Asset Acquisitions**

The Department's asset acquisition program for 2003-04 includes \$0.1 million for essential building works and the replacement of plant and equipment.

## **NEW SOUTH WALES INSURANCE MINISTERIAL CORPORATION**

The Insurance Ministerial Corporation (IMC) was created in 1992 to accept the assets, liabilities, rights and obligations of government insurance activities.

The activities are:

- ◆ the Treasury Managed Fund (TMF), which provides cover for all insurance exposures faced by budget dependent agencies (other than compulsory third party insurance); and
- ◆ the management of liabilities from a number of closed schemes. The closed schemes are the Governmental Workers' Compensation Account, the Transport Accidents Compensation Fund and the Pre-Managed Fund Reserve.

These activities are currently managed under contract by GIO General Limited.

### **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

In addition to normal funding, the TMF received additional grants from the Crown of \$524 million, to a total of \$604 million, and an asset transfer of \$300 million during 2002-03. These amounts funded additional liabilities primarily due to a change in accounting policy (\$519 million) and a shortfall in investment earnings. These payments ensured that the TMF remained in a fully funded position.

New South Wales is the only State to offer full workers' compensation coverage to employers of trainees. However, employers of apprentices in New South Wales do pay their workers' compensation premiums.

This policy has achieved its aim. In 1997 there were 15,202 trainee approvals. In 2002 there were 55,911. Moreover, the system is open to abuse, whereby some employers enrol existing, and in some cases long-term, employees as new trainees.

In addition, as employers are not responsible for the cost of workers' compensation premiums there is less incentive to maintain workplace safety. There has been a rapid increase in the cost of premiums met by Government, rising from \$4 million in 1997-98 to a projected \$47 million in 2003-04.

From the beginning of 2004 the cost of workers' compensation cover for new trainees will be met by employers. This will bring New South Wales into line with other States and will ensure the same workers' compensation treatment for trainees and apprentices.

## **STRATEGIC DIRECTIONS**

A continuing emphasis will be placed on reducing claim costs of the Treasury Managed Fund by promoting better risk management and claims management practices.

The contract for management of the Treasury Managed Fund was, and will continue to be, subject to competitive tender. GIO General Ltd was successful in securing a three year tenure from 1 July 2000 with an option at the Government's discretion for further extension of two years. The option period up to 30 June 2005 has been taken up by the Government.

In September 2001 the Auditor-General reported to Parliament on the collapse of HIH Insurance. The Auditor-General noted that agencies covered outside of the TMF had incurred an estimated \$30 million exposure through the HIH collapse. A key recommendation of this report was:

“The current structure of the Treasury Managed Fund should be reviewed to determine whether it is beneficial to include all non-budget dependent agencies under the cover provided.”

Twelve new agencies have now joined the TMF and discussions are ongoing with other agencies.

## **2003-04 BUDGET**

The estimated operating surplus of \$124.9 million for 2003-04 compares with a forecast budget surplus of \$122.2 million in 2002-03.

The forecast reflects a general increase in premiums mainly due to the inclusion of claims 'incurred but not reported' in liability exposure. A return to more normal long-term investment returns is also expected.

More information on the management of insurance claims is included in Chapter 4 of Budget Paper No. 2.

## **LIABILITY MANAGEMENT MINISTERIAL CORPORATION**

The Liability Management Ministerial Corporation was established by legislation in July 2002.

The Liability Management Ministerial Corporation controls the General Government Liability Management Fund, which accumulates financial assets to improve the financial management of the general government sector's balance sheet.

The accumulation of financial assets in an investment fund will help to minimise the cost of servicing superannuation by providing flexibility in the timing of superannuation contributions to the public sector defined benefit schemes. The legislation establishing the General Government Liability Management Fund provides that the balance in the Fund can initially only be used to meet superannuation liabilities. In the case where unfunded superannuation liabilities are extinguished, the balance can be applied to debt.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Government payments to the General Government Liability Management Fund will be made in accordance with the funding profile established under the Crown Funding Plan for the elimination of unfunded superannuation liabilities. The Crown Funding Plan was developed through actuarial assessment of the minimum level of contributions necessary to meet the funding target of 2030 under actuarial assumptions then held on long term investment returns and growth in liabilities.

A primary purpose in establishing the General Government Liability Management Fund was to provide a mechanism to afford the Government greater flexibility in achieving the fiscal targets of eliminating net debt by 2020 and fully funding superannuation liabilities by 2030. As the reduction in net debt is well ahead of projections, higher contributions will be made to the General Government Liability Management Fund from the cash surpluses estimated over the forward estimates period.

