INTRODUCTION

1. Background to the Estimates System

The annual budget of a government operating under the Westminster system represents the authorisation by Parliament of the payments proposed by the government of the day according to its policies and priorities. The budget is in fact an Act (generally termed an Appropriation Act) passed by the Parliament to give legal effect to those payments.

The essence of the appropriation process is the concept that "public moneys" can only be expended by the administrative arm of government under the authority of the elected legislative arm. The approach now adopted in New South Wales is that the budgetary process should clearly distinguish between those sources of funds which should only be used following approval by the Parliament (essentially those derived from taxation, Commonwealth grants, borrowings and certain other transactions of a "Crown" nature) and those funds earned by agencies through the sale of their services or through donations, industry grants, etc.

The former category of funds, those appropriated by Parliament, are treated as an income of the Consolidated Fund. The second category, which consists of user charges, grants from other agencies, donations etc, are, under the net appropriation approach, regarded as income of the agency.

Payments from the Consolidated Fund can only be made under the authority of Parliament. In general, this authority is given through the passing of the annual Appropriation Act.

The Appropriation Bill is introduced by the Treasurer and the Budget Speech is, in effect, the "second reading" speech of that Bill. The Bill (printed as Budget Paper No. 5) is supported by the more detailed "Budget Estimates" (i.e. this Budget Paper).

The estimates of payments are grouped together under the agency responsible for administering particular programs and these agencies are grouped under ministerial headings. All estimates are presented in program budget format.

2. Program Budgeting System in New South Wales

2.1 Background

Program budgeting was fully implemented in New South Wales in 1986-87 when all allocations from the Consolidated Fund (as shown in the Budget Estimates) were appropriated on a program basis. An outline of the background to and stages of implementation of program budgeting is contained in the introductory section in the 1987-88 Budget Estimates. Appropriations continue to be made on a program basis but, as indicated in Section 4.5, substantial flexibility is given to Ministers in allocating their funds.

Substantial additional information is contained in agencies' Annual Reports and the "NSW Government Directory" concerning organisational structures, functions, senior officers and office locations. Information of this nature is not included in these Budget Papers.

2.2 Program Hierarchies

In the program structure, the various functions of an agency are classified according to their major purposes and then subdivided into various components.

Two hierarchies have been developed for presenting Budget aggregates in New South Wales. The first hierarchy reflects the organisational structure of government, i.e. Ministers being responsible for individual agencies which undertake various activities grouped into programs. These programs in turn are grouped into program areas. This is the basis of the appropriation process and is the underlying structure of this Budget Paper.

Minister:	highest level at which funds are appropriated.
Agency:	Budget Sector department or authority (e.g. the Department of Agriculture).
Program Area:	grouping of programs with common goals (e.g. agricultural services).
Program:	individual program within a program area (e.g. plant industries).
Activity:	sub grouping of program (e.g. cereal products).

The second hierarchy recognises that Ministerial responsibilities and organisational structures change over time and that a number of agencies may undertake activities directed at common objectives. These factors make it difficult to determine how much the State is spending on "law and order" (for example), to make comparisons over time, or to compare between States often with differing organisational structures.

To overcome these problems, a functional structure has been developed based on the Australian Bureau of Statistics Government Purpose Classification (GPC) codes, which themselves are related to international classifications. This structure consists of policy areas and policy sectors, the latter being the more detailed dissection. The hierarchy is the basis of the dissections of total current and capital payments in Chapter 5 and 6 respectively of Budget Paper No. 2, with full details shown in the Appendix to Budget Paper No. 2.

In the 1994-95 Budget Papers, the classification methodology has been further refined to enhance its concordance with Australian Bureau of Statistics GPC categories.

3. Explanation of Statements

3.1 Financial Estimates by Minister, Agency and Program (pages 11 to 720)

Financial estimates are shown in the following format -

- Ministerial Appropriation Summary
- Agency Financial Summary
- Program Statements

Ministerial Appropriation Summary - This summary contains details of the amounts to be appropriated by Parliament to agencies for which the Minister is responsible. These sums are classified by type of appropriation (i.e. recurrent and capital) for each agency. These amounts agree with the allocations sought to be approved by Parliament through the passing of the Appropriation Bill.

