### Overview of Bill

The object of this Bill is to appropriate various sums of money required for the recurrent services and capital works and services of the Government during the 2007–2008 financial year.

The Bill relates to appropriations from the Consolidated Fund—the principal account of the Government for General Government Budget Dependent transactions. The Consolidated Fund could be considered as the “public purse” and largely comprises receipts from, and payments out of, taxes, fines, some regulatory fees, Commonwealth grants and income from Crown assets.

The Bill for the 2007–2008 year contains an additional appropriation, which allocates revenue raised in connection with changes to gaming machine taxes to the Minister for Health for spending on health related services.

The Bill also makes additional appropriations from the Consolidated Fund for recurrent services and capital works and services for the years 2006–2007 and 2005–2006 for the purpose of giving effect to certain Budget variations required by the exigencies of Government.