In 2002-03 the contribution to the Fund has been increased from \$929 million to \$1,629 million. Further contributions to the Fund over the forward estimates period are estimated at \$751 million in 2003-04, \$1,475 million in 2004-05, \$1,750 million in 2005-06 and \$2,025 million in 2006-07.

Part of the additional contribution in 2002-03 was made possible by the Commonwealth remitting \$200 million in Budget Balancing Payments in excess of the State's entitlement. This amount will be recovered by the Commonwealth in 2003-04, resulting in a comparable reduction in the originally planned 2003-04 contribution to Fund.

## **STRATEGIC DIRECTIONS**

The Government will continue to exercise flexibility in the management of its financial assets to optimise the manner in which it achieves the fiscal targets of eliminating net debt by 2020 and fully funding superannuation liabilities by 2030.

Actuaries to the Pooled Fund for public sector defined benefit superannuation schemes have been requested to review the Crown Funding Plan in the light of the additional contributions planned to be made to the General Government Liability Management Fund. As part of the review, the actuaries will also have regard to the outcome of the current triennial actuarial review of the superannuation funds, scheduled for completion in December 2003.

In accordance with the provisions of the *General Government Liability Management Fund Act 2002*, a Management Committee has been established to advise the Secretary of Treasury on matters relating to the management of the Fund, including:

- ◆ investment strategy;
- ◆ appointment of asset custodians, consultants, investment managers and other service providers; and
- ◆ monitoring and reviewing the performance of assets, investments and service providers.

The Management Committee is also required by the Act to review from time to time the long term fiscal target to eliminate total State sector unfunded superannuation liabilities by 30 June 2030.

The assets of the Fund are currently held in cash, managed by the NSW Treasury Corporation which has been appointed as investment manager to the Fund. Returns on investments are in line with the original budget estimate.

A longer term strategic investment strategy is currently being developed in conjunction with the Management Committee in the light of investment advice provided by InTech Financial Services.

## **2003-04 BUDGET**

### **Total Expenses**

The Ministerial Corporation has budgeted \$1 million for operating expenses in 2003-04.

### **Asset Acquisitions**

The purpose of the investment fund is to acquire financial assets. The Ministerial Corporation will not acquire non-financial assets.

## **ELECTRICITY TARIFF EQUALISATION MINISTERIAL CORPORATION**

The Electricity Tariff Equalisation Ministerial Corporation commenced administration of the Electricity Tariff Equalisation Fund (ETEF) on 1 January 2001. The Fund is designed to manage wholesale electricity pool purchase cost risk for those standard government owned retail suppliers that are required to supply electricity to small retail customers at tariffs determined by the Independent Pricing and Regulatory Tribunal (IPART).

Small retail customers are those residential and small business customers consuming less than 160 MWh per annum who have not elected to enter into a negotiated supply contract. There are four standard retail suppliers in New South Wales – EnergyAustralia, Integral Energy, Country Energy and Australian Inland Energy Water Infrastructure.

Standard retail suppliers are required to pay money into the Fund when wholesale prices are lower than the energy cost component they charge customers buying their power under regulated tariffs. When wholesale prices are higher than the energy cost component in the regulated tariff, the ETEF makes payments to the standard retail suppliers from the Fund to ensure they earn a regulated return.

In this way, the Fund is able to smooth out the volatility in wholesale prices for those government retailers that are required to sell at regulated tariffs. At the same time, the Fund ensures that the standard retail suppliers do not face a commercial advantage or disadvantage because they supply regulated customers.

In the event there is a sustained rise in pool prices and there are insufficient funds, New South Wales state-owned electricity generators are well placed to 'top-up' the ETEF as they have benefited from the high wholesale prices that caused the Fund to be depleted. Generator payments to the Fund are repaid to generators whenever standard retail suppliers make a payment into the Fund. The involvement of generators ensures that the Fund can never be in deficit.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Standard retail suppliers and state-owned generators make payments into the Fund and receive payments from the Fund in accordance with the payment rules established by legislation. The direction and level of payments is dependent on movements in average wholesale electricity prices.

The average NSW wholesale electricity price for 2001-02 was \$35 MWh. Average monthly prices varied from \$21 MWh to \$74 MWh. The Fund balance at 30 June 2002 was \$48.3 million.

The forecast ETEF balance at 30 June 2003 is approximately \$50 million.

While for accounting reasons the ETEF year end balance is treated as revenue, in practice it is managed as a separate fund which can be called upon in periods of high prices.

## **STRATEGIC DIRECTIONS**

The ETEF arrangement is designed to offer price protection for small retail customers on regulated arrangements by managing the purchase risk of standard retail suppliers. The Fund has demonstrated its effectiveness in managing ongoing price volatility in the National Electricity Market.