Also included in the Ministerial Appropriation Summary is a table detailing the average number of staff employed by each agency (expressed on an equivalent full-time or EFT basis).

Agency Financial Summary - The level of resources which are projected to be expended by each agency which directly receives an appropriation by Parliament are detailed in this summary.

Recurrent resources are indicated in the *operating statement* while capital and financing resources are detailed in the *investing statement*.

Also shown is the *capital program* for the agency which details the asset acquisitions being planned by the agency and grants for capital purposes and advances being made to other agencies and sectors. The capital program includes items from both the operating and investing statements.

An explanation of the format of these statements is given in Section 3.3.

Program Statements - Each program within an agency is the subject of a separate program statement.

The statement includes narrative material - program objectives and program description - as well as staffing on an activity basis and detailed financial information.

The *program title* is relatively concise, the intention being that it convey sufficient information to enable an interested reader to grasp in general terms what government functions or responsibilities are subsumed under the program.

Program objectives are statements of the broad aims of the program and indicate why the State is involved in the area.

The *program description* explains the activities which are grouped together within the program. The program description differs from the program objectives in that it indicates *how* the program is undertaken, rather than *why*.

Under each program, *activities* are listed. The activities have concise titles which follow logically from the program description. The full range of activities within the program is covered although relatively minor activities may not be discretely specified.

For each activity, or in some cases group of activities, the staff level is noted. These staff figures represent an estimate of annual average staffing, including temporary and short term "casual staffing", expressed on an equivalent full-time (EFT) basis. They are a guide to the *average number* of staff (EFT) who might be employed during the year on a particular program based on the funds intended to be spent on the program as a whole, not only to that component funded from the Consolidated Fund. The figures include staff charged both to recurrent services and to capital works and services. Where program costs consist of contributions to other bodies (e.g. transport authorities), staff figures for these bodies are not included.

The statements for the program follow the same format as those of the agency summary except that the "grants and subsidies", "other services" and "retained revenues" categories are further dissected.

The Investing Statement and Capital Program follow exactly the same format for a program as they do in the Agency Summary. In addition for each program which receives funding from Commonwealth Specific Purpose Payments or has dedicated funds of a taxation nature raised for activities undertaken by that program, details of such funding are shown as Program Receipts.

3.2 Estimates Presentation

The Budget estimates provided in this Budget Paper reflect the impact of the following factors -

- the adoption of **accrual accounting**, with all Budget Sector agencies now converted to **accrual accounting and budgeting**;
- the adoption of a comprehensive **total funds** approach which provides information on the use of cash resources from all sources; and
- the adoption of **net appropriation** budgeting whereby user charges and certain other terms of revenue are retained by agencies and shown as one of the sources of funds supporting the program (with the Consolidated Fund being the other principal sources).

The main features of this Budget Paper are -

- revenues retained by agencies are presented within the operating sections of the agency and program statements;
- the **net cost of services** is presented which is the total accrued expense of a program less agency revenue. This is the cost of the service which must be met by the taxpayer - either in the current year or future years. Given that it is an accrual measure, it includes non cash costs such as superannuation (which will be paid in cash in future periods), as well as the use of capital in the form of a depreciation charge;
- "Current Payments" which are in accordance with Government Finance Statistics principles developed by the Australian Bureau of Statistics. The derivation of this sum is detailed in Section 3.1. of this Introduction;
- an investing statement which not only shows the increase in the capital stock, but also other flows of a capital nature such as advances and debt repayments, and shows how these transactions are funded;
- a Capital Program section is shown, combining not only asset purchases by the agency but also grants for capital purposes and advances to other agencies or sectors; and
- details of Commonwealth specific purposes payments relating to activities of the program and Crown revenues which, under legislation, must be passed on to the agency.

3.3 Explanation of Agency and Program Statements

The following explains the format of the Budget Estimates tables in detail.

OPERATING STATEMENT		
Expenses		
Operating expenses -		
Employee related	642,933	Accrual cost of providing services during the period in accordance with accrual accounting principles. Dissected into major categories of expenses.
Other operating expenses	411,442	
Maintenance	100,309	
Depreciation	283,470	
Grants and subsidies	213,050	
Other services	223,415	
Total Expenses	1,874,619	
Less:		
Retained Revenue		
User charges revenue	8,654	Revenues able to be retained by agencies under net appropriation budgeting.
Other departmental revenue	5,107	
Total Retained Revenue	13,761	
Net Cost of Services	1,860,858	Accrual cost to the taxpayer of the services provided during the period.
The following adjustments convert the accrual cost to the cash support from the Consolidated Fund.		
Plus: Increase in inventories and prepayments	969	Transactions that are funded in the current period but which do not reflect in expenses. Revenues not yet received as cash. Extent to which cash received from the Consolidated Fund and agency sources exceeds cash outflows.
Increase in receivables	187	
Increase in agency cash balances	50	
Less: Non funded expenses -		
Depreciation	283,470	A non cash expenses which does not have to be funded.
Crown acceptance of agency liabilities	80,972	The Crown assumes direct funding responsibility for superannuation, etc for individual agencies.
Increase in accrued expenses	759	Expenses not requiring a cash payment in the period.
Decrease in agency cash balances	...	Extent to which cash outflows in the period exceed cash received from the Consolidated Fund and from agency sources.
Consolidated Fund Recurrent Appropriation	1,496,863	Level of cash support appropriated by Parliament for operation purposes.
Total Current Payments	1,467,826	Cash payments of a current nature according to Government Finance Statistics principles. Refer Note 1 for details of how this amount is determined)

INVESTING STATEMENT		
Outflows		
Acquisition of property, plant and equipment	113,472	Cash outflows of a capital nature (e.g. purchase of assets) or financing nature (e.g. debt repayments).
Advances paid to other organisations	335	
Advances repaid to other organisations	11	
Assets sales proceed transferred to the Crown	6,768	
Less:		
Inflows		
Advances paid to other organisations	49	Cash inflows of a capital nature (e.g. asset sales) or financing nature (e.g. advances received).
Advances received from other organisations	335	
Proceeds from sale of property, plant and equipment	13,868	
Net Inflows	106,334	
Less: Decrease in agency cash balances	1,471	Extent to which cash inflows in the period exceed cash received from the Consolidated Fund and from agency sources.
Consolidated Fund Capital Appropriation	104,863	Level of cash support appropriated by Parliament for capital purposes.

CAPITAL PROGRAM		
Acquisition of property, plant and equipment	113,472	Purchase of assets plus grants for capital purposes and advances made to other agencies. (Capital grants appear in the operating statement as they are an expense for accrual accounting purposes.)
Capital grants and advances	335	
Total Capital Program	113,807	

PROGRAM RECEIPTS		
Commonwealth Payments and dedicated funds paid into the Consolidated Fund		Commonwealth Specific Purpose Payments and those Crown revenues which, by legislation, must be appropriated to a specific agency or activity.
Commonwealth Payment - Rural Roads	80,000	

NOTE 1:

Current Payments are derived as follows -

Total expenses

Less:

- Non funded expenses (cash payments do not arise in the agency for these items).
- Increases in accrued expenses (payments are made in a subsequent period).
- Capital grants (included as a capital payment and appear in the capital program).
- Transactions with other Budget Sector agencies. (As the reporting entity is the Budget Sector, a payment can only be counted if funds move to/from another sector, i.e., the Non Budget Sector, other levels of government or the private sector. The principal intrasector transaction is Payroll Tax which is an agency expense but, as funds are paid into the Consolidated Fund, is not a Budget Sector payment.)

Plus:

- Decrease in accrued expenses (expense incurred in a previous period which is funded in current period).

4. Budget Controls

4.1 Net Cost of Services Constraint

Agencies are not permitted to incur net cost of services on a program in excess of a predefined limit. This Net Cost of Services constraint is designed to ensure that future taxpayers are not disadvantaged by having to fund services provided to current taxpayers.