The Treasurer has initiated an annual audit of the standard retail suppliers. The focus of the audit is a review of the data provided by the standard retail suppliers to the Fund Administrator.

## **2003-04 BUDGET**

The Fund is an equalisation mechanism in that surpluses resulting from low prices in one period are paid out in future periods to offset higher prices. The regulated energy allowance set by IPART, which is based on the long run generation costs, provides perhaps the best guide for the most likely long term trend in the wholesale purchase costs for standard retail suppliers. On this basis, the Fund has not been forecast to accrue further net reserves in 2003-04.

## **CROWN PROPERTY PORTFOLIO**

The Crown Property Portfolio (CPP) mainly comprises New South Wales Government owned and leased multi-occupied office buildings located throughout New South Wales. The Portfolio also contains a diverse range of non-office properties that are outside the core activities of other agencies and/or have entered the Portfolio as a result of a strategic decision to restructure particular agencies.

The Department of Commerce manages the Portfolio under a management agreement with the New South Wales Treasury, and is responsible for the collection of rents and other associated activities. Day-to-day property management of the office buildings is contracted to a private sector agent.

## **EXPENDITURE TRENDS AND RECENT DEVELOPMENTS**

Expenditure is mainly incurred on office building head lease payments and finance lease interest payments.

The transfer of properties and disposal of assets significantly impacts on gross revenue. During 2002-03, former BHP land and land at Tomago were transferred into the CPP on a temporary basis. These lands were subsequently transferred to the control and management of the Regional Land Management Corporation (RLMC), which is an incorporated subsidiary of the Hunter Water Corporation, on 1 April 2003. The Kooragang Island Industrial Estate was also transferred to the RLMC. The RLMC's role is to undertake interim management tasks for these lands in the lower Hunter Region.

Construction of a regional office building in Nowra was completed in 2002-03 to house the Department of Local Government. This building has been added to the Portfolio. Construction of a regional office in Lithgow commenced in 2002-03. This building will house the State Debt Recovery Office and the Police Assistance Line and upon completion will also be added to the Portfolio.

## **STRATEGIC DIRECTIONS**

The Portfolio's strategic focus centres on effectively managing the Crown's assets so as to optimise their value and maintain their operational utility. This will be achieved by:

- ◆ using the Portfolio's purchasing and negotiating power to secure improved lease rentals and terms for government agency accommodation;
- ◆ measuring performance against key performance indicators to develop, implement and monitor strategies for improved performance;
- ◆ maximising the efficiency and effectiveness of tenants' accommodation; and
- ◆ maintaining expenditure in line with industry standards/benchmarks.

## **2003-04 BUDGET**

### **Total Expenses**

The budgeted expenditure for 2003-04 is \$165.6 million, a decrease of \$129.9 million over projected 2002-03 expenditure of \$295.5 million.

The decrease was primarily associated with the transfer of the former BHP lands at Newcastle. In consideration for the transfer of these lands, the CPP received \$109 million from BHP mostly for remediation of the main steel site. This is a one-off provision which is not applicable in 2003-04.

The balance of the decrease in expenditure results from granting of lands to various Councils during 2002-03. The most significant of these sites was land at Waverton. It is not expected that such grants will occur in 2003-04.

The transfer of the Sydney Fish Market to Sydney Harbour Foreshore Authority did not take place in 2002-03, but is forecast to occur in 2003-04. Similarly, the sale of the Sheas Creek Wool Stores site in Alexandria is expected in 2003-04.

### **Asset Acquisitions**

The Portfolio has an allocation of \$20.4 million in 2003-04 to fund major Government office building construction works as follows:

- ◆ \$12.7 million to refurbish and upgrade the services in the historic Chief Secretary's Building to accommodate the NSW Industrial Courts and the State Governor;

- ◆ \$6.6 million to complete the construction of an office building in Lithgow to accommodate the State Debt Recovery Office and the Police Assistance Line; and
- ◆ \$1.1 million for Crown Property Portfolio building refurbishments.

## **ADVANCE TO THE TREASURER**

\$300 million has been allocated in 2003-04 to the Treasurer as an advance to allow for supplementary expenses - \$240 million for recurrent services and \$60 million for capital works and services. Actual expenses will be recorded in the expenses of the appropriate agencies.

At \$240 million the advance represents a contingency of less than 1 percent of budgeted operating expenses.

---

**TREASURER AND MINISTER FOR STATE DEVELOPMENT**  
**71 TREASURY**

---

Financial data for this restructured agency will appear in Budget Paper No. 3 Volume 3 to be released on 26 August 2003.