Excluded from this constraint is a limited number of expense items which are considered to be outside the control of individual agencies. The main items are for superannuation and long service leave expenses, as the levels of these largely reflect government policy decisions.

4.2 Consolidated Fund Support

In addition to complying with the Net Cost of Services constraint, agencies are not to exceed the level of Consolidated Fund Recurrent and Capital support provided for in the Budget unless the Treasurer's prior approval is obtained. The additional support is only provided in exceptional circumstances and is funded from the Treasurer's Advance or under the provisions of Section 22 of the Public Finance and Audit Act.

4.3 Capital Program Authorisation Limits

The Authorisation Limit is the level of cash payments which agencies can make in forward years relating to approved capital works projects.

The Authorisation Limits applying to an agency's capital program are designed to allow Ministers to alter their projects within set parameters provided that there is no net impact on future years' funding needs.

4.4 Forward Estimates

In August 1989, for the first time, forward estimates of Consolidated Fund recurrent expenditures were released, covering the period 1989-90 to 1991-92. With certain minor adjustments, the 1990-91 forward estimates became the 1990-91 Budget allocations. Similarly, for each year, the forward estimates published in the preceding year's Budget Papers become (again with adjustments) that year's Budget allocations. Section 5.4 of Budget Paper No. 2 details the forward estimates for 1995-96 to 1996-97. The forward estimates enable an ongoing assessment of the Government's expenditure commitments relative to the Medium Term Financial Strategy and at the same time provide a financial framework within which Budget Sector agencies can develop broad financial plans.

The forward estimates are adjusted on a regular basis to reflect additional initiatives approved by Government. Each November, the forward estimates, revised to reflect post Budget changes, and with the addition of one year, are advised to Ministers and their agencies.

4.5 Global Budgeting

In accordance with the Government's policy of adopting a more global approach to budgeting, Ministers have been progressively given greater flexibility in deciding how to allocate their available funds between programs and line items.

With the change to a total payments presentation of the Budget from 1992-93, Consolidated Fund appropriations are no longer linked to individual line items or line item categories.

Ministers are now free (subject to any specific restrictions imposed by the Treasurer) to utilise funds within each program as best achieves the program aims. Allocations may also be transferred between programs under delegation from the Treasurer.

Transfers are not to occur where the resulting changes are inconsistent with any relevant Government policy or where they create unsustainable future commitments.

4.6 Funding Transfers

Ministers are able to seek approval of the Treasurer for the transfer forward of savings from the current year to the following year or the transfer backward from future years' allocations to the current year to cover a funding shortfall.

The transfer forward facility provides an incentive for agencies which underspend their allocation in the current year to utilise such monies in the following year on adequately planned, once up items.

The transfer backward facility is directed at assisting departments to overcome problems associated with temporary funding shortfalls.

In both cases the amount that can be transferred is basically limited to a maximum of 2 per cent of the department's allocation and approval is on a case by case basis.

4.7 Staff Number Monitoring

As part of the budgetary process, an Average Staff Number and Year End Staff Number are advised by each Budget Sector agency.

The Average Staff Number is the average staffing level for the year as shown in the Budget Estimates while the year end staff number is the projected staff number for the following 30 June, including casual staff and temporary assistance. Both staff numbers are calculated on the basis of full time equivalent staff numbers. For example, 10 temporary or casual employees each working for half the normal working week would be shown as 5 staff units.

Staff number controls were abolished from 1 July 1991. Monitoring of staff number is continuing as an element in determining the ability of departments to live within the level of funds available to them and to track the results of the efforts of the Government at downsizing operations and improving efficiency.

4.8 Reporting Requirements

Budget Sector agencies report on a monthly basis on revenues, expenses and staffing. The reports indicate the position for the year to date and the estimates for the full year. Where there is a potential variation from the Budget estimate of Net Cost of Services, Consolidated Fund recurrent or capital support or Capital Program Authorisation Limits, agencies are required to advise Treasury immediately, identifying reasons for the variation and indicating the remedial action to be undertaken.

ESTIMATES OF PAYMENTS BY
PROGRAM

AND

AMOUNTS TO BE
APPROPRIATED

FROM THE

CONSOLIDATED FUND

Note: *Actual figures (and, in general, Budget figures) for 1993-94 have been adjusted to place them on a comparable basis with 1994-95 Estimates. These adjustments reflect (i) changed program structures for some agencies; and (ii) revised treatment of certain items flowing from the progressive implementation of accrual accounting and budgeting.

9 RURAL ASSISTANCE AUTHORITY

9.1 Assistance to Farmers**9.1.1 Assistance to Farmers**

Program Objective(s): To assist rural industry in such a way which helps rural people become independent of ongoing assistance from Government, promotes an efficient and competitive rural sector, and facilitates adjustment out of farming.

Program Description: Provision of interest subsidies, loans and grants to farmers under various schemes for the purposes of assisting potentially viable farmers to remain in farming and those farmers faced with a non-viable situation to transfer out of the rural area. Assistance to farmers with works which will have a beneficial impact on the land, the community and the environment. Assistance to farmers with natural disaster relief.

ATTORNEY GENERAL AND MINISTER FOR JUSTICE
16 LEGAL AID COMMISSION

16.1 Legal Aid and Other Legal Services**16.1.1 Legal Aid and Other Legal Services for Eligible Persons in Child Care and Protection Matters**

Program Objective(s): To provide legal advice to and representation for children and/or parents in matters arising under the Children (Care and Protection) Act 1987.

Program Description: Provision of legal advice to and representation of children and/or parents, guardians and people with a special interest by Commission or private legal practitioners before the Children's Court or on appeal therefrom to higher courts. Representation for children in the Children's Court is not subject to a means or merit test but a means test is applied to parents, guardians and people with a special interest. A means and merits test is applied to persons other than children in appeals and applications to Higher Courts and to persons other than children in proceedings concerning the irretrievable break-down between parent and child.

24 DEPARTMENT OF COMMUNITY SERVICES**

24.3 Community Support Services**24.3.2 Community Support Services for the Ageing, Persons with a Disability and Disadvantaged Groups**

Program Objective(s): To assist individuals, frail older people and persons with a disability to remain within the community. To assist significantly disadvantaged groups and communities to minimise their social, coping or functioning difficulties.

Program Description: The provision of a range of services to the ageing, people who are disabled, Aborigines and other disadvantaged groups, through advocacy, personal services, community development, advice, counselling and referral, and the provision of alternate care to enable them to become actively involved in community life. The provision of statutory services for disabled persons to assist local communities in developing welfare facilities and the planning and provision of financial and material assistance to persons in special need, and need arising from declared disasters.

33 TOURISM NEW SOUTH WALES**

33.1 Development of the Tourism Industry**33.1.1 Strategic Planning**

Program Objective(s): To formulate the strategic direction of tourism in the State and facilitate developments which are of strategic importance for New South Wales tourism. To ensure opportunities to develop and sustain tourism related businesses, such as ecotourism and cultural tourism, are identified and communicated to key players. To establish co-operation between government and relevant industry bodies and position tourism as a key component of high level government policy deliberations.

Program Description: Formulation of strategic tourism plans at the state, regional and local levels, including a New South Wales Tourism Master Plan. Implementation, evaluation and review of strategic initiatives identified by the planning framework. Provision of advice to the Minister and government agencies on issues affecting the growth and development of tourism in the State. Maintenance of high level liaison with industry and government at all levels. Maintenance of library and information systems to support Tourism's core activities and service government and the tourism industry. Provision of advice and assistance to the private sector in developing projects of strategic importance for tourism growth in New South Wales

Loss on sale of non current assets	...	1,288	...
Consolidated Fund Recurrent Appropriation	3,785,798	3,825,325	3,852,257
TOTAL CURRENT PAYMENTS (a)	4,699,839	4,557,190	4,751,546

(a) The 1993-94 Estimate for Total Current Payments has been increased by \$73.450 million to take account of additional Commonwealth funding received in the year not included in the original Budget. Compared to the original Estimate of \$4,626,389,000 the Department of Health underspent its Recurrent Budget by roundly \$69.2 million. This reflects the value of plant and equipment purchases reallocated to the Capital Program and savings used to finance capital projects to improve hospitals. The unspent Commonwealth funding, largely received late in the financial year, has been fully included in the 1994-95 Estimate for Total Current Payments.

MINISTER FOR LAND AND WATER CONSERVATION
44 DEPARTMENT OF CONSERVATION AND LAND MANAGEMENT

44.1 Conservation and Land Management**44.1.1 Soil Conservation Service**

Program Objective(s): To identify and assess the use and health of the State's land and related natural resources and set strategic directions for their conservation, resource allocation and use.

Program Description: Assessment of the State's land resources and monitoring of soil condition. Research of the soil degradation process and soil management technology to develop knowledge for appropriate systems for extension to land managers. Facilitation of the transfer of information to clients and the provision of training opportunities to increase their knowledge and skill base in sustainable natural resource management. Promotion of a catchment based approach to integrated resource management based on client participation. Support of the legislative base and operational activity to control land degradation where necessary for the achievement of community objectives.

MINISTER FOR LAND AND WATER CONSERVATION**44 DEPARTMENT OF CONSERVATION AND LAND MANAGEMENT****44.1 Conservation and Land Management****44.1.3 Data Collection and Land Information Services**

Program Objective(s): To establish and maintain land information systems to assist in the development of the State. To develop a statewide land information system to enable the efficient use and management of private and public land. To ensure the integration of land information for the public and private sectors.

Program Description: Collection, provision and maintenance of reliable and accessible information on land including cadastral, natural resources and economic values. Identification, definition, maintenance and improvement of appropriate fundamental information systems. Linking of separate systems into a co-operative land information network. Development of policies, standards, directories and other programs to support integration of and access to land information. Provision of integrated products and services to achieve the efficient and sustainable use of public and private land.

Note: The decrease in Alternative Funding subsidies is due to once off payments made in 1993-94 to pay off loans taken out by local government prior to the mid 1980's to fund the Government's share of Country Towns Water Supply and Sewerage Scheme projects.

ESTIMATES 1994-95

MINISTER FOR PUBLIC WORKS AND MINISTER FOR PORTS**56 OFFICE OF THE MINISTER FOR PUBLIC WORKS AND****MINISTER FOR PORTS****56.2 Asset and Risk Management Services****56.2.1 Asset and Risk Management Services**

Program Objective(s): To minimise Government and community liability in relation to the State's floodplains and coastal assets. To preserve and repair estuaries. To support the commercial fishing industry and recreational boating through the development and management of assets. To provide administrative and policy support services to the Minister and Government.

Program Description: Policy, legislative and technical services in relation to the development and management of the State's floodplains, estuaries and coastal assets. Provision of sites and infrastructure necessary to improve the recreational amenity of the State's waterways. Provision of financial assistance to local government in relation to such assets. Construction of port facilities for the commercial fishing industry. Provision of services to the Government including risk management and development and implementation of appropriate building industry and asset management policies and strategies.

61 TREASURY

61.1 Central Financial Management Services**61.1.1 Budgetary Strategy, Allocation, Monitoring, Reporting and Systems**

Program Objective(s): To ensure financial responsibility by advising on State Budget strategy that will achieve a responsible financial position and monitoring and analysing budget trends to assist the achievement of budget targets. To promote economic efficiency in the management of the State's finances by advising on the allocation of State financial resources in accordance with Government policies and available funds. To promote public accountability by providing accurate, timely, comprehensive and relevant reports and information on Budget Sector finances and improving financial management practices in the Budget Sector, including implementation of appropriate budget systems.

Program Description: Preparation and advice to Government on appropriate budgeting targets and strategy. Evaluation of agencies' recurrent and/or capital expenditure proposals in the context of Government policies and priorities and the level of available funds. Monitoring of agency and Crown expenditures and revenues. Review of revenue-raising activities and reporting thereon. Preparation of Budget documents for Parliament. Development and implementation of improved budgetary and financial management systems.
